Creation Covenant Calendar
Pt. 40

Our last study embraced quite a bit more of the Creation Covenant Calendars' influence on the Prophetic landscape that is seen in the early chapters of Joshua. Including a different perspective regarding the occupation and lifestyle of Rahab. What I'd like to do now, in order to follow the Scriptural context, is focus on the actual events where Israel marches around Jericho and the subsequent results where that same Creation Covenant Calendar has a powerful, yet heretofore, hidden influence!

Before continuing, I want to suggest strongly that the Reader must understand that nothing happens or is seen in the Natural, physical realm, that doesn't first exist or take place in the Spirit realm. That said, what clandestine, spiritual operation is going on behind the scenes of the physical walls of Jericho and their subsequent fall?

As we pursue this secreted information, the testimony of what has amounted to a Calendar War taking place at Jericho becomes a compelling demonstration of what we can expect in the Current Calendar War that is once again upon us! Like what the Walls represented Spiritually - whether you can see it or not - we're already involved and the final results will be far more devastating!

The Creation Covenant Calendar – Versus the Agenda of the False One.
Numbers Don't Lie…
Jericho's Circumference - 360°

We previously crunched the numbers involved in the single, daily march for 6-consecutive days: 6x360 which gave us 2160, corresponding to the Sun's path through each of the 12-Constellational Signs with the navigation of each sign requiring 2160-years and as such, shown depicting an *'AGE'*. As in the Age of Aquarius. Let's reflect a bit here…

On the 7th-day, we have a different notation of 7x360 for 2520. As a frame of reference, each of these numbers tell us not only of the influence of the ancient sexagesimal system developed PRE - Babylon and other Nations, but provides details of how the influence of the Zodiacal Heavens lent itself to everyday, timekeeping, architecture and measuring, no doubt reflecting its' geometrical authority in their daily lives. How so?

1-finger, 1-degree.

Most learn in introductory astronomy, that holding your little *'pinky'* finger against the horizon is about 1-degree of measurement. The Ancients, including Babylon and others used the same construct. Their cubit was 24-fingers wide, allowing for the Celestial Sphere of the Heavens to be approx. 15-cubits or 360 – finger-widths – or degrees wide! Following that line of thought…

There was also an alternative system that was used to measure this same distance called: 1 – UŠ or 12 fingers. The Ancients used this system to measure time. One Solar day was 12 Bēru or 360-UŠ long. Thus, they mapped this exact 360-unit system onto the physical horizon. Therefore, if a surveyor wanted to align a Palace wall with the sunrise at the equinox, the math required would match the exact tracking of the Celestial Calendar! As a result…

[https://astrobites.org/2023/09/18/the-earliest-astronomers-a-brief-overview-of-babylonian-astronomy/]

You can be assured that Jericho's inhabitants fully understood the hidden spiritual power resonant in their commitment to a counterfeit Lunar Calendar and would have built Jericho accordingly! How then, does that effect our study? Why did YHVH make an example of them? Could this give us a hint of what we can expect to happen to the observers of False Times in the coming days? By the way: False Calendars will give you False Times. *See Deut. 18: 9,10.

When you have come into the land which YHVH thy Elohiym gives you, you shall not learn to do after the abominations of those nations. There shall not be found among you anyone that maketh his son or daughter pass through the fire, or use divination or an observer of times, or an enchanter, or a witch.

- Enchanter, H#5172, נחש, Nachash, this is the same word used in Gen. 3:1 to describe the Serpent – Nachash. He was an OBSERVER OF COUNTERFEIT TIMES that were obviously, lunar/moon based. Further, Nachash has the same value *(358)* as: Mashiach – Messiah! Watch what follows…

Coincidence? You Decide.

I found it thought provoking that 358CE was the year that Hillel II implemented the current Jewish lunar calendar. Even more compelling is his documented relationship

with Julian the Apostate, the Roman Emperor who served, along with Hillel in their efforts to counter the revolution of Christianity. Why is this important?

