

Restoration of the Calendar pt. 10  
8-31-24

Here we are at Part 10 of this series and I'm still not sure where we will end, simply because this subject is inexhaustible, as it relates to almost everything that I am looking at in Torah! The Creation Covenant Calendar, conjoined with the Melchizedek Priestly Order, who is charged with the oversight of all the Divine Appointments dependent upon that calendar, are interwoven throughout the DNA of the Redemption Plan of Elohiym! In consideration of the foregoing, I want to expand our pursuit of Truth, in particular, as it regards the Stellar Luminaries, whose duty entails the demarcation of the Calendar. I hope to spend some time later looking closer at the 12-Constellational or Zodiacal Houses and their singular contribution to "*The Way*", but for today, we will limit our look to one or two. I also want to visit their specific '*Numbers*' and some of the Names assigned to the Face Of The Heavenly Clock and the 360-day calendar cycle! If what we've been teaching is Truth, these '*numbers and names*' should serve as both Biblical and historical confirmation of the Creation Covenant's Priestly 360-day Calendar.

To begin, it is well documented historically that the Constellational position of certain stars were instruments in ancient timekeeping. Even at present, the calendar most in use today has its' Roman influence in the form of the names of the 7<sup>th</sup>-10<sup>th</sup> month: I.E. September, October, November, December. Moreover, not only were the stars used for Yearly calculations, but along with the original visible 7-planets, the months, weeks and days were divided or apportioned accordingly. To the chagrin of the lunar calendar adherents and those of the Enochian and Zadok view, these ancient computations were not only extremely accurate, but were demonstrably 360-day/degrees in origin! Therefore, to put this in proper context, and in order to understand the gravity of our current dilemma - where the Believing Community stands tenaciously divided over these Calendar issues – perhaps we should revisit the declaration of the Mastermind behind all fraudulent Calendar observations today. Lucifer himself.

**Is. 14:13.** *For thou hast said in thine heart, I will ascend into heaven, I will exalt my throne above the stars of EL: I will sit also upon the mount of the congregation, in the sides of the north:*

I know, we've discussed the above at length in previous chapters, but take note of what follows as we revisit the latter phrase: "...*I will sit also upon the mount of the*

congregation, in the sides of the north.” There’s an interesting clue buried here, to understand it, we need to examine several key words.

- Sit, [H#3427](#), **יָשַׁב**, Yashav, translated here as: To dwell, sit, to dwell with as in marriage, i.e. to give a place or dwelling to another. More significantly, the intent here is to gain a dwelling or place/house when one marries. Hmmmm? Well now, who do you think he presumes to engage in matrimony in order to accomplish this?

As we continue...I find it interesting that the Bride of YHVH is given a Ketubah at creation. The terms of which, are written in these same stellar luminaries. Moreover, according to ancient custom, the Bride is also given a Dowry by her Father. Is it possible that the Holy Convocations, each of which point incrementally to the Betrothal and subsequent marriage consummation, could suffice as part of that dowry, allowing for intimacy at those Set Times? I wholeheartedly believe the purpose for the restoration of the knowledge of the Creation Covenant Calendar is reserved for that specific group – The Bride!

Likewise, Yashav has the unique Shin-Bet root which hints at a ‘*returning*’. In this case, literally, to put a house or dwelling place at a purposed site where he knows the bride will return to. It carries the idea of doing something again by replication or duplication. Ironically, this root is the crux of Shaneh, the Hebrew word for ‘*years*’ found in [Gen.1:14](#). Shaneh hints at a fixed, 360-day marker – the Shadow of the Vernal Equinox – THE PLACE OF RETURNING - that begins our count for what we call the year. Continuing with Lucifer’s declaration...

