

Sacred Geometry and the Creation Covenant Calendar.

Pt. 32

If you've listened to our previous teachings, you're aware that we believe the Creation Covenant Calendar is based on a sexagesimal system that consists of 360-days, with 12-months of 30-days, 60-minutes in an hour, etc. This system is incalculably pertinent to understanding the Creator's method of keeping time.

Modern Believers have lost that knowledge, but the Ancients understood numbers not only as a means of order and structure, but also as grammatical instruction. Remember that phrase!

History confirms this, in its' use as a universal, structural method of marking time, distance, and measurement. Unknown to most, it is still in use worldwide as a means of navigation (*90° of latitude and 180° of longitude*) and its' linguistic patterns still reflect its' influence throughout the natural world.

For example: This Creational idiomatic Pattern is seen in the 6-fold symmetry of snowflakes, Musical harmonic frequencies, crystalline forms, orbital motions, and wave patterns. Lastly, the very physical structure of Man's DNA aligns with these geometric patterns/numbers, particularly in its' spiral coil's, "*precise*" structure.

It is this peculiar pattern that allows for the transmission of light and data! This is called '*Sacred Geometry*'. Is it plausible then, to expect the transmission of Kingdom Light and Kingdom Messages to be accessible during the Divine Appointments?

Without doubt, the existence of Sacred Geometry throughout Nature – including the Creation Calendar – has caused scholars for years to refer to it as: **The Blueprint of Creation or the Creators' DNA!**

It is easily visible throughout nature and confirms Creation in its' impressive "3 – 6 – 9" *fingerprint*, of which, Nikola Tesla declared: "*If you only knew the magnificence of the 3,6,9, then you would have the key to the universe.*"

Because of this Creational Signature, we've been comparing the Creator's Calendar to those counterfeits that cannot lay claim to His Autograph.

A fact, causing most people to blindly follow a calendar(s) without substance, not knowing their error. Truthfully, every timetable today has in large part, intentionally separated themselves from this calendar. In particular as it relates to those sexagesimal building blocks!

Why? This question begs an answer. Thus, I hope to show you overwhelming evidence of what happens when one departs from this Calendar. Before doing so... I do want to address this one matter:

Is the Creation Covenant Calendar a Salvation Issue?

By its' very nature, the calendar does not save. It only directs one to the Appointments with the One Who Saves who sits on His Throne. Just ask Adam and Chavah what transpired in **Gen. 3** and who they met at the wrong appointment 12-hours before the VOICE WALKED IN THE GARDEN at dawn the following day! In that sense, you and I must ask: If we meet at the wrong time, who then, truly shows up as the Husband? This should be a humble consideration.

This is especially concerning in the days ahead when the Anti-Messiah will attempt to change Times and Seasons! It would seem then, if the Calendar becomes a Sanctifying tool, rather than a Salvational agent; does this lessen the Calendar's value? NO!

In fact, keeping the Calendar is a result of obedience after salvation, not the condition for entering. Therefore, the Calendar I keep reflects the One I Worship! Thus, it is cooperative, but secondary to Salvation! Yet, separating the two becomes an exercise in futility! Much like separating the spirit from the soul. **Hebrews 4:12**! Can't the same be said for the commandments? We don't get saved keeping them, we get saved by the blood, but keep the commandments because we love Him!

Truthfully, Salvation and the Calendar must function in Unity else, keeping Sabbath or any appointed time for that matter, becomes denuded in importance. This is true for Pesach versus Easter, Tabernacles versus Christmas. If we fail to keep them at their determined times, we must also forget marking the Year's beginning, as well as, the new month.

This instantly compromises all 7-mo`edim, the Shmitta years, the Jubilee year, as well as, the Morning and Evening oblations. But He knows my heart... Yes, He does, however, these are HIS FEASTS – NOT SUGGESTED ALTERNATIVES! See **Lev.**

23:4 *These are the feast of YHVH, even holy convocations, which you shall proclaim in their seasons.*

I want you to pay close attention to the following. The word for Convocations and Proclaim: Both have the same root.

