

The Ripple Effect

God doesn't make junk.

God created you to make waves.

Discussion Questions:

1.) What lies like these do you need to let go of as you follow Jesus?

- "I am not going to join that group because I don't know as much about the Bible as they know."
- "I'm not going to lead a small group because the people in the group probably know God way more than I do."
- "I'm not going to help out in the community because what good could I do?"

2.) Read Genesis 1:26-31. How difficult is it for you to accept that you are created in God's image? How difficult is it for you to accept all people are created in God's image?

3.) Christianity has had an incredible impact for good in the world but has also been a part of injustices that have not shown Jesus' love. Read Matthew 22:36-40. How would your life and those of your family, friends, neighbors, and co-workers change if Christians followed Jesus wholeheartedly and obeyed His greatest commandment?