- Mount, [H#2022](#), **הָר**, Har, a hill or mountain, the root of Harah – to be pregnant.
- Congregation, [H#4150](#), **מוֹעֵד**, Mo`ed, appointed place, time, meeting, sacred season, TENT OF MEETING!
- Sides, [H#3411](#), **יָרֵכָה**, Yerekah, sides, border, recess. From a root - yarek, indicating thigh, loins. The regenerative area.
- North, [H#6828](#), **צָפוֹן**, Tsapon, translated here as ‘*north*’, yet properly indicates that which is hidden or dark, as a quadrant on the compass that is dark, obscure, *to hide from discovery!* A treasure, secret places.

The implication here is one of a specific place and time where expectation of intimacy coincides with these appointed times. Elohiym is very conscious and committed to exact times. For example: It is well-known that the Sun enters each

House of the Zodiac at 30° while Yahshua began His ministry in the House of Israel at 30-years of age! Shouldn't we therefore expect the Appointed times to mirror that accuracy? Further, to those outside of relationship with the Creator wouldn't the timing and place of intimacy be hidden from them and kept private for those who know when and where to attend, their joint Meeting a "Secret" place? In that context, how interesting is the following view of **Ps. 91:1** *He that dwelleth in the secret place of the Most High shall abide under the shadow of the Almighty.*

- Abide, **H#3885**, לִוּן, Luwn, to lodge, or rest, to pass the night, to stay permanently. Next, we have the phrase: 'under the shadow' written **בְּצֵל**, betzel, from **H#6738**, צֵל, tzel, shadow, shade or protection, as in: The Shadow of a DIAL! With regard to the above phrase B'tzel - The letter Bet here is rather oddly rendered 'under' when more commonly, as a prefix, it is always indicating 'In, with, or at!' I.E. ...at or with the Shadow or protective covering of same...
- Almighty, **H#7706**, שָׂדַי, saday, the Mighty One, from a root meaning to break to pieces, to shatter, like a plow does the ground! The Sun plows the Day open at dawn and again, yearly at the Spring Equinox when the SHADOW IS MARKED plowing open the year! Resultingly, it is entirely plausible that those who 'Dwell in the Secret place' do so because of the protection afforded by the plowing of the Tequfah or shadow that marks the true start of every year setting the dates for the Divine Appointments! Thus, we stay permanently with or at the Plowing of the Shadow in order to dwell in the Secret Place!

As we contemplate the above, it seems this specific Northern Quadrant of the 360-degree Stellar Zodiacal Compass had/has particular import to the Mastermind – Lucifer - here. Have you ever asked why? First, let me remind you that TIME is NOT linear! It is circular. It has no beginning or end. Hence, the necessity of the Holy Convocations being attended to, or administered by, the Melchizedek Order – which itself, ironically, has no beginning or end! \*Note: **Heb. 7:3** *Without father, without mother, without descent, having neither beginning of days, nor end of life; but made like unto the Son of Elohiym; abideth a priest continually.*

Though One's lifespan may end here, your life's actions affect those coming after you, just as you were by those who preceded you! Historically, a Man's life has always been alluded to as following the pattern of the Seasons: Nativity – Spring; Youth – Summer; Middle Age – Fall; Winter – Golden or twilight years. Those

same seasons are depicted in the Constellations by: Spring = Aries, Taurus, Gemini – Summer = Cancer (Klaria) Leo, Virgo – Fall = Libra, Scorpio, Sagittarius – Winter = Capricorn, Aquarius, Pisces! Each of the 12-Houses occupying 30° of the zodiacal heavens for a total of 360-degrees. How apropos that Yahshua began His ministry at 30-years and though I cannot prove exactly, I would not be surprised if it was exactly as the Signs changed from Aries to Pisces – the Sign representing the Two Houses of Israel – at the precise Day and Hour! \*Remember this!

