BURIED OR PLANTED? / PART 4

Don’t Quit in the Middle

WEEKLY FAMILY DISCUSSION PLAN

November 22, 2026 • Pastor T. Wayne Daniels

Don’t confuse slow growth with no growth.

Keep doing good while you trust God with the harvest.

Start with Scripture

Read **Galatians 6:7–10 (ESV)** aloud. Ask each person to name one phrase that stands out. Read **Mark 4:26–27** and notice what the farmer does while the seed grows.

Talk it through

1. What is something you’ve kept practicing even when progress was hard to see?
2. What good seed could you sow at home or school this week? What would that look like?
3. When you feel tired, what kind of rest or help would make it easier to keep going?
4. How does **Philippians 1:6** encourage you when growth feels slow?

Try it as a family

Plant a bean in a cup of soil or place it in a clear bag with a damp paper towel. Check it each day together. While you wait, choose one person to encourage or serve and put a day on the calendar to follow through.

Pray together

Lord, help us keep doing good when we feel tired or can’t see progress. Give us patience, show us how to help one another, and teach us to trust You with the growth. Amen.

Our family’s next step
