

**PART 1: ???**

**DATE: 06-14-2020**

## START

All throughout our lives we experience events that launch our lives into a new normal. Graduating from high school, getting married, having kids, the death of a loved one, the loss of a job and many other events. Whether good or bad; planned or unplanned, these events cause new normals. During our new normal God wants to do the super normal.

- What has been an event in your life that has launched you into a new normal?
- How has God worked in your life during new normals?

## READ

[Acts 1:8](#) (NLT)

But you will receive power when the Holy Spirit comes upon you. And you will be my witnesses, telling people about me everywhere – in Jerusalem, throughout Judea, in Samaria, and to the ends of the earth.

## THINK

Jesus placed a mission in front of the church. We would be given power through the Holy Spirit and we are to tell people about Jesus everywhere. To people in our hometowns, to people in far away places, and even to people that we wouldn't normally associate with. Currently in our country, there is a lot of racial tension. As the church we are called to love like Jesus loved and fill the gap. In order to do this, we have to recognize the tension it raises in our lives.

- What tensions are present in your life that you need to lean into?
- Who do you need to listen to and learn from during these times?

Chris said, "Let's not be consumed by our new normal and miss God's super normal." We have the opportunity to lean into what God is doing around us. Let us not be consumed by what our new normal is and miss an opportunity to partner with God to do something super.

- What do you sense that God is trying to do in this time of a new normal?
- How can the church partner with God when it comes to racial injustice?
- How can we stand beside our black brothers and sister during this time?

## PRAY

Pray that God we keep you attentive to the super normal He is doing and not to be overly consumed with your new normal.

## ACT

This week, seek out someone you normally wouldn't hang out with. Have a conversation with them. Listen and learn from their experiences.