- Proclaim, H#7121, **קָרָה**, Qarah, translated here as: To call, recite, commission, appoint, endow, to Summon. Parkhurst (*P.470*) reveals that Adam 'Gave names' – Qarah – to the animals. He reveals that Adam must have had words and ideas regarding the nature of the animals being summoned. Such as the cries or notes made by individual animals or their characteristics that would merit a specific name! With that in mind, there's a specific bird called the Partridge that has this name – Qarah – in Hebrew! It's distinctive sound most often heard at DAWN when defending its' territory, when mating, when calling it's children!

The first usage of the word Qarah is found in **Gen. 1:5** when Elohiym distinguished the Light – Day from the Darkness – Night! This precedent establishes Qarah – The Calling – as a Creational Precept, where charge is given to whatever or whomever ENTITY is summoned to be present! These are COMMANDED PUBLIC ASSEMBLIES!

Why then, would I relegate the Appointed Times to an insignificant status, by assuming that I can change the time for celebrating them?

Oh, did I tell you? The gematria of Qarah equals 301, the same as **עֵשׂ**, Esh – Fire, the root of ISH – Man! It is also the value of Menorah – the 7-branched Candle representing the 7-visible Planets! That being said...

Without a true Calendar, can we be genuinely sure that Yahshua – YAH'S SALVATION - was who He said He was, or was delivered at the prophesied time? In particular, without the ability to pinpoint exactly when He is born, His death and His resurrection how can we be prepared for His final return? Shouldn't I ask questions then if this is important? When did you say He was born, died? Hmmm?

Much less, how can we be sure of His role as the Melchizedek King and Priest? From that viewpoint...The Creation Covenant Calendar legitimizes the identity of the One Who Saved us!

As mentioned earlier Yahshua remarked: *“If you love Me, keep My commandments”*. Well now, exactly how many of those commandments straightaway pertain to the Creation Covenant Calendar? Most scholars agree that at least 25 biblical commandments directly relate to the Calendar! These all pertain to accessing Him at prescribed times!

LET ME BE CLEAR! In my humble judgment, these are commandments that apply whether we’re in the Land or not! Though Calendar and Salvation are two separate things, it is my position that they become like the Man and Woman when joined – ECHAD - ONE! *Note the following two powerful phrases:

Gen. 1:5 ...*Vayehi-Erev Vayehi-boqer yom Echad...and the evening and the morning were/became/are Day 1.*

Gen. 2:24 ...*Hayah Echad basar...and they shall be One Flesh!*

I found it interesting that the value of the phrase: *And the evening and the morning were day one* – has the same gematria as: *Ve’ha’nachash Hayah Arum* – *And the Serpent was NAKED – SUBTLE*. Hence, his reasoning that if he could compromise the Calendar, he could compromise Adam and Ishah’s encounter with THE VOICE!

Without doubt, the DNA of Elohiym produced the vehicle of Salvation – Yahshua – The Word! Simultaneously, the rhythmic flow and frequency of that vibration PRESENT within His DNA was implanted – CODED NUMERICALLY - within the sacred frequencies of the Calendar as well as, all of Creation! Those frequencies/numbers testify of His identity! While the Divine Appointments provide opportunity for intimacy and sanction all those who appear before Him!

As we continue, we will expound upon our foundational exploration of - Sacred Geometry – Numbers as it relates to the Calendar! Ironically, few are aware that the ancient word for the value system given to the Alpha-Numeric language of Hebrew – GEMATRIA – IS ACTUALLY DERIVED FROM THE GREEK WORD GEOMETRY! Both dedicated to their common origin as a system to measure and understand Creation through Numbers!

Can I then, comprehend the Redemption Plan fully without the numerical – grammatical instruction that IS THE CREATION COVENANT CALENDAR? Stop! Let me explain exactly the purpose of GRAMMAR.

