

Thank you for walking around these pieces and parts of our new
Worship Space and more!

As you walk around we would ask that you make 7 (SEVEN) laps around the designated loop following the cones and other footprints. When you walk be sure to pray for whatever God lays on your heart for this project and the advancement of God's Kingdom through the sacrifice and dreams of His church theWELL.

Pray for these three things... **Favor. Finances. Faith.**

Favor.

God that you would grant us favor with all those who have a say in, will speak into, or are considering what to give to this work. Allow those who make any decisions concerning permitting, financing, or anything else related to theWELL and their ability to grow and reach into becoming the church You desire us to be! Keep the workers safe as they begin construction and allow the neighbors to see this as a blessing and not an imposition!

Finances.

God, You have been faithful before you will be faithful again. We know that everything that You have given to us is on loan.

We are mere stewards of it. God allow us to give out of our means but also out of our need for Your glory!

We trust that you will provide as you have already done and bring us to the goal that we need to commence and complete this building project before us. Have Your way, use whom You will use, and provide for us the way that You have always provided!

Faith.

God we look out and see a steel building that is in pieces and amounts to nothing in its current condition. BUT... just like our lives, when You take the broken pieces and You do the assembling - You create a structure that is a testimony to Your creative genius and glory! God would You use this process, this project to increase our FAITH in You! Bring us to a place of total dependency on You and open our eyes to Your wonders and glory in how You will and are continually FAITHful to Your church. Faithful You have been and FAITHful You only know how to be! Unite us in FAITH. Challenge our FAITH. Expand our FAITH. And most importantly cause us to share the FAITH we have and know to be true in our FAITHful God!
