

World History  
According to  
God  
And The Science  
That Supports it  
Part 2

# Agenda

## **Last Week**

- “Young” Earth Timeline - why it matters
- Biblical texts dictating the Young Earth Timeline
- Where an Ice Age fits in and the cause of it
- Human populations over time
- A proper perspective of the world from a Young Earth

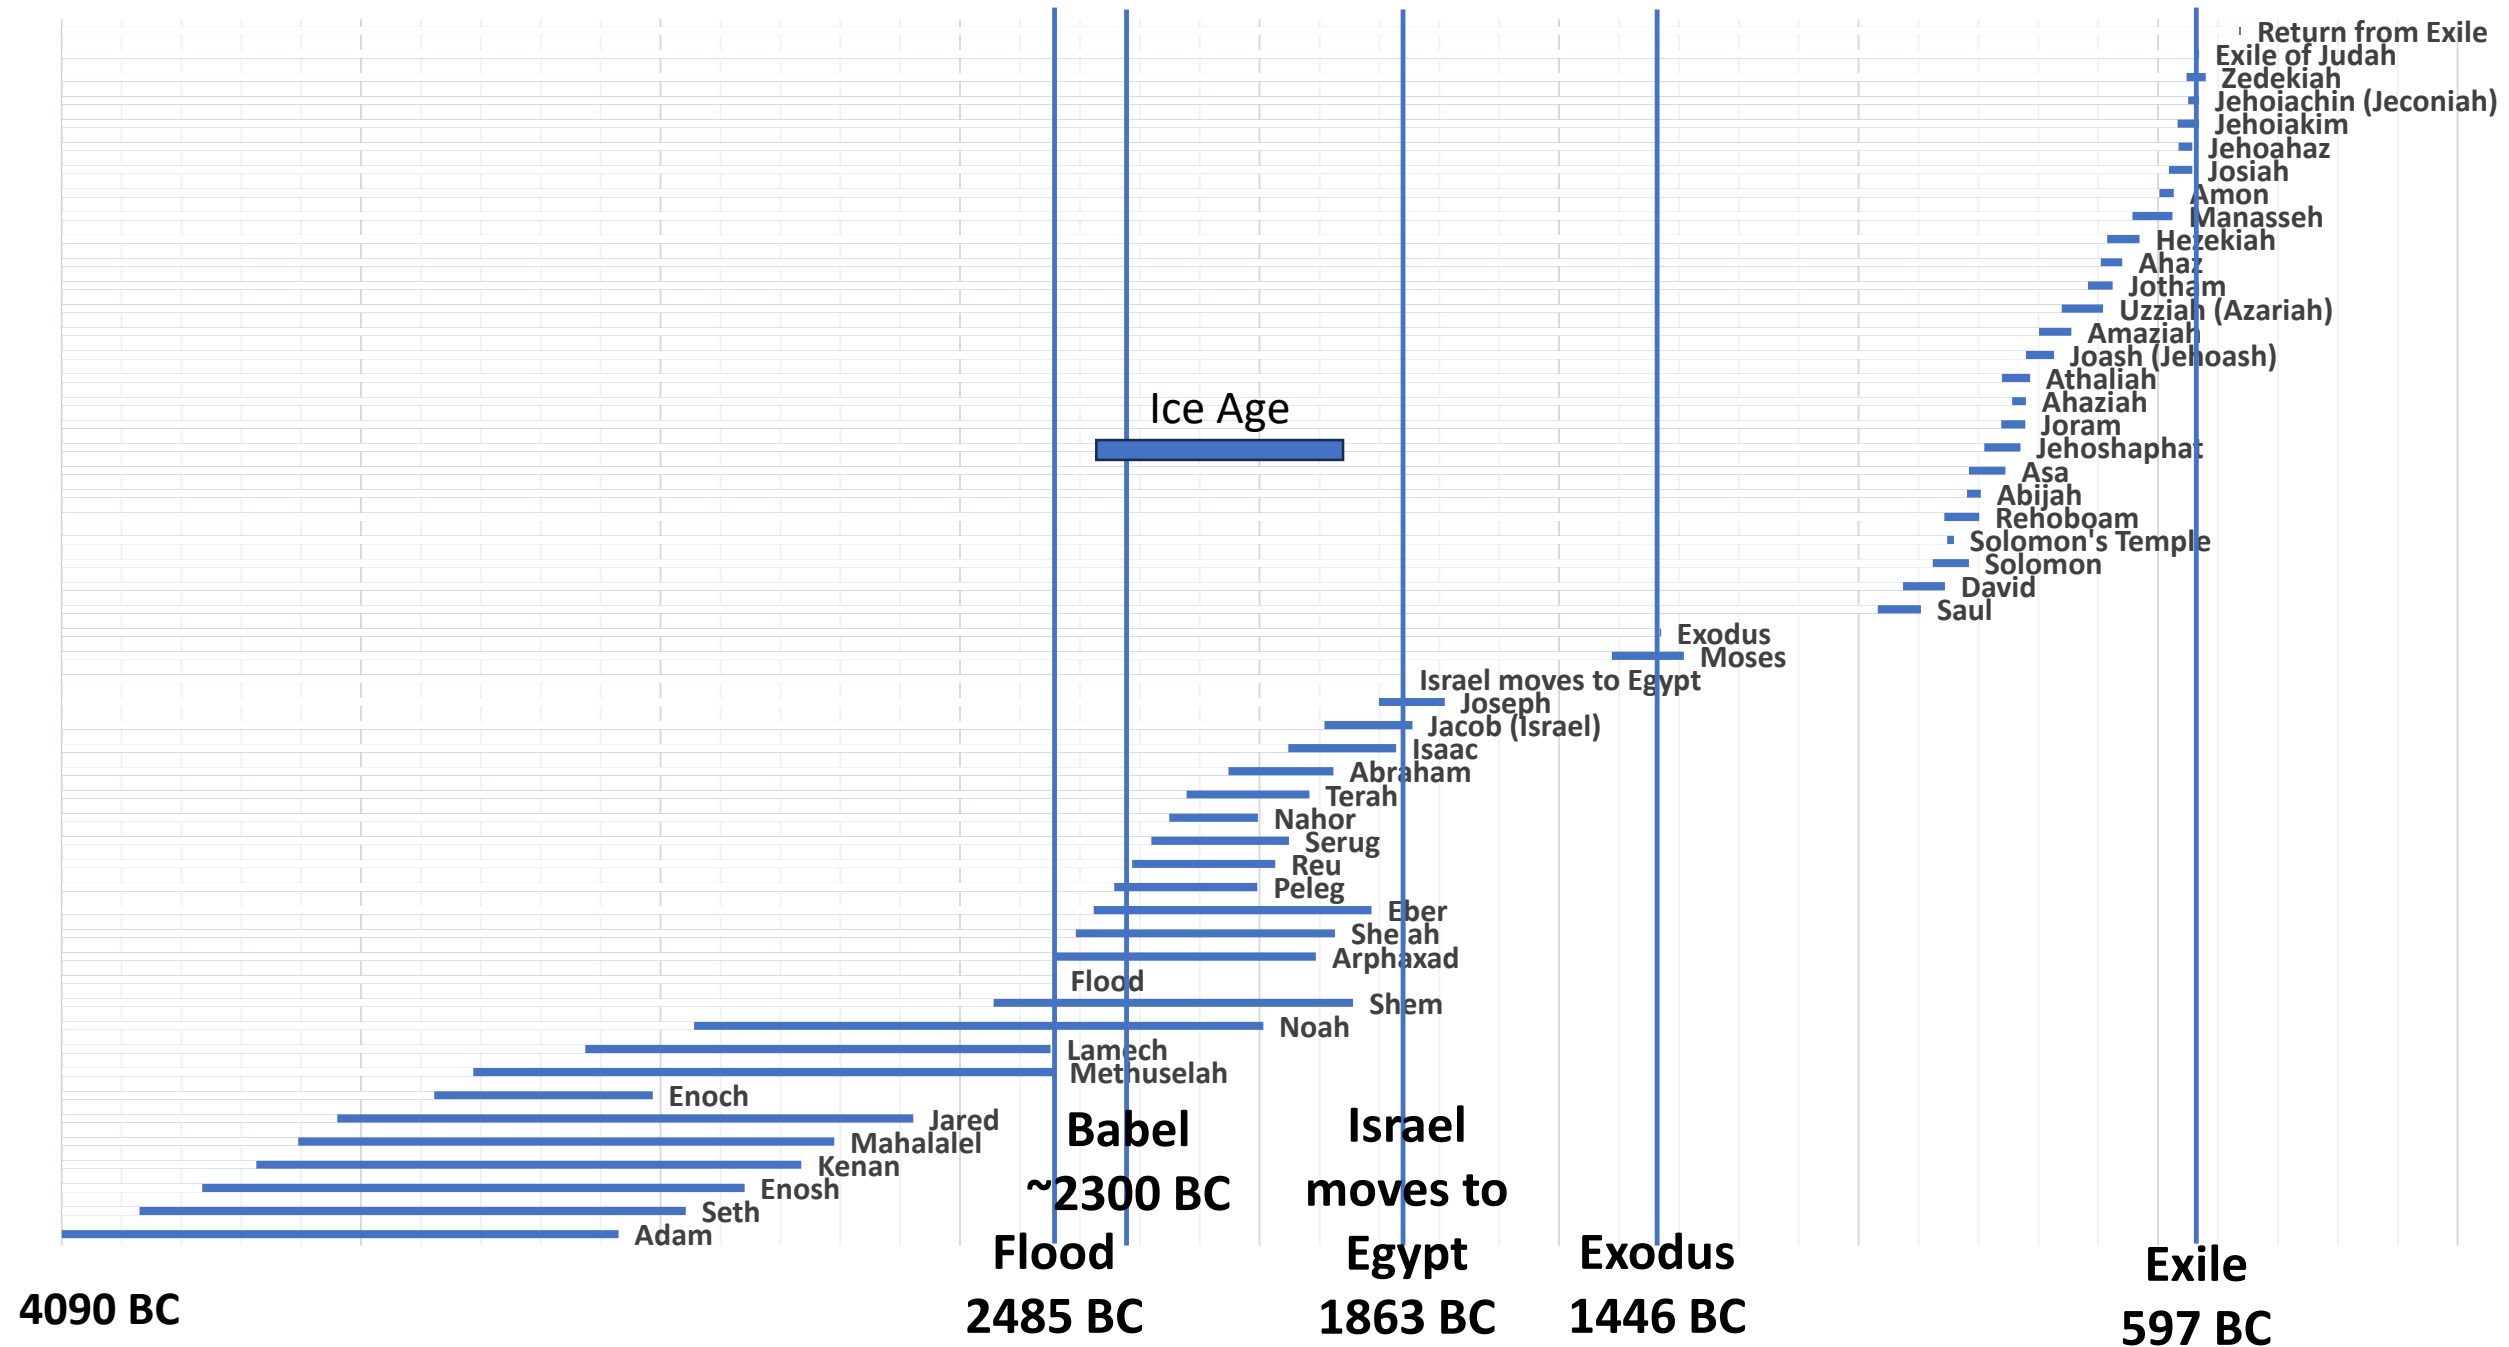

## **Today**

- Scientific data demonstrating a Young Earth
- The rock layers
- The fossil record
- Radiometric dating
- Dinosaur soft tissues
- A scientific timeline from DNA

# Review: World History According to God

- The bible gives us a complete timeline of earth's history
- The timeline demonstrates a young earth and leaves no room for an old earth
- Why it Matters:
  - Biblical truth always matters
  - God gave us a timeline with many, specific details.
  - Faith is trusting God, including what He wrote for us.
  - Abraham believed God and it was credited to him as righteousness
  - We are not free to pick and choose the parts of the bible we want to believe.
  - Either it's all right (and of God) or it's nothing more than a human work.
  - A "short" world history better demonstrates God's faithfulness and direct involvement with His creation.
  - The timeline matches the observable scientific evidence far better than a long timeline
  - A long timeline is not needed for an omnipotent God, but is NECESSARY for a "naturalistic" (idolatrous) view