I have said frequently: There will be a future, joint-association - between the great TRIAD of religions – Roman/Christian, Judaism, and Islam – whose combined efforts will be directed toward the denigration of the Creation Covenant Calendar of 360-days. Who controls the Calendar – controls the People. Remember: History repeats itself. Let's move on…

The Calendar and Jericho's Wall:

We learned that Israel marched around the Walls of Jericho following the above cyclical 360° - 360-day celestial pattern. Looking back, if we consider the building materials of the Ancients that most probably would have been employed, we will, very likely, have had a *'Mudbrick'* construction. Ironically, this simple *'Sun-dried'* mud compound would possess a natural frequency or resonance of 1Hz to 2Hz. As in 360 divided by 180 = 2.

Considering that, a steady marching cadence of 1 or 2 beats per second - as Israel marches a total of 13-times *(7-times on the final day)* would not be random. It would, in fact, literally be the introduction of a rotational, wave energy source. Much like the capabilities possessed by modern HAARP technology *(High-Frequency Active Auroral Research Program)* capabilities I might add, which are highly plausible and yet, admittedly - publicly denied!

Against this background, as Israel's army marched, every step would be continuously pumping low-frequency kinetic waves into the underground faultline known as the Jordan Rift Valley. Keep this in mind and look with me at Joshua 6:20…

So, the people shouted when the priests blew with the trumpets: And it came to pass, when the people heard the sound of the trumpet, that the people shouted with a great shout, that the wall fell DOWN FLAT, so that the people went up into the city, every man straight before him, and they took the city.

Take A Good Look Here…

- Fell, H#5307, **נפל**, Naphal, this word generally means to fall, but, in a variety of ways. Thus, the direction of the fall is paramount and hence, described in the text as *'flat'*.

[I also want to call attention to the fact that Naphal can also indicate an aborted birth. (*See Eccl. 6:3)* Here we must remind you that the Nephylim – The FALLEN ONES – were then living in Jericho. They knew: As the walls began to tremble, they were about to die…their seed aborted]

- Flat, H#8478, **תחת**, Tachat, the under part, beneath, from his place, under, into.

Here, our investigation got interesting! Parkhurst says the ancient root is derived from **נחת**, Nachat, to descend into, to penetrate, to pierce. To plunge deeply. In support…

BDB proposes that in Hebrew morphology, certain words beginning with the Nun belong to a category called PE-NUN verbs. So called because the Nun is weak and frequently drops out when parts of speech change. Thus, the word TACHAT is not simply an arbitrary word for *'below'* – it literally means *"the bottom, as a result of being depressed or pressed downward into something that opens up."*

Now, let's put this into perspective by looking at the word for wall.

- Wall, H#2346, **חומה**, Chomah, wall. However, it more aptly indicates a shelter, protection or defense.

I found it interesting that as a Masc. Noun it can also hint at a Father-in-Law, as in *'her protector'*. We know this *'Mudbrick'* wall was literally a PHYSICAL object, but, what if it also represented the SPIRITUAL DEFENSE PROVIDED BY THE NEPHYLIM – I.E. Jericho's FALLEN ANGELIC PROTECTORS?

We're going somewhere with this, so, hold your place here and let's dig deeper. To this day, most scholars believe that the Fault line below the city was triggered by an earthquake. Which actually sets into motion what is known today as *'liquefaction'* – i.e. the changing of the foundation into an unstable, fluid-like soup. Therefore, our premise is that a large army marching in cadence produces a low-frequency sub-woofer, driving kinetic energy into both the Walls and the Ground below. As a result: On the 7th day the PERFECT STORM occurs! Let me explain…

In physics, when an object is subjected to extreme structural stress and at its climatic point of resonance, an unexpected high-amplitude sound wave, like the long blast of

multitudes of SHOFARS can cause a domino effect, pushing the system over the edge! Perhaps LITERALLY OPENING UP HOLES OR RIFTS INTO THE GROUND? Like a vocalist shattering a crystal glass! *SEE Matt. 27:52-53, 1Cor. 15:52, 1Thess. 4:16, Rev. 20:1-15 each referring to a Trumpet sounding and graves opening!

