## Genesis 3.4-6

Sin is the problem; the seed is the solution.

### 1. Doubt. Verse 1.

- The authority of God
- The goodness of God.

He minimized the tremendous freedom they already enjoyed by maximizing the one restriction God had put in place for their own good.

### 2. Distortion Verse 2.

### 3. Delusion Vs 4-5.

Satan promised...

- No consequences
- Special knowledge
- God-like status.

We make ourselves God whenever we refuse to acknowledge God's authority and reject His truth.

The doubt that Satan planted in her mind, caused her to distort the Word of God which then produced within her an unholy desire that would have dire consequences.

He convinced her that her significance lay in a position rather than in a person

### 4. Defeat Verse 6.

**And I will put enmity between you and the woman, and between your seed and her seed; he shall bruise you on the head, and you shall bruise him on the heel."**
