

Purim and Tetzaveh:
Casting Lots for Israel: 3/4/23

- I. Our Weekly Torah Portion is Tetzaveh and bears a unique connection to what we hope to divulge in our combined study involving Esther and Purim. As Tetzaveh launches us into the week where many commemorate the festival of Purim, the parallels between the two are uncanny! First, we find that of all the Parsha from the beginning of Exodus until the end of Torah, Tetzaveh is the only one where Moshe's name is not mentioned! It's as if he is absent for a season much the same as most assume YHVH as being absent or hidden in the book of Esther. Moreover, it is also established that Moshe was born on Adar 7 and also died – 120-years later on Adar 7 just prior to the Adar 14 date of Purim!

There are several other interesting connections between this Parsha and the book of Esther. Specifically where the discussion regarding priestly garments and the temple rituals related to them in Tetzaveh are also shown in Esther where the Persian King Ahasuerus, throws a royal party using those same captured vessels and garments of Israel's priesthood in a sacrilegious manner; in particular the High Priest's garments that the Sages say the King mockingly wore!

In addition, our Parsha speaks of an enigmatic and misunderstood mechanism used by the Priests for revealing information called the Urim and Thummim (Most scholars believe the Urim to have been a sort of 'Lots' cast) while the story of Purim in Esther reveals a similar casting of 'Lots' as the source of choice for Haman's decision to massacre Israel! Let's take a closer look at some key words here:

- Purim, [H#6332](#), פּוּר, the singular form indicating a 'lot' or piece. This is a supposed Persian word and identified in the same verse in Hebrew as [H#1486](#), גּוּרִל, goral, lots, pebble or a stone.
- Urim, [H#224](#), אֲוִרִים, defined as 'lights' from [H#217](#) uwr, flame or light.

Now, if you can read Hebrew you know the Alef in Urim has no sound, thus the vowel point is stressed on the Vav as a 'U' sound, much the same as in Purim.

*Note that Purim is styled with a 'Pey' - פּ – the letter indicating 'Mouth'.

Hidden within the Pey is the letter Bet – House – בּ – It would seem then these

‘Purim – Lots’ in Esther when released or ‘Consulted’ would effect the House who is sending or speaking them, i.e. Haman! But, how so?

It is here where we once again emphasize the importance of the letter Pey as referencing the MOUTH of YHVH! It is said that Pey contains the BET – House or Bride – and thus, the first word breathed out of the Mouth of Elohiym – *B’reshiyt* – involved the release of His plans for His Bride or House! Therefore, B’reshiyt begins the ‘*speaking of His House*’ setting in motion the redemption plan!

With the above in mind, it is my opinion that King Ahasuerus used not only the stolen garments and other vessels of Israel’s priesthood but, **his scornful rejection of Israel’s religion and ‘god’ would have also involved the Urim and Thummim, which I maintain were the very Stones or Lots contemptuously used by Haman** as the ‘Lots’ for deciding the fate of Israel! Yet, he has no clue that the fate of the House – Bride was breathed into the earth long before!

That being said, why would King Ahasuerus and specifically, Haman want control of the use of the garments and the Urim and Thummim? Especially, if the latter were simply two stones with yes or no written upon them. I contend that these were far more powerful and way beyond our comprehension! Yet, the Persians must have had some insight!

Let me stop here and connect us to our day: First, remember Israel had been held captive in Babylon who used their sweat equity as the means of securing the debt/economy of Babylon, later the Persians conquer Babylon and use the same. Thus, we find an intriguing parallel to our current day! Here, in our parsha, as a result of war - Israel is seen as a slave – and thus, is considered incapable of maintaining any inheritance and must have someone take care of them. Therefore, the ‘State’ becomes the guardian and creates a fictitious entity - an artificial intelligence – WATCH THIS – and **A.I.** called a ‘Straw Man’. The Modus Operandi has not changed! The circumstances and players have remained the much the same!

Fast forward to our day and this time, where, rather than creating a fictitious instrument, which through ignorance or acquiescence resulted in the giving up of the control of said assets for generations, we find the slave, finally waking up! An act, which upon discovery would expose the ‘slight of hand’ of the Powers That Be: This is the Story of Esther! The Slaves know their exile is about over! Consequently, in our case, in order for Babylon/Persia to make the system more

‘foolproof’ - this time the ‘Slave’ would have artificial DNA introduced into his/her own body/mind effectively creating an entity that would make decisions for him as he willfully chooses to remain in bondage! This is why I believe emphasis is being placed on A.I. artificial intelligence. *Oh, that will never happen you say?* Well, look at how easily the former system hoodwinked multiplied generations! A short list for your thoughts follows:

[Please *Note the 14th amendment: Though most cite it as the abolishment of the enslavement of African Americans, it in fact enslaved All U.S. Citizens labeling you as enemy combatants. Research Presidential executive orders relating to the War Powers Act – F.Y. I. Is it Daylight Savings Time or WARTIME? – Research the origin of Birth Certificates and ask yourself if you’re still in Babylon?]

