

**Opening:** In the past year we have witnessed God's interventions around the world to save lives and humanity. In the same way we have seen many turn to Jesus for salvation while others have gone further away from Him. Time is limited before the return of Jesus and in this series, we want to look at the current prophetic struggle before Jesus returns for His Church.

**Key Verse: Luke 12:35-40** <sup>35</sup>"Be ready and dressed. Have your lights burning. <sup>36</sup>Be like men who are waiting for their owner to come home from a wedding supper. When he comes and knocks on the door, they will open it for him at once. <sup>37</sup>Those servants are happy when their owner finds them watching when he comes. For sure, I tell you, he will be dressed and ready to care for them. He will have them seated at the table. <sup>38</sup>The owner might come late at night or early in the morning. Those servants are happy if their owner finds them watching whenever he comes. <sup>39</sup>But understand this, that if the owner of a house had known when the robber was coming, he would have been watching. He would not have allowed his house to be broken into. <sup>40</sup>You must be ready also. The Son of Man is coming at a time when you do not think He will come."

## 1. The command to Watch and pray

### a. We study Bible Prophecy, and the last days as an exercise to watch for the Lord's return which we were commanded to do.

- i. None of us has a perfect understanding of what will occur, but we can deduct signs from the text of scripture and see if those things are occurring.
- ii. Jesus warns the world that many will not be ready for His return in the rapture. Therefore, it is wisdom for each of us to awaken to the times and seasons we are living in, so we do not fall asleep as the five foolish virgins did in the parable of ten Jesus spoke of in **Matthew 25:1-13**
- iii. The Greek word for watch is *grēgorountas* and is an action verb meaning: To be vigilant, to remain awake, to be on high alert ready to take action.

## 2. The Post Cold War era breaks away to a New World Order

### a. Before something new arrives, something old must be done away with.

- i. Old systems and unities are dissolving even if they appear held together. Those who have strength and might will lead over those who are not truly strong.
- ii. Nato, EU, and United Nations are breaking, in function they still exist but they are truly powerless to solve the world's problems because they are thoroughly corrupted. All of this lack of trust in institutions is intended for a bigger purpose.
- iii. Middle East Board of Peace is a conglomerate of nations to tackle the problems in Gaza strip of Israel and is an attempt to bypass the gridlock of the increasingly useless global government order.

### b. We may see a very soon global govt. that looks just like what the prophet Daniel saw in his vision of the Kingdoms of mankind. The final Kingdom is to be unified but weak at the same time. It combines iron (strength) and clay (weakness) together.

- i. A formal unity in the world will exist but it will not be strong. This is a new unity that will encompass the whole world, consisting of 10 Kings and 1 anti-christ to rule them all.
- c. With the rise of China we see an increasingly bi-polar world with different values and agendas on each side. Currently the US is playing catch up in many ways trying to re cement its power as the only superpower on earth.
- d. Had circumstances not changed in recent elections around the world, the time of the end would have quickly presented itself.
- e. **Key Point:** God alone controls times and seasons, all of satans agenda work overtime to try and bring the final days, but it is Jesus who initiates the final 7 year tribulation period and thwarts satans agenda. **Revelation 6:1-2**

## 3. The United States of America matters

- a. America is important as we near the end of the age. America is a Christian influenced nation founded on biblical principles.
- b. America has been overwhelmed on all sides by carefully orchestrated attacks that were meant to undermine the United States intentionally to weaken the entire world.
  - i. Drugs being made available to anyone and everyone is designed to destroy an entire generation of youth.
  - ii. Massive restrictions on our economy are intended to make every day Americans poor and reliant on government handouts.

- iii. Social media is used to create mass hysteria, psychosis, dopamine dependent people who are tied to technology constantly. Social media allows for controlled narratives to be assimilated into society without resistance.
- iv. Did you know, that China and other developed nations don't allow their kids to use social media the way that we do, they have TikTok but the algorithm plays different material that is designed to build up society instead of tear it down.
- c. America indeed was on the verge of collapse due to intentional self-inflicted wounds. Why would we allow self-inflicted wounds? Within our government there are institutions, powerful people who want a new world order that does not have the United States leading it and instead has a world government overseeing the nations.
- d. **Key Point:** The United States is still the only nation on earth that can put evil on the run and has stood as the sole global leader of protection ensuring stability. God has used America to accomplish these things, just as He has used nations throughout human history.
  - i. That being said, we also have deep state actors who work against the mission of God through America who work day and night to undermine America and the nations from within.
- e. When America falls, the world will head into the new global government written about in scripture. To a degree it is important for every Godly believer to pray for America and to work within our government to ensure righteous leaders are elected to every position. In doing our part we ensure peace and evil is kept in check.

