

CLASS 2

THE CREATOR YOU

HUMANS ARE NOT JUST PHYSICAL BEINGS BUT CREATIVITY ITSELF.

The inner experience cannot be activated by mental effort, so the best we can do is read the words and allow the possibility of an opening in consciousness to what is unknown.

- **Modern Science has opened up previously unrecognized possibilities.**

From the book “The Implicate Order” by David Bohm

“I would say that in my scientific and philosophical work, my main concern has been with understanding the nature of reality in general and of consciousness in particular as a coherent whole, which is never static or complete, but which is an unending process of movement and unfoldment.”

INFINITE & ETERNAL

The real
revolution
is the evolution
of consciousness.

The eternal now
is all there is.
By stripping away
all that we are not,
the deeper intelligence
of consciousness
can operate through us.

OUR INVISIBLE WORLD CREATES OUR VISIBLE WORLD

If we look beyond the effects to the consciousness that created them, we can change that consciousness to change the form.

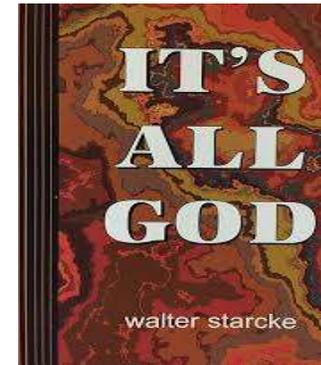

- **To live a creative and successful life:**

It is of paramount importance for each of us to be aware of the difference between our two selves and understand who which end of the telescope we are viewing our lives at any given moment.

We are made in the image of God. The created never leaves its source, just as a wave does not leave the ocean.

We have the responsibility of caring for our bodies, but we must not believe we are the body. We are that which has created, maintains, and sustains them.