# World History

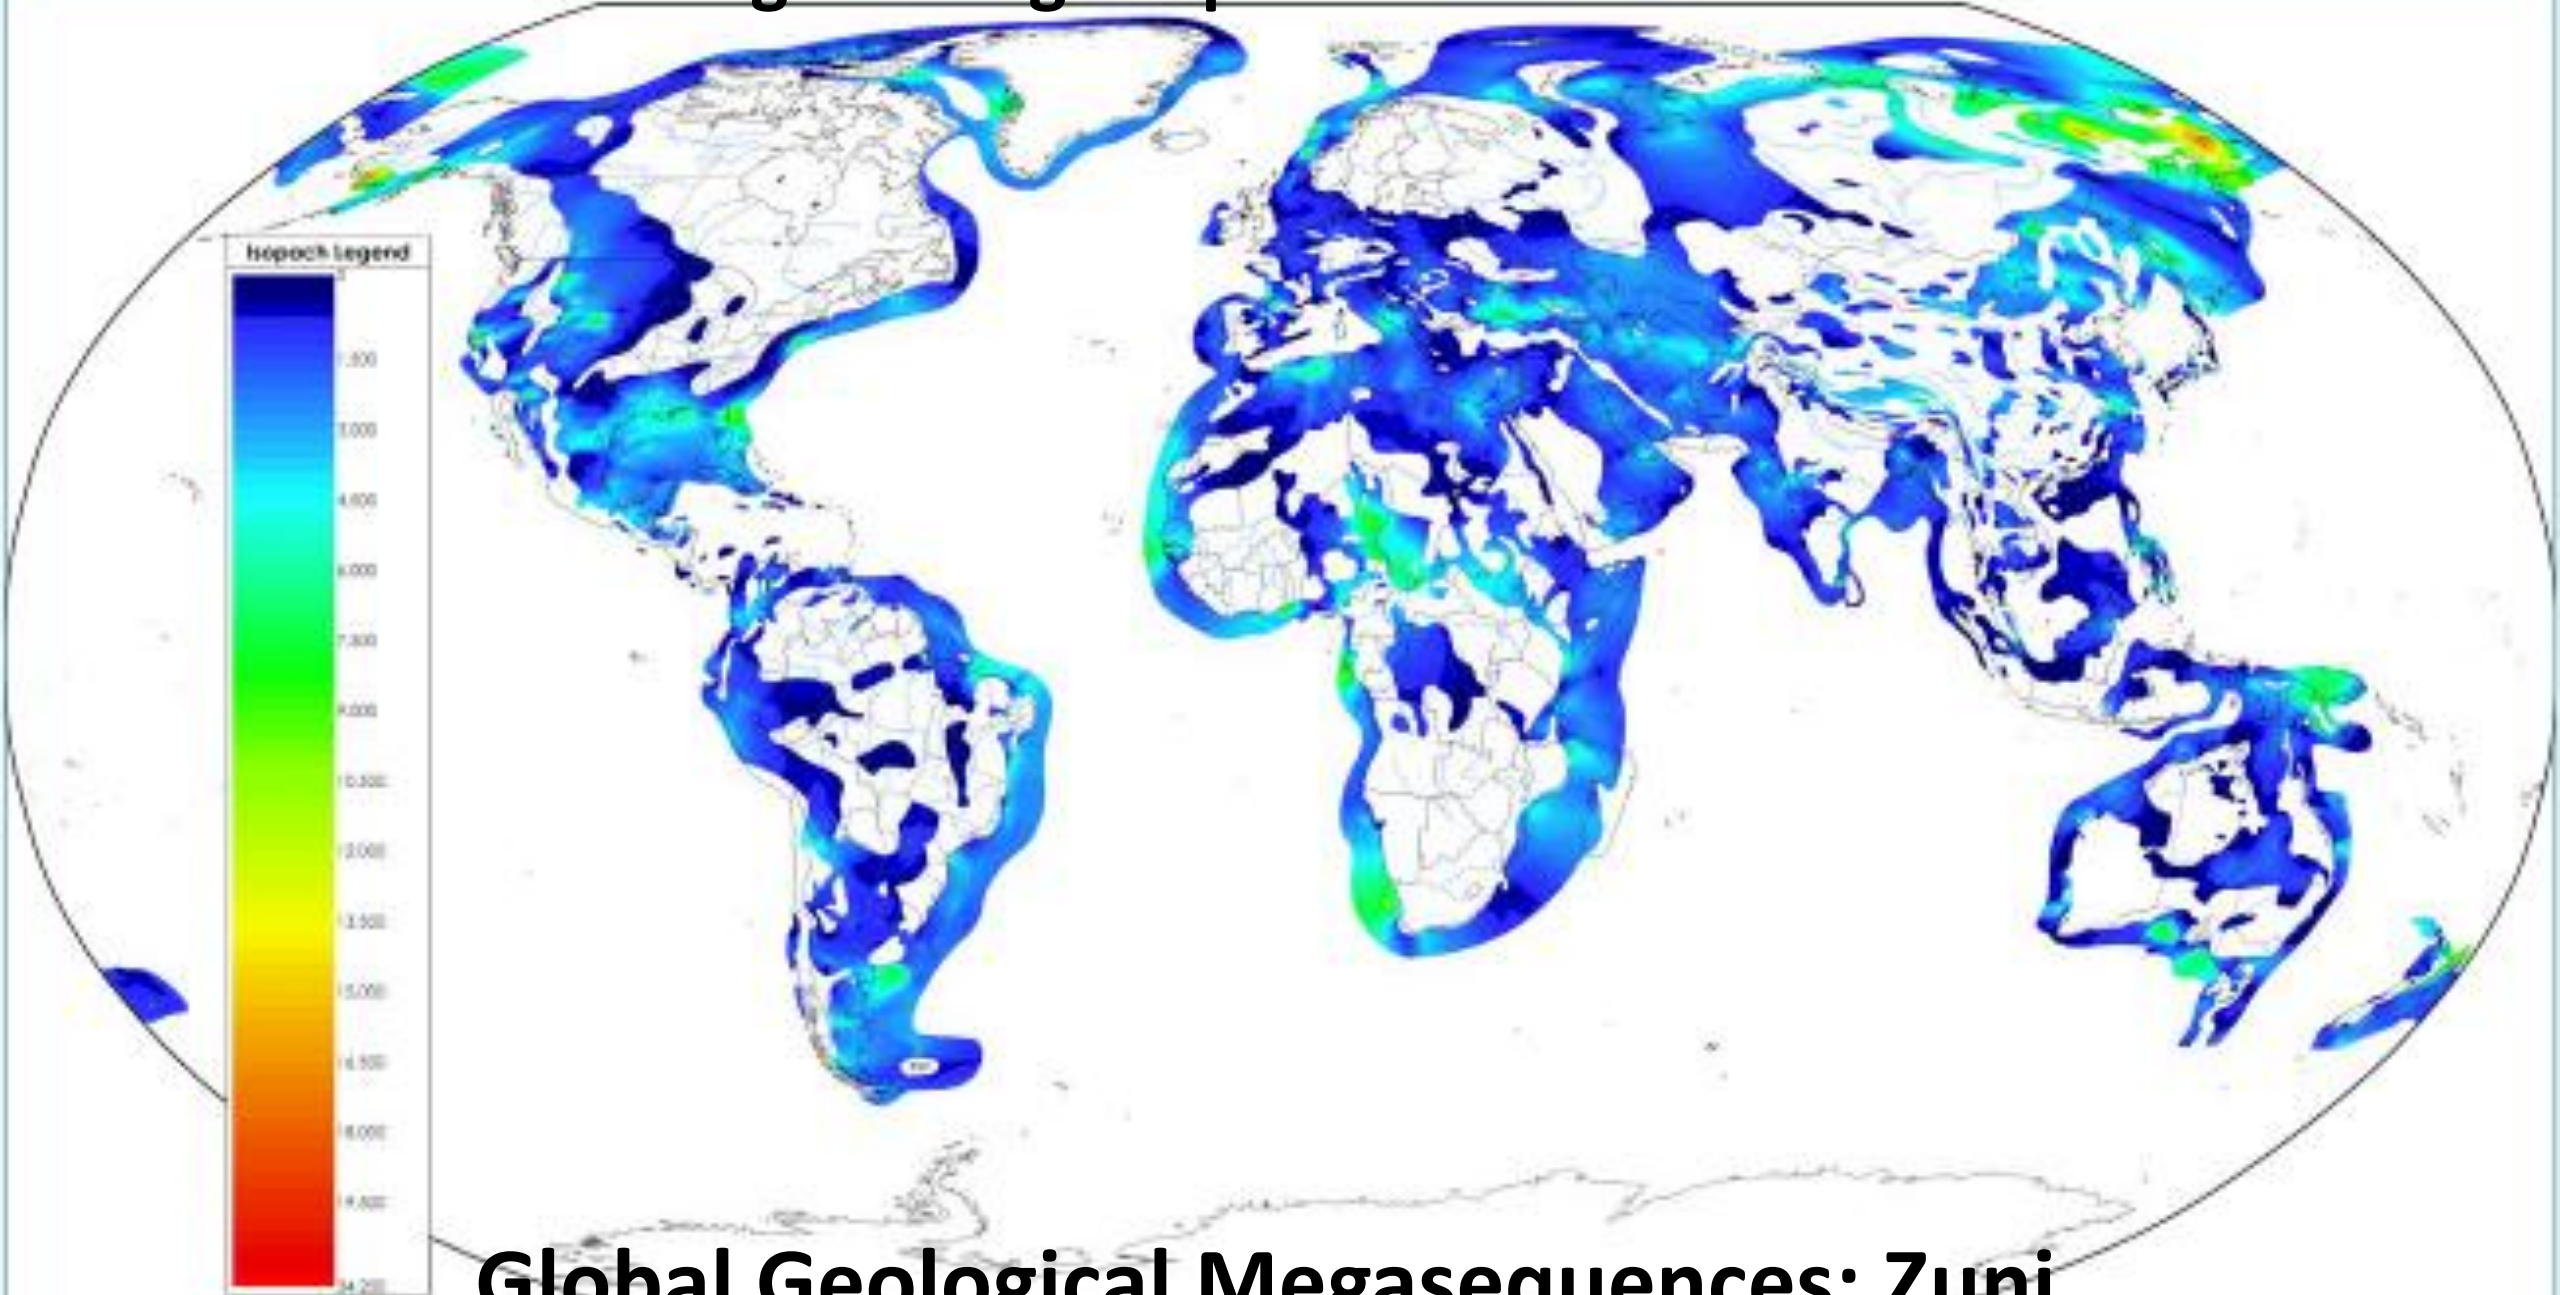

# A Matter of Faith

- Hebrews 1:1-3 Now faith is the assurance of things hoped for, the conviction of things not seen. For by it the men of old gained approval. By faith we understand that the worlds were prepared by the word of God, so that what is seen was not made out of things which are visible.
- Without God, ethics and morality are relative. Those who ignore or despise God, interpret data in favor of ANY alternative to creation, even when doing so requires a greater faith.
- Evolution is a belief system that violates the observable laws of physics, and requires great faith to substantiate the belief that everything in the universe came from nothing, organized itself into specific intelligent patterns, and autonomously and continuously created new information. Evolution is a religion of human authors that requires a greater faith than Christianity.

