

THE AI GENERATION

Living Wisely in a Digital World

PASTOR PAUL YANG

WORKSHOP GOAL

The goal of this workshop
is to help us understand what Artificial Intelligence is,
recognize its opportunities and dangers,
and learn how to use AI wisely and faithfully
as followers of Jesus Christ.

Artificial Intelligence is changing the way we:

Learn

Create

Communicate

Make Decisions

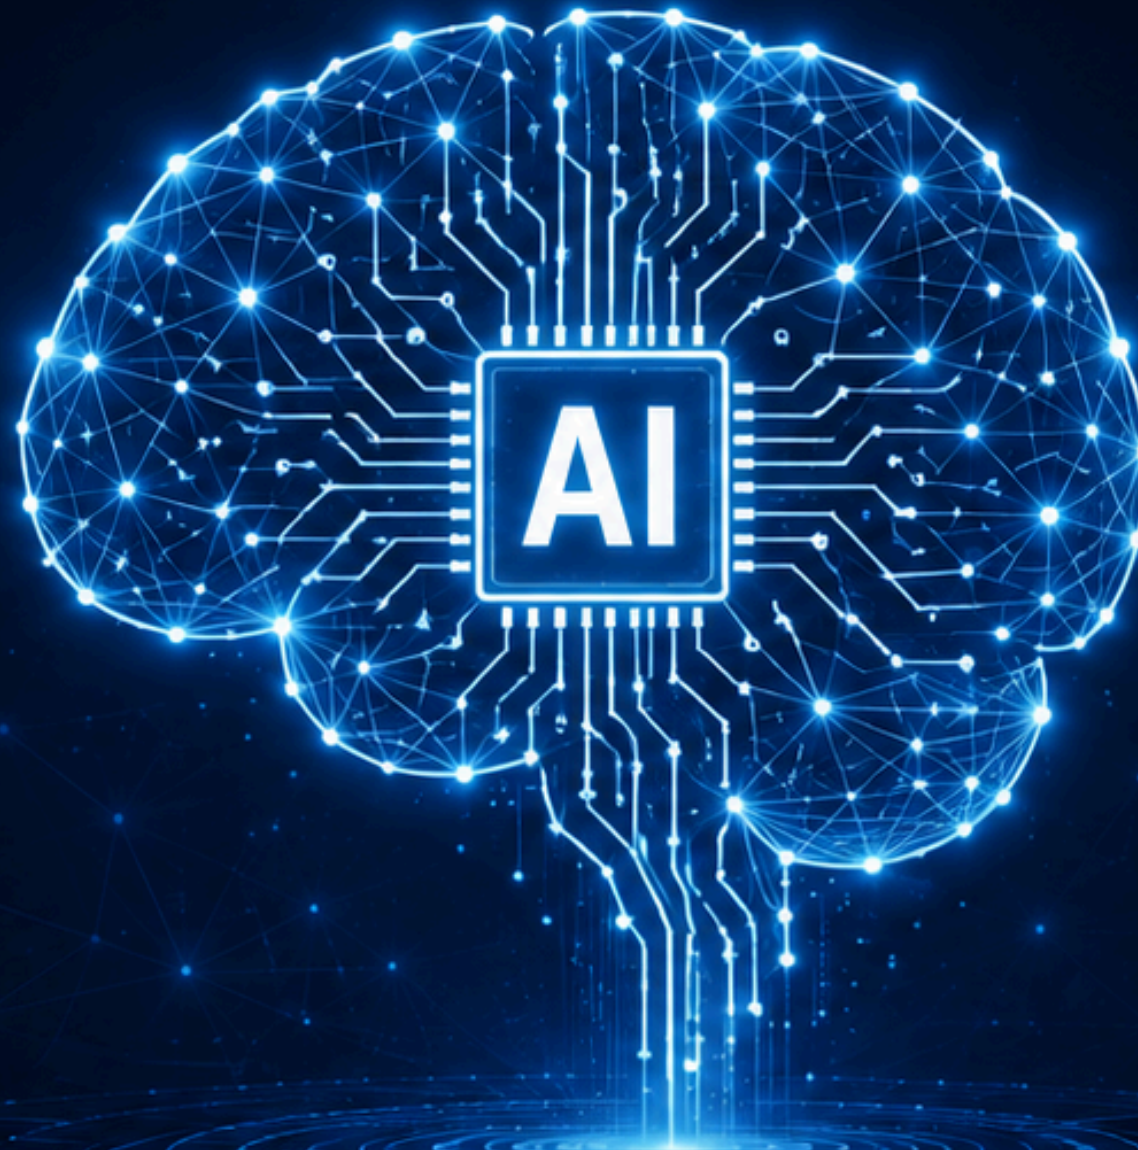

Work

**Receive
Information**

**Understand
Ourselves**

AI Is Already Around Us

**“Will AI
become our
servant—
or will it
become our
master?”**

A.I.A.G.E.

