

What to do after you believe?

Believing is an act or action, not a mental assent.

The God kind of faith always requires follow up actions.

Looking for results after we believe, but putting no action toward what we are believing for is deception.

3 Principals to maintain action after you believe

#1- Don't lose heart and draw back on the promises of God.

#2- You must maintain your thought life and stay in agreement with the Word of God.

If you are not careful you will let logic, reasoning, and circumstances overrule your faith.

You can't do right until you think right

#3 You must maintain your mouth

Words produce or cancel out what you are believing for

Words produce or cancel out what you are believing for
