

Restoration Of The Calendar: Pt. 30

Last teaching (*Pt. 29*) we took a brief excursion off our main route – The Creation Covenant Calendar - specifically - to bring a bit more focus on the original Counterfeiter of that Calendar and the genealogical framework that launched his most potent, current calendar weapon into existence - the Enochian/Zadok – 364-day calendar!

In that regard, we began looking at Cain in **Genesis 4** and his first-born son, (*Whom he deliberately names ENOCH*) along with the lineage propagated through them. It is against that background that we found a ‘*mirror-like*’ ancestral image in **Genesis 5** where the Seed of Adam is also listed, although without the inclusion of anyone from Cain’s (*Serpent Seed*) lineage!

Before we proceed, there is no doubt, no room for argument, but that the Ancients understood the Prophetic action displayed in NAMING – WHETHER THAT NAME WAS A NUMBER OR OTHERWISE – Numbers are just that - Names! Therefore, history recorded that whatever or whomever was assigned that name/number must fulfill either the covenantal declaration or rebel and thereafter, demonstrate the forgery that their rebellion produced! In light of that...

Admittedly, we called attention to this point in order to disprove the idea that the Great-Grandfather of Noah – a.k.a. Enoch – The 7th from Adam – was in fact, the author of such a fallacious calendar as the 364-day group so strongly argues! Rather, we pointed to the Counterfeit, son of Cain, likewise named Enoch, as a possible perpetrator of this lie. I want to follow that teaching with a bit more evidence to support our viewpoint that hopefully, will eliminate Righteous Enoch as a 364-day calendar author.

Before proceeding, once more, my contention is that Righteous Enoch DID NOT EMBRACE A 364-DAY CALENDAR! Thus, one of two things must have happened: #1. The Book of Enoch is written by a counterfeit, i.e. Cain’s son, Enoch. Or #2. Righteous Enoch’s words – said in the scroll to have been given him by the Angel Uriel – (*Another point of contention for me*) were used to write the book, but lies were deliberately inserted by those who found the Dead Sea Scrolls in order to perpetuate their (*Cain’s Lineages’ – A.K.A. The Serpent Seeds’ agenda*). Which agenda, and its’ originators would, for obvious reasons attempt to disparage the Melchizedek Order, which the book of Enoch actually embraces?

Lastly, from the estimated dates of the book of Enoch, and historical evidence from around 175 BCE forward, it is also highly plausible that the 364-day Calendar was inserted by those opposing the Lunar/Solar calendar, the Roman Julian calendar, and the Melchizedek administered, true Heavenly Cycle, in what has been titled '*The Calendar Wars*'. Principal among its' adherents were those Zadokite Priests whom I contend would have embraced the Creation 360-day model. Either way, Righteous Enoch did not keep a false calendar! Please consider: <https://www.kotzkblog.com/2023/02/419-priestly-politics-calendar-wars-and.html>

FYI...

For the record, the '*Astronomical Book*' of Enoch – chapters 72-82 were more recently recognized through the Dead Sea Scrolls found at Qumran between the 1940's and late 1950's. However, most attribute their interpretation from an Ethiopian text into Hebrew by Richard Laurence, Archbishop of Cashel in 1821. With that information: May I also remind you dear reader, that nowhere in the Tanach can 1-verse be found espousing this supposed Enochian 364-day calendar! Yet, we're admonished to believe it without question? So, where do my conclusions come from?

Numbers, like Names Don't Lie...

It's the choice of the recipient to act accordingly!

In order to shore up our position, last time, we looked at the Prophetic Names of each of the numbers attached to the 7-days of the week. Thus, let's pick up here and look at Righteous Enoch's numeric place in the Adamic Lineage: 7th from Adam. Let me pause here and remind you that when we added the integers of the Numbers assigned to the Days of the Creation Week: $1+2+3+4+5+6+7=28$ These numbers corresponded to the numbers of the letters of **Genesis 1:1**. Why mention this?

