

Melchizedek and The 360-day - Calendar?  
The Calendar, Its' Priesthood and its' Officers.

Pt. 31

From our previous studies, we're proposed that the Melchizedek Priestly Order would have been charged with the administration of the Divine Appointments. An office, that could only be established by the 360-day - Creation Covenant Calendar. This office initially is occupied by Man as The First Adam is seen in **Genesis 2**. Moreover, if we agree with the writer of **1 Cor. 15:45**, then Yahshua would have perpetuated that office in His role as "*The Last Adam*".

I would like to expound upon certain topics that confirm the plan and purpose of the Melchizedek Priestly Order and its' relation to the Creation Calendar.

To begin, let's look at what is found in **Ps. 110** which is known as the Coronation Psalm. Is it simply an oversight that verse **4** follows the Kings' coronation with the next statement institutionalizing the Priestly office as well? Or, are the offices of King and Priest being united in the Person of the One Crowned here?

*...YHVH has sworn, and will not repent, Thou art a priest forever after the order of Melchizedek*

In addition, this Psalm uniquely connects us broadly across the New Testament: **Matt. 22:44, Acts 2:33, 7:55-56, Roms. 8:34, Eph. 1:20, Col. 3:1, Heb. 1:3, 8:1, 10:12, 12:2, 1Pet. 3:22, Rev. 3:21**. In each verse a reference is made to this same Coronation Psalm where the King – in these cases – Yahshua - sits at the Right Hand of Elohiym! Wouldn't that seem to certify the Position of Yahshua as Melchizedek King and Priest? But what about the information regarding the right hand, is there another clue hidden here?

The Right Hand?

The right hand has always held a strategic place in Ancient Tradition, most often associated with the blessing of the First Born! One should remember, that the First Born is likewise tasked as family Priest! The Right Hand is also associated with direction finding; as in when facing north – where the right-hand points to the East – Dawn!

This has never been more apparent than when we address the Two Sons of Rachael and Jacob. First, we have Joseph – the Elder, first born, heir to the Melchizedek throne. His name indicates a shadow picture of Messiah: YHVH will do again...the 2<sup>nd</sup> born is Benjamin. Historically, though, his name becomes a curious anomaly.

Left-Handed People, please indulge me without taking these comments as a personal indictment. ☺

Defined as: *'The Son of the Right-Hand'*. A peculiar twist of fate forever casts him in the shadow of the Left-Handed men of the tribe. Their actions are contrasted symbolically against the right-hand both historically and biblically. Records exist among ancient tradition casting the left-handed men into a sinister role. This is clearly seen in the Line of King Saul, Ehud, the Benjamite rebellion and other 'left-handed men, who commit murder among other things. This biblical contrast has puzzled scholars for millennia. Why?

How do we frame the enigma where Benjamin, the Son of the Right-Hand, is portrayed as Left-Handed? What purpose does this Hebraic analogy characterize? It seems to prophetically paint a picture of the Fall of Lucifer, and Adam – Both occupying the Right-Hand position – Inheritance, Priesthood, Firstborn. Yet rebel against Elohiym! Until Yahshua, The Son of the Right Hand comes to restore their place and the offices belonging to it!

May I add: Allegorically, from Adam forward until the coming of Messiah, we are all: Left-Handed. Note the gematria (162) of Benjamin, H#1144, בנימין, the same as: H#6754, בצלם, Betzelem, *The Image*. First seen in **Gen. 1:27** where Adam was created in Elohiym's Image. A King-Priestly Status at His Right Hand! After the fall, all men are born in the corrupted left-hand image of the first Adam. Hence, the need to be BORN AGAIN!

Why is this important? Because we want to continue to show the relationship of the Melchizedek - King/Priestly - Order to the Creation Calendar of 360-days. This Creation Covenant Calendar is administered by: The First Born - Son of the Right-Hand. However, there will continue to be rebellious counterfeits who will introduce false, rebellious Calendars while feigning a First-Born, Right-Hand Status!

