God is Real

Hebrews 11:1-7

According to Hebrews, faith is looking forward to God's promises in Christ and looking upward to the unseen reality of God's presence in Christ.

- 1) What aspects of faith do you struggle to believe? What are the hardest unseen realities and future promises that you have trouble placing faith in?
- 2) What aspects of faith are you most encouraged by? What are the unseen realities and future promises that you find to be the most powerful in your life?
- 3) What are potential ways you can exercise the sacrifices of faith?
- 4) What are potential areas in your life where you need to walk with God by faith rather than walk away from him?
- 5) In your life, what are potential opportunities for you to risk and work by faith for the kingdom of God?
