

# Prayer Requests

- Dawn Katzer - Please pray for Dawn as she navigates some upcoming medical testing. She has a pancreatic CT scan scheduled for this Friday at 9:00 a.m. Additionally, please pray for wisdom and clarity as she transitions to a new doctor and undergoes comprehensive blood work in two weeks to get to the root of her health issues.
  - Dawn has been dealing with significant pain in her abdomen specifically after eating. Following some preliminary blood tests and a scope, her doctors are referring her to a rheumatologist to investigate the possibility of lupus. Please pray for clarity and wisdom for the specialists, quick answers from the upcoming tests, and complete relief from her pain.
- Al Lovell (Laura Carr's dad) - Al is home and is doing very well!
  - Al will be having quadruple by-pass surgery on May 28th. Please pray that his kidney function would stay in a good spot so the surgery can stay as scheduled on the 28th.
- Vacation Bible School: Please pray for the volunteers as they prepare and for those that will be attending.
- Josiah Stanley - Josiah has been having stomach/gastrointestinal issues for the last several months. He has been diagnosed with Alpha Gal but has been going through some more testing. He had a scope done on Tuesday where they found a polyp close to his stomach. They biopsied it along with some other things and they are waiting on results.
- Vickie Lucas, Dawn Katzer's Mom - Please pray for Vickie as her medical team is still trying to find the right combination of medication to keep her mood stabilized.
- Lucille Shay - She has had COVID in the last few weeks and needed to stay in a nursing care facility to recover. She is now back home and doing better.
- Cheryl Stanley - Cheryl will be having hip replacement surgery on July 7th. She will begin her pre-surgery testing on June 24th.
- Jim Harrison - (Larissa's grandad) - Please pray for Jim as he navigates some health challenges. Recent lab work showed issues with his kidney and liver function, as well as elevated white blood cells. Please pray for wisdom for his

doctors as they look into a potential MRI, for strength and healing for him, and for clear results when he repeats his blood work in two weeks. Please also pray for salvation and witnessing opportunities for Preston and family to have with him.