A

Acknowledge

God as Your
Source of Wisdom

I

Identify

Truth from
Deception

A

Allow

AI to Assist,
Not Replace

G

Guard

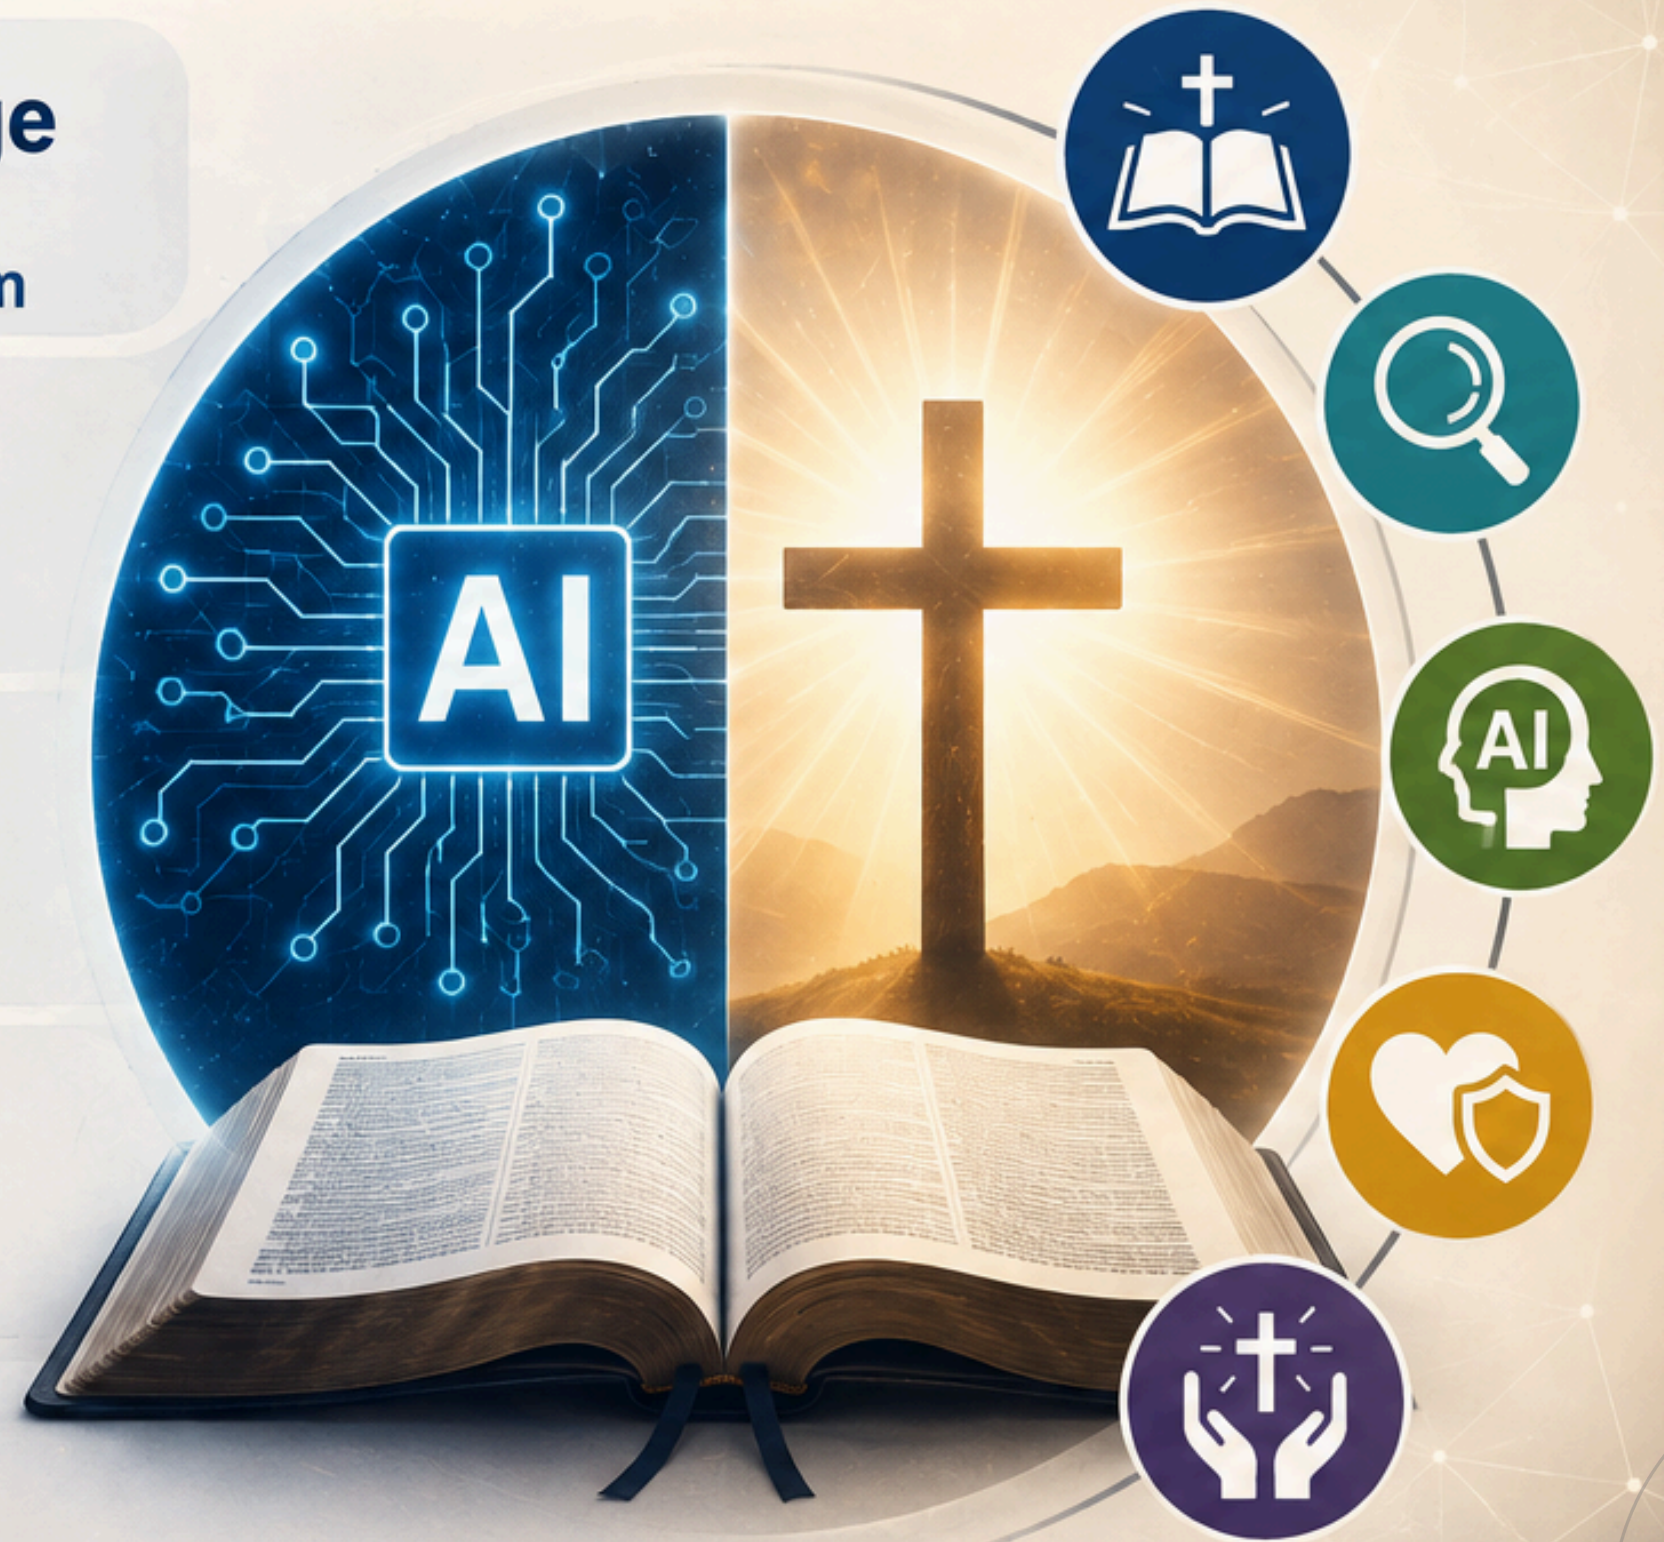

Your Heart
and Identity

E

Engage

AI for
God's Glory

AI

What is **Artificial Intelligence**?