# Scientific Data Supporting a Young Earth: Rock Layers

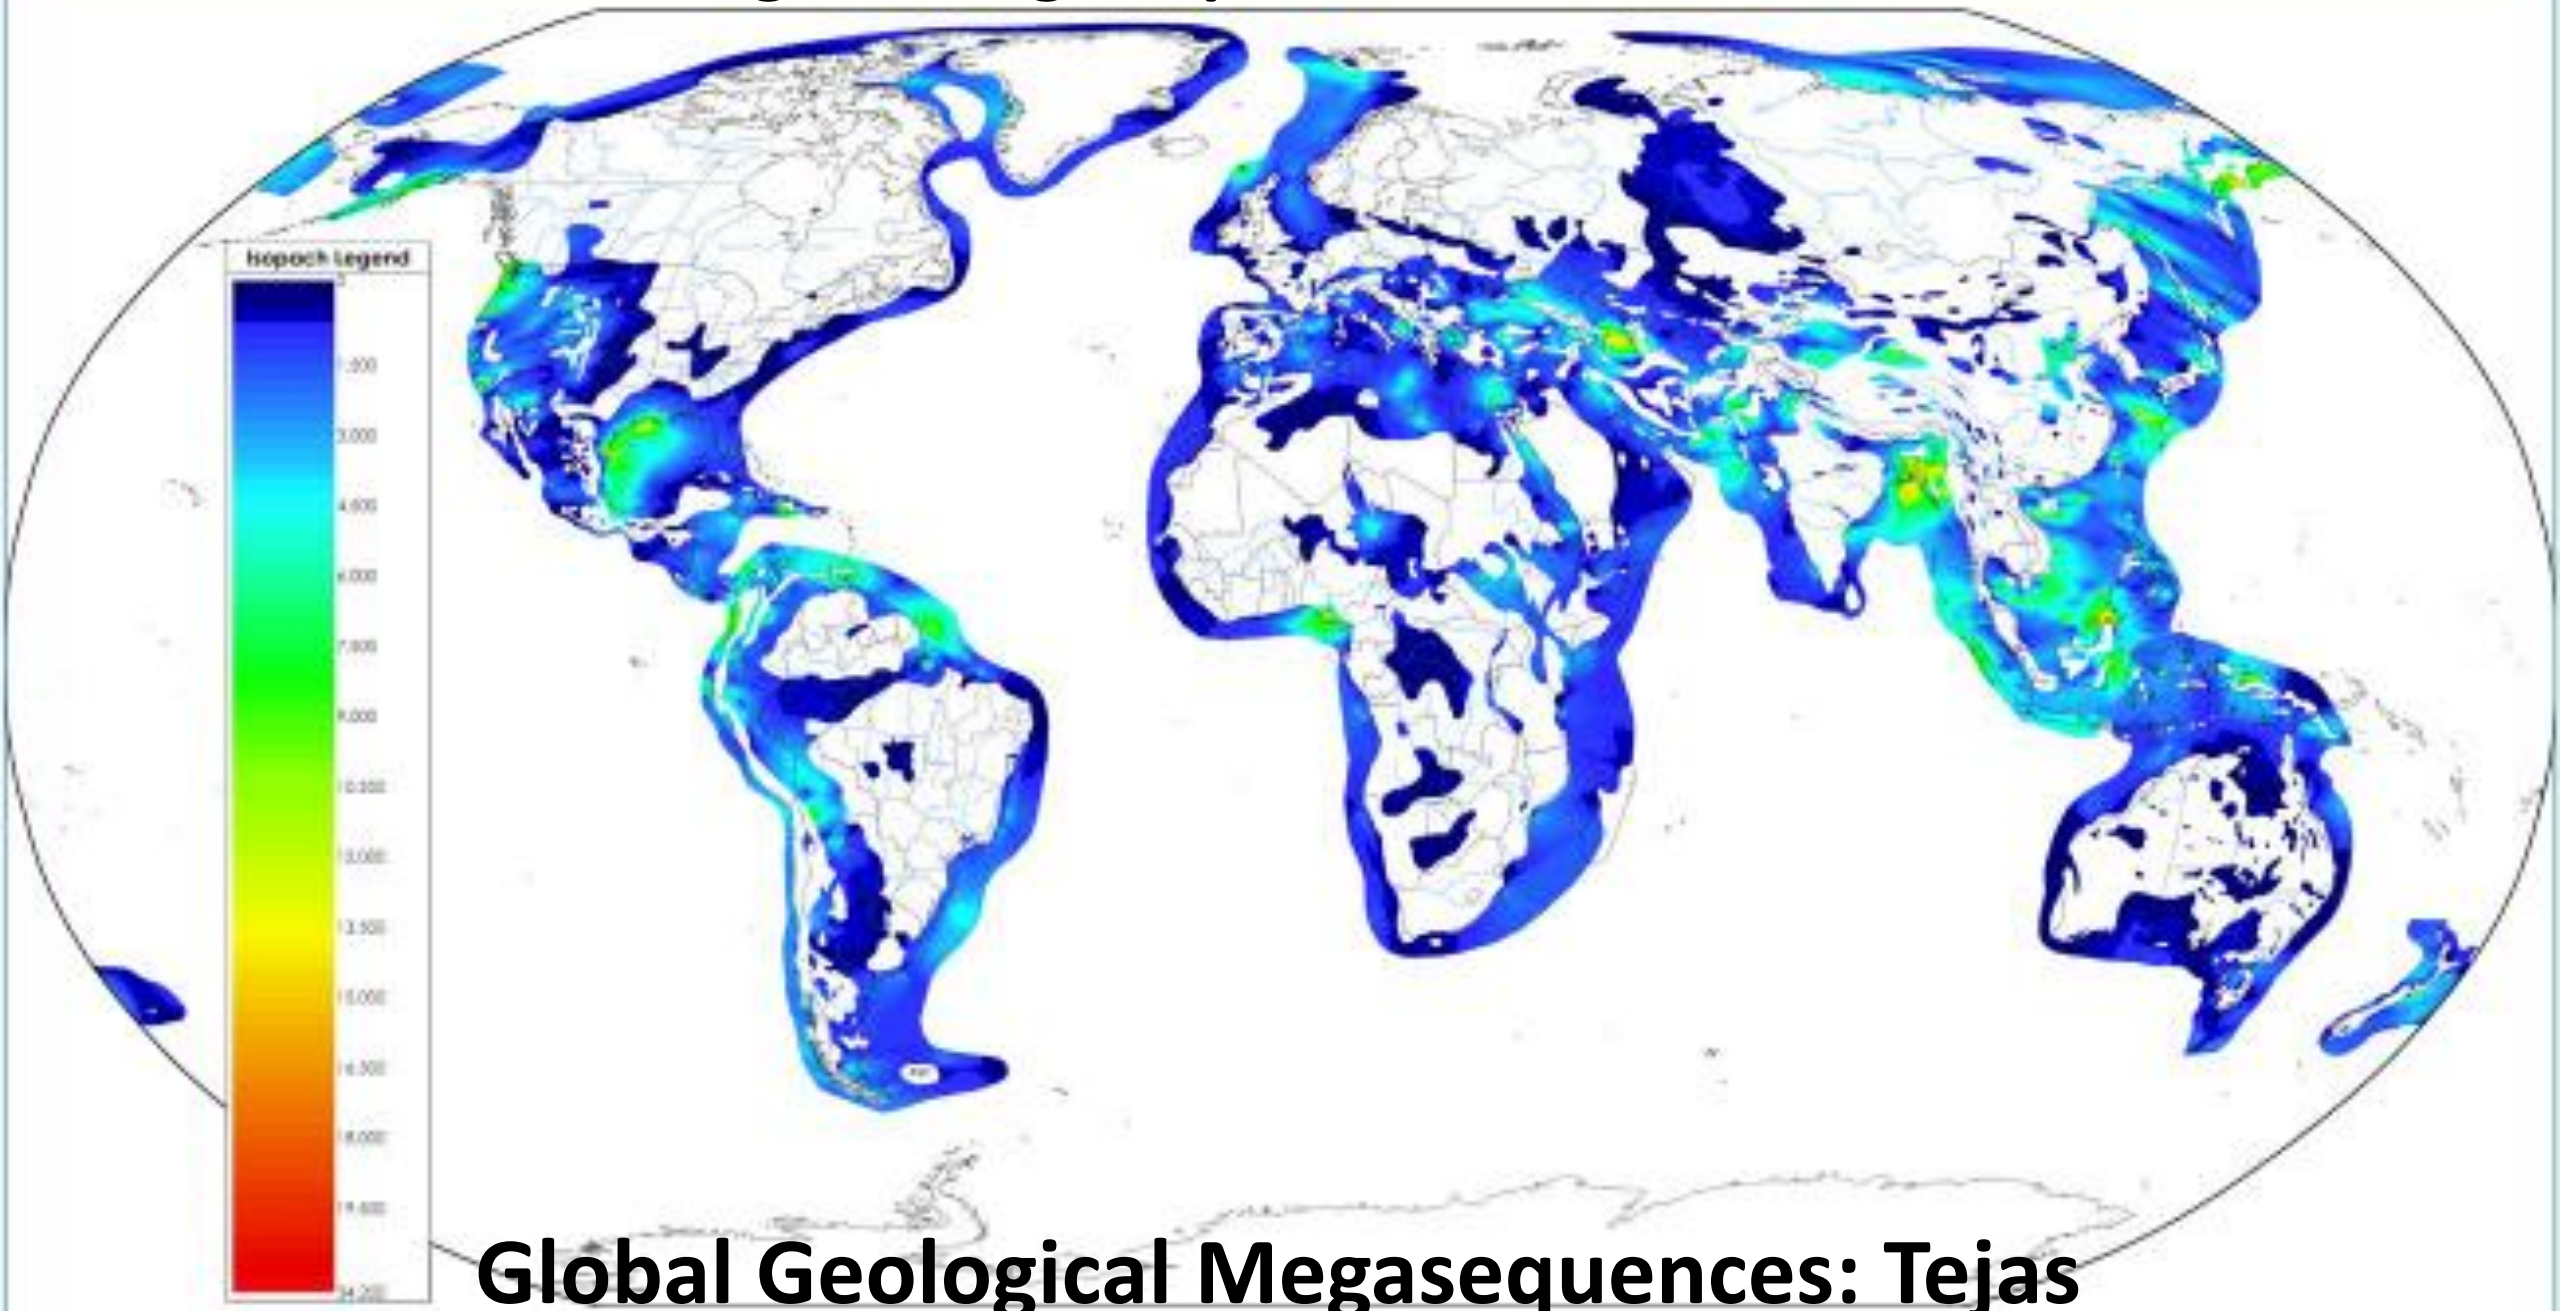

1. Continent sized geological mega sequences exist all over the world
2. Rock layers were laid down fast and show no erosion between layers
3. Rock layers are bent without breakage
4. Rock Layers show polystrate fossils that sit vertically through several million supposed years
5. Marine creatures are found in every rock layer