Thus, if the Heavens are reliable and truly represent the SEED OF ABRAHAM - it would seem that one's destiny is revealed in the heavens, and, though we have to be careful not to embrace astrological ideals, the fact remains that the Luminaries do in fact, reveal the choices allocated mankind. However, it is the individual himself who must embrace – or not – the Redemption Plan of YHVH! It is those choices grandfathered down to us that are now ours, that determine whether our succeeding generations are blessed or cursed! Let me share one example where those actions and their consequences are yet still returning *'full circle'* to our generations.

Kindly note: Joseph is sold into slavery in Shechem, yet over 400-years later his bones are interred in the very place where his ordeal began, and which later became part of his inheritance – Shechem! (Josh.24:32) This aids our understanding of Abraham being shown the Message in the Heavens (Gen. 15:5). Is it possible that how we handle conflict, obstacles, and what seems a hindrance to our VISION, may well determine if we access a blessed inheritance or inherit a curse? We will look closer at how this effected his generations as well! Look here...

Lucifer Sits in the Sides of the North:  
Is his throne The North Star?

At present, the *'North Star'* is Polaris. However, it has not always been so, and will change again soon! As of now, Polaris is found in the Constellational Sign of Cancer, a.k.a. Klaria – The Sheepfold. The Chinese consider the Pole Star as: *The great honorable Lord of the Heavens!* Now isn't that convenient? Inside this constellation sits two minor groupings called decan: Ursa Major, Ursa Minor or The Great Bear & The Little Bear. Frankly, NO LITERAL DEPICTION OF A BEAR EXISTS!

The original Hebrew translation was *The Flock or Great Sheepfold and the Lesser Sheepfold*. This points us back to our previous (Pt.9) teaching on the Covenant

Between the Pieces of Judah and Joseph. It is also very interesting that within this Constellation – Klaria – and its’ decan or minor house called Ursa Major sits the infamous Sign of Draco, The Dragon, whose tail intertwines 1/3 of the Constellations in the North! This Draco is juxtaposed to Polaris which resides in Ursa Minor who anciently was known as: ‘*Kochab*’ - a name that is usually rendered “*Waiting on He Who Comes*”. Some also call it Cynosura – The Center! It is this position that Draco – The Dragon attempts to usurp! In fact, he will masquerade as Messiah until dethroned in the Heavens! I believe He will appear just prior to the COMING OF THE SON OF MAN as THE counterfeit! But, wait - Let me show you a picture of this CENTER with Polaris as the hub or nucleus! Does this look like a Circle? 360°

[[https://commons.wikimedia.org/wiki/File:Star\\_Trail\\_above\\_Beccles\\_-\\_geograph.org.uk\\_-\\_1855505.jpg](https://commons.wikimedia.org/wiki/File:Star_Trail_above_Beccles_-_geograph.org.uk_-_1855505.jpg)]

In contrast, how apropos that Draco figures very prominently in the End-Times. Is it possible that HE WHO IS REPRESENTED OR PROPHYSIED OF BY THIS STAR IS ABOUT TO BE CAST TO THE EARTH WITH HIS 1/3 OF THE FALLEN ANGELS? If so, and you’re not ready, you better get ready! What time is this going to happen? Can we know? How many Fallen Angels is this? I can’t say, but based on 12-houses occupying 360° divided by the 1/3 or .3333 gives us: 1080.108010801080 to infinity...\*REMEMBER THIS NUMBER 1080! You simply cannot make these things up and they DO NOT fit any other calendar model: Be it 354, 364, 365.24.

Take note:

**Rev. 12:3,4** *And there appeared another wonder in heaven; and behold a great red dragon, having seven heads and ten horns, and seven crowns upon his head. And his tail drew the third part of the stars of heaven, and did cast them to the earth: And the dragon stood before the woman, which was ready to be delivered, for to devour her child as soon as it was born.*

Surely, if every End Time prognostication involves a reference to the above, wouldn't such acknowledgment also tend toward revealing the 'timing of such event' if we only understood the mechanism of this cyclical 360-degree/day heavenly clock?