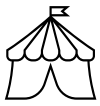

I would also note here that the Sons of Korah, who did not participate in the rebellion against Moshe *(An event that precipitated the ground opening and the swallowing of their families)* are famous for Ps. 47:5 which explicitly mentions the SHOFAR:

Elohiym has ascended with a shout, YHVH with the sound of a Trumpet! Could they possibly have been speaking of that incident? I have no wonder, but that you may be pondering the truth of my premise. Therefore…

What you're about to see next has been hidden from us in the traditional definitions of the word TRUMPET - *'Shofar'*.

When we consider the work of Parkhurst *(P.549)* among others, the definition of what we consider simply a trumpet, is expounded upon. We find it's root can hint at declaring, measuring. Moreover, this same root can mean to be pleasing, to be bright and beautiful. Not surprisingly…

At the same time, such texts as Dan. 6:19 uses this root to describe the DAWN of the DAY where we find – H#8238, **שפרפר**, Sheperparah, in addition, Jeremiah 43:10 uses the same Shin-Pey-Resh root H#8237, **שפרור**, shaphroor, to speak of A ROYAL TENT OR CANOPY!

It seems, that when the PEOPLE heard the SHOFAR – It was a Pleasing Sound – The Sound of THE Voice/Qol declaring the MEASUREMENT OR BOUNDARY OF the Dawn-Day Creation Covenant Canopy or Tabernacle Calendar, a fact, seen vividly opposing the Lunar Calendar worship of Jericho's inhabitants!

At the sound, they collectively shouted a BATTLE CRY. A H#7321, **רוע**, Rua, a shout that mar's something by breaking the condition(s) that had ruled the moment just prior! Can you hear chains breaking? Up until this moment, the Fallen Ones had

exercised control over the inhabitants of Jericho/Canaan and therefore, to a large extent – Israel! Let me explain something…

*Note: The same letters that give us Rua – when read the opposite way give us: H#5785, **עור**, Owr, meaning skin, to be naked, to be exposed. The first time it's seen is in Gen. 3:21 where Adam and Chavah are first clothed with the skin – covering – TENT of the DEAD flesh! This is immediately *after the Shout* – Rua of the Voice – ADAM, WHERE ARE YOU?

Attempting to hide from the Voice! Being naked they promptly cover themselves, realizing now *(Like their Lunar Moon Counterpart – The Nachash or Fallen One)* that they now have no light of their own!

However, what happens here at Jericho is the reverse of Gen. 3! Where previously after hearing the Sound of the Voice walking in the Dawn of the Day, Adam and Chavah choose to be united with The DEAD FLESH – DEAD ONES and their TABERNACLE – MOON CALENDAR – which has NO LIGHT OF ITS' OWN!As a result - Lunar Worship – centered around Lucifer – the former Light Bearer – is now set into motion in the earth for the 2nd time! (*See Gen. 1:1-2)*

On the other hand, here at Jericho, with Israel, this Lunar Worship Lie is now being rejected for the RE-implementation of the Creation Covenant Calendar and the LIGHT OF THE DAWN – The Light of The World – Yahshua – The Sun/Son!

Here Israel, is functioning as the SON OF ELOHIYM – a reduplication of the first Adam – and seems to understand the spiritual significance of their Restoration to Sonship, which culminates with the Fall of Jericho! Consider the following…

Is it possible that the current restitution of the Creation Covenant Calendar could be the precursor to the LAST ADAM a.k.a. The Body of Messiah once again being clothed with the light of Dawn, a light which emphatically DIVIDES, H#914, **בדל**, Badal, light from darkness? Could this Set The Body of Messiah into array battle against the Fallen Ones again?

