Juan Pablo started 8th grade committed to his studies and the foundation in order to meet the requirements for his academics this year.

Spiritual:

Juan Pablo was given advice in areas such as healthy relationships and personal search for the Lord. The house parents will be with him in this process.

Health:

We are currently waiting for a doctor's appointment in order to start up his process with specialists again. Due to the pandemic, a lot of the authorizations and orders were suspended. He is currently seeing an orthodontist once a month and the orthodontist has said that hopefully this year Juan Pablo can have the braces removed.

Family:

Juan Pablo found out it is possible that his brother will be placed in adoption with the State. This situation has made him very sad because he was hoping to be reunited with his brother. His father and older brother are in constant contact with him and are involved in his process. Juan Pablo has not been able to visit them due to the increased violence within his neighborhood. These conditions have made him very anxious.

Personal:

Juan Pablo started his development in the foundation with high expectations. He is a leader to the other boys on my occasions, carrying out responsibilities in a positive way.