As we continue, the Heavenly Calendar Circle is our Positional pattern of Status. One, whose ordinal, ancient compass points were divided into 4-quadrants of 90°-

degrees each: North, South, East and West. Ideally, we find the Holy Convocations celebrated in those same quadrants of the Creation Clock!

Notice: 90 is the value of the Hebrew letter Tzade – representing Righteousness! While at the same time 90 is the gematria of H#4428, מֶלֶךְ, Melek - meaning 'King'. It would seem even in the design of the Heavenly Circle and its' quadrilateral center that a prophecy of the Melek – Tzedek - as the Squared - Circles' overseer - is intended!

Likewise, if we add the two figures we have:  $90+90 = 180$ . This is interesting because based on Biblical and Ancient Near Eastern custom, Kings were crowned on Tishrei 1 – 180-days – from the year's beginning! Moreover, history records that those same Kings were inducted at the DAWN OF THE DAY! There also seems a historical connection to the King returning the following spring, in a humble fashion, presenting himself before the Elohiym and People at the Vernal Equinox! Coincidence? Give ear to what follows...

In The Day Of Thy Power. **Ps. 110:3**  
Appointment of The King.

**Ps. 110:3:** *Thy people shall be willing in the day of thy power, in the beauties of holiness from the womb of the morning: Thou hast the dew of thy youth.*

Indisputably, this simple accession phrase: “*in the day of thy power*” has to do with the day of the King's crowning. \*Note how that day starts ‘*from the womb of the morning*’. Let's examine the Hebrew text here. Again, we're expecting to find explicit language reckoned to the 360-day Calendar.

- Beauties, H#1926, הָדָר, hadar, splendor, adorning, to be high.

This word could be written as a phrase: Hey = The, while Dalet Resh gives us: Dor, to go round, to encompass, a circuit. The Circle?

- Holiness, H#6944, קֹדֶשׁ, Qodesh, translated most often as holiness, sacred, separateness.

But the idea is one of a severing or cutting off, a separation that results in holiness!

- Womb, [H#7358](#), רחם, rech`em, womb, from Racham indicating a bursting forth.

It's ancient meaning depicted to enclose or surround closely.

- Morning, [H#4891](#), מִשְׁחָר, Mish`char, the DAWN!

The latter part of the verse ...*thou hast the dew of thy youth*...is also quite intriguing!

- Dew, [H#2919](#), טל, Tal, translated (*Dew*), but derives from Talal, [H#2926](#), טלל, indicating to cover over.

This word is often associated with both the '*DAWN and anointing*'! \*See [Ps. 133: 1-3!](#)

Understanding this inferred definition tends towards the King being crowned – set into office initiating - HIS DAY OF POWER - at Dawn when the Womb bursts forth - THE HOLY HOUR WHEN THE CIRCUIT BEGINS ANEW! Pardon me, but doesn't this seem both RESURRECTION AND CALENDAR language?

### The Dawn-Day Start And Melchizedek.

Further biblical evidence supports the idea that the Kings were crowned/anointed at dawn, the moment the Sun's rays bisected the two Columns of the Temple (*Jachin and Boaz*) [2Kings 11:14](#), [2 Chron. 23:13](#). Why?

It is my opinion that Solomon's Temple and its' twin Columns would have presented an opening due East and West allowing for the Shadows' fall and its' subsequent marking, where the shadow moved in the same East – West orientation of the Wilderness Tabernacle! Those two columns were called Jachin and Boaz and were oriented Right and Left respectively.

Most Scholars agree they would have been fixed in position to indicate North and South, much like the orientation of your Gnomon to cast the shadow east and west!

- Jachin, [H#3199](#), יָכִין, Translated '*He will establish*', fix. To stand upright.
- Boaz, [H#1162](#), בֹּאֵז, Strong's has it '*fleetness*'. However, the more appropriate meaning would be '*The Strong One Coming*'.

Their combined names seem to indicate their purpose as establishing the PATH OF THE STRONG ONE – THE SHADOW WHO COMES!