Watch what follows.

The root of Divide: Badal, is the two-letter stem: Dalet-Lamed. It is seen in Ps. 141:3 *Set a watch, O YHVH, before my mouth; keep the door – Dal – of my lips.* Shouldn't we be vocally declaring the *'Timing of those Watches'*?

A *'Watch'* was a euphemism for a period set for a guard. Regarding the Temple Service and Roman law, it specifically pertained to a set time dividing the Night into 4-equal parts of 3-hours for the Romans and 3-parts of 4-hours for the Temple. ASK YOURSELF WHY?

This was set to insure the proper recognition of DAWN - as the final 4th – watch *(3am Roman time-2am Temple)* known as Ashmoret HaBoker – The Morning Watch – began in anticipation of when the Morning Lamb would soon be slaughtered. This sacrifice would never begin until Dawn was declared!

The *Mishnah* notes that the Temple Captain would walk the courts unannounced during these long shifts; if a Levite guard was caught sleeping on duty, his clothes were symbolically set on fire. Rev. 16:15 *…the thief in the night…*a.k.a. *'The Man of the Temple Mount – Ish Har HaBayit' (Mishnah Middot 1:2)*

ASK YOURSELF WHY THEN DO WE HAVE THE DAY SUPPOSEDLY BEGINNING AT EVENING which is specifically necessary ONLY for the sighting of the MOON - an action in direct conflict with the Temple Service?

https://www.jtsa.edu/torah/tamid-32/
https://www.agapebiblestudy.com/charts/jewishtimedivision.htm

Can Your Scripture Support This Historical Fact?

Each *'Watch'* was pre-empted by the blowing of a TRUMPET under both Jewish law and Roman rule. This is what is shown us in the Gospel accounts at the timing of Yahshua's execution where we read of a Cock or Rooster Crowing! *(3:00am Roman Time-2am Temple)*

The Romans began the 4th Watch with three blasts of the TRUMPET OR Gallicinium – or Cockcrow! The Jews had silver trumpet blasts (*Mishnah Sukkah 5:4 Tekiah, Teruah, Tekiah)* at dawn. 9 blasts at the morning offering *(9am)* NONE AT NOON. 9 blasts at the 9th hour or 3pm.

This is what Peter hears upon denying Yahshua the 3rd-time. It could not have been a literal ROOSTER - Jewish law forbade the breeding of chickens within the walls of Jerusalem because of ceremonial defilement – Tumah!

Moreover, the 9th hour *(3pm)* – the HOUR OF YAHSHUA'S DEATH would have been heralded with 9-distinct Shofar blasts! Remember: From Noon till 3pm a

catastrophic, profound supernatural silence prevailed while Yahshua was on the Stake! That stillness is shattered at the 9th hour – 3pm by the 9 shofar blasts!

https://www.sefaria.org/Mishnah_Sukkah.5.5?lang=bi

Could this have been a SONIC – FREQUENCY SIMILAR TO JERICHO? Most scholars agree that Jericho's walls fell at approx. 3pm, the 9th hour! Could this blast have been a catalyst for a Jericho-type earthquake opening the graves of the Dead? What about the symbolism of the Temple Veil – the DEAD FLESH of a DEAD SYSTEM being rent from top to bottom? How does that fit Jericho's walls falling?

Engine, engine number 9…

hebrew4christians.com

The number 9 is represented by the Hebrew let TET – pictographically revealing a coiled serpent. Not coincidentally, this is the exact moment that the Prophecy of Gen. 3:15 is fulfilled! Tactically, spiritually broadcasting the striking of the Serpent's Head!

In addition: The connection between the 3-blasts opening the Gates at Dawn, followed by 9 morning blasts, *(None at Noon)* and 9 afternoon blasts vividly connect us to the 3-6-9 of the Creation Covenant Calendar's 360-days!

