

*There are many ways to have a new life, but if you want to be connected to Christ, there is only one.*

Our proposal is *not* to change who we are but to *clarify* who we are and what we do. Our local body of believers does not belong to one community or geographical location. We belong to Christ alone, and He has given us the kingdom ministry of reconciliation for all people. We want that truth to be transparent in everything we do, even our name as the Apostle Paul teaches in 2 Corinthians 5:20 Therefore, we are ambassadors for Christ, God making his appeal through us. We implore you on behalf of Christ, be reconciled to God.

What do all the "used to be..." churches have in common? The local body of believers refused to continue to seek and adapt to the will of God, choosing instead to make the church and organization that serves their needs, wants, and desires rather than the will of God.

Jesus is coming, and as that day grows closer and the world and the apostate church become more evident, we don't want any confusion among our guests regarding who we serve and what we do.