#### 4. The system of the Beast is here

- a. US dollar Reserve currency under a world agreement called Bretton Woods is breaking. This agreement made it that US dollars were used to finance trade around the world. The dollar trade has slowly deteriorated from 70% to just 56% in 2025 and the trajectory is going lower. Something will have to replace the dollar for the nations to accept.
- b. The Countries in the sphere of influence of China are backing their currencies with Gold to undermine the US dollar backed financial system. One system must decline to be replaced with a new one. Everything you see the current US administration doing is designed to stop China and the nations aligned with it from setting up a new economic system that they would lead. Consequently, everything the previous administration and others before it did was designed to set up a new economic system led by someone else.
- c. Governments don't operate on daily, monthly or even yearly agendas, a plan for the future is already in place and has been in place for about 50 years.
  - i. The dollar will be replaced. We are very close to a new financial system that will operate differently than the current one we have known. This new system will have many benefits and many perils once it comes online.
    - 1. Every transaction will be tracked, financial fraud and crime will come down, privacy will be greatly limited.
    - 2. A global digital currency will simply **attach all nation currencies together** instantaneously, so that all nations will be able to trade and move goods between countries using a basket of currencies. The dollar will exist but it will not hold the authority it currently does.

#### 5. The coming age of tracked tokenization/fractional ownership of everything

- a. During a recent CNBC interview in Oct. 2025 Larry Fink the CEO of 12 Trillion asset manager Blackrock said "We're just at the beginning of the tokenization of all assets, from real estate to equity to bonds, across the board."
- b. To tokenize assets allows them to be trackable and proves ownership and the transfer of ownership. Tokenization allows all assets to be traded 24/7. Sounds good, but it also allows for control of those assets by a 3<sup>rd</sup> party.
  - i. **Revelation 13:16-17** tells us a "Mark" is required to do any business buy or selling in the economic system of the anti-christ.
- c. This new digital financial system will have many benefits and bring many prosperities, but it will also allow for what the Bible prophesied to fully be realized. The CLARITY act in the news today allows this new economic system to be enacted.
  - i. That bill is currently halfway to being signed into law. From that point it will take 18 months to be fully implemented. Companies are already working under current laws to tokenize the world's assets to give them a digital ownership footprint.

- d. To control the buying and selling of everything you must have a distributed ledger that is seen by everyone or by those who oversee everyone, but having that much information is impossible to filter and control.
  - i. Every day over a billion financial transactions just on credit cards occur. The US transacts 141 ACH transactions on one network a day. To track it all you need a machine to do so.
  - ii. AI is being built to run the new financial system, it will monitor all financial transactions and ensure that certain transactions are not possible. This is both good and bad and should be obvious.
  - iii. When will this new system be ready? Agentic AI are clusters of computer programs that will begin to oversee vast swaths of every day life including the financial system of the future.
    - 1. By 2030, the financial industry expects "**Cognitive Financial Agents**" to operate as independent entities within a "Financial Meta-Verse," negotiating complex deals, managing risks, and creating new financial instruments in real-time.

## 6. What will the Middle East look like soon?

- a. A relative calm will come over the region and peace will encourage growth. Walls that have existed to the gospel will come down in preparation for God's great harvest before Jesus returns.
- b. Iran is a part of a war that the Bible tells us comes in the last days. Will Iran last this current revolution to overthrow the tyrannical dictator?
  - i. Two scenarios, Iran could become a democracy led by a vote of the people, or a military leader in the current regime could take over under western terms in a game of deception.
  - ii. The current regime is hanging on by a thread as the United States is working with the people of Iran to overthrow the corrupt Islamic regime.
- c. Never underestimate the significance of the rapture. When the righteous are removed, the evil that is kept in check by the righteous will move ahead unimpeded.
- d. Israel is still largely residing in unbelief concerning Christ, a remnant of devout Yahweh worshipping jews still remains and the desire to rebuild the Temple is moving forward.