AI learns patterns from information and uses those **patterns to produce** answers, predictions, or content.

GENESIS 1:27

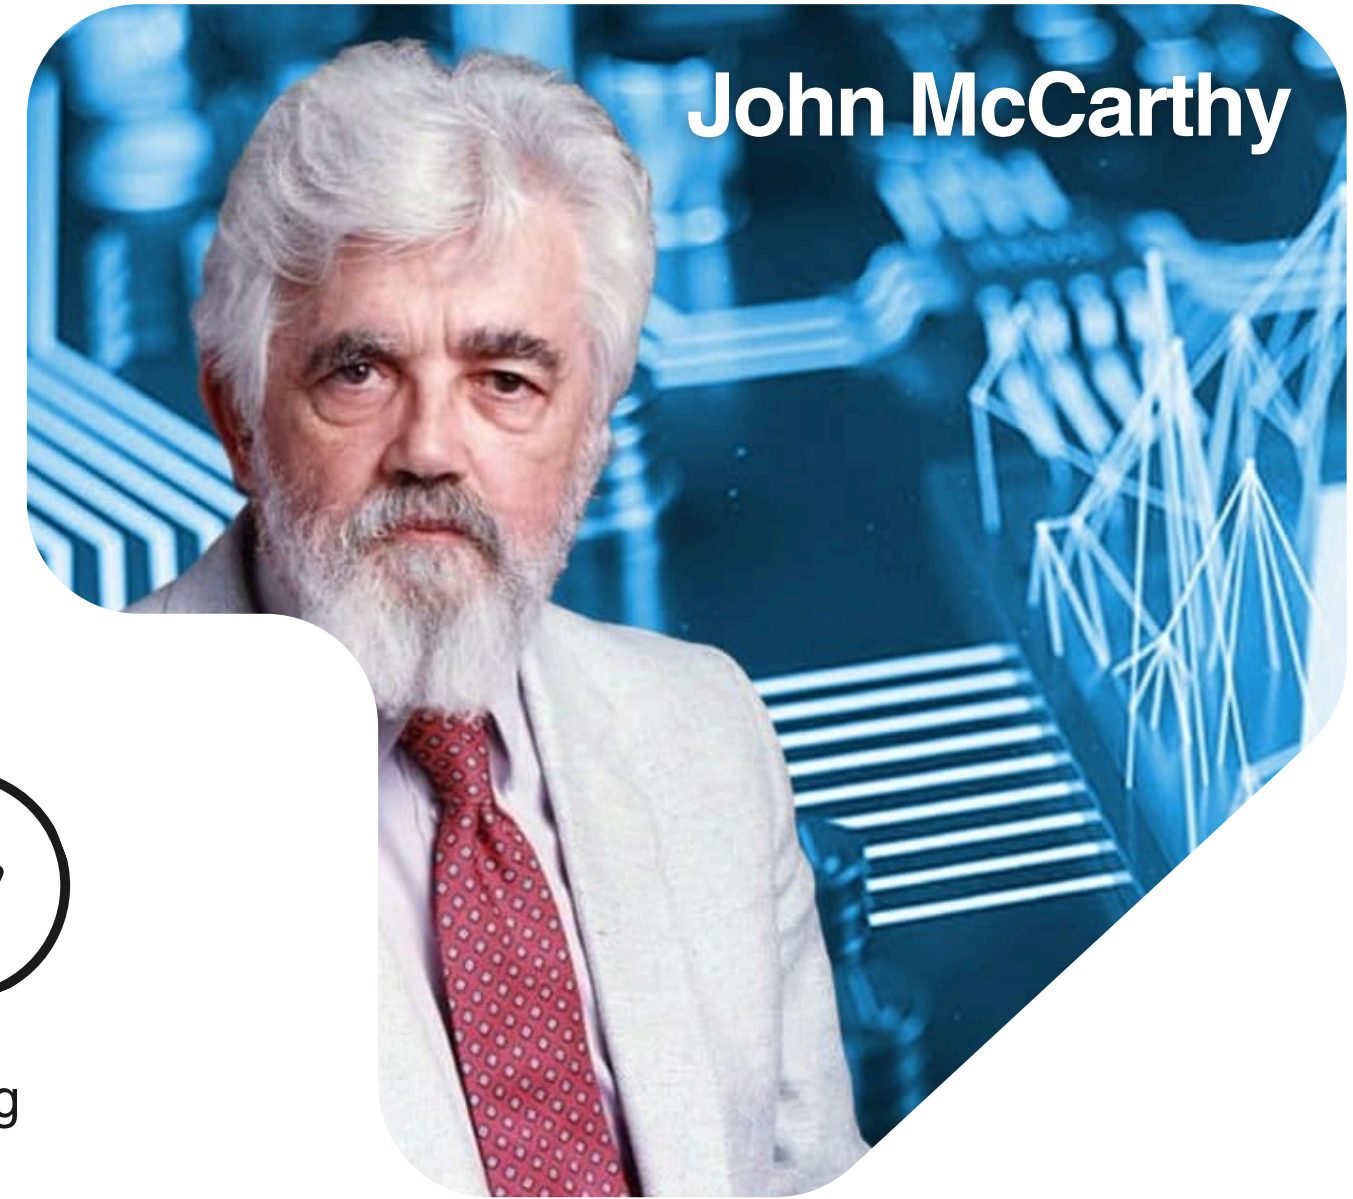

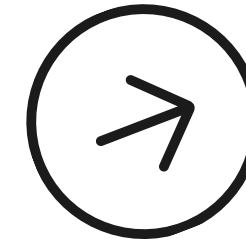

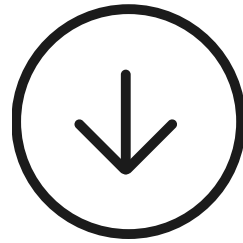

“So God **created** man
in His own image.”

AI is made by humans.
Humans are made by **God**.

Where did AI come from?

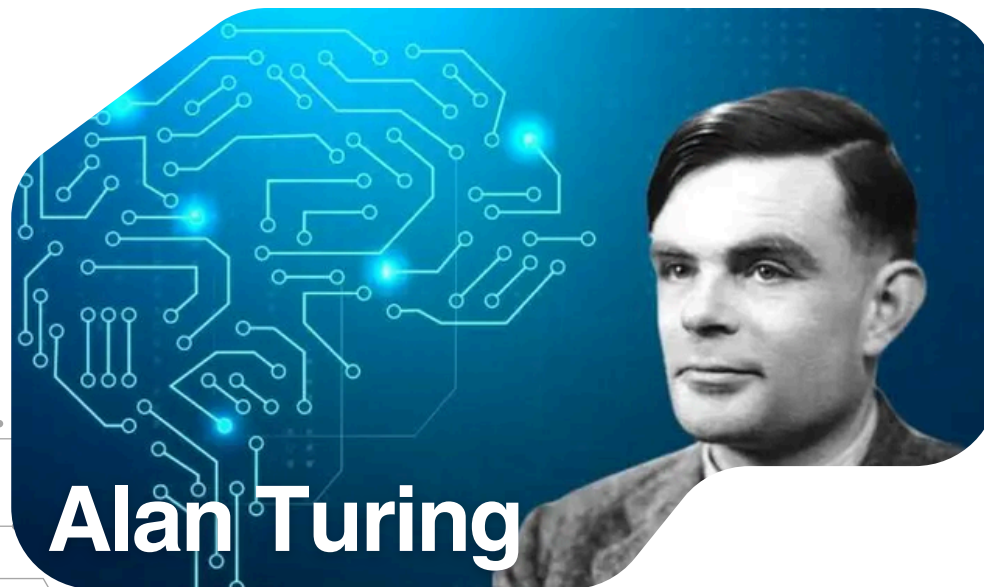

John McCarthy

John McCarthy helped establish the term:

Artificial Intelligence.

There was no single inventor of everything we now call AI.

Alan Turing

In 1950, British mathematician Alan Turing asked the famous question:

“Can machines think?”

Then in 1956, researchers gathered at Dartmouth College to study whether machines could imitate aspects of human intelligence.

Is **information** the same thing as **wisdom**?

JAMES 1:5

“If any of you lacks **wisdom**, let him ask God...”

PROVERBS 9:10

“The fear of the LORD
is the beginning of
wisdom.”

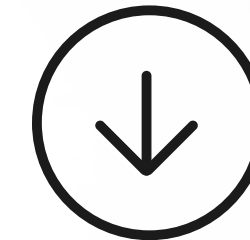

Information tells you what is possible.
Wisdom helps you know what is right.

