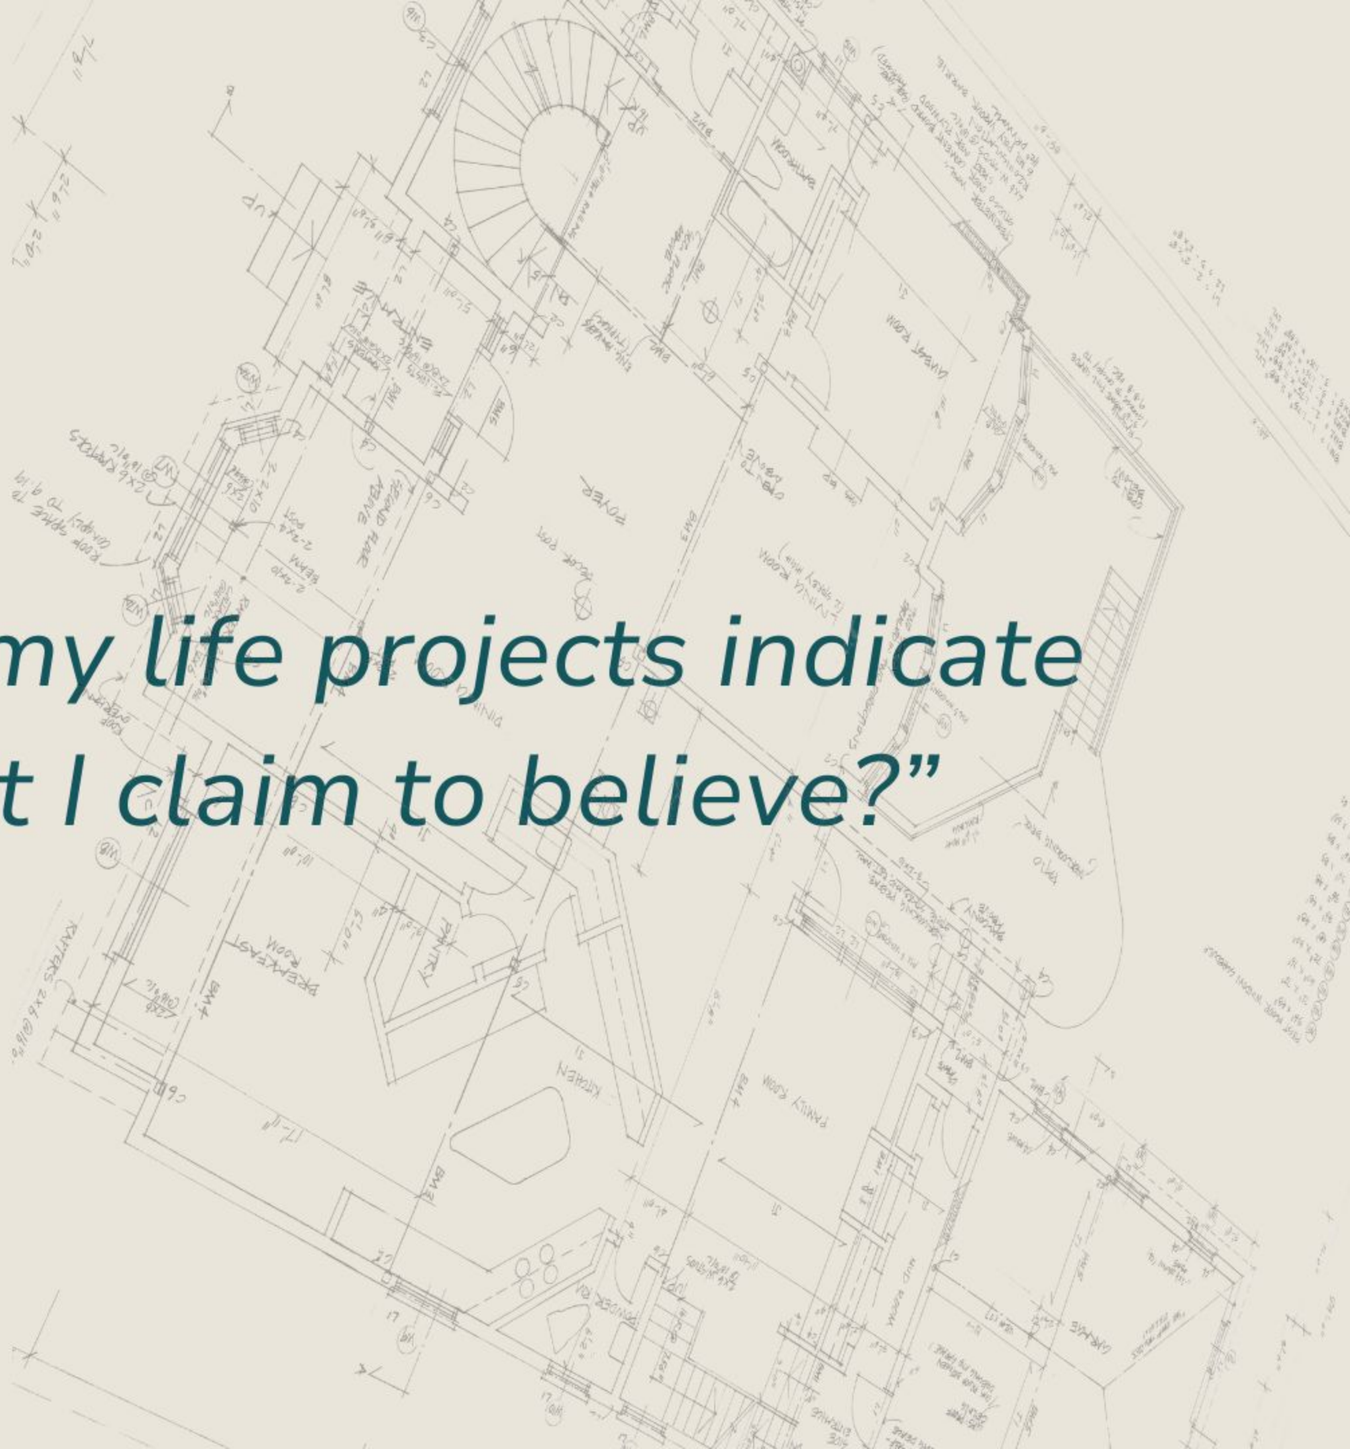
