

God's View on Four Crucial

ISSUES

- God's View on Life
- **God's View on Personhood**
- God's View on Marriage
- God's View on Freedom

“The 2020 election is not about personalities, parties, or even politics. It is an election to determine the dominant worldview in America.”

George Barna

Biblical Worldview

1. God is our source of authority. Therefore, we must follow His authority
2. God created the universe and mankind with order. He expects us to follow His created order
3. God created us to bring Him glory

God's view on PERSONHOOD

1. God determines our sexual make-up, Gen 1:27-28

- God created two genders, male and female, to correspond to their biological sex
- God created male and female to complement one another
- God's Word defines our social roles according to our gender

God's view on PERSONHOOD

2. God expects us to follow His Word as Christ followers, 1 Cor 6
 - Our bodies are temples of God
 - We are called to be holy with our temple which means we cannot do with as we please
 - We do not belong to ourselves. We are bought with a price and expected to honor God with our bodies

God's view on PERSONHOOD

3. God commands us to love others as Christ loved us

- Those who are confused about their gender identity or sexual orientation need to be heard
- They need to know God loved them enough to create them in His image
- They need to hear God's plan of hope and peace for their lives

BOTTOM LINE

The world needs the church more than every to demonstrate the love of Christ sharing His message of truth and hope.
