Body Life Part 1: Worship

Romans 12:1

Main Idea:

Authentic worship demands the believer's intentional, unreserved and continual offering of his entire life to the Lord.

Outline:

- 1) The motivation of real worship is the reception of the gospel, and subsequently, salvation.

- 2) The substance of real worship is the believer's intentional and unreserved offering of his entire life to God.

Questions for further contemplation and application after the message:

#1 Why do you think Christians sometimes confuse praise, which is a product of worship, with worship itself?

Who is worship truly for?

Who is able to worship?

How does emotionalism jeopardize real worship?

How does legalism endanger real worship?

#2 What is the primary motivation for real worship?

Do you agree that a non-worshiping Christian is a contradiction in terms? Why or why not?

#3 How would you personally describe the "substance" of real worship?

How can we offer worship that is real?

#4 In addition to praise, what else does real worship produce in the life of a Christian?