Perhaps Yahshua hinted at this in **Matt. 6:10, Luke 11:2** ...*Thy kingdom come. Thy will be done on earth, as in heaven...* His will being done, Gk.1096, ghin-om-ahce, to become, appear, come upon the stage, appear in history. This was not a question or plea being voiced by Yahshua. Rather, it was a declaration of the Sovereignty of Elohiym and the eternal ordination of every event on earth after the 360-day pattern of the Heavens! One must now ask: Who could attest to these facts if not the Eternal Melchizedek King and Priest – Yahshua Himself? He alone is able to supervise the Set Times, while petitioning simultaneously, on behalf of those for whom He has been appointed mediator. No Levitical order or course or Priest could do so. Frankly, Daniel gives ample evidence attesting to the Priestly Calendar that will be in use in the LAST DAYS - that of the 360-day Creation Covenant Calendar. Which see...

Do you recall the Morning and Evening oblations that are referenced by every END-TIME – Augurer. Scholars acknowledge them as required in the Tabernacle/Temple service. When closely examined in context, the numbers connected to these same events which are seemingly alluded to in **Daniel 8:13,14** cannot support a lunar calendar, neither a 364-day system. This term, without doubt confirms the Eternals' 360-day Melchizedek Calendar. Stop! Have you ever asked why Daniels' work is not part of the Jewish Tanach and he is not even considered a prophet? I believe it is because his words promote a 360-day Creation Calendar while condemning the LUNAR CALENDAR, as well as, providing evidence against the 364-day argument. Watch this...

*Then I heard one saint speaking, and another saint said unto that certain saint which spake, how long shall be the vision concerning the daily sacrifice and the transgression of desolation, to give both the sanctuary and the host to be trodden under foot? And he said unto me, unto two thousand and three hundred days; then shall the sanctuary be cleansed.*

$7 \text{ – years} \times 360 = 2520 - 220 = 2300$ . 220 is 7 months of 30-days + 10-days. It is 7-months from the beginning of the year when the Tequfah is marked counting the next day as day-1 to Tishrei or the 7<sup>th</sup> month + 10 -days to the Day of Atonement! Reconciling these import of these numbers with the prophetic future only happens if one applies them to the 360-day cyclical Calendar and the Tequfah!

Continuing...

Back to the North and Draco

Draco spreads over 7-signs of the Zodiac, also historically called '7-heads.' He would like nothing better than to usurp the place of The Coming One – Polaris! Further, Polaris was preceded by the Polestar 'Thuban' who was in the coils of the Dragon/Draco at the timing of Adam - reigning for more than 1000-years. In fact, most scholars believe the descending passage of the Great Pyramid of Khufu at Gizeh pointed directly toward Thuban until the Zodiacal procession changed. Thuban was within 1-degree of True North. The Redemption Plan of Elohiym allowed the Great Zodiacal Precession to move Draco out of his throne by Prophesying of ONE WHO WOULD COME AND DIE in the message found in Polaris! His – Lucifer's – demise was predicted in the luminaries long before Rev. 12!

Currently, Polaris marks the center of Eternity's great CELESTIAL CLOCK AND CALENDAR at 0.45 degrees (*27 minutes*) from north, while Thuban rested at 0.16 degrees (*10 minutes*) - *60-minutes equaling 1-degree of the 360-degree/day compass/clock/calendar!* Let me expound a bit here so that you can see why and how the ancients viewed the Luminaries as THE Method or TOOL for their computations involving Calendars, units of measure on the earth, the cycles of life, etc. almost all of which were delineated by 360°!