IT IS ALL GOD **THE FLOWER &** **THE FERTILIZER**

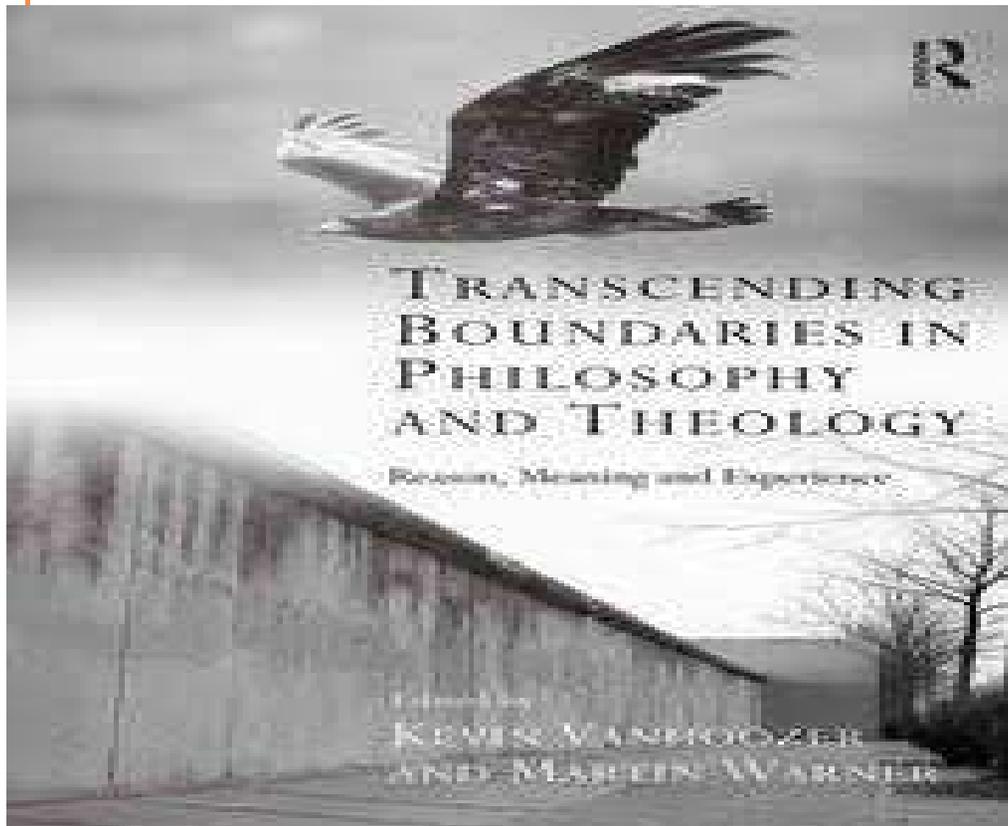

- **We can register the concept that we create all that is in our lives, but the only way we can activate that concept is by going beyond all concepts, which means that we spend time in the silence. We create the space for Infinite Mind.**
- **Intent is the mother of creation; so if we quiet ourselves as much as possible and our intention (inner tension) is to enter a silence of Spirit we find that there it is all God.**

CHAPTER 2 GOING BEYOND----BEYOND OUR MYTHS

+

•

○

Our cultural heritage can be a stumbling block. Concepts may have been planted in our unconscious mind. We may not be aware of our own myths.

If we can look at our own myths in a new way, freed of traditional interpretations, some of our old unconscious blockages can be flushed out.

TRUTH IS NOT EXCLUSIVE TO THE WESTERN WORLD

All World Religions contain the same Universal Truth. The Truth is embedded in different stories or “myths.”

As we look at the Truth in other traditions, we may get a new perspective on the same Truth in our own culture.

Quote from Paramahansa + •
Yogananda, “The whole purpose of religion, indeed, of Life itself, is ○
encapsulated in the two paramount commandments cited by Lord Jesus...In them lies the essence of eternal Truth, distinguishing all Bonafide spiritual paths...that man (perceiving himself(as an individualized soul separated from God) must embrace...if he would reclaim the Realization of Oneness with his Maker...if you can Love God wholly in actual communion in daily meditation, and show by your actions, your love for your neighbor (and self)...you realize the eternal changeless Spirit existing within yourself and in its’
Everywhere.”

DANCING ON THE EDGE OF MYSTERY

Starcke said that Jesus was saying that “to love God” is to love Cause(the Invisible Creative Source of Life) And to love our Neighbor as Self is to Love Effects which are the visible results of”that which caused them to come into being.” If you love both Cause & Effects you find they are the same.

Starcke says this means we are not to think of ourselves as a “man” of earth or a “man of God. Rather we are the double expression of the Two Commandments. We are both. I often call this the DIVINE HUMAN.

This realization may come in meditation when you make a space for God to speak through your intuition. One Mind speaks through your mind but not as “thought” so much. But as, intuition.

NEXT STARCKE CHALLENGES OUR CONCEPTS OR MYTHS OF FAITH

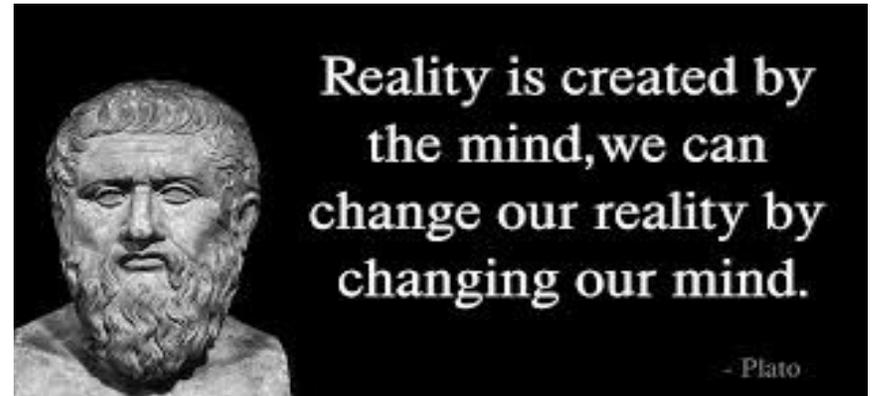

- What do the 3 words at the top right mean to you? They probably mean something a little different to each of us. Concepts or even myths have been formed around those from our culture and our experience.
- “Faith is the assurance of things hoped for. The evidence of things not yet seen.”
- “Faith is the perceiving power of mind, linked with the ability to shape substance.”