# Continent Sized Geological Megasequences Exist All Over The World

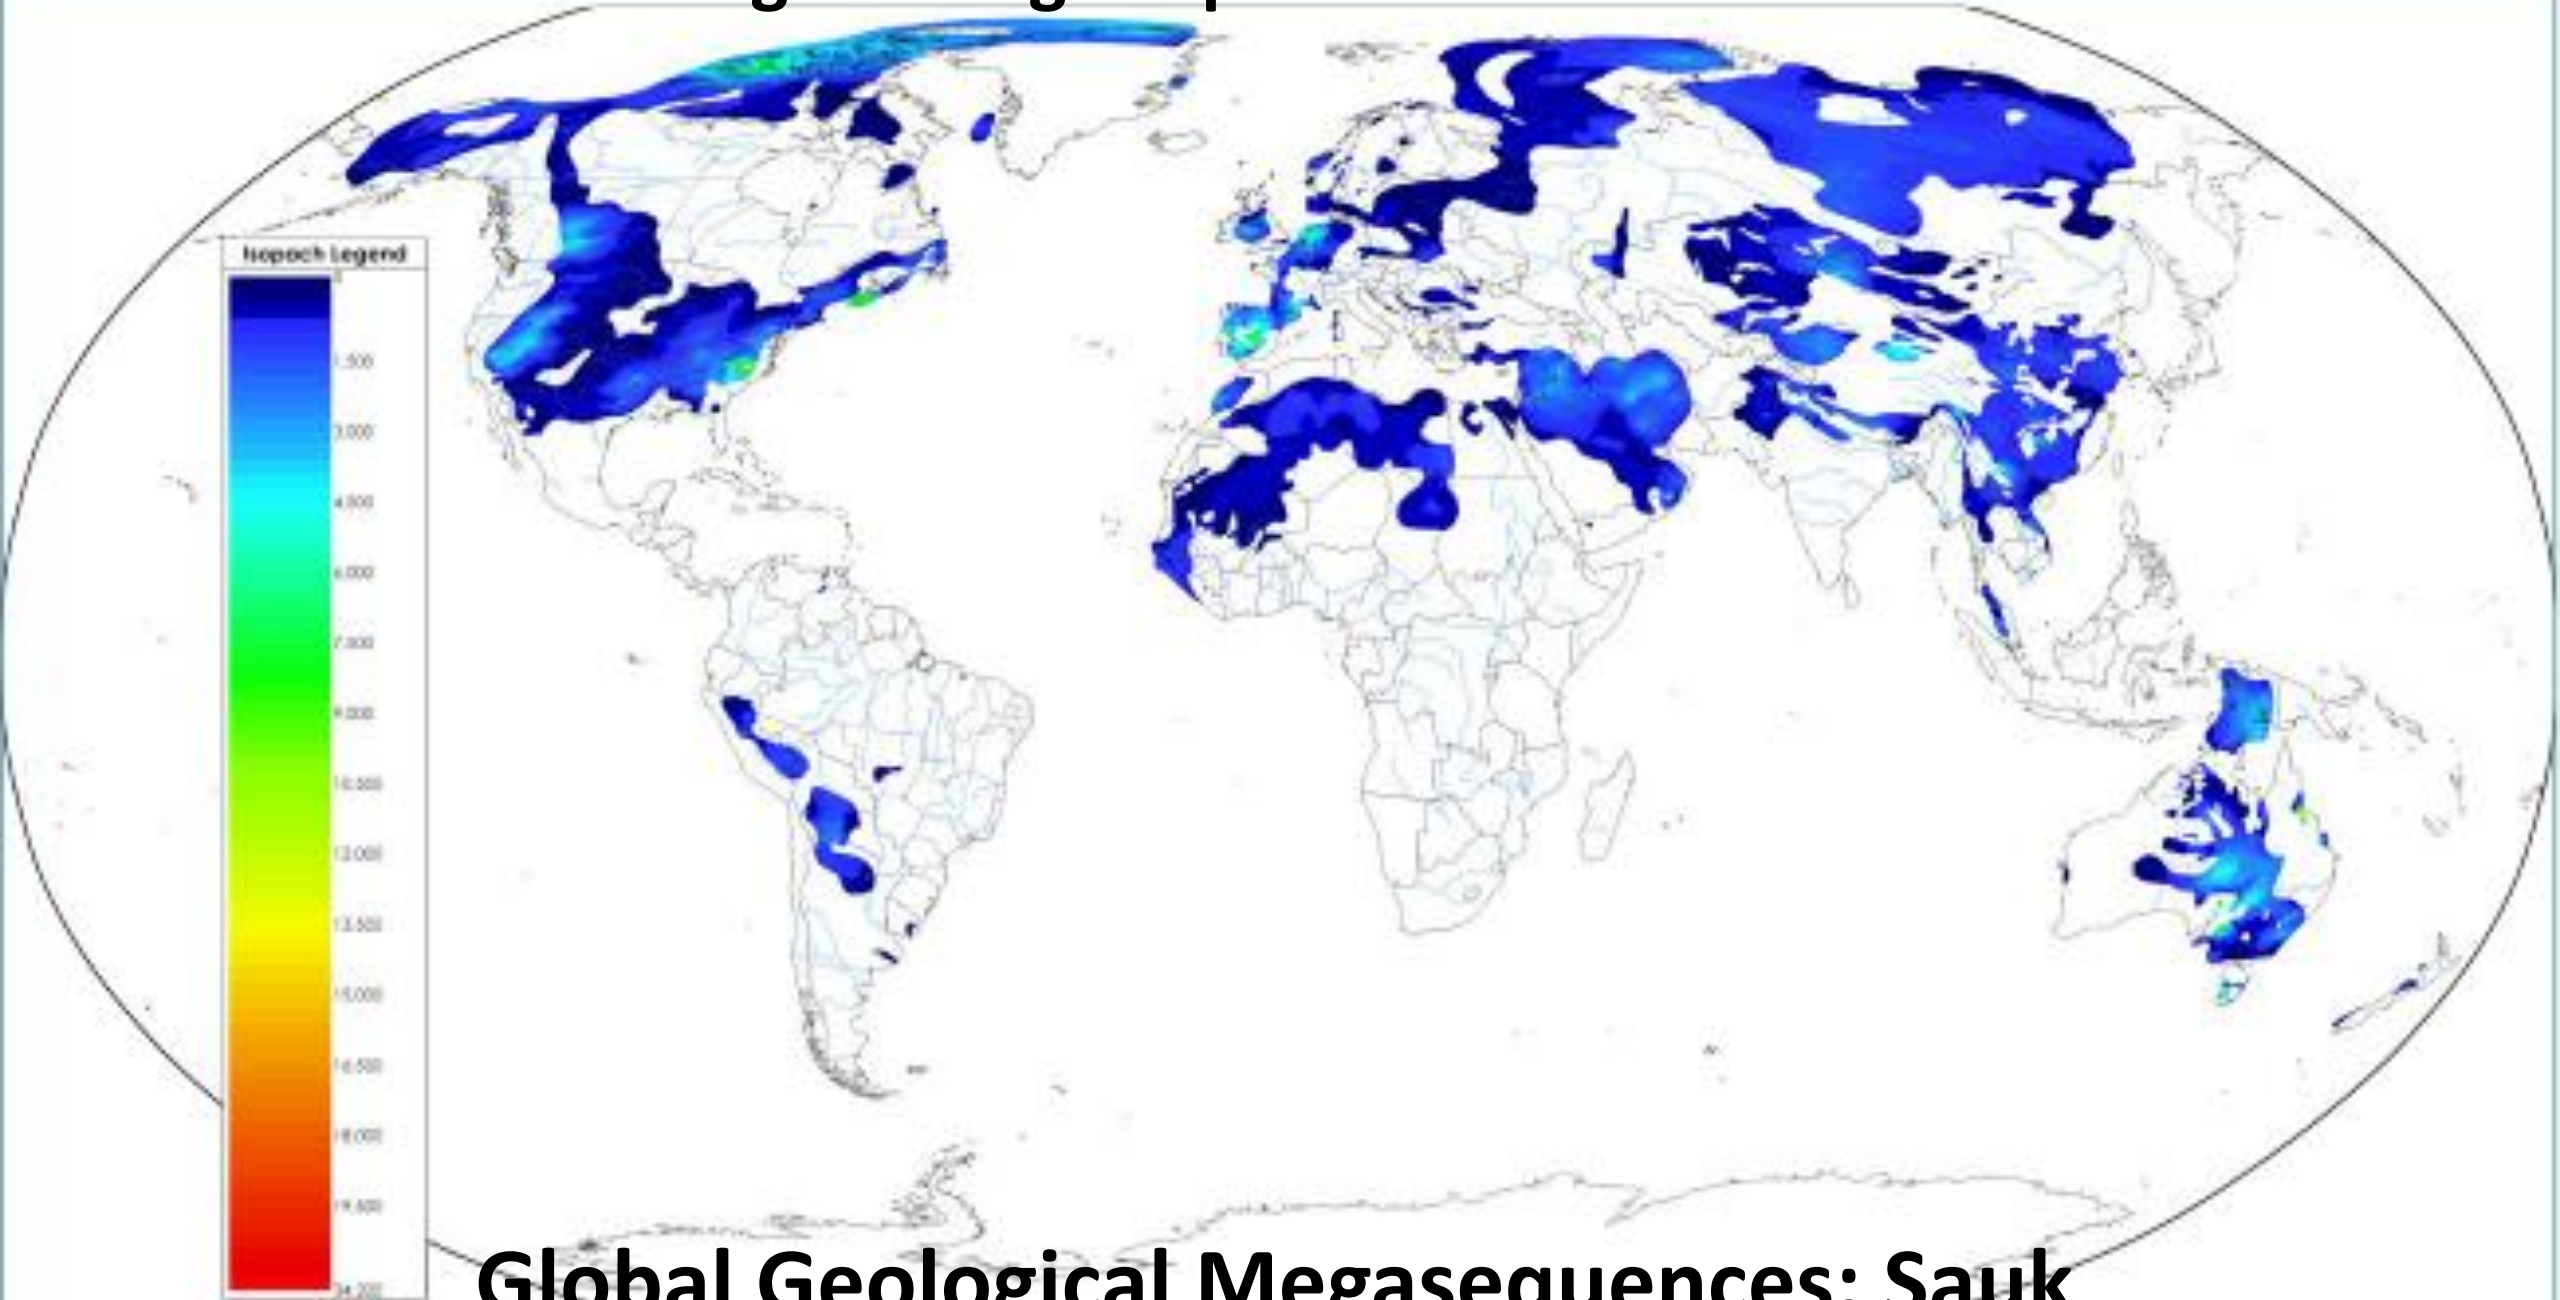

**Global Geological Megasequences: Zuni**

# Continent Sized Geological Megasequences Exist All Over The World

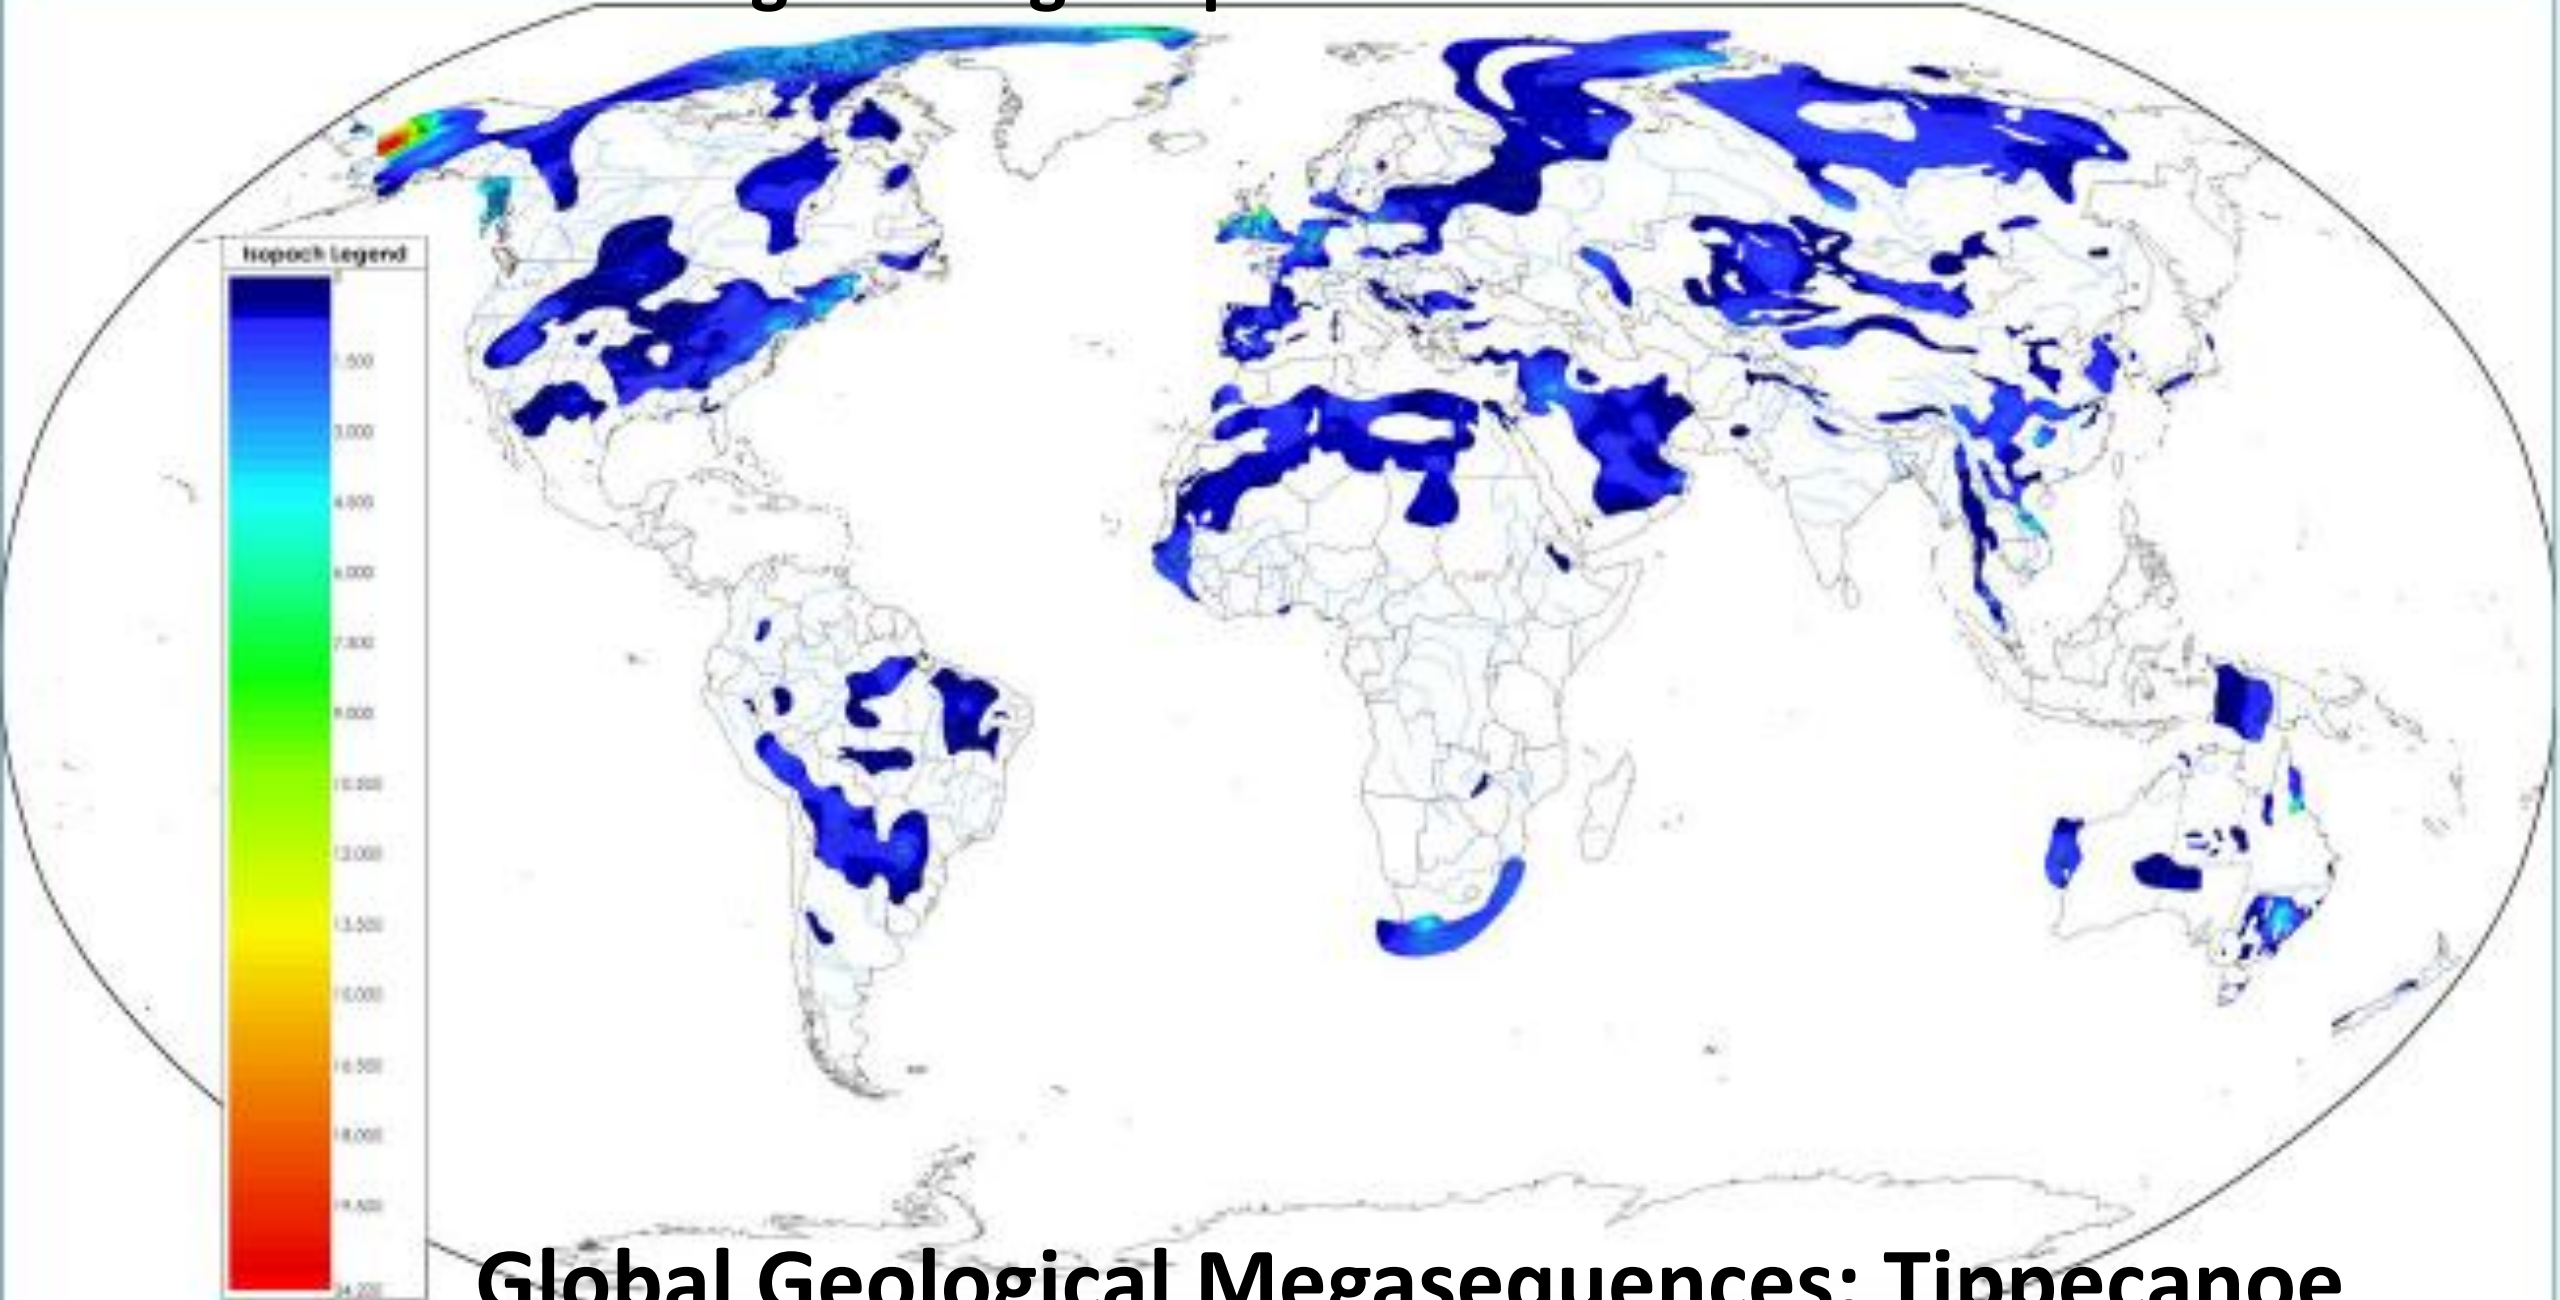

**Global Geological Megasequences: Tejas**

# Continent Sized Geological Megasequences Exist All Over The World

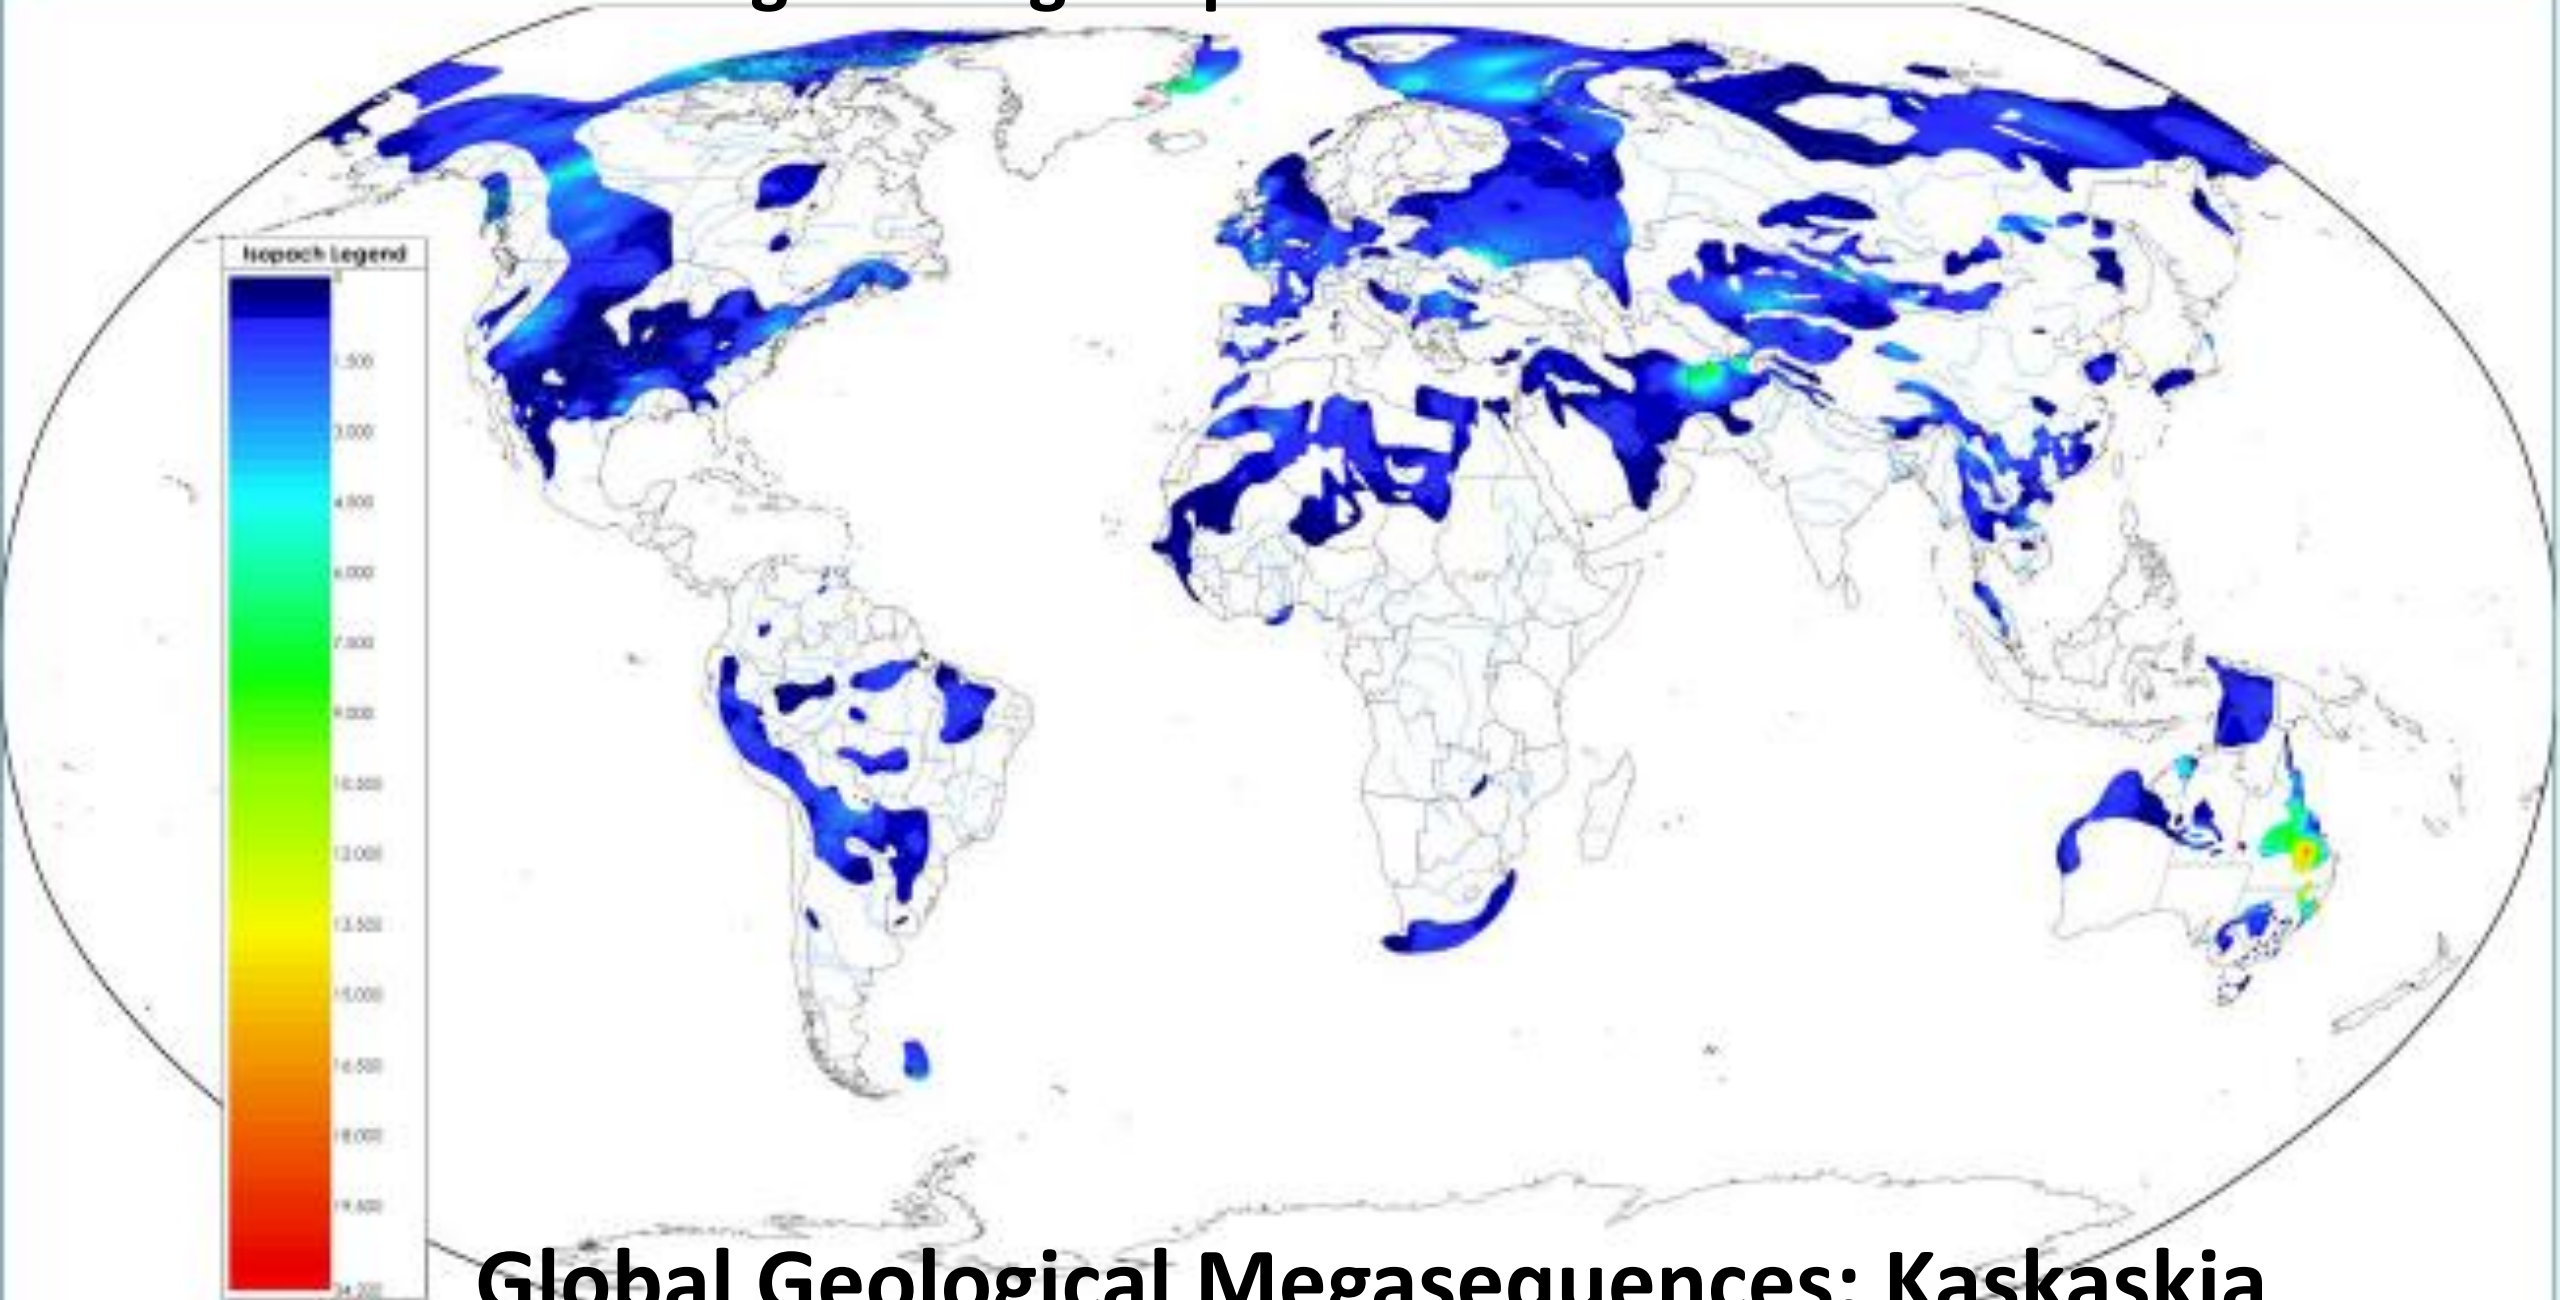

**Global Geological Megasequences: Sauk**

# Continent Sized Geological Megasequences Exist All Over The World

**Global Geological Megasequences: Tippecanoe**

# Continent Sized Geological Megasequences Exist All Over The World

**Global Geological Megasequences: Kaskaskia**

Rock Layers  
Show Little to  
no Sign of  
Erosion  
Between  
Layers

Bent Rock

Layers

# Marine Creatures in Every Layer

# Scientific Data Supporting a Young Earth: Fossil Record

- Marine creatures are found in every rock layer
- Fossilization requires rapid burial
- Most fossil dig sites claim a flood was responsible
- The so-called Cambrian explosion contains very advanced life forms AND creatures we still find alive today
- Every Phila that exists today is the same in the dinosaur layers
- The record shows birds exist in the same and older rock layers than dinosaurs are found
- The record show “STASIS” for creatures that still exist today – no change over supposed hundreds of millions of years
- The record also shows animals that exist in the fossil record, but do not exist today
- The record shows NO evolutionary “transition” species.

# Dig Sites Report Fossilization Caused by Floods

1. Tanis site (Hell Creek, North Dakota) — high-energy surge/flooding tied to the K–Pg impact DePalma et al. (PNAS) is the core “Tanis” scientific paper; it **interprets the deposit as laid down by rapid water surges**. A solid, accessible explainer pointing directly to that PNAS paper and describing the flooding/surge interpretation is: National Geographic – “These fossils may capture the day the dinosaurs died...”
