

Regeneration | Titus 3:3-7
Reverend Dr. Russell St. John

1. Why is regeneration not your decision?
2. Why must your human response to the gospel follow and not precede regeneration?
3. What moral power does a slave to sin possess?
4. Can a tree change its fruit by force of will or a resolution?
5. Given that making outward moral changes to your life is, in itself, a good thing, why is it a bad thing when attempted apart from regeneration? What two outcomes are likely to follow?
6. Why is every believer passive in the new birth?
7. How is Lazarus an example of that passivity?
8. What is the natural state of sinful men? Of their hearts?
9. Discuss the signs that you are regenerate. What are they? How can you “improve” upon your regeneration?
10. Why is authenticity less valuable than obedience?