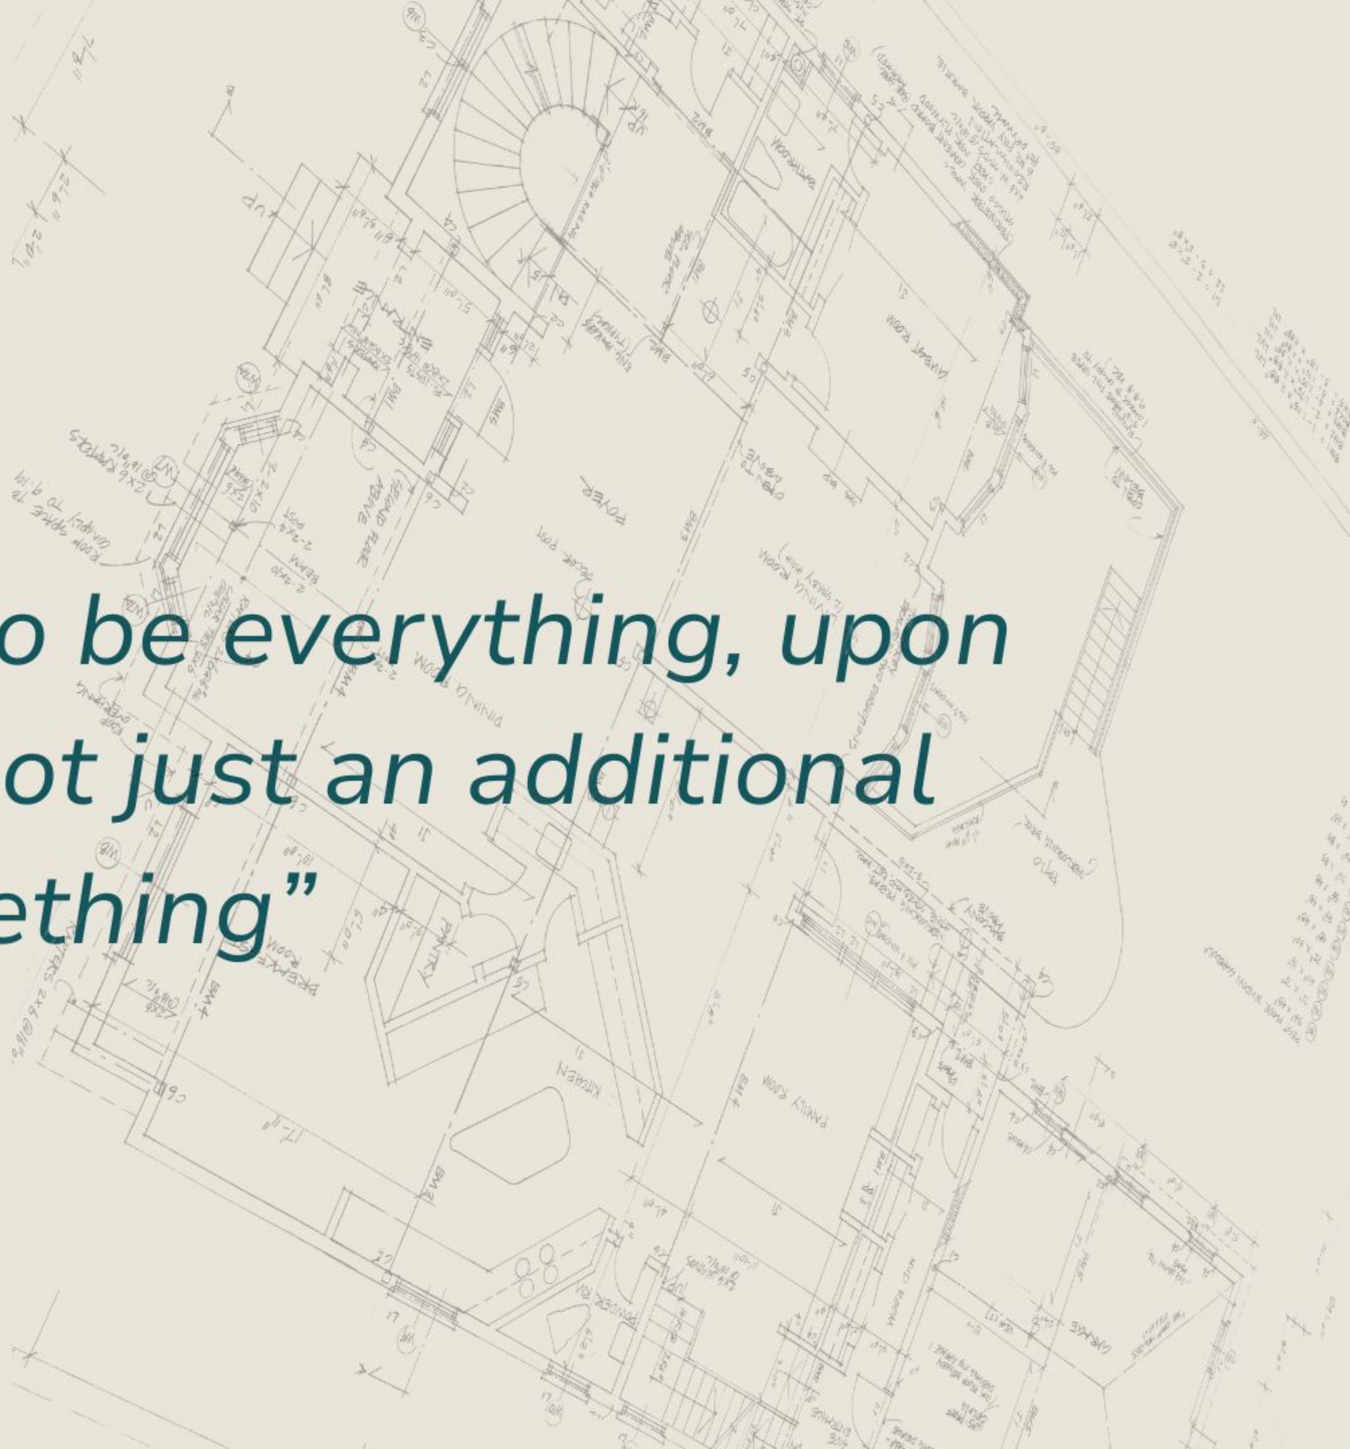
2. How are