2. Liscomb Bonebed (Prince Creek Formation, Alaska) — **mass mortality linked to overbank floods**; bones size-sorted within the bed. This paper explicitly connects the bonebed’s formation to **overbank flooding** and discusses sorting/stratigraphic structure of the bones: “Taphonomy and paleoecology of a bonebed ...” it states the assemblage resulted from mass mortality associated with overbank floods and notes size/vertical sorting.

# Dig Sites Report Fossilization Caused by Floods

3. Fluvial “unsteady flow” (**sheet floods / levee breaches**) as a mechanism shaping dinosaur bone transport & sorting — experimental paper used to interpret bonebeds. Chiappone et al. 2026, Paleobiology – “**When the levee breaks: experimentally testing dinosaur and mammal bone transport in unsteady flows**”
4. Pipestone Creek bonebed (“**River of Death**”, Alberta) — widely reported as a **catastrophic flood deposit**. “Fifty years at Pipestone Creek: New discoveries and insights from Canada’s densest dinosaur bonebed...” CBC News on Pipestone Creek bonebed mentions dinosaurs dying in a flood washing bones in.

# Cambrian Creatures Still Exist Today

- To evolutionists, the Cambrian explosion of life, but is really just the destruction of the biblical flood.
- The Cambrian strata are rich with fossils whose counterparts can still be found today, essentially looking the same as they did millions of years ago.

appear in rock layers above the Cambrian, as modern living creatures

- The so-called Cambrian explosion is just a period of time when more advanced life forms appeared abruptly after a long period of years ago and then disappeared. This is a completely different interpretation perfectly explained by the biblical account.
- The so-called Cambrian explosion is just a period of time when more advanced life forms appeared abruptly after a long period of years ago and then disappeared. This is a completely different interpretation perfectly explained by the biblical account.