I must confess, my simple generalized definition pales in comparison to what Parkhurst declares [P.233] where he opines: **...Collectively these names should have formed a distinct phrase declaring the reclamation of the Message of the Heavens as YHVH' s alone! Jachin hints at perpetuating this claim regarding the Heavens while Boaz cries 'In His Power or Authority'. Thereby, Elohiym formed this system into a machine by His essential and almighty power and gave it the mechanical strength or power that it demonstrates! (Machine indicating an unchanging, power-driven, and constant source – Author)**

Thence, from our observations above, it seems plausible to conclude that from Ancient Times a Dawn start to the Day would have been consistent with the Coronation of both King and Priest! This explains both euphemisms being used to refer to Messiah in **Ps. 110**. In fact, Yahshua calls Himself: The “*Morning Star*” (**Rev. 22:16**) as does Peter (**2Pet. 1:19**).

For consistency's sake we can also look at **Ps. 22** known as the Messianic Psalm. Quoted by Yahshua on the Execution stake. This Ps. Begins: [*To the chief Musician upon Ajeleth Shahar; a Psalm of David.*] ...

- To the chief Musician, **H#5329, למנצח**, L'menazach, the root of which is Nazach.

It has been translated ‘*musician*’ but can also mean ‘*to be bright*’, enduring, to oversee or superintend.

- Ajeleth, **H#365, אֵילֵת**, `ayyelet, rendered here as; doe, deer, hind, but is from the same root as Ayil - Ram!
- Shahar, **H#7837, שָׁחַר**, Shachar. Dawn.

This ‘*title*’ is often explained away in the KJV as simply a reference to a ‘*key or chord*’ given to the Chief Musician to be played. However, the Hebrew tells us instead, the Psalm is written: ‘*To or For - the Bright Ram who oversees the DAWN!*’

How fitting, that while on the execution stake, fulfilling His role as both King and Priest, out of all the Psalms He could have quoted, Yahshua chose this one!

As we continue. It is quite significant that Dawn and Dew are both powerful emblems associated with Resurrection, Kingship and Priesthood! This helps to put into perspective another well-known tradition that the Church took and explained in such a way that it invalidated this significant action! The Chronicles of the *‘Wise Men’*, their treasures and the specific timing of the event!

Why would the *‘Wisemen or Magi’* have brought these specific gifts? Their actions may have been watered down by history, but even King Herod knew such gifts would individually and collectively identify their recipient – Yahshua, The Messiah – as The Archetype of The Melchizedek Priest-King!

This would continue the domino effect of the Creation Covenant Calendars’ synchronization with the King – Priests’ life, that no other calendar can boast!

How fitting, that every recorded date and event, from His conception at Hanukkah – The Festival of Lights, to His subsequent birth would follow that Heavenly pattern! Including, the encounter at the Temple at 12-years old.

In addition, the timing of Yahshua’s death occurred at the exact moment the 360-day calendar required a Paschal offering. His resurrection, First Fruit, Omer Count, and His Ascension, would all, in like manner, reestablish both the Creation Covenant Calendar of 360-days and the King - Priestly Throne! Please consider...the connections are far too obvious to be accidental. Especially, when the fluff of tradition is removed.

#### Another Obscure Tradition – Prophecy of the King/Priest!

There is another very powerful prophetic declaration that we often overlook, the event of His triumphant entry into Jerusalem riding on the back of a donkey. This monumental event would have fulfilled **Zech. 9:9** and **1Kings 1:33-38** where Solomon rides in the same manner!

- Solomon, H#8010, **שלמה**, Shelomo – from Shalom/Peace!

The Donkey was an ancient symbol of Peace! How fitting that Melchizedek was the King of Peace! Ironically, Revelation reveals that His final appearance has Him riding on a Warhorse!

We must conclude:

The 360-day Creation Covenant Calendar is: THE CALENDAR OF PEACE!

Evidence of Calendar wars occurring between the Qumran and Temple Sects who were polarized between a 364-day Enochian calendar and a lunar/solar calendar should be sufficient to warn us: The Future Melchizedek King returns riding on a Horse – The Ancient Symbol of WAR! Simply put: Judgment begins at His House!