Without doubt, the Temple was the physical epicenter of this cosmic time-clock. The daily rhythm of trumpet blasts systematically clicked through the 3-6-9 grid from the moment the new day hit the horizon at dawn:

The 3 Blasts: The Root *(Dawn)*

The day officially begins. As the lookout shouts *"Barkai!"* and the massive iron Temple doors swing open to greet the rising sun, 3 sharp trumpet blasts are blown [*Mishnah Sukkah 5:5*].

- The Math: 3 represents the point of origin, the triangle, and the spark of a new creation. On a 360-degree circle, the first quarter begins here.

The 6-Hour Void: The Zenith (Noon)

Interestingly, the Mishnah does not record a specific routine sequence of blasts at noon (the 6th hour) for the daily *Tamid*, only for special feast days. Why?

- The Architecture of Time: The 6th hour represents the exact *tipping point* of the day—high noon, where the sun reaches maximum strength before starting its descent. In the 3-6-9 matrix, 3 and 6 operate as oscillating polar opposites, while 9 stands above them as the point of resolution and completion. The 6th hour is the axis; the action hasn't finished yet.

The 9 Blasts: The Completion (3:00 PM)
It is finished…John 19:28-30.

At the 9th hour (3:00 PM), the afternoon sacrifice is poured out, and 9 orchestrated trumpet blasts tear through the air [*Mishnah Sukkah 5:5*].

- The Math: Why 9? Because 9 is the number of finality. In digital root mathematics, if you add any numbers together and they equal a multiple of 9, the cycle is complete. 3 morning/dawn blasts + 6-hours elapse = 9. The 9-blasts at the 9th hour mathematically *"close the loop"* of the daily spiritual accounts. The sacrifice is accepted, atonement is secured, and the operational day has achieved its structural purpose.

When you put it all together, the 360-day calendar and the Dawn-Day system reveal that the Temple wasn't just performing religious rituals; they were acting out the structural frequencies of the universe.

The 3 blasts initiated the day, the 6th hour tested the day at its solar peak, and the 9 afternoon blasts executed final judgment and restoration. The sound of the silver trumpets literally harmonized the physical courts of Jerusalem with the geometric template of the 360-day prophetic clock.

Back to Badal
בדל

If we consider the prefixed *'Bet'* – House or Bride, then understanding and keeping the timing of the Dawn's Divine Light which regulated the fixed Holy Convocations could become the doorway to our preservation in the times of trouble that lie ahead!

In conclusion regarding this Psalm Ps. 141:3, King David is invoking both military and chronological imagery. Thus, the KING'S MOUTH – HIS SHOUT is likened unto a walled city where he's invoking YHVH to send the Spiritual sentries or guards to ensure his safety during specific trials at SET TIMES!

Isn't this exactly what Israel is doing now with Joshua? Destroying the Fallen Ones, the guardians of the Walled City of Jericho – while simultaneously invoking the Presence of the Watchman over the Walls of Israel!

What Are We Saying?
Does The Text Justify My Opinion?

It is my opinion that the Walls of Jericho – both the physical walls and the SPIRITUAL *'WALLS'* – THE PROTECTORS – the Fallen Ones - fell down, like Korah, into the bowels of the earth as the Hand of Elohiym forcibly pushes them downward at the sound of the Shofar! It is my opinion that this Shofar/Trumpet SOUND at Jericho served THE SAME purpose as the SOUND HEARD IN GEN. 1:1 LET THERE BE…and again at the 9th Hour while Yahshua is upon the Stake!

Looking a bit further, the text of Josh. 6:20 tells us after the Walls fell: … *that the men went up into the city, every man straight before him…*

- Straight, H#5048, **נגד,** Neged, to go straight ahead from where he stood. If Jericho's Walls were 20-30 feet in height, falling outward would present a logistical problem, because structurally, the walls would be almost as thick as their height. Yet, the text indicates a structural failure of the entire wall at the same time. This is stunning! If we indeed consider the cyclical structure of the walls, no matter where a man of Israel stood, the barrier in front of him vanished!

