6. This is the only time where God asks us to test Him. During that time, ask God to help you be very aware of how He uses your giving to change your heart and relationship with Him.

## DEBT SNOWBALL WORKSHEET

### Debt Snowball Example

Debt	Total Owed	Min. Payment	New Payment
Sears (18%)	\$450	\$50	50+200 = 250
Dillard's (18%)	\$650	\$30	30+250 = 280
Parents (0%)	\$1600	\$200	200+280 = 480
Visa (18%)	\$1800	\$30	30+480 = 510
Car (10%)	\$7000	\$400	400+510 = 910
School (6%)	\$9000	\$200	200+910 = 1110

- Payoff paying minimum payments = \_\_\_\_\_ months
- Debt snowball payoff = \_\_\_\_\_ months. (Difference of 99 months)
- Additional \$1,110 invested at 12% for 99 months = \$\_\_\_\_\_

### Debt Snowball Form

List your debts in order from smallest to largest with the smallest payoff or balance first. Do not be concerned with interest rates or terms unless two debts have similar payoffs, then list the higher interest rate debt first. Paying the little debts off first shows you quick feedback, and you are more likely to stay with the plan. Redo this sheet each time you payoff a debt so you can see how close you are getting to freedom. Keep the old sheets to wallpaper the bathroom in your new debt-free house.

The "New Payment" is found by adding all the payments on the debts listed above that item to the payment you are working on, so you have compounding payments which will get you out of debt very quickly.

"Payments Remaining" is the number of payments remaining on that debt when you get down the snowball to that item.

"Cumulative Payments" is the total payments needed, including the snowball, to payoff that item. This is your running total for "Payments Remaining."

## SAVINGS WORKSHEET

### Countdown to Freedom

- Step One: \$1,000 Emergency Fund
- Step Two: Pay off all debt using the debt snowball (except the house)
- Step Three: Finish Emergency Fund (3-6 months expenses and savings)
- Step Four: Fund Retirement (15% into Roth and 401K)
- Step Five: Then pay off house (pay off home early)
- Step Six: Build Wealth (Mutual Funds/Real Estate)

Item	Total Payment	Minimum Payment	New Payment	Payment Remaining	Cumulative Payment

### Breakdown of Savings

After your emergency fund is fully funded, you can save for certain items like furniture, car replacement, home maintenance, or clothes, and your savings balance will grow. This sheet is designed to remind you that all of that money is committed to something, not just a Hawaiian vacation on impulse because you are now "rich." Keep up with your breakdown of savings monthly for one quarter at a time.

## Monthly College Planning

**Step One:** In today's dollars how much per year does the college of your choice require? (Hint: \$15,000 to \$25,000 annually)

*Example: \$15,000.00 X 4 years= \$60,000.00*

**Step Two:** To achieve that college egg you will save at 12 percent, netting 8 percent after inflation. So we will target that college egg using 8 percent.

$$\begin{array}{rclcl}
 \$60,000.00 & \times & 0.017746 & = & \$1,064.76 \\
 \textit{College Egg Needed} & & \textit{Factor} & & \textit{Monthly Savings Needed}
 \end{array}$$