The Magi  
Who Were They?

History records that Daniel (*He, who without doubt kept the 360-day, Priestly Calendar*) was prince among the Wisemen or Magi of both Babylon and Persia! It is my contention that Daniel most likely lived as a Eunuch – and thus, would not have had a blood lineage with which to leave his inheritance. I believe he entrusts his inheritance to these ‘*Wisemen*’. Hold your place here...

The former point seems to be validated in **Daniel 1:1-6**. Where Nebuchadnezzar, King of Babylon captures Jerusalem. Follow me a bit longer to see why making this point is necessary.

Nebuchadnezzar takes the captured vessels of YHVH’s house into his treasury. While also placing the Seed – Sons of Israel’s King - in the hands of Ashpenaz, the master of Babylon’s eunuchs.

- Ashpenaz – H#828, **אֲשַׁפְנַז**, most translate this in a ridiculous fashion as: “*I will make prominent the sprinkled*”.

However, Parkhurst identifies Ashpenaz [*P.33 the root as a title of conjurers or magicians*]. In addition, in the text he is specifically referred to: As the Chief of the Castrated ones. Master of Eunuchs.

Please note: Daniel is in Jerusalem. Because of having been made a Eunuch, he, who like Melchizedek – The King of Salem/Shalom – now has no lineage, no posterity, but, is wholly devoted to serving Elohiym. Moreover, he WITHOUT DOUBT KEEPS A 360-DAY CALENDAR! Simultaneously, he seems jointly, kingly heir and priest! As such, Daniel then, is a powerful symbol paralleling that of Melchizedek! How can I make those assumptions?

## Daniel 1:8

*But Daniel purposed in his heart that he would not defile himself with the portion of the King's meat...*

Carefully consider these ancient definitions. Because we've been taught from a limited, biased view. Let's look at a couple of key words:

- Defile, [H#1351](#), גָּאֵל, ga'al, to defile oneself resulting in a removal from priesthood. Don't forget, this is also the same word as: Go'el – Kinsman Redeemer! Could Daniel - The Go'el – Like our Brother Yahshua, *'The Near Kinsman'* have served as the mediator between God and Man!

The Ancient purpose of the Kinsman Redeemer – Go'el – was to protect family integrity, property, and lineages. While rescuing family members from poverty, slavery, or destitution. Ensuring family survival. Can you describe the condition of Yahshua's parents at the time of the Magi's visit? They didn't have the funds to offer a lamb at His *'Redemption of the First born'* ceremony. Instead, they offer a dove.... Hmmm?

These words do seem to indicate that Daniel was not only of a Kingly lineage but clearly suggest that he was concerned of maintaining his righteous Priestly condition in order to ensure the perpetuation of the King/Priests/ family. It is acknowledged that Daniel was from the tribe of Judah! LIKE MESSIAH – not an heir to the Levitical hierarchal priesthood!

That Priesthood operates after the ADAMIC LINEAGE – Death works in it! Those priests occupy a Left-Handed status. Therefore, if Daniel is concerned about priestly defilement, it had to have been related to his role in the Melchizedek order! How can we reconcile this?

Let me state here: This position is abhorrent to all Rabbinic Jews! Who argue that Daniel could NOT have been part of the priestly lineage being outside the Levitical Order. The same position is held regarding Yahshua. Ironically, there is an extra-biblical text, specifically the Septuagint version of Bel and the Dragon, where 2 additional chapters are added to the book of Daniel. In this text, he is referred to as a priest.

## **The King's Eunuch.**

I found it interesting that all the above had been prophesied to King Hezekiah by Isaiah the Prophet. **2Kings 20: 12-18**. In addition, as stated earlier, this recorded event occurs on the heels of the Sundial incident. Hezekiah is subsequently judged by YHVH for allowing Berodach-baladan, the son of Merodak Baladan – King of Babylon to see all the Temple treasuries! Remember our earlier connection?