Namely because, if you take the first letter of each of the seven Hebrew words in **Genesis 1:1** and sum their values (*Beit + Beit + Aleph + Aleph + Heh + Vav + Heh*), the total is **22**. Dividing this sum (22) by the number of words in the verse (7) yields exactly $22/7$ or basically PI – 3.14! **Significance:** Proponents note that this specific ratio of first-letter totals to word count does not occur in any other verse in the Tanakh! Coincidence or Strategic Marker? Your call...

For evidence's sake, again - Hebrew is an Alpha-Numeric language with numbers and letters acknowledged as being interchangeable, while each adds additional insight to the text! With that said, the place number of Righteous Enoch – 7th from

Adam - and the Law of First Reference incontrovertibly link this Enoch to the sequential ORDER OF CREATION! Prove it you say...

What History Records...

Ancient civilizations viewed numbers not as abstract, detached symbols (*Simple nouns*) as we do today, but rather as concrete, living entities or "*multitude-species pairs*" (*adjectives*) inseparable from the objects they counted. Numbers were regarded as fundamental, sacred, and active principles that defined the shape, harmony, and essence of reality, rather than just tools for measurement. For instance: The discovery that musical harmony is based on mathematical ratios (*1:2 for an octave, 3:2 for a fifth*) led the ancients to believe that the entire universe was both a "*musical scale and a number*".

We Must Then, Consider The Import Of Numbers In Scripture...

From simple reading, one can clearly see that Enoch was the 7th from Adam in the Genesis text. This is confirmed in the Book of Jude. Ironically, let me remind you, before mentioning Enoch as – the 7th from Adam (*Verse 14*) Jude goes into detail regarding the Angels which kept not their first estate, who're reserved in everlasting chains unto the judgment of the great day. He describes them in vivid detail as: Wandering stars, etc. We would call them Watchers, their offspring – Nephylim.

Finally, Jude mentions that Enoch – the 7th from Adam - prophesied of these, saying, *Behold YHVH cometh with ten thousands of His Saints*. Go back and read this short epistle, it will help you compartmentalize what we've shared thus far and help you to sort through what you'll hear next! First, let me be clear on where I stand! This Enoch cannot be the author of a counterfeit 364-day calendar, else every prophecy in the numbers and names and dates linked to him as the Great Grandfather of Noah become lies! GASP... 🤪

Let's Ask A Few Questions:

Why would Jude call attention to the 7th from Adam? This text is quoted to legitimize the Book of Enoch. But, does it? It is my concern that though Jude quotes what could have been the Righteous Enoch – do we simply embrace the extra-biblical works of today - *also attributed to him* - yet found rife with ANTI-TORAH PRINCIPLES – tenets that wholeheartedly espouse a different Creation Calendar, lending such confusion, that not one elemental date can be supported? If so – then we're left with: How much leaven does it take to leaven the whole lump? I.E. how many lies will we

tolerate in order to support our traditions? In answer, Scriptural Integrity requires sifting out – not swallowing down - the bile that such contradictions produce!

Again, whether Greek or Hebrew, numbers are important. Look at the phrase: ‘7th from Adam’ in the Greek. Before moving there, let me once again, explain that numbers, though defining assigned order – as in occurrence – also convey a prophetic declaration when placed upon an object or entity. Thus, Enoch, as the 7th - where we have the root Shava - conveys the idea of sufficiency, fulness, completeness. It entails to be made sufficient, a security by an oath, to be credible, sufficient to be believed.

This man is being assigned an office whose purpose is to administer whatever that Oath secures! Therefore, I contend; he is perpetuating the Melchizedek Priestly Order! The purpose of the Order? To administer the Calendric Appointments! Again...ask yourself...if I wanted to distort this position, how would I do so? Perhaps finding scroll fragments that espouse a counterfeit calendar instead? Hmm? I’m just asking...moreover...

Why would those naming him want the Message associated with this Man to convey - by teaching - the idea of completing something - securing - whatever he was to represent - by an oath, so that his message would be sufficient to be believed? Well, if deemed that important doesn’t it seem as if that Message would later have eternal implications...? Again, if I wanted to confound this message, at some point, I would carefully insert a lie, not rewrite the entire message, simply just add a bit of propaganda supporting my calendar and then find people gullible enough to run with this new wind of doctrine!

