Why do I need the Bible?

It is the source of absolute truth, a guide to restore our relationship with God, the key to a full life being conformed to the image of God, and the assurance that we will one day enjoy eternal life with Christ in heaven.

Why do I need the Bible?

1. The Bible is the reference point for absolute TRUTH
 - Where did we come from?
 - Why are we here?
 - What happens to us when we die?
2. The Bible is the guide to living a godly life
 - The Bible is the living word (Heb 4:12)
 - The Bible defines the boundaries for Christ followers and the Holy Spirit enforces them
3. The Bible is the power source to wage war against the problem of evil
The word of God identifies the problem of evil (sin & Satan) and offers the only way to overcome it – salvation, intercession for Christ followers, spiritual warfare to fight the enemy, and the hope of the second coming when God sets up His eternal kingdom and judge evil

BOTTOM LINE

As a Christ follower, you hold the key to introducing people to a personal relationship with Jesus Christ. It is up to you to share His Word with the world.
