

**JUAN
SEBASTIAN
AYALA
ARREDONDO**

12 YEARS OLD

Education:

He has gotten better at reading and in the area of math he has advanced two grades.

Health:

This year he had an annual general check up at the doctor and dentist, he is a healthy boy!

Family:

His parents are very present in his process at the foundation. His father found a job and is working as a construction worker, while his mother is the one who goes to the meetings planned by the foundation.

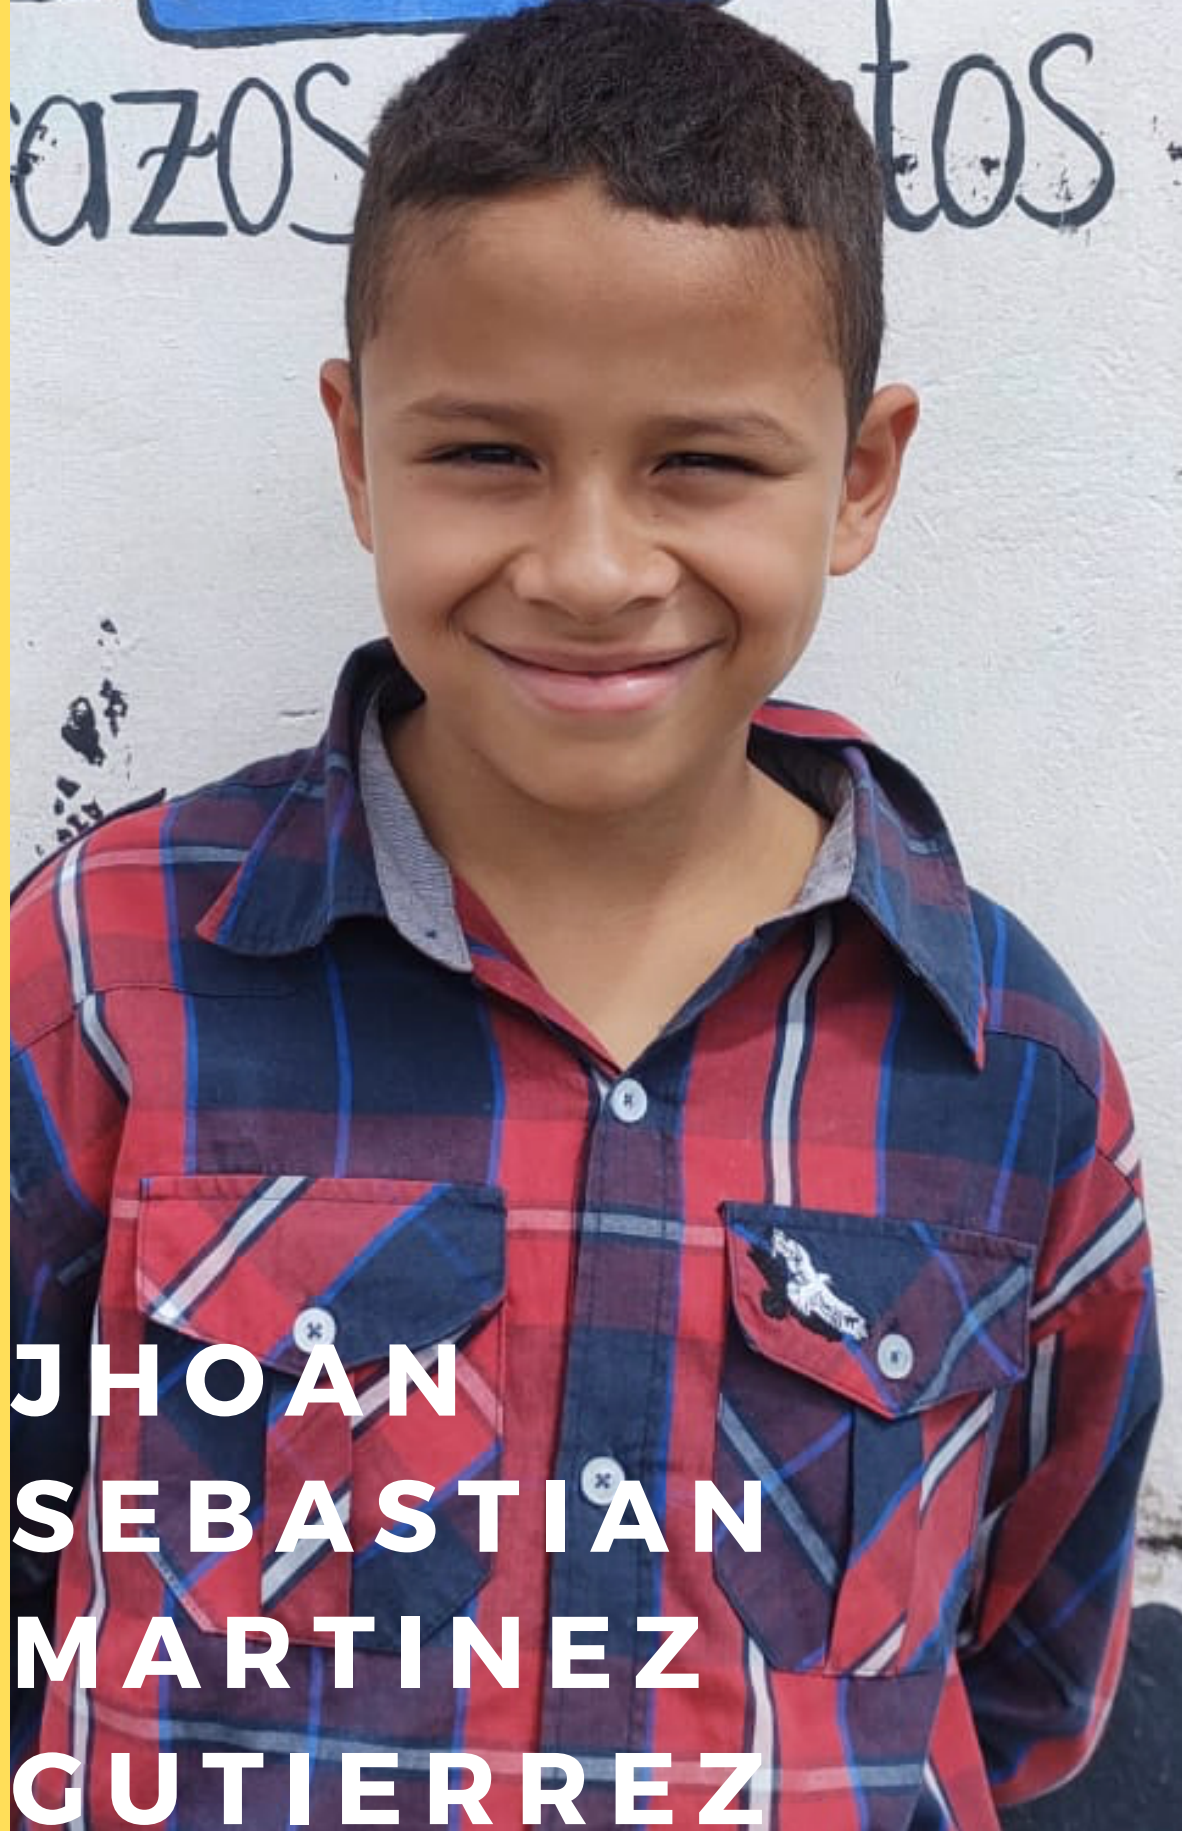

Spiritual:

He is growing closer to God and it's evident that he is interested in learning about God.

Personal:

He is able to recognize his mistakes more easily and he is willing to be a better person.

**JHOAN
SEBASTIAN
MARTINEZ
GUTIERREZ**

10 YEARS OLD

Education:

Jhoan is in 3rd grade and he has advanced in reading and math, however he continues to improve his writing skills because this has been difficult for him.

Health:

He had an annual check up with the general doctor and he is in good conditions. He continues to advance in the treatments with the psychiatrist with the reduction of some medications.

Family:

Family: No type of commitment has been shown by his mother or father with his process in the foundation. They don't ask about him and they always say they are going to visit him but never come.

Spiritual:

Jhoan is a boy that is eager to learn about God, and he asks interesting questions about Jesus.

Personal:

Jhoan feels safe in the foundation. We are working with him and his brother, Angel Esteban, to improve their relationship.

**ESNEIDER
ALONSO
VARELA
GOMEZ**

10 YEARS OLD

Education:

Esneider doesn't show motivation in the area of education; however, he is being taught how to be 100% committed. He has the potential to be willing to learn and improve.

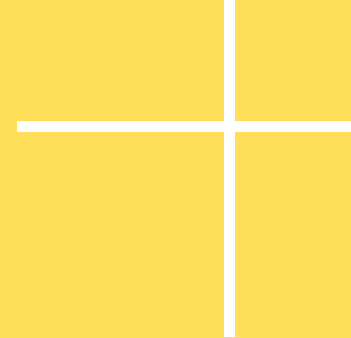

Health:

This year he had an annual general check up with the doctor and dentist. He is in good conditions. He is having frequent headaches and we recommended for his father to take him to a general doctor appointment in order to figure out what has been going on and the proper treatment to start.

Family:

His father is committed to his process; he listens to suggestions made by the foundation and he tries to implement them at home. His stepmother is actively part of the process and helps the boy have what he needs. Esneider has very little contact with his mother because she doesn't have any interest for the boy.

Spiritual:

He is attentive to listening to God and he is willing to learn about the Bible.

Personal:

He is making an effort to not humiliate his friends and other boys at the foundation, he is improving a lot in this area.