For instance, the length of a complete astronomical cycle is approx. 26000-years. It takes *about 2160-years for the shift to proceed through one 30-degree Zodiacal House*, while the Full cycle is the duration of time estimated for the solstice to shift through the entire 12-Houses of the Zodiac. Thus, based on the Heavenly Clock "FACE" - 60 – minutes of Arc equals 1-hour which also indicates 1-degree of travel. Therefore, even our modern 'Clocks' testify of the Creation Covenant Calendar of 360-days! Historically, the magnitude of the celestial precession – is taken as 1 degree of arc per 72-years or  $72 \times 360$  which, again gives us the length of the full cycle of approx. 25,920-years. That number divided by 24 (Hours) = 1080. 72-years equals 1-hour of celestial time. Did you see that 1080? Hmmm?

The Helakim.  
Ancient Hebrew Timekeeping.

Ancient Hebrew Calendar makers divided the hour into 3600 seconds (60secs x 60min) with an hour also being divided into 1080 units called a Helakim, a unit of measure valued at: 3.333 seconds. Incidentally,  $1080 \times 2 = 2160$  is the length of time in years that it takes to shift from one Zodiac sign to another. Though Jewish scholars have massaged this idea of measurement to fit their Lunar/Solar Calendar, evidence proves the Babylonians themselves kept a 360-day calendar at one time, as did the Hebrews, therefore, it seems the Helakim is anciently connected to the 360-day Creation Calendar.

Further, the 1080 Helakim per hour ( $1080 \times 3.33333 = 3599.964$  seconds per hour) multiplied by 24 gives us 25,920 Helakim per day, the same number related to the Full Cycle of the Zodiacal Heavens! It is also quite interesting to note the similarity between the Spring and Fall Equinoxes. Based on a 360-day cycle those Shadows are approx. 180 days apart – occurring twice yearly –  $180 \times 2 = 360$ . Look at 1080 divided by 180 = 6 while 2160 divided by 360 = 6. Coincidence? I don't think so! Looking further...

Frankly, though contrarily bound to an evening-to-evening Lunar system, the conventional Jewish way of calibrating the time of day – STILL - is to reckon the 'First Hour' of the day as beginning with the dawn, approximately 72 minutes before sunrise. Dawn is called the breath of the Day. How apropos that 72 is considered 1-hour, 1-degree or 1-Great (Zodiacal) Day!  
[<https://encyclopedia.pub/entry/30073>]

\*NOTE THAT

Another confirming bit of information is the fact that the Earth is divided into 24-international time zones of approx. 15-degrees based on a 1-hour difference each for a total of 360-degrees. The relation between the Helakim and its Babylonian counterpart (*Barleycorn or Shey*) with the 360-degree Zodiacal Heavens is uncanny and cannot be refuted! This is significant regarding our being able to process the END TIME Calendar! Why do I believe this to be critical to our future?

The Precession of the Equinoxes:

The shifting of the Celestial Signs prophecy of the Messiah and His Redemption Plan. With that said, presently, the Vernal Equinox – I.E. Spring, when we mark

Tequfah – with its' Shadow - resides in the Constellation of Pisces having moved out of Aries near the time of Yahshua's nativity. It continues to move slowly and is now very near the border of Aquarius – The Water Bearer! Again, understanding this is monumental! Why you ask? Either this 360-day Zodiacal clock is antiquated and therefore, inconsequential or irrelevant or this knowledge has been hidden – allocated specifically for the BRIDE'S FUTURE SECURITY! Which is it? Watch this...

**Matt. 24:36**

*But of that day and hour knoweth no **man**, no, not the angels of heaven, but My Father only.*

The word '*Man*' above is italicized and not in the original translation. So, exactly what does this '*not knowing the day and hour entail?*' The standard answer is found within the confines of the Lunar Calendar system and attributed to the sighting of the new sliver of the moon as the governing sign to begin the month, year, and usually ascribed to the start of the 7<sup>th</sup>-month festival of Trumpets – a point of which: '*no man knows the day or hour of*'. Most blindly accept this. Is this Truth? Why is this dangerous?

We Have Inherited Lies.