If the walls were 20ft thick falling completely outward would still present a massive obstacle. It is my contention that the ground literally opened to receive them – The Nephylim – Fallen – Naphal Ones.

Textural Consistency?
Jericho's Nephylim Judgment And The
Judgment Of The Sisters?

Another peculiar anomaly is found here that few have answers for. What happened to Rahab's sisters and why? *Note: Josh. 2:13 *And that you will save alive my father,*

and my mother, and my brethren, and my sisters, and all that they have, and deliver our lives from death.

Notably, and this has been discussed for millennia, Joshua 6:22-25 does not mention the Sisters. This has been explained away as the result of textural errors from competing translations such as the Peshitta, MT and the LXX.

However, based upon the previously discussed reasons for the destruction of every living entity in Jericho *(With the PROFOUND exception of those listed of Rahab's family in chapter 6)* it seems we have a parallel to the Lot issue where his married daughters did not come out of Sodom.

Why? Once again, if you study Sodom you can see that the inhabitants consorted with the Fallen Ones, engaging in perverted sexual acts that resulted in their ultimate destruction. History concedes that both the Rephaim, Dead Ones lived in the vicinity and that a polytheistic Lunar/Solar worship of these Fallen Ones would have prevailed. Traditional Jewish commentary suggests as much. *(Yalk.,Gen.83)* This would have included Lot's married daughters…thus…

- Lot, H#3876, **לוט**, Covering, to envelope, a veil. His name infers secret arts, incantation, to cover over, to hide.

It is my contention that Lot was a carnal man given to the dead works of his flesh and most likely have been involved in lunar worship himself. Therefore, the pending judgment of Sodom forced his exit. Though 2Peter 2:7-8 calls him righteous, I believe that is a deliberate mistranslation.

Following that pattern, I firmly believe that Rahab also had married sisters who, either clung to the Lunar Calendar or were in fact, married to the Nephylim of Jericho! Either one resulted in the fact that they were CUT OFF! It seems one SIN opens the door to the other…

Could this be an omen regarding what will be encountered in the Days Ahead? Will some of the *'HOUSE'* refuse to come out of the Lunar System? Let me emphatically state…

It simply CANNOT BE ARGUED AGAINST – THE LUNAR CALENDAR CAME OUT OF A COUNTERFEIT SYSTEM DESIGNED TO PRESENT ALTERNATIVE INTIMATE ENCOUNTERS WITH FALLEN DEITIES! Could a

future event, like this, seduce multitudes to comingle their DNA like the inhabitants of Sodom and Jericho *(…Iron mixed with miry clay…Dan. 2:41-43)* as Daniel clearly mentions?

Could this open rebellion trigger another future event but on a much larger scale where the Walls erected BY THE NEPHYLIM are shaken and fall with great destruction? If we consider this, we must acknowledge Jericho and the Nephilim's connection to the Lunar Calendar and other counterfeits, as opposed to that of the Creation Covenant Calendar.

MOON WORSHIP?
What's So Bad?
The Serious Repercussions.
Jericho, its' Inhabitants and its' Plunder Being Slated For Destruction:

Early on, we found that the men, women and their children, along with their cattle were considered accursed.

Before proceeding, we must establish two important related points contributing to this destruction: **First:** The contamination with the Nephylim Seed. Understanding this is paramount. Sodom, Gomorrah, and Jericho and later many other Canaanite Nations were destroyed for this reason. **Second:** The Worship of these Fallen Ones led to the mortal inhabitants of Jericho succumbing to their lies and seduction. The two points are inseparably linked.

Moreover, their veneration without doubt was CENTERED AROUND LUNAR WORSHIP - UNDENIABLY INVOLVING A LUNAR CALENDAR! Frankly, you must apprehend this one thing: YHVH chose to make an example of Jericho and its' inhabitants because of the two points made above. No other plausible explanation suffices.

