

Prayer Requests

- Dorothy Sawyer - Praise for Dorothy: After a successful procedure this morning, the pulse in her foot has returned, and doctors are very pleased with her progress. Her family is so grateful and wants to thank everyone for their faithful prayers.
 - Please pray for Dorothy, who is recovering from recent surgeries. She is facing a critical vascular issue in her leg and foot, and doctors are monitoring her closely. Please pray for restored blood flow, complete healing, and peace for her and her family.
- Dan Stanley - Dan is out of the hospital and now at home recovering.
 - Please pray for Dan, he was taken to the ER last night and doctors discovered a 99% artery blockage. He underwent a procedure this morning at CMH Hospital, and they were able to successfully place a stent. Please pray for a smooth, complication-free recovery, steady healing for his heart, strength for his body, and peace for his family during his hospital stay.
- Josiah Stanley - as of Sept. 5th - Please continue to keep Josiah in your prayers. He was taken to the emergency room last night for ongoing dehydration and was given a bag of IV fluids. Doctors are continuing to closely monitor his heart rate and rhythms using his heart monitor. Please pray for sustained hydration, steady and safe heart rhythms, and wisdom for his medical team as they monitor his progress.
 - He is currently dealing with dehydration, and his heart rate has been dropping into the 40s when he lies down. Pray that his hydration levels normalize quickly, that the upcoming heart monitor provides clear and accurate answers for his doctor.
- Jassi Smith - Please continue to pray for healing for Jassi's leg and navigating with her scooter.
- Parker & Taylor Hall - Praise the Lord for a good report! Baby Laina Mae's brain fluid has gone down in her brain. At this point there will not be a need for a shunt, surgery or special delivery!

- Brad Hall - Please pray for Brad Hall, he is waiting on an MRI to evaluate his knee that he injured, possibly an ACL, LCL, meniscus tear. His pain is better but he may have to wait until mid July to get an appointment, so pray he can get in soon and that it will begin healing without surgery.
- Jim Harrison - (Larissa's grandad) - Please pray for Jim as he navigates some health challenges. He has COPD and his condition continues to worsen. He is experiencing more lung pain and difficulties breathing. Please also pray for salvation and witnessing opportunities for Preston and family to have with him.