**Jer. 16:19.**

*O YHVH, my strength and my fortress, and my refuge in the Day of Affliction, the Gentiles shall come unto thee from the ends of the earth, and shall say, surely our fathers have inherited lies, vanity, and thing wherein there is no profit.*

The Context here is about the Final Restoration of the Children of Israel at the End. Wouldn't such also include a means of time keeping in order to attend the Convocations as the Completed Bride in hopes of being at that Restoration? Those lies aren't little white lies Toto and you're not in Kansas anymore!

Let me share a bit of information my wife Brenda taught on a couple of weeks ago. Remember the Demonic of Gadara? He who was often bound in chains - implying the erroneous teachings of the Pharisaical Jews of the day. History records that though they ate kosher they engaged in this illicit business of selling SWINE to the locals. This man was being used as their personal security force to protect their private interests! The same can be said about the Lunar Calendar's evening to

evening reckoning as well as, the enemy's newest Hebrew Roots distraction: The 364-day Calendar! It will affect their business models – i.e. – offerings!

Having made such a bold statement, is not unfounded, because without doubt, the ability to predict with great accuracy the new moon along with the Equinoxes' Precession was not only present during the captivity, but the Babylonians, Greeks and HEBREWS who all knew it long before the birth of Yahshua - as far back as Adam in my opinion! Thus, when this above statement of Yahshua is made in **Matt. 24** He could not have been relating it to the sighting of the new moon beginning the Festivals of the 7<sup>th</sup> Month! So, what's up?

Could Yahshua have been referring to a common understanding (*In His day*) vividly depicted in the Mazzaroth – one that has long since been intentionally obfuscated – a Sign that would have been germane to His statement and that would no doubt have influenced His referencing the SIGN OF THE COMING OF THE SON OF MAN – especially when considered in the context of the beginning of chapter 24? How so? May I remind you that every 2160-years a shift occurs and that a blurring or a sharing of boundaries – called '*transition periods*' between the two signs occur prior to a complete shift? In fact, the Signs were changing in Yahshua's day as we've stated, from Aries to Pisces! By way of illustration, the last hour – repeated in the closing of each cycle of the 12-Houses of the Zodiacal precessional clock, as it counts down, takes 72-years to complete! *72-years is considered both 1-hour or 1-degree as well as, 1-great day!*

Accordingly, we are in the throes of another changing - from Pisces - who is now turning - into Aquarius as I speak! Only the Designer of the 360-day Clock – Elohiym - knows exactly when the final shift into Aquarius occurs! It is also worth repeating here again for emphasis, that 1-hour of the precessional clock – literally takes 72-years – and is considered a '*lifetime*' - as well as, 1-Great Day and 1-Hour! Moreover, the 2160-years it takes to traverse the current celestial sign is called a '*Great Month*' being 1/12 of a great year whose total circumferential travels equals 360-degrees! With that said, history has proven track record regarding this 'DAY AND HOUR' and unquestionably, we will know for sure when the Vernal Equinox (*Around March 20-21*) moves in front of the constellation Aquarius, providing we continue to MARK THE SHADOW! Oh! What an exercise in futility when NASA provides it! (*Sarcasm intended*) Well, NASA [T-Minus – SA-T- AN – That Old Dragon] like DRACO - occupies the throne in the place of intimacy for many Believers. Hence, why its' time to COME OUT OF HER MY PEOPLE!

*(There are many who believe Aquarius arrived in the 20<sup>th</sup> century, [1969] while others point to 2012 based on star alignment data) Now, examine the following closely...*

The Sign of the Son of Man:

**Matt. 24:30.**

If you note Ezekiel's vision of the Wheel Within a Wheel, Daniels' Visions, Revelations' Signs and the Camping alignment of Israel around the Wilderness Tabernacle, without doubt, the Face of the Man depicts the Sign of Aquarius! Common sense then, would equate Aquarius with the reference of Yahshua to the Sign of the Son of Man.