Moon Worship?
Prove it?

It cannot be argued! The inhabitants of Jericho/Canaan were polytheistic moon worshippers, deifying such gods as: Yarikh, Baal and Asherah. They engaged in Child Sacrifice *(Molech)*, incest, bestiality and other depravities including consorting with the Fallen Ones!

Now, ask yourself: How can I embrace a Calendar where the focus is on the MOON PHASES, The New Year beginning at the autumnal Equinox, or, putting my children in the Lap of a Firey Red god, who consorts with an egg-laying rabbit?

History provides that Ancient Canaanite timekeeping and worship revolved entirely around the day beginning at SUNSET WITH THE MONTH BEGINNING WITH THE NEW MOON. Why? Because based on their premise, the month can only be verified at the moon's sighting as the sun sets. Therefore…

Ask yourself: If the month names are Babylonian/ROMAN, the days of the week Roman/Greek, the day begins at sunset/midnight, the month at the Sliver's sighting, the year begins at Rosh Hashanah – Autumnal equinox. How much can we venerate the MOON WITHOUT IT BEING considered MOON WORSHIP?

As we continue, part of the list of items considered contraband in Jericho included all silver, gold, brass and iron. These were known to have been devoted to these False Gods and thus, cursed and could only be redeemed by being brought into the treasury of YHVH.

How is this possible?
What application does it have in our lives today?

- Treasury, H#214, **אוצר**, `Otsar, treasury or storehouse. This is the same word found in Malachi 3:10 *Bring you all the tithes into the storehouse that there may be meat in Mine House, and prove Me now herewith, saith YHVH of Hosts, if I will not open you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it.*

Here, let me pause and remind you of Haggai 2:8: *The silver is mine, and the gold is mine, saith YHVH of Hosts.*

Curiously, for emphasis; this statement follows upon the heels of previous verse in Hag. 2:6 where YHVH declares: *Yet once, it is a little while, and I will SHAKE THE HEAVENS AND THE EARTH AND THE SEA AND THE DRY LAND.* Doesn't this sound a bit like what happened at Jericho?

- Shake, H#7493, **רעש**, Ra`as, to quake, shake. The primary notion lies in the noise and crashing arising from the concussion of tectonic plates slamming together as the ground undulates!

This text clearly indicates that Elohiym owns all the earth's silver and gold. However, like Jericho, those precious metals can become accursed – being dedicated to the Fallen Ones – Thus, the TITHE becomes the means of redemption for that accursed thing. How are they cursed? Look at the image stamped on most *(Including the FIAT alternatives)* - the source of origin for most - where each is designed to function - and what the love/worship of each cultivates in Man. Let's take a minute and address these.

Fiat current – seas *(SIC)* currencies - including electronic forms *(Which the Powers That Be can turn on or off at will)* are systems designed to allow fluid movement upon the *'current'* within the Commercial world governed by the UCC. Minted coins sanctioned by the same body or bodies *(Fed minting)* were created to control the Strawman or Slave who served the MASTERS!

This also has its' roots in Calendar control, because he who controls the calendar controls the monetary system! This includes Gold, Silver and other forms! Though true Scriptural *'MONEY'* has always been the former, if it lies among the ACCURSED THINGS it must be redeemed! HOW?

Matthew 22:19-21. *Shew Me the tribute money. And they brought unto Him a penny. And He saith unto them, whose is this image and superscription? They say unto Him, Caesar's. Then saith He unto them, render therefore unto Caesar the things which are Caesars, and unto Elohiym the things that are Elohiym's*.

For context: Each Gospel account of this dialogue is preempted by Yahshua's discussion of the Kingdom.

