

GOD'S COVENANT WITH ISRAEL

What does God's statement that "You shall be to me a kingdom of priests and a holy nation" mean for the way in which Israel is to understand its identity and mission?

Since God saved his people and then gave them commandments (he did not say "Obey me and then I will rescue you"), how should God's grace motivate his people to obey him moment by moment?

What do God's various laws to Israel reveal about God's values and the priorities he desires his people to embrace?