The Sign of the Coming of the Son of Man – Ben Adam:

For your benefit, please note that Matt. 24 context shifts into comparing this future 'Coming of the Sign of the Son of Man' with the DAYS OF NOAH! **Matt. 24:37-39.** Moreover, we should understand the use of 'Son of Man' as originating from the Tanach as a translation of Ben Adam - **בן אדם** – This sign then, should also point to the original Adam! It is my belief that the restoration of our understanding of the Creator's Covenant Calendar is timed to expressly benefit, protect and equip the Believing Bridal Community in the near future to allow them to be fruitful, multiply, replenish, subdue and have dominion over the earth, while utter chaos reigns for those who are outside the Ark of His Protection – THE 360-DAY CALENDAR OF THE HEAVENS! Restoring the Standing of the Original BEN ADAM to THE BRIDE becomes the paramount objective!

Aquarius, The Water Bearer.

The Faces of the Clock

**Gen. 49:3,4**

This ancient sign is visibly evident in several powerful places in Torah when one knows where and what to look for. For instance, Aquarius is considered associated with the Tribe of Reuben.

\*Note the following:

*Reuben, thou art my firstborn, my might, and the beginning of my strength, the excellency of dignity, and the excellency of power: Unstable as water, thou shalt*

*not excel; because thou wentest up to thy father's bed; then defiledst it: He went up to my couch.*

- Reuben, 7205, **רֵאוּבֵן**, translated as: Behold a son. His name is inscribed upon the RUBY stone on the Priestly breastplate that is most often called Sardius, H#124, **אֶדֶם**, ODEM, FROM ADAM! \*Note the relationship to Ben Adam! Reuben, like Adam in **Gen. 3** compromised the Bed of his father as Reuben did Jacobs' bed.

The original banner sign of Reuben was the 'Rising Sun'. Yet, for some odd reason (*I'll let you decide...*) the current banner reveals mandrakes, H#1736, **דוּדָאִים**, dudaim, a word which also reflects ADAM. From a mystical perspective, both the Ruby and the Mandrake are said to have the power to aid fertility. Further pointing to the Root of Reu – ben: To see, behold, while indicating seeing into another spiritual dimension. Continuing: Reuben slept with his stepmother Bilhah, compromising Jacob's bed. One of the Asterism in Aquarius which was anciently called 'Bula' today bears the Arabic title Al Bali. This is no coincidence. Regarding this, Yahshua seems to be linking His statements of **Matt. 24** with that of **Daniel 7:13** who also references the 'One like a son of man...' Look closer:

If one studies the Genesis account of Jacob and his sons, there is no plausible explanation for the symbolic references of his sons to that of the Zodiacal heavens, except that he, his sons, and previous generations were familiar with and appropriated the Stars and their emblems among the family! One scholar put it this way: If an examination of these symbols should show that only 3 of the 12 emblems are identical with any three of the set of 12-houses of the Zodiac, the odds would show it improbable that it was accidental. That even 6 should be identical and the other half plausibly so, by accident it is morally impossible! But, to have all 12 Sons' emblems correlate to those in the heavens is beyond refute! (<https://www.journals.uchicago.edu/doi/pdf/10.1086/469223>)

As we continue to look at the relevance of the Zodiacal Stars, their emblems and the purpose served by them, especially as the Calendar of Creation pinpointing every event in their message, it should not surprise us to note that the Hebrew Patriarchs knew this! Let me share a brief look at the name Jacob, but from an unseen direction!

- Jacob, H#3290, **יַעֲקֹב**, rendered commonly as, heel holder, supplanter. However, upon scrutiny, the Ayin-Qoph-Vav root gives us the idea of compressing, a battlement or railing around the roof. The extremity or utmost part, the end, event or consequence. The end or summation, the

consequence of something preceding! [John Parkhurst] The 12-Houses form a battlement around the circumference of the Heavens depicting the Seed of Abraham!