Won’t work you say? Just ask yourself about your KJV bible. The basic message is still there, yet intentional, traditional, biased subtleties have been inserted to promote an EVENING-TO-EVENING CALENDAR, the dissolution of the SABBATH, the replacement of Passover with Easter, a total disregard for the Melchizedek Order, an expectation of animal sacrifice being instituted that would suffice for the Blood of The King and many more! Do we throw it away or embrace **2Tim. 2:15**...Study to show yourself...

Now, with respect to that, truth will stand scrutiny...How, therefore, do we handle this? **Prov. 25:2** tells us: *"It is the glory of God to conceal a thing: but the honor of kings is to search out a matter."*

Let me ask you: Was it an accident that this Enoch is born the 7th from Adam and NAMED ACCORDINGLY? Moreover (*Remember: Enoch – meaning Teaching – is born at a time requiring a declared OATH – a SHEVA – coupled with a prophecy later cementing the veracity of his message*) wouldn't this lend credence to a message which is universally acknowledged as prophesying the TIME that a universal flood would begin?

Prudently then, we must ask ourselves, what exactly was he mandated to TEACH? What precisely does the context of **Genesis 5** provide us regarding future EVENTS AND THE PARTICIPANTS that were perfectly synchronized – TIMED BY - HIS TEACHING? Surely, we can answer: The Flood! It was, without hesitation, a calculated, timed, coordinated, heavenly orchestrated, 360-DAY CALENDAR DEPICTED event!

Further, couldn't this very Flood, whose specific timing was prophetically declared based upon the names of those in the lineage of **Genesis 5** – also, in the same manner as the Heavenly Patterns – which are the original source of the Creations' Redemption Plan – predictably link the Flood's symbology with the 1st appearance of the Messiah, in particular as those same symbols are found typifying the events of Yahshua's Passion Week? Truly then, as such, the Flood became a prophetic event which almost certainly speaks to the specific TIMING of the 1st coming of Messiah, His death, and His subsequent resurrection! But, is that all?

From a prophetic, future flood analogy perspective, mind you, but we must consider: The Words of our Messiah – Yahshua – where this identical flood scenario will – in the near future - be used to pinpoint the timing and conditions prevalent at the 2nd COMING OF THE SON OF MAN! **Matt: 24:37**! Ironically, Yahshua also connects those days to the Sign of Jonah – 3-days/3-nights = 72-hours in the fish's belly. 360-day year ÷ 3-days = 120. The years associated with man's life according to **Gen. 6:3**. $365 - 360 = 5 \text{ days} \times 24 \text{ hours} = 120 \text{ hours}$!

For arguments' sake, many take the position that what I'm sharing isn't a Redemptive or Salvational arguing point. Granted in times past, it may not have been as critical. Please consider: A date in the future may be in your plans, you casually prepare in advance, however, those preparations intensify, and their importance increases exponentially as the date gets closer!

Thus, could the difference in Calendar observations point to whom you're intimate with at the SET TIMES you attend? What? They're just a little off from each other! Does that little bit really count? Let's ask the Numbers? Is it possible that they could

equally prophesy of Adam and Chavah, hinting at the importance of the Creations' Divine Appointments... For our Generation, we must consider: IS IT POSSIBLE THE CALENDAR COULD ALSO BECOME A MATTER OF LIFE AND DEATH?

Numbers Don't Lie...

364 – 360 = 96 hours. 96 is the value of **וידעו**, Ve'yadu, a phrase first seen in **Gen. 3:7** and used to describe Adam and Chavah's naked condition: **וידעו** - *And they knew...and hid themselves*. What or from whom and - at what specific time - did they hide?

Will this in a manner likened unto that of Adam and Chavah, describe your reaction to the introduction of the Creation Covenant Calendar whose sole purpose – JUST AS IN EDEN - is to regulate the next appearance of the Voice Walking at the Dawn of the Day? How apropos that the Vernal Equinox – I.E. the Day of the Shadow's marking - summarily acts as THE VOICE OF AWAKENING, He Who Walks at the DAWN of the DAY/YEAR signaling the end of winters' slumber and pointing to the Resurrection – Teshuvah of the New Year!