## Stasis in the Fossil Record

Sand Dollar

Jelly Fish

Lobster

Nautilus

Coelacanth

Horseshoe Crab

# Stasis in the Fossil Record

Wollemi Pine

Fern

Dragonfly

Frog

Chicken

Humans

Geologic  
Features  
Caused by  
Floods

# Scientific Data Supporting a Young Earth: Radiometric Dating

- Accuracy requires knowing the starting content of parent element and daughter elements, constant decay rates, and accurate measurement.
- Radiometric dating methods do not agree with each other, so scientist pick the method based on the age they “think” the sample is.
- Radiometric methods do not properly date items of known ages. Radiocarbon is closest.
- Radiocarbon or Carbon 14 dating is the best of the methods, but fails on multiple fronts.
- Radiocarbon cannot extend beyond “50,000 to 60,000 years”
- Radiocarbon uses circular logic for tuning
- Radiocarbon should NOT be present in coal, diamonds and dinosaurs if they were really as old as claimed
- Radiocarbon ignores impact of decaying magnetic field of the earth. A stronger field in the past means much, much shorter C14 dates.

# Scientific Data Supporting a Young Earth: Dinosaur Soft Tissue

- Dinosaur soft tissues became well known in 2005 after Mary Higby Schweitzer published her findings
- She first found red blood cells in the 1990's and published a report to try to describe how red blood cells could be preserved for millions of years
- Many descriptions before Schweitzer reported dinosaur's like "mummies", with skin preserved, "leathery" skin and "fleshy" and "cartilage-like" materials
- 16 types of soft tissues have been found in dinosaur bones, including DNA
- These fossils "stink" (literally)

Scientific Data  
Supporting a  
Young Earth:  
Dinosaur Soft  
Tissue

# 16 kinds of Original Dinosaur Soft Tissues found

- DNA
- Skin Pigments