Daniel, then would have been quite familiar not only with the Prophecy about being made a Eunuch, but also well-aware of the historical Sundial incident, some 80+ years earlier! Sadly, most people explain away Daniels' 360-day timeline – 1260, 1290, 1335 – as simply a prophetic calendar.

Yet, it is scripturally clear that prior to Daniel the Biblical Calendar was in fact: 360-days: 12 months of 30-days! History records multitudes of Ancient Nations acknowledging the same!

It is my opinion that Daniel, in his effort to follow the Torah, where he freely acknowledges the Prophecy of Isaiah regarding Hezekiah's sons being taken captive and made Eunuchs, as self-fulfilling. Therefore, I contend, he would have also worked carefully to perpetuate the Creation Covenant Calendar as well!

#### Daniel and Nebuchadnezzar

Brace Yourself, I'm About To Take You Out On A Long Limb!

I firmly believe that Daniel adhered to the 360-day calendar. Therefore, I found it interesting that **Dan. 4:19, 29 and 33** mentions 2 specific time frames which, based upon both Daniel's calendar and the previous hexagesimal - *Base-60 system* - the original Babylonian calendar would have to be fixed to the Creation Covenant Calendar: 1-hour - 12-months. 60-minutes, 12-months of 30-days: 360-days.

History records that Babylon, Egypt, the Mayans, and many other Nations followed the same. Most, likely embracing a change between 75-100 years after Hezekiah's sundial incident, in all probability during the reign of King Nebuchadnezzar, who I believe, advocated the change to a Lunar/Solar Calendar in opposition to that of Daniel. Nebuchadnezzar becomes the instrument of that change.

Babylon later becomes the mother of the LUNAR/SOLAR, sliver moon calendar. Still being embraced by the Sons of the exiled Jews!

So, have you ever thought about what caused Nebuchadnezzar's 7-years of 'insanity'? Was it in response to his calendar fraud? Did YHVH Himself touch

Nebuchadnezzar, or did He simply warn him of impending disaster? WHAT REALLY HAPPENED?

Read **Daniel 4**: regarding the King's dream – a warning from YHVH. Then, Note **Dan. 4:30**:

*The king spake and said, Is not this great Babylon, that I have built for the house of the Kingdom by the might of my power, and for the honor of my majesty?*

- Might, **H#8632**, **תקף**, Teqof – translated 'strength, might'. But it is the root of **H#8622**, **תקופה**, Teqofah! Coming round, circuit of time, a turning.
- My Majesty, **H#1923**, **הדר**, hadar, translated here as: majesty, but earlier in **Ps. 110:3** defined as splendor, adorning, to be high.

This word could be written as a phrase: Hey = The, while Dalet Resh gives us: Dor, to go round, to encompass, a circuit. Remember earlier? THE CIRCLE!

Is it just me or could Nebuchadnezzar have decided, in his role as a “*Babylonian Deity*”, to take credit for the Teqofah of the 360-day Calendar - attributing it's Resurrection or Return – The BEING BORN AGAIN SYMBOLISM – as a work of his own in his kingly role as a Babylonian god?

Don't be quick to dismiss me!

Let me bring some clarity. Nebuchadnezzar is a hybrid name. Nebu was the Babylonian moon god (*2<sup>nd</sup> only to Marduk his father*) responsible for revealing the yearly fates of humanity at their Spring Equinox during the month of Nisannu (*Nissan*). (*History proves this a Babylonian Month name, claimed by the Jews today, but they still deny their lunar calendar is Babylonian*)

History also records: At this season, during the dawning of the vernal equinox ceremony, the King would 'humble' himself and have his authority renewed. This is pictured in the Sun making his way humbly from the East, growing in power as he casts his shadow!

By the way, Babylon later (*With this calendar change*) incorporated the moon into their monthly calculations instituting a Lunar/Solar hybrid. In his deified role, Nebu was tasked with such. Can you say Enoch and 364?

In this case, rather than humble himself, Nebuchadnezzar boasts of his own abilities.

Now, remember, Nebu was the supposed son of Marduk, the supreme god of Jupiter! Could Nebuchadnezzar have just offended and angered the Demonic Source of his power, and now is about to be shown who is boss?