- Grammar: The vehicle providing a systematic framework (*Rules, syntax, structure*) governing how words are arranged to ensure clear, coherent, and precise communication!

Thus, if the Stellar Luminaries convey with certainty the Redemption – Salvific Plan of Elohiym, I.E. WORDS WRITTEN IN THE HEAVENS – then there must be a coherent pattern, an orderly – structured, numbered, measured place for each to lend its’ specific message! Grammar and numbers together give structure, timing and meaning to the information.

There you have it – Creation needed the Calendar to ensure grammatical integrity for Salvation’s message!

Scripture, The Calendar, and Sacred Geometry

The calendar, like any other Created object, speaks and acts. It speaks to us of time – days, months, and years – it acts, organizing each into its’ proper place! This effects Creations’ Balance, its’ order, the stability of its’ related parts. While Harmony is the functional quality of balance - order and stability - working together! Unity, on the other hand, expresses the final, cohesive result of both Balance and Harmony!

Could the above statement regarding: Balance – Harmony – Unity literally be the expression of **Eccl. 4:12** where we have: *...a threefold cord is not quickly broken.*

- Broken, H#5423, **נתק**, Nawtaq, to tear apart. This same root is seen where Israel crosses Jordan as it is SPLIT APART on dry land. Most scholars believe this Union here in Eccl. alludes to: Husband – Wife – YHVH!

The Creation Covenant Calendar provides Balance, Order. Keeping those appointments brings Harmony! The HEAVENS HAVE NEVER BEEN out of sync. Man was intended to enjoy and express Unity by observing both. The Fall brought harmonic imbalance – division!

Pause a moment and consider your own life. Is it producing Unity? If not, find where you’re out of sync with your spouse, children, family, those around you and you will see that you are out of sync with Elohiym! When you repair this breach, then balance and harmony – SHALOM – will be demonstrated in your circumstances, in the conflict around you, and in the midst of your needs. Doing so, will expose what or whom you truly value!

A World out of Balance, Harmony, and Unity!

At present, the solar year is one of 365.24 days. There are many who believe we will return to the ancient 360-day calendar based on tremendous Biblical evidence. In the meanwhile, Creation is groaning for the manifestation of the Son(s) of Elohiym, This is necessary because of Sin's introduction which broke the fellowship – Union – Harmony - Balance of TIME enjoyed prior to the fall.

Rom. 8: 19 *For the earnest expectation of the creature waiteth for the manifestation of the sons of Elohiym!*

- Earnest expectation, Gk. #603 apokaradokia. From a compound of Apo (*A place of separation of a part from a whole, where the union of the two is destroyed*) and dokeho (*To be accounted, to expose to the eyes, to give evidence or proof*)
- Manifestation, Gk.# 602 apokaloopsis, things which have previously been withdrawn from view will be made visible to all. Total disclosure. From a word meaning to lay bare what has been veiled or covered up!

May I explain? Since the Fall, Creation has been subjected to discordant hostility – DEATH - because of separation from Perfection! It is patiently waiting for the final result of Man's redemption from death – a fact hidden currently from view – though Yahshua paid for it! Total disclosure I.E. THE PUBLICATION AND DECLARATION that death has been totally defeated is coming! Death is that final enemy! The Calendar enables that count down timer! Restoring the Union with Elohiym and Man!

This was ultimately revealed in the transformation of Yahshua's PHYSICAL BODY after His resurrection fulfilling **Eph. 2:15** *Having abolished in His flesh the enmity, the law of commandments in ordinances; for to make in Himself of twain – one new man, so making peace.* **Rom. 8:19** seems to infer the same for those Sons who are "Born Again".

It is my thought that the restoration of the Creation Covenant Calendar prior to the 2nd coming of Messiah serves the purpose of reestablishing that Original Creational Balance, Harmony, - Unity with Elohiym!

Creation Groans?

Regarding Creations' groaning, scientists have known for years that the earth itself has a natural resonance frequency of 144-Hz.