GPS

AI in Everyday Life

AI may **provide**
directions.

Only God **gives**
ultimate
direction.

AI can now **create** convincing stories that never happened.

Christians need **discernment**

JOHN 17:17

“**Sanctify** them in the **truth**; Your word is **truth**.”

PSALM 119:160

“The sum of Your word
is **truth**.”

DISCUSSION QUESTIONS:

- Can **AI** be wrong?
- Why shouldn't we **believe** everything we see online?

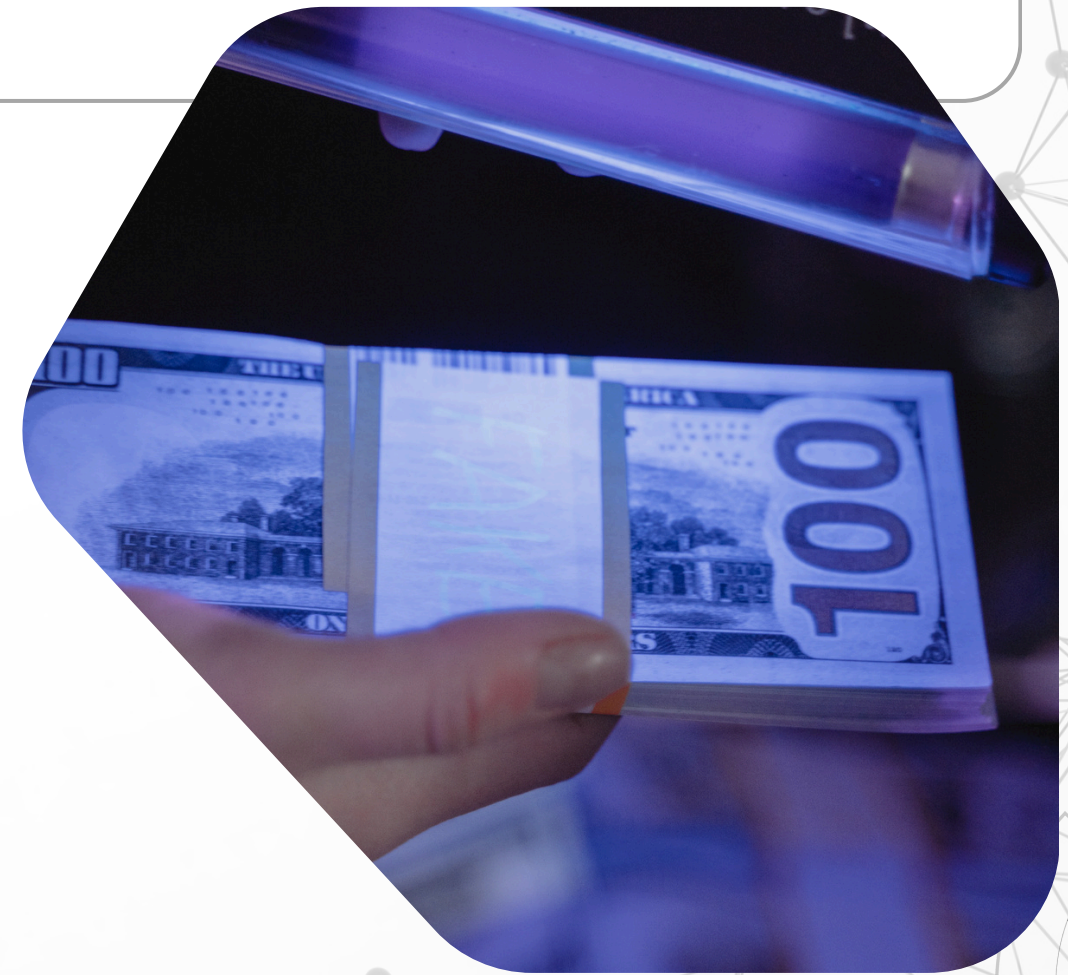

Something may look **real** and still be **false**.

COUNTERFEIT MONEY

The better you **know** God's Word, the easier it becomes to recognize **deception**.

AI can be extremely helpful.

Is it wrong to use AI for homework?

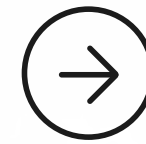

→ How did you use **AI**?

COLOSSIANS 3:23

“Whatever you do, **work heartily**, as for the Lord and not for men.”

Why is **cheating** a spiritual problem?

You might get the grade.
But you lose something more important:

CHARACTER

God is concerned not only
about what you **accomplish**.