- PHEX (proteins)
- Histone H4 (proteins)
- Keratin (structural protein)
- Elastin
- Chromosomes
- Cartilage
- Nerve Cells
- Blood Vessels
- Hemoglobin
- Red Blood Cells
- Osteocytes
- Ovalbumin (proteins)
- Chitin
- Unmineralized bone (not fossil)
- Collagen

# Scientific Data Supporting a Young Earth: DNA

- 3 Types of DNA used in Genetic: Nuclear, mitochondrial, y-chromosomal
- Nuclear – the normal DNA- from both parents
- Mitochondrial – passed from mother to children – allows tracing of maternal line
- Y-chromosomal – passed from father to sons, allows tracing of paternal line
- Mitochondrial and Y-chromosome DNA change regularly and therefore provide a “time stamp” that can be used to track the time from a common ancestor
- A person’s DNA degrades during their lifetime with small mutations
- Some errors are made in copying DNA
- Evolutionists would claim these mutations can lead to new features/creatures
- Reality is destructive, not productive = genetic entropy
- Nathaniel Jeanson – “Traced”

## Conclusions & Observations

- The scientific evidence far better supports a young earth, consistent with the bible timeline, than an older earth.
- Evolutionists generally believe in uniformitarian process at rates we see today, but when the evidence leaves no option for this, they accept that catastrophic events in the past happened. They just won't accept a biblical catastrophic event.
- The evolution religion requires extravagant and unscientific explanations for how many things happen.
- The limited scientific evidence provided here, just scratches the surface of the extensive body of evidence available
- No matter how much evidence a person looks at, at the end of it, it is still a matter of faith.
- Rom 1:20 "For since the creation of the world His invisible attributes, His eternal power and divine nature, have been clearly seen, being understood through what has been made, so that they are without excuse."