The Babylonian god Marduk is known in Greek as Zeus! Zeus is recognized throughout history as being associated with WEREWOLVES – A.K.A. – LYCANTHROPY! In particular, this is historically seen in sacrifices to Zeus Lykaios – Zeus, the Wolf!

Many believe that Nebuchadnezzar became a werewolf for 7-years! But it gets worse! The rituals and myths of this primitive rite of passage centered upon an ancient threat of cannibalism and the possibility of a werewolf transformation for the adolescent males who were participants.

Coincidence? Let me quickly show you something you've NEVER noticed!

*[Look at Acts 14:11-13 Jupiter and Lycaonia Gk. #3072, Wolf Land]  
Paul is stoned for opposing these pagan priests.*

Though some may dismiss my observations, The Anti-Messiah is coming. He will set himself up as God in the 3<sup>rd</sup>-Temple. Following the pattern of Antiochus IV Epiphanes who erected a statue of Zeus and slaughtered pigs. Both are connected to the God of Fortresses – the deification or worship of Military Power! These gods perpetuate their power with magical seduction and sleight of hand, at their appointed times on their fraudulent calendar! Consider the following...

**Is. 66:17** *They that sanctify themselves, and purify themselves in the gardens behind one tree in the midst, eating swine's flesh and the abomination, and the mouse, shall be consumed together, saith YHVH.*

As I'm writing this, every effort to destroy meat in the food chain, in particular, chicken and beef products. Making it difficult to have meat to eat. Pigs are cheap to raise, buy, and proliferate in the wild. Could Zeus' return to POWER include such? Who would be sanctifying and purifying themselves?

Not Making this up, Not making any claims:  
Just Sayin...

## Zeus, the Military God of Fortresses!

As this is written, the war with Iran has shown us otherworldly capabilities derived from “AI” that have never been seen. Hmmmm? Did you know there’s a National Golf Club in JUPITER, FL. Owned by: DJT. Did you know he’s also being touted as Zeus?

There’s an Amazon bestseller: A STORY FOR OUR TIME: Zeus, the King of the Gods written about Zeus meeting DJT. FYI...there’s also a book titled: DJT versus the Werewolves. In 2019 The Cato Institute proposed a 364-day Calendar Hanke-Henry Permanent Calendar, which they termed: DJT CALENDAR!

However, I will declare: We will see visible manifestations of these Shape-Shifting, Werewolf Beasts who are the enforcers of the Dark Side on a grand scale in the days ahead! This at the same time that Cannibalism returns on the global scene! By the way, Idaho is the ONLY state that explicitly prohibits it! WHOA PREACHER, SLOW DOWN!

Back to Daniel...

My position would be untenable if I suggested that Daniel alone occupied this Melchizedek Priestly role. Frankly, I believe that from Adam forward, various individuals stood in the role in a temporary fashion until the coming of Messiah.

Daniel, Ezekiel – Zadok

Historians agree that Daniel and Ezekiel were contemporaries. In fact, Ezekiel mentions him 3 times: **Ezek. 14:14, 20 and 28:3**. Oddly, he’s cited along with Job and Noah in the first two. The latter mention occurs in the verse at the beginning of **Ezekiel 28’s** discussion about an individual whom most presumed to have been LUCIFER – and his original position in the GARDEN OF EDEN prior to the Rebellion!

The context here in Ezekiel 28 seems to imply that Lucifer – a.k.a. The Son of the Morning – Dawn – at one time may have occupied the Melchizedek Office until his casting down! Why then, would the author link Daniel in this conversation if not to communicate what has been a hidden connection?

Note the context of **Ezek. 14**: *Though these three men, Noah, Daniel, and Job were in it, they should deliver but their own souls by their righteousness, saith YHVH Elohiym.*

From this text, we can glean that each of the above held a mediatory office, functioning as Priests in some capacity. Not convinced? Then, take a Look at **Job 1:5**:

*And it was so, when the days of their feasting were gone about that Job sent and sanctified them, and rose up early in the morning and offered burnt offerings according to the number of them all: For Job said, it may be that my sons have sinned, and cursed YHVH in their hearts. Thus did Job continually.*

Job is offering BURNT SACRIFICES as a mediator between his sons and YHVH? HOW SO?

