## The Faithfulness of God

1. After the life change video, Matt mentioned that there are countless situations and sins that never happened in our lives because of the presence of community and formative discipline in our lives. Take a few minutes to discuss the possibilities (i.e. What my family could look like if I hadn't done MRT or Ezer) and thank God for the way that he works through others to keep our hearts from becoming hardened.
2. In what ways through your years as a believer has God proven to you that he is trustworthy and ultimately has your best interest in mind?
3. Did this passage in Hebrews make you view rest in a different way? What does it look like to enter God's rest today? If this rest is something that we can't earn, how do we "do our best to enter that rest?" Describe a specific area of your life that you are currently trying to control rather than turn over to God and rest in Him?
4. Read verses 12-13. Discuss the idea of being exposed by God's word today (in a redemptive way) compared to being judged by God's word in the future (in a condemning way).
5. Describe an area in your life where you have made incremental changes, which have added up to a significant change in your life over a number of years.