God cares about who you
are **becoming**.

Calculator

A calculator is useful.

AI should strengthen your thinking—not replace your thinking.

How can you know whether **AI** is **assisting** you or **replacing** you?

AI may help us become more efficient.
But efficiency is not the highest goal of ministry.

Faithfulness is.

AI should be:
an assistant
not a replacement.

Perhaps one of the greatest **dangers** of technology is not what it does around us. It is what it begins doing **inside us.**

PROVERBS 4:23

“Above all else, **guard your heart**, for everything you do flows from it.”

What influences how teenagers see themselves today?

BE AWARE. BE WISE. YOUR IDENTITY IS FOUND IN CHRIST, NOT ONLINE.

"Do not conform to the pattern of this world, but be transformed by the renewing of your mind."

ROMANS 12:2

Genesis 1:26–27

“Let Us make man in Our image,
after Our likeness.”

Psalms 139:14

“I praise You, for I am
fearfully and wonderfully made.”

Can **AI** tell you who you are?

AI cannot determine your value.
Only your Creator has the authority
to define **His creation.**

FEARFULLY AND
WONDERFULLY MADE.

PSALM 139:14

WHO ARE YOU?

WHAT IS YOUR VALUE?

WHAT IS YOUR PURPOSE?

?

GOD → HUMANITY → TECHNOLOGY

God
created
humanity.

Human beings
create
technology.

Technology
is a tool
created by
humanity.

Therefore:

technology remains under
human **stewardship**,
and
human beings remain under
God's **authority**.

We are God's workmanship, created in Christ Jesus
for good works. — Ephesians 2:10

The danger comes when we reverse the order:
TECHNOLOGY → HUMANITY → GOD

Technology begins
telling us:

- what is true,
- who we are,
- what is right,
- what matters,
- and how we should live.

We begin to shape
ourselves based
on what technology
defines.

God is pushed
to the end—
or completely
removed.

Romans 1:25 warns about people who:
***“Worshiped and served the creature
rather than the Creator.”***

Do not measure **yourself** by:

likes

followers

comments

filters

AI-generated perfection

popularity

or achievement.

10K

25K

999

YOU ARE
MORE
THAN
THAT.

Remember:

**You are
created by God.**

**You are
known by God.**

**You are
loved by God.**

The final question is not:

“Is AI powerful?”

It clearly is.

The final question is:

“How will we use that power?”

SCRIPTURE

1 Corinthians 10:31

“Whether you eat or drink, or whatever you do, do all to the glory of God.”

Matthew 5:16

“Let your light shine before others...”

Why should the church understand AI?

AI is no longer
only a **technology** issue.

It is becoming a
discipleship issue.

AI CAN HELP US COMMUNICATE.

Technology can assist the messenger.

But: AI is not the message.
Jesus is the message.

AI CAN HELP US LEARN.

AI CAN HELP US SERVE.

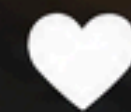

AI should help us become more available to people—not less relational.

