

JOURNEY TO THE CROSS

Station #1 “The Creation: God’s Good Design”

We start the journey where the Bible begins in Genesis 1. The creation. Genesis tells us that God has always existed. That God is love. And that God created everything in the universe from nothing. In the beginning, His creation was orderly and good, including the creation of human beings. The first people were created in the image of God, and walked in unbroken fellowship with God. They had everything they needed. They were unafraid and unashamed.

Their job was to care for the creation as God’s representatives on earth.

Even though creation has since been badly broken by sin, there are beautiful reminders of God’s creative power and love all around. Before you leave this room, think about one part of the creation that you consider to be a reminder of God’s creative power and goodness. It may be something grand like a mountain, or something delicate like a flower petal.

Write or draw that thing on the board and silently thank God for displaying His goodness in creation. Then make your way to Station 2 in the prayer chapel. (To reach the prayer chapel, walk through the hallway and turn left in the main vestibule.)