Is it then, merely coincidence that 12×12 , 24×6 , 3×36 , all equal 144, a number seen throughout the Scripture? (*Note: 3-6-9*) In familiar numbers as: 144,000 – 144 cubits. $1+4+4=9$.

FYI many believe that the Ark of the Covenant was literally a 144-Hz standing wave generator based on the dimensions given in **Ex. 25:10-11**. In addition, $144 \div 2 = 72$. $7+2=9$. By the way...

There are translations and traditions existing which declare Moshe appointed 72 (*Not 70*) Elders (*6 from each of the 12-tribes*), and that Yahshua in **Luke 10:1** sent out 72 disciples in pairs to preach the Gospel. This along with 72-names of Elohiym that most Rabbinical scholars acknowledge!

It is interesting that when Yahshua mentioned the ONLY SIGN PROVING HIS CLAIM AS MESSIAH – THE SIGN OF JONAH – it was 3-DAYS/3-NIGHTS 72-HOURS!

Take note of the ninth plague ($3+6=9$) occurring just before the distinction is made between the Firstborn of Israel and the Firstborn of Egypt – darkness for 72-hours! Could there be a relation here to the Sign of Jonah?

If you take the value of the 3rd plague: Gnats, **H#3654**, **בן**, cayin, 6th plague Boils, **H#7822**, **שחין**, shakin, and 9th plague Darkness, **H#2822**, **חשך**, choshek, you have 816, the value of **H#4919**, **משלמות**, Meshillemoth, to be made whole, complete, to be restored to original status. Its' root is SHALOM – PEACE! These combos of 3 – 6 – 9 are remarkable! What about other instances of 72?

The city of Galilee where Yahshua begins His ministry is mentioned 72-times in Scripture.

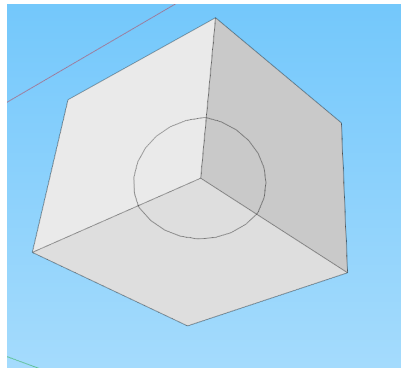

$$72 \times 6 = 2160$$
$$(2+1=3 + 6 = 9)$$

When scholars consider the New Jerusalem mentioned in Rev. 21, ($2+1=3$) they often describe it as a cube. A cube has $2160^\circ = 72 \times 30$. $2+1+6+0 = 9$.

2160 is the time allocated for the Zodiacal precession of the Equinoxes. The time it takes for the Vernal Equinox – The Sun to move through one constellation. This is called a GREAT YEAR! $360^\circ \div 12 \text{ signs} = 30^\circ$. It takes 72 years to move 30-degrees through one constellation! THIS EQUALS ONE ZODIACAL DAY!

This is why you have the head scratching Scripture in **Matt: 24:36**: *But of that day and hour no one knows, not even the angels of heaven, but My Father only!* Elohiym set the Stellar Clock into motion!

If it takes 72-years to move 30-degrees equaling 1-day, then a zodiacal 'hour' ($72 \div 24$) equals 3! $3 \times 360 = 1080$! Could the New Jerusalem's 2160-degrees literally be a city patterned after the Zodiacal Heavens? After all, a circle is literally a 2-dimensional cross-section of a cube! Was the Prophet looking directly overhead as this object descended? $1+0+8+0 = 9$

Remember Jonah's Sign? This sounds eerily similar! In fact, it seems this entire chapter 24 of Matthew's Gospel reveals insight regarding the RESTORATION OF THE CREATION COVENANT CALENDAR OF 360-DAYS!