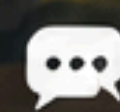

Organize
& Plan

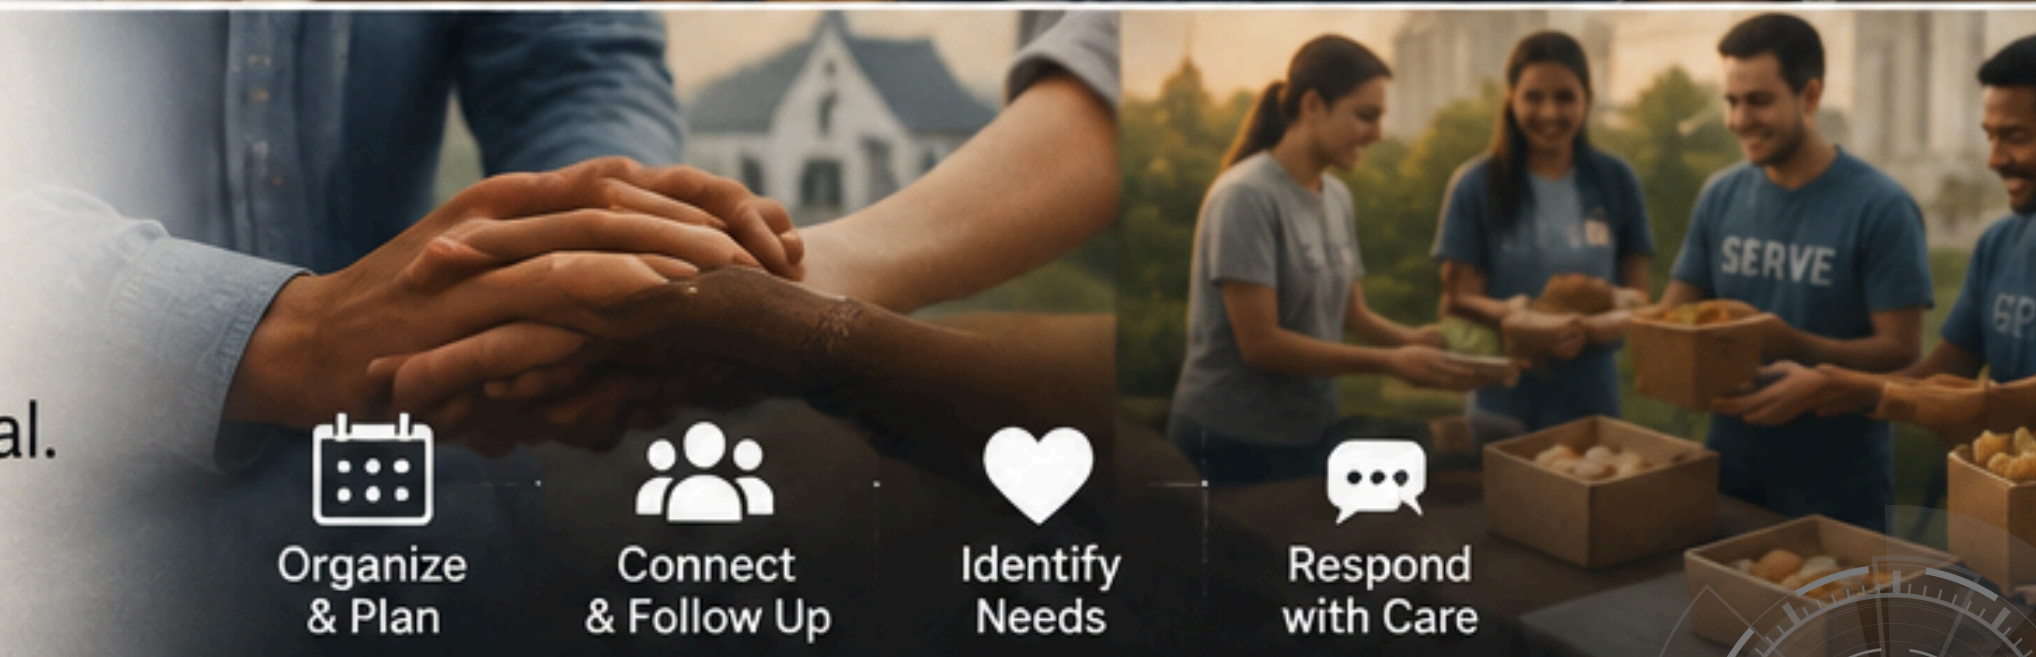

Connect
& Follow Up

Identify
Needs

Respond
with Care

AI IS A TOOL. OUR CALL IS ETERNAL.

Love God. Love People. Make Disciples.

PERSONAL REFLECTION

Ask yourself:

1. How often do I use AI?

2. Why do I use it?

3. Does AI help me learn—or encourage laziness?

4. Have I ever used AI dishonestly?

5. Does technology influence how I see myself?

6. Has technology taken time away from God, family, or Christian community?

7. Am I using AI—or is AI beginning to use me?

8. Does the way I use technology glorify Christ?

So whether you eat or drink, or whatever you do, do all to the glory of God. — 1 Corinthians 10:31

CONCLUSION — THE A.I.A.G.E. CHALLENGE

We are the
AI Generation.

Technology will
continue changing.

AI will become
more powerful.

The tools we use
today may seem
primitive in the future.

But God's truth
will not change.

So remember:

ACKNOWLEDGE

GOD AS YOUR SOURCE OF WISDOM

AI has information.
God has wisdom.

IDENTIFY

TRUTH FROM DECEPTION

Everything that looks real is not true.
God's Word remains our standard.

ALLOW

AI TO ASSIST, NOT REPLACE

Use the tool.
Do not let the tool replace
your responsibility.

GUARD

YOUR HEART AND IDENTITY

An algorithm cannot define your worth.
You are created in God's image.

ENGAGE AI FOR GOD'S GLORY