Ask The Numbers Again...

The reason we mention the appearance of Dawn – where the Sun/Son is reintroduced in his daily ritual – is because his appearance testifies of the Redemption Plan of Creation. Namely, the death, burial, and subsequent resurrection of that Sun/Son. This same Sun/Son who in the KJV text in English is referred to as the '*Greater Light*'. **Genesis 1:14-16** but, in Hebrew is called the **המאור הגדל** – H`ma`or h`gadol. Guess its' gematria? 294, the same as MELCHIZEDEK! Those pesky numbers again!

Does, the Sun/Son then appropriately fit a typological picture of Melchizedek as well? The Ancients surely felt the Sun was both King and Priest thus, fitting that narrative quite appropriately.

Ask The Numbers Again...

While here, surely, we can't pass by the Lesser Lights - **המאור הקטן** – H`ma`or h`qatan – whose value – 416 – is the same as a unique phrase shown us in **Gen. 4:2** regarding the role of Abel in the Earth – He who, as the Melchizedek - Messiah figure - juxtaposed to Cain – The Serpents' Seed - would have continued the

Melchizedek lineage where Abel is clearly shown in the role of - **רעה צאן** – Ra'ah Tzon – Keeper or SHEPHERD OF THE SHEEP! (...and Abel was a keeper of the sheep...) Tzon indicates to be fruitful, fertile, as demonstrated in sheep.

Thus, the Lesser Lights – The Stars - reveal the Progeny of the House or Order of Melchizedek – The Sun! If we take the value of Day – the realm of the Greater Light – Yom – **יום**, whose value is 56 ($5+6=11$) and subtract from 416 ($4+1+6=11$) we get 360! The number 11 is the value of **חג**, CHAG - The Hebrew word for festival, but whose root indicates to twirl or dance in a 360° - CIRCLE! The relationship of the Lesser Lights to that of the Sun cannot be overstated! The Sun traverses their course in an eternal wedding dance! Back to Melchizedek...

A Priest Forever After The Order...

- Order, H#1700, **דברה**, Dibrah, cause, suit, Lawful reason, ESTATE, in the manner of! Let me ask you...

Let me pose a few pertinent questions: Could Enoch have been a part of that Melchizedek Order? Would Enoch have typified the Shepherd's Role revealed in the Heavens? How could that role deviate from the 360-day Creation Covenant Calendar? Was he occupying the office first shown to Adam in **Genesis 2** in the Garden of Appointed Times? Could Enoch's entire life have been devoted to teaching about the Melchizedek Order and the Creation Covenant Calendar they were/are charged to oversee? EMPHATICALLY – YES! Why does this matter? Because exposing this helps to understand why the insertion of the false “*Enochian/Zadok*” 364-day calendar takes place! Disinformation brings confusion!

Melchizedek – Metaphor:
The Sun/Son Who Heals – Redeems!

If one searches, vast amounts of evidence can be found proving that the Ancients believed the Sun was both Healer and Redeemer and worshipped it/him accordingly. Dawn, therefore, symbolized his being reborn from the waters of Chaos – Darkness - offering himself daily on behalf of Creation! The Sun becomes the “*Medicine*” of Creation, dispensed by, or administered by – The Melchizedek King/Priest - who functions much like a “*Pharmacist*”, dispensing healing and restoration at prescribed times and increments! This is the core purpose of the 360-day calendar, to restore Creation!

Contrarily, an ‘*evening to evening*’ start to the day can NEVER satisfy the Plan of Redemption, rather it perpetuates DEATH – TOHU V’BOHU - Waste and Desolation, putting emphasis on DARKNESS as the superior power! In addition, without doubt, the priesthood associated with it officiated over DEATH! Death could never be defeated under that system, only perpetuated and its’ penalty remaining on the books until such time as One after the ORDER of LIFE – He who was both KING and PRIEST arrived!