FYI – I found it interesting that like **Matt. 24** - **Daniel 7:25** speaks of the Anti-Messiah: *And he shall speak great words against the Most High, and shall wear out the saints of the Most High, and think to change times and laws: And they shall be given into his hand until a time and times and the dividing of times.*

- Shall wear out, **H#1080 בלא**, bela, to harass mentally in a constant manner. It also speaks of a garment being worn out. This is seen in **Deut. 8:4** where YHVH reminds Israel that during the Wilderness era, their garments did not wear out.

The 360-day calendar marks – TIMES - our Greater Exodus. Is it possible that keeping it ensures that, LIKE ISRAEL there'll be no feeble among us, nor will our garments wear out? What am I saying?

Bear with me here, but couldn't this also be a euphemistic reference to this SKIN BODY NOT DYING! At the very least it hints at the return of the Messiah – The One Who Died and Now Lives! Could this be timing the moment when the Firstborn of those who will be BORN AGAIN – LIVE AGAIN is manifested before Creation? I know, your traditional exegetical view of Prophecy just took a direct hit!

Scholars for years have said that there would be natural races going into the millennial Kingdom! Is it possible that the restoration of the Creation Covenant Calendar becomes a precursor to the **Rom. 8** MANIFESTATION OF THE SONS OF ELOHIYM?

Too Incredible to Believe?

There are numerous examples in Scripture where the Engineer of the Universe uses that pattern for illustrative purposes. Purposes, that reveal His entire Redemptive plan. We have clear details in **Ex. 25:9 – 40, Heb. 8:5** (*Among others*) that reveal the Heavens became the blueprint for the **Wilderness Tabernacle, the Ark of Noah, the Ark of the Covenant, The Priestly Breastplate, The Camping order around the Tabernacle, Solomon's Temple, The Wheel Within a Wheel, The Beginning of Yahshua's Ministry at Galilee – Galal – to roll, a wheel, The Calendar endorsed by His Birth, death, resurrection.** etc.

It is our contention that each of the aforementioned articles were specifically designed in a circular form in order to properly illustrate the Cyclical Zodiacal Heavenly Vault. **Exodus 12** even specifies the orientation of the Wilderness Tent with its' opening corresponding to the Vernal Equinoxes in an east – west direction in order to serve as a Shadow Marking vessel. Moreover...

We read in scripture that Elohiym draws lines and measures objects. He convicts Job of his ignorance when he says "*where were you when I laid the foundation of the earth, declare if you understand. Who has laid the measures thereof if you know? Or who has stretched the line upon it*" (**Job 38:5**).

Isaiah describes how the "*carpenter stretches out his rule; he marks it out with a line; he fits it with planes; and he marks it out with a compass and makes it after the figure of a man*" (**Isa 44:13**).

- Compass, H#4230, **מְהוּגָה**, Mehugah, A circle marking instrument! Its' root is from H#2328, **חָג**, Chug, to encompass, to make a circle. It is where we get the word Chag or Chagah – a Festival marked upon the Cyclical Creation Covenant Calendar!

From this, we can surmise that Elohiym created the heavens for a specific purpose: To serve as an informational center for man. Both as a time-keeping device and an illustrative, visual infographic depicting the STAGES OF REDEMPTION that are revealed in the Divine Appointments set by those luminaries!

Is. 44:13 is shown describing the folly of mans' idolatry. Where the ancients took that heavenly Pictograph and assigned it counterfeit numbers, perverse holy days, an illegitimate priesthood, unlawful sacerdotal vestments, forbidden offerings and much more, all assigned to venerate counterfeit deities! YES! CALENDARS CAN BECOME IDOLATROUS! But, so can how we depict Yahshua! Are the pictures of Him hanging on a cross merely religious icons promoting a deeper faith in our traditions rather than one founded in the truth of Scripture? You answer!

AS WE CONTINUE Genuine vs. Counterfeit

Further study clearly shows that the encampments described in Ex. 19 and other places lend evidence to a Circular Encampment rather than the 'Squared' one. This overwhelmingly contradicts the 2nd Temple Blueprint, together with the 3rd Temple design and by default, their individual priestly systems. Not so you say? Ask yourself this: Where was the Ark of the Covenant located in Herod's' Temple during Yahshua's day? Definitely not in that Square or Rectangle Temple.