we building?

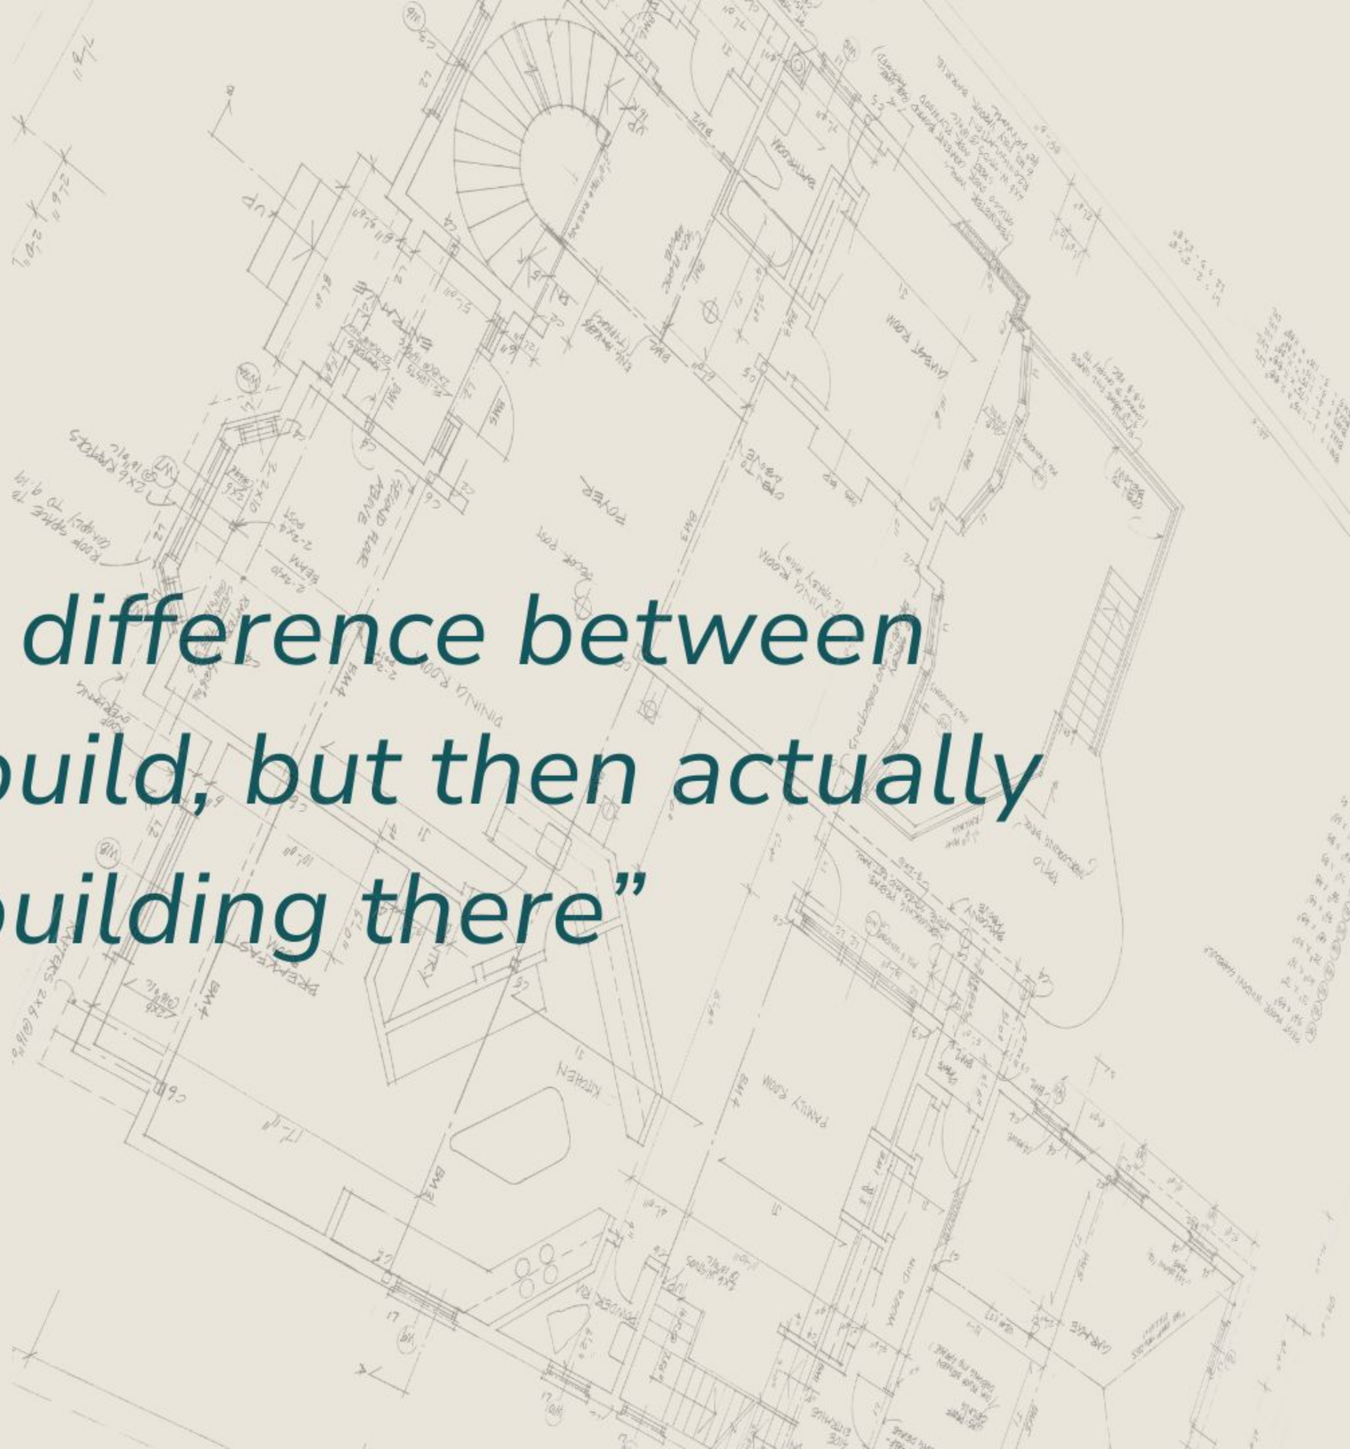
“Does the evidence my life projects indicate and validate what I claim to believe?”



