

Series: Stand Alone Message

Title: Saying God Bless You
Pastor David Kim

1) When you hear the words “God bless you”, in what context do you usually use these words?

2) The prayer given to the people as they leave the assembly is called the benediction. The benediction is literally saying, “God bless you.” It is a very theologically rich practice and one that is prescribed for us to understand. **Read Numbers 6:22-27 together as a group.**

3) What insights do you see from this passage? What are the three promises God wants His people to be blessed by? And what do these promises mean for us?

Promise #1: _____

Promise # 2: _____

Promise # 3: _____

4) Which of the three promises do you resonate with more in your current season of life? Please explain.

5) Practical Takeaways:

a) First, keep each other accountable to seek these blessings from God and not from other things. Remember, safety, forgiveness and peace ultimately come from God.

b) Scripture describes his people as a royal priesthood of all believers. This means you get to speak blessings and good words to those around you. How many people need to hear a good word from you? God has given you a authority to speak blessings in His name to others.