There are numerous scholarly works (*Extra-biblical*) that arrive at the same conclusion citing: *The camping arrangement would have been circular in keeping with ancient nomadic lifestyles.* *Note the following:

<https://biblehub.com/topical/t/tentcircle.htm#:~:text=Genesis%2012%3A8%20describes%20Abraham%20pitching,and%20protection%20from%20external%20threats.>

In addition, we have the Mekhilta [*de-Rabbi Yishmael Tractate Shirah 3:10-21*] describing the encampment of Israel as a circular formation!

This commentary cites **Ex. 19:2** where the Camp of Israel is described in a peculiar SINGULAR Hebrew form rather than the plural! Indicating a UNITED – ECHAD camp with the Presence of Elohiym at its' center! Balance – Harmony – Unity! The YHVH – The Husband – The Bride!

To add to that, every Hebrew scholar declares that Hebrew thought is circular – NOT LINEAR! In fact, Torah moves explicitly in Circles – never a straight timeline! Why then espouse a linear – squared Temple supposed to house a Deity who moves only in a Wheel Within a Wheel? **Ezek. 1:15-21!**

Sadly, the vast majority of Biblical Students avoid sacred geometry, including the study of the Zodiacal Heavens with their Cyclical Vault! To the contrary, many of the world's foremost, ancient Scholars understood and embraced their Creational origin! In fact, all ancient civilizations understood their importance. Including Pagan Illuminist, Secret Organizations!

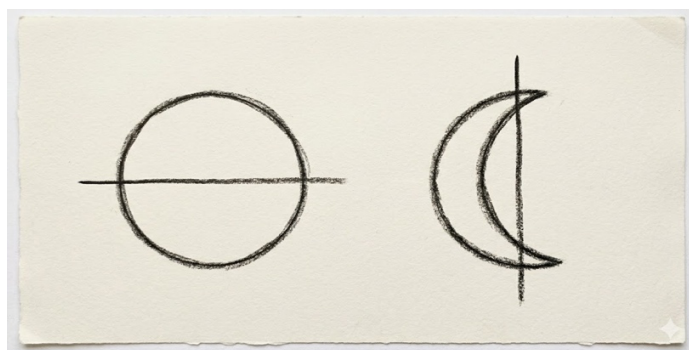

The Father of Geometry Euclid

Euclid was an ancient Greek mathematician who lived approx. 300 BCE and credited with organizing and establishing the principles of geometry. Historical impact suggests his work in geometry as 2nd only in importance to the Bible! You must understand: Scripture is rife with geometrical references of which, Euclid devoted his life seeking to understand the mystery contained within their keys to Creation!

One of his foundational axioms (*Truths*) is: *The shortest distance between two points is a straight line.* This has ever been a fundamental truth in Geometry. Thus, a straight line between two points with a GAP becomes false!

From this perspective, as a Calendar source, the Sun as well as, the Zodiacal vault serves as a circular figure bisected east and west. This 360° figure becomes relative to PI – 3.14 where **C=πD**. The equatorial line or diameter of the circle serves as proof of Euclid's axiom! In other words, a STRAIGHT LINE intersects them, much like the Vernal Equinox!

The moon on the other hand, as a calendar source wanders about in different phases. Thus, the moon is not trustworthy as a source! These spiritual truths are communicated to Man in various geometrical shapes throughout the universe!

www.biblenumbersforlife.com

If we hold fast to such Covenantal Truths, then we have a demonstration daily of a Covenant Between the Pieces! (*Brittney alluded to this last week*). Long before **Genesis 15**! Incidentally, we're quick to cite this passage and reference it to verse **5** where Abram's told to: ...*Tell the stars...*

- Tell, H#5608, סָפַר, Saphar. To read an account that has been written. (*Parkhurst p.361*)

It becomes apparent that Abraham is being shown the Covenant account in the heavens, its' pattern, and the invoking of that covenant in the earth through a ceremony where Fire – The Sun – The ESH – ISH – MAN walks between the Pieces! Now, fast forward to **Ex. 24:10** where upon Mt. Sinai we have this description.