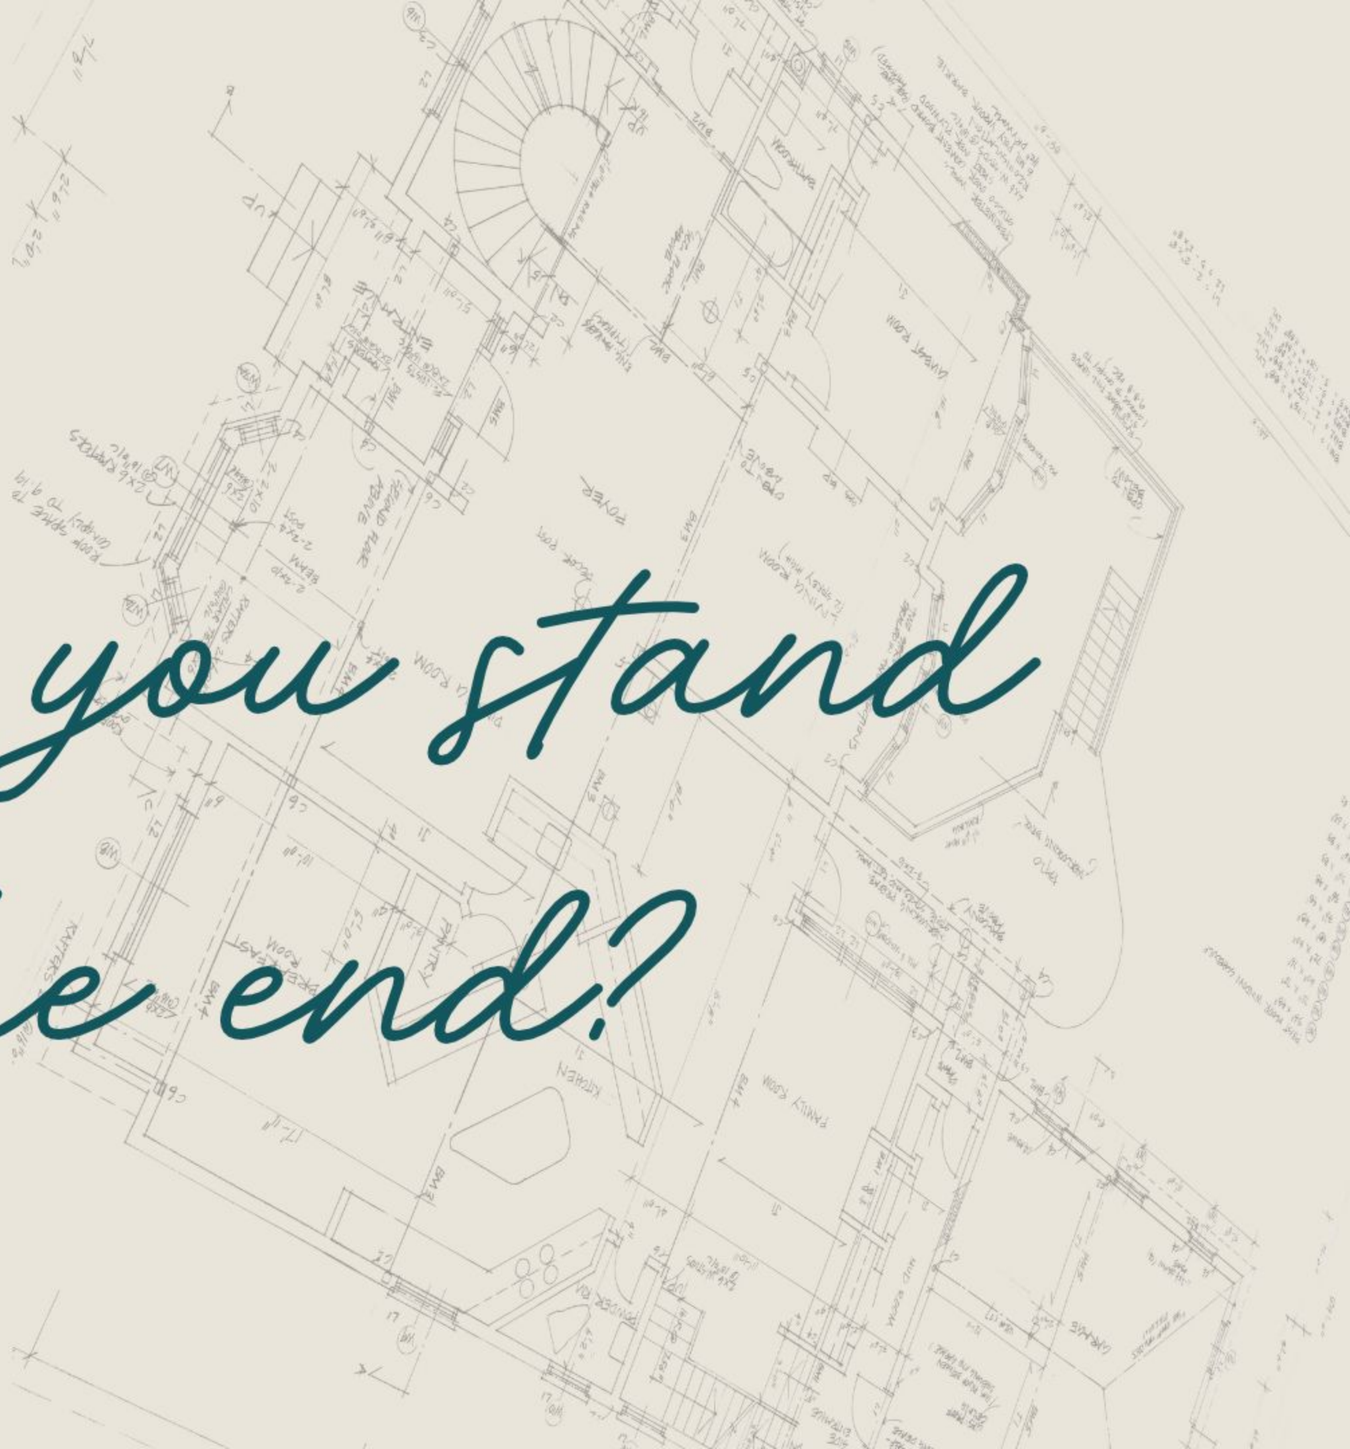
“The Word needs to be everything, upon which we build, not just an additional something”



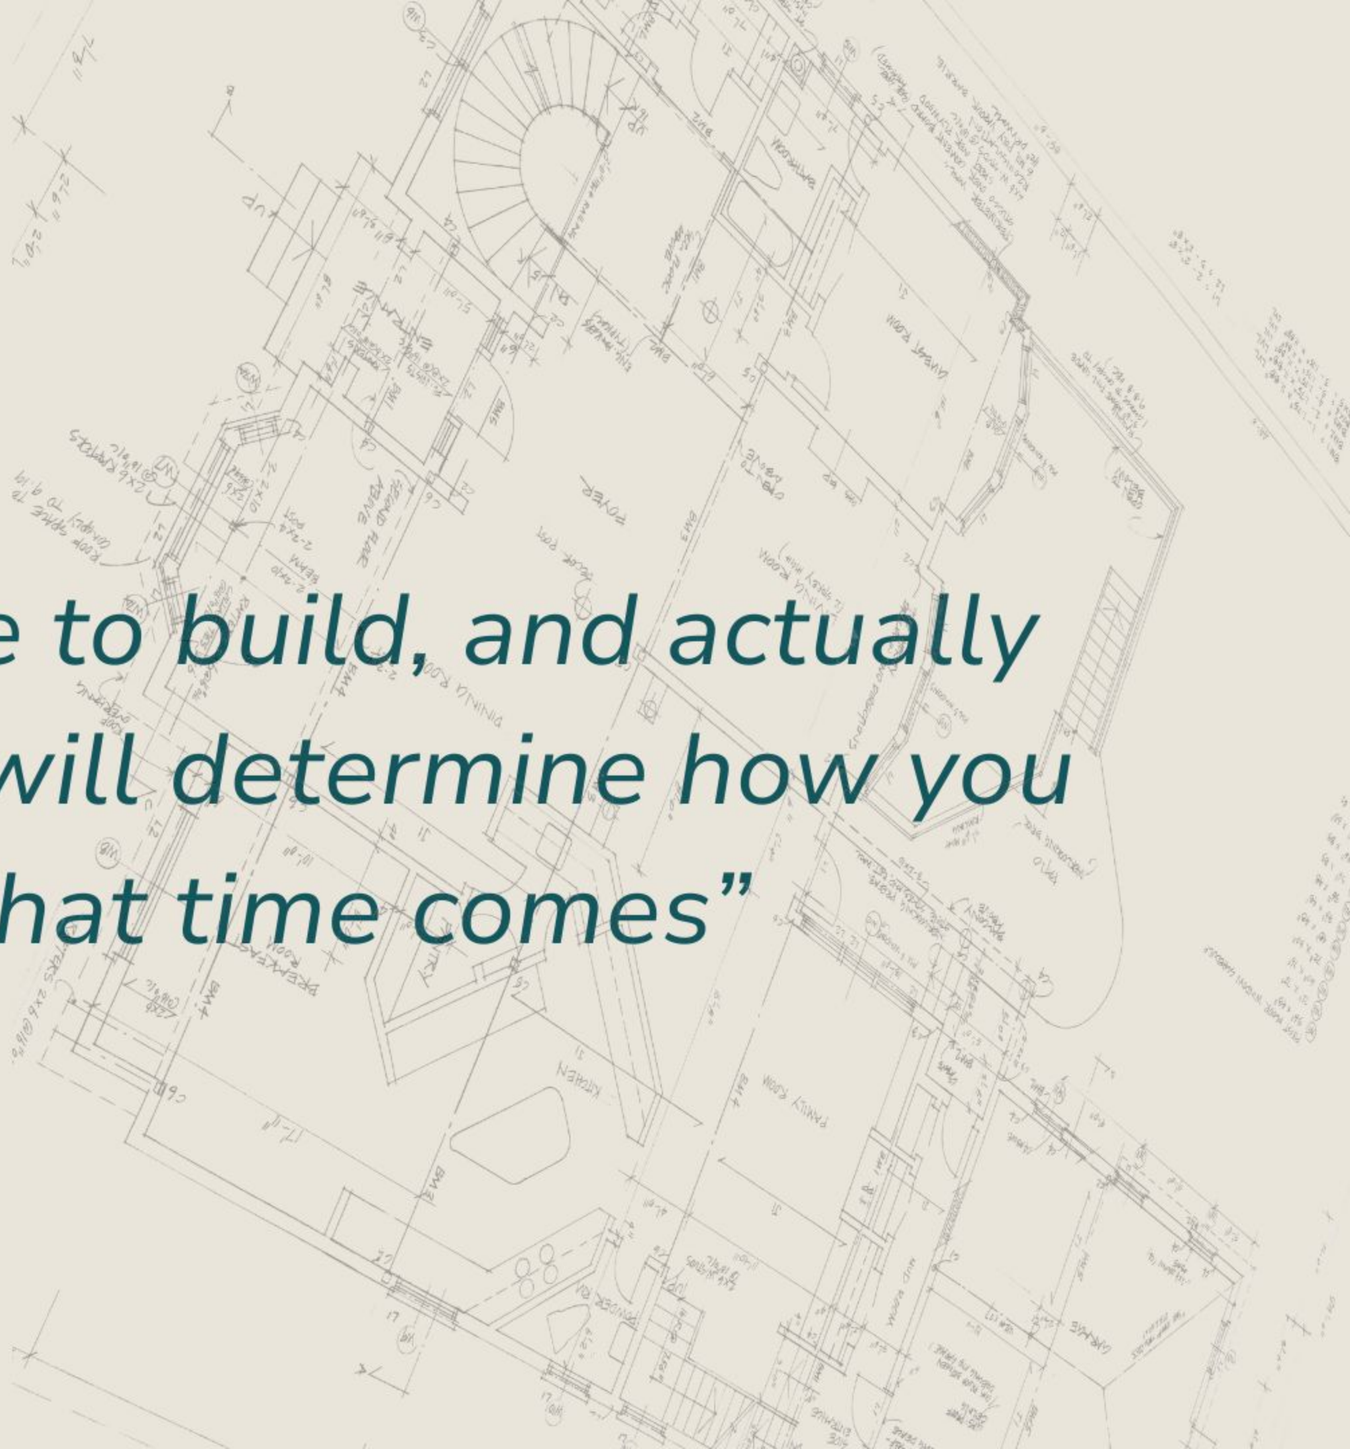
“There is a major difference between knowing where to build, but then actually going and building there”



3. Will you stand till the end?



“Knowing where to build, and actually building upon that, will determine how you stand when that time comes”



“Jesus loves you too much to leave you oblivious to the fact that storms, rains, wind and floods will come, and the ultimate of those storms will come too..... He loves us too much to not offer, and invite us into something that allows us to be rescued from the utterly devastating alternative.....”
