Prayer Requests

Dakota French (Kori Miles' dorm mates brother) - Dakota remains in critical condition following a severe line-of-duty accident over the weekend. He sustained extensive injuries and is fighting through a very difficult recovery. His family is gathering at the hospital to be by his side. Please continue to pray for Dakota, his family, and his doctors during this crucial time.

Josiah Stanley - Update as of Oct. 23 - Great news! Josiah made it home yesterday evening. He'll be wearing a heart monitor for two weeks and starting a 3-month course of seizure medication. He has follow-ups coming up with his trauma doctor, a cardiologist, and a neurologist in December.

Thank you all for the prayers! Please keep praying for smooth healing, strength as he recovers at home, and good results from all his follow-up care.

Delilah (Tracy Miles niece) - Please keep Delilah in your prayers today. She suffered a fall yesterday (Oct. 26) and is scheduled for another surgery later today. Since she is still recovering from her recent back surgery, extra prayers for healing, comfort, and a successful procedure are greatly appreciated.

Tracy Miles shared two prayer requests for her co-worker's family:

1. **For her nephew, Nathan (38):** Recently diagnosed with Stage 4 cancer with a short prognosis. Please pray for comfort, pain relief, strength, and peace for Nathan and the whole family.
2. **For her uncle (90s):** He has been unresponsive for a couple of days. Please pray for peace, comfort, and surrounding grace for him and his family.

Thank you for lifting this family up.