*And they saw Elohiym of Israel: And **there was** under His feet as it were a paved work of a sapphire – SAPHAR – stone and as it were the body – ETZEM/BONES of heaven in **his clearness**. **Bold words are not in original text...***

- Paved, H#3840, לִבְנָה, libna, translated as 'transparent' white. But, note the root: BANAH – H#1129, to begin to build as in a family name!
- Clearness, H#2892, טָהָר, tohar, translated here as 'clearness', but it also indicates a CEREMONIAL PURIFICATION EXERCISE!

Moshe and the 72-Elders (*Remember earlier note*) literally were shown the written account in the heavens. Which is subsequently physically demonstrated as the BONES – BODY OF Elohiym ceremoniously walks between those pieces on Mt. Sinai! This is the daily pattern in the heavens as the Sun walks his course! **Ps. 19!**

This is recorded as the First Shavuot encounter. 50-days after Pesach! Ironically, the Gospels record this same pattern: Tongues of Fire walking between the Pieces: Heaven and Earth! You could not have attended either had there not been a method for COUNTING UPWARD FROM THE YEAR'S BEGINNING! The Dawn of a new year, new month, new day after having marked the Shadow – the LINE BETWEEN THE PIECES!

That Covenant was first struck between Heaven and Earth – literally “*The Pieces*”. The Equatorial line in the heavens (*Circle's diameter*) represents the portal or accessway eternally created between those PIECES! The Sun daily/yearly walks that Path demonstrating that Covenant!

Adam was the ESH – ISH man – the Fire intended to walk between the pieces. Passing through the divine portals at the Holy Convocations without restraint! This all changed in **Gen. 3** when after the Fall - DEATH PREVENTED THEM ACCESS! Now, blood must be shed!

With that said: Mathematicians agree, while most Religious Zealots don't! The Bible is filled with Divine Proportions that are the guide or template of Creation. The Golden Ratio, The Fibonacci sequence, PI π , pentacles, the Sexagesimal Creation Calendar Numbering system. The dimensions of Noah's Ark are a great example! 300x50x30!

What If My Numbers Are Off?

We have to ask this question. If Elohiym has predicated all of creation upon an orderly, numerical, sequential, or GESTATIONAL CYCLE called a Calendar, then what happens when those calculations are in error?

360° equals 360-days?

If, as we've posited, the sexagesimal system is embedded in Creation's Covenant Calendar and we have a solar year of 365.24, 364, or 354, how does that effect our ultimate destination? The Point in the future where our travels should bring us?

Based on that same system of measurement: A one-degree error in navigation will result in my missing my destination by 1-mile for every 60-miles traveled. Stop! If 1-degree is related to 1-day: 360° = 360-days, then if I'm off 1-degree, 1-day, then

every day, depending on my speed, I'm going to be off by 2 to 4 miles! In One month, this could be 60 – 120 miles.

Depending on my rate of speed, this could affect my timing considerably! Does my Calendar matter?

In times past, Abba may have winked at our ignorance. The days ahead of us will require diligent observation and commitment in order to survive. In conclusion consider **1Cor. 13:11**:

When I was a child, I spoke like a child, I understood as a child, I thought as a child: But, when I became a man, I put away childish things.

- Child – Childish, Gk. #3516, Nepios. Untaught, unskilled, immature in belief. If you've been a Believer for years, you have NO EXCUSE FOR CHILDISH – BEHAVIOR!

Jer. 12:5 *If you have run with the footmen, and they have wearied you, then how can you contend with horse? And if in the land of Peace – in which you trusted – they wearied you, then how will you do in the floodplain of Jordan?*

As for me and my house... We will serve YHVH.