Though Rabbis will argue that this was the custom PRIOR to the Levitical order, in an effort to explain any argument of a priestly order outside of Levi, their very acknowledgment lends overwhelming credence to just that!

**Now, look at Job 1:1**: *There was a man in the land of UZ...*

- Uz, 5780, עוץ, translated as ‘wooded’ is supposedly attributed to Utz, meaning to counsel, consult, take advice, to plan. Ironically, the two-letter root is Etz – TREE!

Could Job have been the One who consulted, took counsel, made his Holy Convocation Plans – IN THE LAND OF the Long-Lived Tree, the Terebinth Tree – Those Ancient Gnomons venerated for marking the Shadow of the Equinox? Could Job have followed the Order of Melchizedek? I’m simply asking you!

We needn’t dwell too long on Noah because evidence is overwhelming in the Genesis text that Noah adhered to the Creation Covenant Calendar! As such, his position suggests strongly that he also continued the Melchizedek Order after those listed in **Genesis 5**!

Does what I’m offering qualify Daniel in a priestly role of some fashion? Again, evidence suggests as much! Look at **Ezek. 14:14**. Oh, by the way, יהוּקָאֵל, Ezekiel,

has a value of 156, the same as Joseph, whom we also contend was of the Melchizedek Order.

In fact, Noah, Daniel, and Job collectively are mentioned 196 times in the Bible.  $14 \times 14 = 196$ . While  $196 + 156 = 352$ , the value of Merodak-Baladan, the King of Babylon who sends emissaries to visit Hezekiah *after the sundial incident!* Coincidence?

I believe this king still adhered to the 360-day calendar and sent emissaries to the most prominent authority of the Creation Covenant Calendar! The King of Judah!

Moreover, if read carefully, the entire context of **Ezekiel 14:14** is about the House of Israel sinning and being admonished to repent. YHVH goes further to declare that even though the land sinned, these 3 men Noah, Daniel, and Job, could not deliver anyone but themselves. To whom did those in need of repentance turn, if not a priestly mediator?

Simple honesty requires us to admit that a Priestly Mediator would have been consulted by Israel. Using Noah, Daniel and Job in the illustrations is completely out of place in context unless they had functioned in that capacity! Therefore, doesn't it seem that each of these men could have stood in the Office of Melchizedek Priest?

By virtue of my belief that Daniel stood in the Order of Melchizedek, his Priestly duties to administer the Creation Covenant Calendar would have required that he prepare the future Wisemen of Persia to first understand and then to continually observe the Calendar Signs in the Heavens. Why?

These Signs were eternally prophesying of the future King and Priest – The Melchizedek Messiah! Further, he would have charged them with the Temple treasures that he most likely oversaw on behalf of Babylon, preparing them in advance to transfer the artifacts to the rightful Heir!

### **How can I make these assumptions you ask?**

Ancient history tells us that Gold, frankincense and myrrh were given as tribute to royalty. Too expensive for the commoner!

Throughout history, even extra-biblical works suggest; these gifts: Gold – Kingship, Frankincense – Priest hood, and Myrrh – A.K.A. The Dew (*Dawn*) of the Resurrection - each held a sacred place in the anointing of the Melchizedek Heir!

The general agreement among scholars is that these '*Gifts*' came by way of the ancient spice route through Arabia!

The ancient parallels with Joseph who functioned in the Melchizedek Order and Yahshua are amazing. The Ishmaelite/Midianite captors of Joseph would have traveled the same Spice route as the Magi! Frankincense and Myrrh were both more costly by weight than gold. They were gathered from trees grown in YEMEN! (*Ben – Yemen – The Sons of the Right Hand*). We literally have the Treasure of the Right Hand being restored to the King/Priest who Stands on the Right-Hand of Elohiym!
