## The Final Answer - The False Prophet

*Revelation 13:11-18*

### INTRODUCTION

We are now in the 13th Chapter of the Book of Revelation. Today, we will look at the last half of Chapter 13. It will introduce us to the false prophet, the second beast. The Bible speaks about him over and over again, as one who survives a fatal head wound. It is important for us to understand that. He has one agenda and it's the agenda of the dragon, Satan, who empowers him. He literally wants to conquer the world. He will be given authority to do that for 3 1/2 years. That is half of the 7-year Great Tribulation period.

### KEY POINTS

#### **1. The Characteristics Of The False Prophet Examined**

- The Greek word “allo” means another of the same kind.
- The phrase “two horns like a lamb” tells us about the counterfeit nature of Satan.
- The phrase “it was speaking like a dragon” is blasphemy.

#### **2. The Confirmation Of The False Prophet Exposed**

The whole purpose of the false prophet is to point all men to another, the antichrist. He is the one with his counterfeit nature and focus of religion. He has the power and authority given to him from the first beast to speak to all the inhabitants of the earth. His whole purpose is to honor the first beast. He is seeking to call for the worship of the antichrist.

Because the antichrist survived a fatal head wound from an assassin’s bullet, he becomes the hero of the day. He is satanically empowered. You know how our culture loves heroes. The antichrist becomes the man of the day, who can do no wrong. He doesn't have to say much about how wonderful he is because the false prophet serves as his spokesman. He is full of himself with no humility. The false prophet has the ear of the antichrist, and he will influence the global community. His whole focus is for the entire world to worship and honor the antichrist.
