Operation Christmas Child

THESE EXCITED CHILDREN IN THE PHILIPPINES ARE AMONG 2.5 MILLION BOYS AND GIRLS IN THE NATION TO ENROLL IN THE 12-LESSON DISCIPLESHIP COURSE.

The Greatest Journey Begins

Prior to The Greatest Journey course, children receiving Operation Christmas Child shoeboxes could be discipled through The Mailbox Club. Over 10 million children in 60 countries graduated from the program. But Franklin Graham saw the need for a Bible study program for children that would take them even deeper into God's Word and focus on evangelism, discipleship, and personal evangelism. The result was The Greatest Journey—a 12-lesson discipleship course created for shoebox gift recipients—that launched in Ecuador in 2009. “Through The Greatest Journey children get to know Jesus, they grow in Christ, and then they share the love of Christ with others. And that's when multiplication happens,” said Maribel Pumisacho, an Operation Christmas Child international field representative for South America. “During the time we've had The Greatest Journey in Ecuador, God has allowed us to see many transformations in the lives of church leaders. Many pastors didn't see children as an important part of the church. But now children are very important in the life of the church. In many places, because there weren't trained leaders, churches were closed. Through The Greatest Journey we've been able to see churches reopened.”