Accordingly, the Testimony of the Sun, as written in the heavens, also served as the blueprint of **Numbers 5** where, upon the Bride’s Accusation of Adultery, those heavenly accusations were comingled with the dust of the Tabernacle Floor (*Earth*) and the Living Waters - upon which the Ruach hovered - would be offered in a cup to that Adulterous Bride! In like manner, the Flood of Noah served as that cup, offered first to the Adulterous FALLEN ONES who perished (*In those bitter waters 2Pet. 3:6*) while the ARK – Messiah – conveyed the Woman’s Seed to life!

This is prophetically demonstrated the final time when Yahshua is Miqvehed – baptized, immersed - in the bitter waters of the Jordan – Yarden – whose headwaters originate from Mt. Hermon where the Watchers first descended!

Enoch, The Sun, And A 360° Clock...

Indeed, as we consider the Zodiacal Heavens, themselves epitomizing the Heavenly Cyclical Clock, it seems from the Earths’ perspective, that the Sun literally represents the HANDS OF THAT CLOCK TRAVERSING EACH OF THE 12-HOUSES – effectively marking the RADIUS of their CIRCLE OF LIFE ON EARTH. Radius being the point at the center extending to its’ edge!

In other words, the Vernal Equinox acts as the 0-degree line or the origin of the Celestial Sphere’s circle; once its’ Shadow is marked as the Sun traverses its’ course, that MARK functions similar to a fixed starting radius in a circle, whose shadow first walks at DAWN and bridges the heavens and the earth! Pay careful attention and look at the value of Enoch (*Numbers again...*)

- Enoch, H#2585, **הַנּוֹךְ**, - a value of 84 – the same as H#3045, **יָדַע**, Yadah, to have intimate knowledge, to discern, to know by experience. I find it interesting to note the conversation that YHVH had in **Job 38:12** *Have you commanded the morning since thy days; and caused – Yadah - the DAWN to*

know – Yadah - his place - Maqom? You can't simply make this stuff up! The Numbers – are as viable as the Hebrew Letters!

Surely Enoch had access to that knowledge – The Maqom or Place of the Dawn!

I Said All The Above
To Get To This Point...

There can be no argument here: NO CALENDAR EXCEPT THE CREATION COVENANT CALENDAR OF 360-DAYS CAN PINPOINT THE EXACT TIMING OF THAT FLOOD THAT TESTIFIES OF MESSIAHS' DEATH, BURIAL AND RESURRECTION!

WHY? Even in a 365.24 solar year, the Vernal Equinox casts its' shadow and the following day (*No Enochian/Zadok intercalation works*) becomes the starting point of the New Cycle – The DAWN OF A NEW 360-DAY YEAR! This allows us to accurately calculate without having to massage the day of the week, the month or add a leap year! This Calendar regulates the Circle of Life and It alone is administered by: The Melchizedek Priesthood. Look further at the Greek text regarding Enoch in Jude for support here...Enoch the 7th from Adam...

Surely, We Won't Find Confirmation In The Greek Text? *Sarcasm Mine...*

- 7th, Gk.#1442, Hebdo-mos, it is first seen in the Septuagint LXX translation of **Gen. 2:2** regarding the 7th Day or Sabbath.
- From, Gk. #575, **ἀπό**, Apo. This word is a verb of motion, as in from a place, a separation of a part from a whole. Need I remind you that Jude was the brother of Yahshua and would have spoken HEBREW! Is it possible that the Greek translators hid something in this prepositional phrase?

Let's look closer at this Greek word **ἀπό** Apo...By the way, the gematria of this Greek word? 151 - the same as the Hebrew word MIQVEH! It is also the value of a phrase found only in **Gen. 7:7** **וַיבֹא נֹחַ וּבָנָיו**, v'ybo Noach u'beinu ...*and Noah went in with his sons*...Noah and his sons went into and were MIQVEHED INTO the Ark – HE - Who tasted the Bitter Waters on their behalf! This number once more connects Enoch to the typology found in the Flood account.