## 7. What are the rising signs for 2026

- a. **Rising anti-semetism**
- b. **Low level corruption will be dealt with, high level corruption will continue.**
- c. **Visible Lawlessness will continue, some will be dealt with but high-level lawlessness will continue. Why? The mystery of lawlessness continues until Jesus returns at the 2<sup>nd</sup> coming to destroy the anti-christ.**
  - i. **Daniel 8:25** By his cunning he shall make deceit prosper under his hand, and in his own mind he shall become great. Without warning he shall destroy many. And he shall even rise up against the Prince of princes, and he shall be broken—but by no human hand.
- d. **The righteous indwelt by the Holy Spirit will continue to be the sole hinderance to the work of lawlessness in the world.**
  - i. **2<sup>nd</sup> thessalonians 2:17** For the mystery of lawlessness is already at work. Only he who now restrains it will do so until he is out of the way.
  - ii. The phrase of "taken out of the way, is to be "taken from the midst" and this portion of scripture is exclusively speaking about the return of the Lord and our "gathering together with Him"
  - iii. **The Holy Spirit indwelling the Church makes it impossible for the anti-christ to be revealed. At a point in the future God will allow the world to fall head first into the tribulation period.**
    - 1. Before that moment comes God will be very patient and merciful until the cup of sin has been filled.
    - 2. Once it is time, God will remove his righteous people from the earth so that He might deal with the ungodly and wicked, in preparation for the full establishment of the Kingdom on earth.
- e. AI is changing our world faster than most realize.
  - i. A singularity will occur soon, within this year or next year where AI has superseded human intelligence and then after that will grow exponentially faster than our intelligence. This is all by design.
  - ii. AI computers placed in space to cool and capture the suns energy.
  - iii. AI will create a new world at such a fast pace it will be hard to fully comprehend it.
    - 1. Medical breakthroughs, the cost of surgery will go down drastically with the rise of robots that can perform advanced surgeries.
    - 2. Slowing the aging process, printing organs on demand, an end to many medical diseases.

- 3. New materials created that defy generations of limitations. New forms of energy will be released.
- 4. A personal robot for each person to take care of many tasks, like the jetsons a maid in all homes.
- 5. Higher profit margins for companies with less human workers will lead to universal basic income.
- iv. My sister works for the University of Florida in onboarding AI to make systems more efficient. Her assessment is that initially AI will make people more efficient and will automate many mundane tasks to allow people to be more focused on other more important tasks.
- v. AI will eventually power ever advancing robots to do certain tasks that do not require much skill. About 7% or 12 million employees will have their jobs completely replaced in the next 5 years, and will need to develop new skills for new jobs.
  - 1. Fast food workers
  - 2. Crop harvesting
  - 3. Basic Warehousing & Assembly line workers
  - 4. Software Coders, data entry clerks
  - 5. Cashiers, Receptionists and your personal favorite telemarketers.
  - 6. Content creators, writers, videographers.
  - 7. Those who do Basic bookkeeping tasks

#### **8. 10 technocrat Kings are rising?**

- a. Today we have leaders of companies that have amassed more wealth and power than whole nations of people.
  - i. Technology companies have amassed an incredible amount of wealth and power to sway the world in their chosen direction. In the last days 10 Kings will rule the world with the anti-christ. While these current “kings” of society may not be the 10 they show that power can be consolidated in an ever-shrinking pool of very powerful people, most of whom do not serve Jesus Christ.

#### **9. Biblical Christianity in decline, while religious beliefs increase.**

- a. The belief in a god, or god like person will rise to pave the way for the anti-christ, who is not only a political figure but a person who will be worshipped in God’s place.
  - i. The internet is abuzz with an “alien disclosure” because of the movie Steven Spielberg is making called “Disclosure Day”
- b. A ramping up, in frequency and intensity of biblical signs to the degree that each sign will be affecting the majority of the world.
- c. The Ted talk Church will be exposed as powerless and fruitless. Consumer driven Christianity will still be present, but a yearning remnant of hungry growing disciples will perform the works of the Kingdom.

#### **10. What kind of people should we be as we see the day approaching?**
