

A small green seedling with two leaves is growing out of a crack in dry, cracked earth. The background is a vast expanse of parched, cracked soil, symbolizing resilience and hope in the face of drought or climate change.

The Ultimate Climate Change

ISAIAH 34-35

Our First Need to Know:

God will thoroughly cleanse creation of godless pollutants.

Isaiah 34

Angkor Wat

Our Second Need to Know:

*God will gloriously rejuvenate creation and the
godly population.*

Isaiah 35

The great green wall

Mountains of Lebanon and Plain of Sharon