The Jews and Herodians *(Note that)* found accusing Yahshua knew the coin was idolatrous, acknowledging the image of Caesar. What trapped them is found in verse 20: …*Whose image and tittle was on the coin?*

This term Image, Gk#1504, Eikōn, I-kone, *(Does the word ICON ring a bell? Ask a Catholic, Greek or Russian Orthodox)* is the same word used for the Hebrew in Gen. 1:26 …*let Us make man in our image…tzelem.* The answer lay in who they themselves belonged to, whose image they bore. The things that belong to Elohiym are everything. Yet He asks only for the Tithe, to see who you truly belong to!

Ancient history tells us that the inscription was a Denarius featuring Emperor Augustus, adopted son of Julius Caesar. The inscription: *"Imperator Caesar divi filius"* Commander Caesar, Son of the Divine – God. On the back side there was a

picture of him seated crowned on a throne wearing the High Priest's clothing. Stating: The High Priest. He was considered: Pontif Maximus. The Catholic Pope would still have his image on all coinage if not for covert plans! Any STATE that attempts to subvert the One True King will be shaken! As a result…

Yahshua tells them: As Sons of Elohiym, go bear the image and likeness of Elohiym – NOT A FALSE GOD! In other words, acknowledge the RIGHTFUL HIGH PRIEST AND HIS KINGDOM! This was in their face! He alone could be the rightful High Priest and King!

What Are My Options?
Get Out Of Jericho.

I firmly believe the first step is getting out of Jericho – Babylon – Rev. 18:4. While the second lies in bringing the Tithe or Redeemed SEED of your gain into the Storehouse! This has to include a restoration to the Creation Covenant Calendar of 360-days! Is your head hurting? Need more convincing?

What If I Just Keep A Little?
The Sin of Achan?

If we monitor the text of Josh. 7:1 it is apparent that Achan took of the listed accursed items out of Jericho's plunder! As we continue, the connections are beyond explanation other than the Hand of YHVH being involved! For instance, the gematria of Treasury – H#214, **אוצר**, `Otsar, is 297.

The same as H#1224, **בצרה**, Bosrah, indicative of a fortress or sheep-fold. A chamber as in a storehouse for the sheep-fold. It seems Achan steals from the treasury of the Sheep-fold by taking these items. Wherein have we robbed YHVH?

Do you suppose it coincidental that the first mention of Bozrah is connected to the Dukes of Edom, specifically Zerah of Bozrah mentioned in Gen. 36:33? The connections would be obvious to a Hebrew Speaker of that time.

This doesn't seem important until we look at Achan's lineage where we see he is the son of Carmi, the son of Zabdi, the son of Zerah, of the tribe of Judah. In addition, Achan's sin caused the death of 36 soldiers. *Note that number:

- Zerah, H#2226, זרח, Zehrach, translated as *'rising'* is related to the DAWN! The rising of light. He is a counterfeit, being the grandson of Esau – Edom – Rome - who intermarried with the REPHAIM OF CANAAN! His grandmother was a Horite of Mount Seir who were counted among the ancient Rephaim or Giant races!
- Rephaim, H#7497, רפאים, translated as invigorating, to restore. The root stem: רפא, Rapha, according to Parkhurst *(P.501)* they most likely were called such because of their involvement in the RESTORATION OF THE PRE-FLOOD idolatry of the MOON! These same entities were part of the populace of Jericho/Canaan!

There are scholars who believe that they had the ability to regenerate severed limbs – Epimorphic Regeneration. Hence, the reason King David and others decapitate them!

I am not saying that Zerah of Achan's lineage was of the same lineage as Esau, because it specifically says he is from Judah. However, the etymological connection with what we're seeing transpire in Jericho is uncanny! Rev. 2:9, 3:9 speaks of those who profess being Jews, but are of the synagogue of Satan.

- Synagogue, GK.4864, The idea is one of contracting together. It hints at setting a net to trap. To be in UNION with.

This Union no doubt espouses LUNAR WORSHIP, and thus, an alternative to the Creation Covenant Calendar.

Joshua's Declaration.
Josh. 24:15

Choose this day whom you will serve…as for me and my house…we will serve YHVH

Shabbat Shalom
