## RESTORATION STUDIES IN EZRA AND NEHEMIAH HARDWARE

**February 23, 2020**

**Restoration Hardware, Part 3**

**What's In a Name**

**Ezra 2**

### **Main Idea**

The remnant of faithful Jews that returned to rebuild the temple must have seemed insignificant in its day. However, far from being unimportant, the remnant was actually at the center of God's great plan for redemption, because through it, He would again bring David's line to prominence, and in due course, Jesus would come into the world – with perfect Messianic credentials.

### **Questions for further contemplation and application after the message:**

- #1 According to Romans 13:1, how are governing authorities established?
  
- #2 Is God able to use even unbelieving government officials to do His will?  
  
How?  
  
How do you know?
  
- #3 Why does the list of names in Chapter 2 matter to Christians today?