The reference points toward Jacob - who even Joseph connected with the Sun – emphasizing him as THE BRIDEGROOM EXITING HIS CHAMBER – CHUPPAH – completing his Circuit – H#8622, תקופה, Tequfah – A coming round, circuit of time/space, a turning! *This indicates not a LINEAR extremity as Westerners think*, but a completed cycle where the beginning and end join as the extremities! He, Jacob and his sons just as promised to Abraham - became the END – CONSEQUENCE – of the 360-day Creation Covenant Calendar and the Message of the 360° Luminaries that ordained it!

Let me add here: When we connect each of the above with multiple references in Daniel who seems to also point toward this Son of Man – Ben Adam – specifically calling Him the *Ancient of Days* (Dan. 7:9,13,22) I found there are scholars, far more notable than I who've spent decades studying this phrase shown above: *One like unto the Son of Man* – Ben Adam - and have concluded that it collectively embraces a Group called **The People of the Most High!** This 'Most High' also connected to Yahshua just as the term 'Son of Adam' is. I believe, He is also here called the Ancient of Days by Daniel. *For Yahshua is the Manifest Presence!* This Ancient of Days is rather a unique Name: Remember, all nouns derive from the verbal counterparts.

- Ancient, H#6268, עתיק, at-teek, ancient, from 'to remove or transfer, to transcribe, to copy out, leave off.' Coupled with the word 'Day' this word at-teek indicates HE is ORIGINALLY responsible for every aspect of time, ruling over it – as prescribed and measured in the movements of the Heavenly Luminaries! Can you say: A Cyclical Creation Covenant Calendar? Further...

Let me remind you that throughout the book of Revelation the word 'Star' euphemistically indicates 'Fallen Angels'. Thus, the "One – Third" of Rev. 12:4 could indicate a casting down of Fallen Angels for the last epic battle for control of the earth.

As we look back at the Sheepfold, I want to call your attention to one particular star in the 'Right Foot' of Ursa Major: It is called "Talitha". Perhaps you'll remember this word from Mark 5:41 *And He took the damsel by the hand, and said unto her, Talitha Cumi, which is, being interpreted, Damsel, I say unto thee, arise.*

- Talitha, Gk.5008, damsel, maiden, from Teleh – LAMB!
- Cumi, Gk.2891, Koo`mee, to rise, to come on the scene. To be proven, ratified, confirmed.

In consideration of the above, we must remember the entire sequence of events transpiring here: Namely, the healing of Jairus' daughter and the encounter with the woman with the issue of blood. The number 12 is significant as it connects the woman with Jairus, and the daughter – as well as – a veiled reference to the 12-Houses of Israel. Further, the woman could quite possibly have been his wife as her issue of blood has flowed unstaunched for 12-years while the girl is also at 12-years. As stated, I think this to have also been a hidden reference to the 12-Tribes who have been separated (*Covenant of the Pieces*) *Indeed: The Lost Sheep of the House of Israel - Joseph* – is depicted in the reference to THE GIRL WHOM THE LAMB – TELEH - MUST DIE FOR – The Same Joseph who for 2730-years of exile was considered dead. At the same time, for all intents and purposes Judah, serves to example the woman, has also been in a NIDDAH condition and estranged from her husband!

In conclusion...

Then and now, Jewish purity laws prevented contact with either, the unclean blood or the dead body. There is no remedy for either without the point of contact becoming cursed in the Levitical system. Moreover, the 12-years could (An unclean – Niddah condition) allude to the 120-years allocated to Man in **Gen. 6:3**. 120 x 50 Yovel or jubilee seasons apportioned by the 360-day calendar give us 6,000-years.  $6,000 \times 360 = 2,160,000$ . The 2160 corresponds to  $1/12^{\text{th}}$  of the Zodiac. If we remember that to Elohiym a 'Day is as a 1000-years - a 1000-years as a day' (Ps. 90:4) Then the Cycle of Man can only be explained by His Covenant Calendar of 360-days.
