

Prayer Requests

- Vickie Lucas, Dawn Katzer's Mom - Please continue to keep Vickie and Dawn in your prayers. Vickie was discharged from the hospital yesterday, but unfortunately, she suffered a fall early this morning. She has a fractured nose and a bump on her forehead.
Please pray for physical healing, quick relief from this new pain, and a deep sense of peace and calm for Vickie. Please also lift up Dawn for extra strength and comfort as she continues to navigate her care.
- Lucille Shay - She is now at Parkview in Room 142A
- Parker & Taylor Hall - Please pray for Brad and Cindy's son Parker and his wife Taylor expecting their first baby September 28. The baby girl, Laina Mae, has fluid on her brain. At 20 weeks, they were watching it and hoping it would resolve on its own, but at 24 weeks it is 15% worse and they are very concerned. The doctor will be watching closely every month now, and if it continues, she may have to go to a special hospital in Kansas City to be induced so they can do emergency surgery when the baby is born, to put a shunt in her brain. There is so much that is unknown at this time, but they really appreciate your prayers for a healthy baby, and that this condition will resolve on its own.
- Brad Hall - Please pray for Brad Hall, he is waiting on an MRI to evaluate his knee that he injured, possibly an ACL, LCL, meniscus tear. His pain is better but he may have to wait until mid July to get an appointment, so pray he can get in soon and that it will begin healing without surgery.
- Cheryl Stanley - Cheryl had her hip surgery on July 7th and is healing and recovering well!
- Jim Harrison - (Larissa's grandad) - Please pray for Jim as he navigates some health challenges. He has COPD and his condition continues to worsen. He is experiencing more lung pain and difficulties breathing. Please also pray for salvation and witnessing opportunities for Preston and family to have with him.