What imagery does the Miqveh convey? The insertion of Seed into the darkness of the womb followed by a birthing. The same analogy of Death, burial, and

resurrection! The perpetuation of each SEED AFTER HIS KIND! The Law of Genesis. Being the 7th from – APO – Adam indicates that Enoch was to immortalize the SEED – NOT OF ADAM – BUT OF THE WOMAN - and his Kingdom responsibilities until such time as HER SEED – THE One Who Could be inserted into the Woman’s Dark Womb [*...darkness was upon the face of the deep and the Ruach Elohiym moved upon the face of the waters*] while carrying the Seed of Elohiym, like the Sun’s pattern, Creation would be Born again out of that darkness of her fallen flesh! Voila! The Restorer of Creation!

Once again: *Note the Greek letters regarding Enoch being the 7th From – APO-Adam.

Ἄ - Alpha, corresponds to the Hebrew letter Aleph! The One Who Was, Is, and Is to Come! The First, Original! The Light of the World!

π – PI – the symbol associated with 3.14, the number, that is without doubt the AUTOGRAPH OF ELOHIYM’S DNA found emphatically coded within the text of **Genesis 1** and wholly substantiating the Creation Covenant Calendar of 360-days. PI literally means perimeter – the Circle: This Greek letter also represents the Hebrew letter Pey – The Mouth – The Womb of the Word. PI, as such, is also connected (3.14) to Shaddai שׁדַּי (314) indicating the concept of bridging Heaven and Earth! Don’t forget that...

360° - 360-days:
Circle – Diameter – Radius?

Is it just me, or was Enoch possibly teaching the concepts of PI – the Circle? By the way, the invisible line bisecting every circle is known as its’ diameter. In sacred geometry, and ancient cosmology it was perceived as a symbolic bridge connecting heaven and earth! Coincidental you say??

Is it feasible, suppose you - to now connect **Genesis 5:23 - 24** (*And all the days of Enoch were three hundred sixty and five years: And Enoch walked with Elohiym: And he was not; for Elohiym took him*) where the ‘taking of Enoch’ is seen fulfilling that concept of bridging between Heaven and Earth? Wouldn’t a bridge then connect the Heavenly Calendar with that of the Earth? As we continue...

I also found it intriguing that the phrase ‘*And all the days....*’ - *Of Enoch* -

וַיְהִי כֹל-יָמֵי vayehi Kol-yami has a value of 141 the same as **לְמִינֵהוּ**, leminehu – AFTER HIS KIND! THIS IS THE LAW OF GENESIS! This relates to the Eternal Gestational Cycles – The Laws associated with Sowing and Reaping which first pertained to the Creation Covenant Calendar of 360-days! Therefore, *‘the Days of Enoch’* must follow that LAW of gestational cycles! Enoch’s teaching then, must be consistent with that or else he’s a false prophet!

Watch what follows...because, like Adam and Chavah the moment we get separated from The Calendar, a.k.a. The Tree of Life – The Ancient Gnomon Shadow Marker of Eden – Whose going forth marked the Circle of Life, Creation, etc. we are put out of that Garden.

Look here: **וַיִּשְׁלַחְהוּ**, V`yishlachhu, Do you recognize this phrase? It’s found in **Genesis 3:23** where it is said: Therefore, *Elohiym sent him (Adam) forth*. It’s gematria?? Come on, guess! 365! The root Shalach means to send away, but also to BE PUT AWAY – DIVORCED! Oh, by the way, 365 is also the value of **אִשָּׁה נֹדָה**, Ishah Niddah, Unclean Wife, woman. Naw, calendars aren’t that important...Could the 365-day year hint at the penalty phase for the Adulterous Bride? Where she is given the cup for a season?

Based on **Numbers 5** and the Bitter Waters of Jealousy, if the Woman is not guilty, she conceives and brings forth fruit! I submit, that the 365-day calendar was instituted to call attention to the Bride being Adulterous - until Yahshua drinks the cup on her behalf at His Initial Coming! This instituted a subsequent return to the 360-day Creation Covenant Calendar and signifies HER REDEMPTION AND HER RETURN TO EDEN WITHOUT SPOT OR BLEMISH! In addition, the 360-day calendar restores Her Self-Esteem, Her Right Standing, Her Priestly Role! The 365- or 364-day calculations can NEVER achieve that! Moreover, to shore that up...