What is the perceiving power of mind or perception? Where does perception reside?
Where is the ability to shape substance?

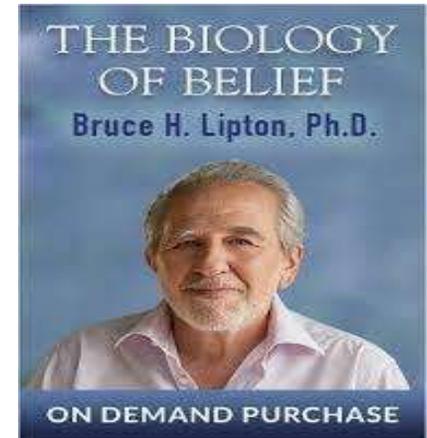

Is your concept of Faith based on myth or superstition?

DO YOU BELIEVE YOUR CONSCIOUSNESS CREATES YOUR REALITY?

- Starcke says, “If having faith involves anything other than having an experience of one’s own Higher Consciousness, it is superstition.
- It is superstition to believe there is anything to call upon exclusive of that which is included within one’s own consciousness.”

WE CREATE OUR OWN PHYSICAL CONDITIONS BY OUR THOUGHTS & BELIEFS

When Dr. Lipton saw the membrane of a cell with the electronic microscope, new biology was born. When science and spirituality merge, as we see with the new biology, this is indicative of a deep truth being revealed. In addition to showing that our thoughts control our genes, the new biology shows that our very identity comes from “self-receptors” on the membranes of our cells that essentially read and download a signal of “self” similarly to how a television receives a broadcast. **EPIGENETICS**

I KNOW THAT I KNOW THAT I KNOW

BELIEFS HAVE TO BE EXPERIENCED IN CONSCIOUSNESS

WHERE THEY BECOME A LIVING REALITY & TRANSCEND

SUPERSTITION

Starcke said, “Yes, we have faith---faith in our ability to know true Cause & that faith turns belief into knowing. True Faith is Knowing.

True Faith is self-love-the recognition of self-completeness-then, faith becomes a non-existent work. It just is. We know with certainty.

Jesus said, “Father I know you have heard me.” Lazarus come forth.”

Why is this true affirmative prayer? How is it different from beseeching prayer?

Starcke said, “In order for our beliefs to become fruitful, they must reach a certain experiential reality before they can turn into knowing.

○

LET'S GO BEYOND GOOD & EVIL--- BEYOND DUALITY TO NONDUALITY

- **Oneness goes beyond duality...nonduality. We have accepted a false belief in duality. This gives birth to anxiety & depression. What if Good and Evil are not in opposition to one another.**
- **In the creative nature of life, we know that moving forward involves being in balance & out of balance. Balance is a process of moving in & out, it is the flow of life.**
- **When we know that despite appearances there is a Divine Process at work that will ultimately give birth to our fulfillment, we transcend the belief that good is opposed to evil or that there is a power other than Omnipotence. There is one Power in the Universe.....**

PROBLEMS, UNCOMFORTABLENESS

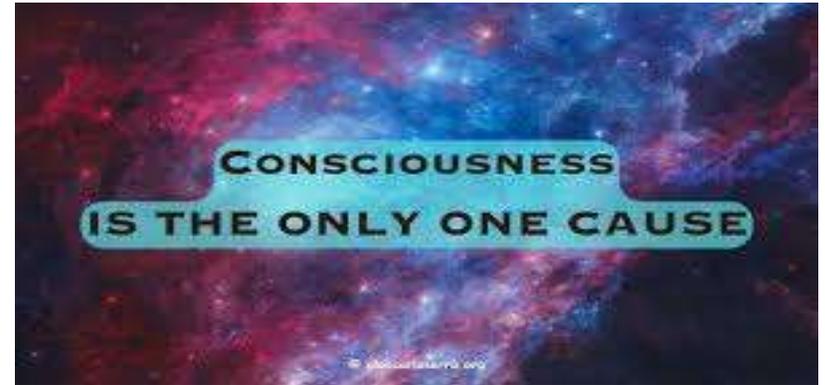

- Edgar Cayce said, “We have no problems---we have opportunities for which we should give thanks. Edgar Cayce
- Starcke said, “Our growing spiritual awareness tells us that all creativity involves what is only seemingly a problem, but in reality is an opportunity.”
- **When one does not resist the Process, the difficult times are transmuted more readily with positive & creative results. When we hold on to judgment of good & evil, we limit the flow of the creative process to move through Infinite plays of energy as life seeks Divine expression through Love & Harmony Resistance binds us to immobility. What we resist, persists. To be grateful for the difficult as well as the easy is to welcome life. To move forward as living mystics we will experience living beyond the limitations of good & evil. Judgments then become merely viewpoints within the on going Divine Process.**

LET US GO BEYOND HOPE TO GRACE

- **Grace is the positive flow of high vibrational energy returning to us when we send out our own ripples of God Consciousness. Thus Grace is the wave of the Universe (god) responding to itself in a heightened vibrational state.**
- **To fully experience the livingness of our Divine Humanity, we have to completely give up the ways of thinking that create a lack of belief in all that we are. Hope allows for other possibilities to manifest that may be far less than what one intends.**
- **It is time we create with conviction. It's time we create from the knowingness of our Higher Consciousness, directly infusing the unlimited power of the Universe into any situation.**

CAUSE & EFFECT SUPERSTITION MATTER IS NOT THE CAUSE IT IS ONLY AN EFFECT

- **Metaphysical Truth is that your consciousness as Cause, creates health, wealth, sickness, or lack.**
- **Knowing that consciousness or spirit is Cause eliminates superstition, and instead of being used by effects one can use them and depend on the power of consciousness as Cause.**
- **My first priority has to be to have the consciousness of health, of vitality, of life everlasting. We have to be fearless enough to look behind our superstitious beliefs to find the casual consciousness.**

LET'S LIST SOME OF OUR POSSIBLE SUPERSTITIONS THAT WE'VE DISCUSSED

The Belief that the things we want are drawn to us by anything other than our own consciousness is **Superstition**.

To believe that there is a supreme being that is in one place and not another, or in one person and not another, is **Superstition**.

To believe that others are somehow obligated to take care of our needs is a form of **Superstition**.

To believe that our good comes from another person suggests that an object, a person is Cause, and that is **Superstition**.

To believe our health...good fortune, companionship, opportunities come from something outside of our own consciousness is **Superstition**.

REALIZATION PRECEDES DEMONSTRATION

- The Realization that Nothing can keep us from our own self-fulfilling knowledge arises from the realization that we are “now” all that we have thought Divinity to be.
- **Breathe & re-read that statement silently. How does that make you feel?**
- **Jesus said, “Whatever ye ask for, believing, ye shall receive.”** In other words, if your belief reaches experiential level of the energy of knowing, it becomes a self-fulfilling prophecy.

SUPERSTITION OF GOD

The only true
experience
of God is the
one you have
through Christ
WITHIN YOU

- **Most significantly, before we can even begin to attain the deeper levels of the mystical experience to which our spiritual evolution (maturity) has brought us to today, there is one all important major stumbling block we have to deal with---the **Superstition of God**.**
- **The truth is that God is the subjective and impersonal expression of prime Cause or existence, which is beyond words & thoughts, though possible for us to experience. That's the Truth.**

HOMework QUESTIONS

1. Do you believe your beliefs (and thoughts) create reality?
2. What triggered you in this lesson tonight?
3. What myths might you need to explore to understand Truth vs. Superstition?
4. What Superstitions do you hold onto tightly?
5. Why do we do Meditation?
6. What is the Divine Process and what makes it harmonious?
7. What is Grace? What is Deceptive Grace?