Those Pesky Numbers Are Coming Again...

There can be no doubt that Yahshua is both King and Priest – Melchizedek! But He also came as Messiah Ben-Yosef. Like Enoch, Joseph would have continued the Melchizedek Order! By the way, the inheritance of Joseph (*Including the 360-day Calendar*) lies between Mt. Ebal (112 value) and Gerizim (260 value) – the Mountains of Blessing and Cursing. That area is called Shechem, **שֶׁכֶם**, H#7926. Its’ value? 360! Ebal + Gerizim + Joseph (112+260+156 = 528). 528 is known as the healing frequency! 360 + 528 =888. New Beginnings!

By the way, Joseph was figuratively on the ARK WITH NOAH! Where???

Gen. 8:10 ...and again he sent forth the dove... The phrase; 'and again' in Hebrew here is a textural anomaly: Rather than Yasaph, it is written with an inserted VAV - **יוסף** Joseph - while the Hebrew for dove is the word, **יונה** – Jonah! Could the Sign of Jonah also relate to the Bitter Waters of Jealousy that must be finished before His return!

Will Messiah Ben Yosef – Yahshua – call attention to the Sign of Jonah - 3-days/72hrs. again? $360 \times 24 \text{ hours} = 8640 \text{ hrs.} \div 72 \text{ hrs.} = 120$, Man is given 120hrs. ÷ 24hrs. or 5-days added to the Creation Calendar in the fish's belly – 365 days!

Elohiym and PI and Enoch?
Brace Yourself Here...

FYI: **Ps. 145** is an acrostic poem, meaning each verse starts with a consecutive letter of the Hebrew Alef-Bet. **Verse 16** begins with PEY – the Greek equivalent to PI – for this reason many Sages believe Elohiym is called by the name PI in **Ps. 145: 16** Where He – THE PEY/PI opens His hands - **פּוֹתֵחַ אֶת-יָדָיו** Potei`ach ET-yadeha and satisfies the desire of all living things. It is my opinion that those conjoined hands formed the Circle of Life first initiated in the heavens. Moreover, the mouth – Pey also forms a circle like opening. Indicating a divine relationship between The Mouth – Pey of Elohiym and PI – the symbol of the Eternal's DNA upon all creation!

Last letter of APO - The omicron...

Ó - Omicron, is said to stand opposite of Omega – as in 'little 'o' versus Big 'O'. It seems that Omega indicates the Eternal – The END – As in Alpha and Omega – Beginning and End, while the Omicron seems to hint at a reduced version of the Omega: Is it possible that this points toward The Eternal One – Omega - who must

take on a Fleshly Body – Omicron – HE that must come through the womb of the flesh and die in order to become eternal again!

Omicron corresponds to the Ayin – The Eye – Womb painting a picture of the SEED OF THE WOMAN depicted in the heavens. Predictably, it is this seed inside the WOMB – The 360 ° CIRCLE OF LIFE – that shall bruise the head of the Serpent’s Seed.

By the way, the phrase above: ...Potei`ach ET-yadeha has the same value – 929 – as **הוא ישופך ראש**, Hu` Y`shuphecka roshe – HE SHALL BRUSE YOUR HEAD!

Enoch

In summation, I believe Enoch would never have embraced any calendar except that of the Creation Covenant – 360-day. For those who believe that the Book of Enoch sanctions a 364-day model instead, the evidence to the contrary is overwhelming!

Finally, our test must be Torah first, Tanach 2nd and finally the New Testament. In that order! If we cannot substantiate ANY POSITION from Torah, then we need to set it aside. Both the Tanach and the New Testament do that when scholarly examined apart from the obvious and deliberate mistranslations inserted to promote biased agendas. The Book of Enoch is no different. If one doesn’t have a solid Torah foundation, prudence suggests leaving Enoch and every other extra-biblical work alone until that is accomplished.

We must balance everything we study against Torah – particularly the Hebrew language – that said. NOT ONE VERSE CAN BE FOUND ESPOUSING A 364-DAY MODEL! You make the Call!

Shabbat Shalom.