So, there begs the question: Why would Haman attempt to destroy his/Persia’s money source? As we speak, the same is happening in our day! The Illuminists have killed off a staggering amount of slaves in the last 3-years and plans are for many more to perish! What or who replaces their slaves’ sweat equity if the plans succeed? Far fetched you declare? Well, for generations an In-corp-oration [A speaking dead body] or fictitious entity, an A.I. artificial intelligence has been created for every ‘Human’ born! (Human = monster: Blacks’ law dictionary)

That being said, did Haman presume the Urim and Thummim a mechanism for replacing the workforce of Israel? Did he presume the device as having supernatural powers? If so, someone or something would need to be created to take the place of those slaves and act on their behalf in order to siphon off what had previously been created from their labors.

Indiana Jones and the Urim and Thummim ☺

- II. It is worth mentioning that Josephus ([Antiquities 3:8:22](#)) remarks that the Urim and Thummim had stopped working some 200-years prior to his writing - around 104 BC - the office of High Priest having been corrupted during the Roman era. This further exposes the fallacious, counterfeit priestly system of Yahshua’s day, whose TEMPLE had no Ark, Menorah, or other proper means of communication with Elohiym without the Urim and Thummim! What does this say about the coming 3rd-Temple and it’s Edomite Priestly Caste?

What Power Resonated in the Original Priestly Vestments?

To begin with, it is my opinion that YHVH intended Israel to be a KINGDOM OF PRIESTS (**Numbers 19:6**) the language here derives from Melek and Kohen. I argue His efforts were directed toward restoration of the Melek-Zadek Priestly order. As a result to begin with, the garments of Aaron were a constant reminder of what the Adam had originally lost in Eden, but pointed toward a resurrection of that STANDING that was intended to occur at Mt. Sinai! However, the Golden Calf issue sets that aside for a season although it does not change the fact that the garments pointed toward the coming of the MELEKZADEK – Messiah – Yahshua the LAST ADAM and a rebirth for all those who would “PUT ON” Him! His Garments! His Nature, His Power, His Authority!

Please note **Ex. 28:29-30** *And Aaron shall bear the names of the children of Israel in the breastplate of judgment upon his heart, when he goeth in unto the holy place, for a memorial before the LORD continually. And thou shalt put in the breastplate of judgment the Urim and the Thummim; and they shall be upon Aaron's heart, when he goeth in before the LORD: and Aaron shall bear the judgment of the children of Israel upon his heart before the LORD continually.*

Contrary to most Scholars' opinions which state the High Priest only communicated inside the Most Holy Place - the correct rendering of the above indicates that the Urim and Thummim may have served as a powering device allowing Aaron to communicate with YHVH and convey the substance of His message to Israel no matter where he was located, inside the Tabernacle or outside!

If what I presume is true (That Haman used the Urim and Thummim) then it is our duty to find out why: **Prov. 25: 2**. It is the glory of YHVH to conceal a thing, but the honor of kings is to search out a matter.

The first mention of the two occurs at **Ex. 28:30** *And thou shalt put in the breastplate of judgment the Urim and the Thummim...*

[What we're about to do is an exercise in basic electronic engineering. I have little physical expertise here and thus, sought out those who do. But, I have studied the subject extensively and I have taken the liberty of condensing the information into layman's terms as needed]. To begin...

This breastplate or Chosen, **H#2833**, **חֶשֶׁן**, was itself a sparkling pouch set upon the chest – which was in turn then set upon the Ephod, **H#646**, **אֶפֶוד**, a tunic or mantle. The Urim and Thummim were placed inside the former. Please note the gematria of Chosen – 358, the same as the Hebrew word for Messiah, as well as,

Nachash! Could the purpose of the garment be twisted and used as a means of enchantment, divining or witchcraft by one who usurped its intention? Evidently, Ahasuerus and Haman both thought so!

Moving forward, each of the aforementioned were made from TWINED #7806, שזר, shawzar, twisted - LINEN H#8336, שש, sesh, white linen or marble. This is also the word for the number 6. *Remember, six is the number of Man – the VAV!

At this time, let me address linen and it's properties. Linen represented the Original "Light Garment" entwining the Adam – The Vav Man. *Note Ps. 104:2: *Who coverest thyself with light as with a garment: Who stretches out the heavens like a curtain:* It was worn as a rehearsal of a return to Eden! The wearing of these instruments clearly pointed to a future renaissance or revival during which time, those wearing them would be ushered into a Season of an unparalleled, supernatural demonstration of the Power of Elohiym in the collective Body of the Melchizedek! [Can you say Pentecostal Experience?] Once again, this was supposed to occur at Mt. Sinai with the electromagnetic storm atop the mountain energizing those gathered at the base in a shroud or garment resembling CLOVEN TONGUES OF FIRE!

In fact, the whole mountain is described as quaking greatly - ויחרד מאד v'yecherad Me'od. Is it possible that the entire mountain became an antenna or 'lightening rod' discharging the Power of Elohiym into the earth and the People?

The root Charad H#2729 indicates to tremble, quake, to shudder with fear, but it hints at a person under supernatural influence who demonstrates a violent vibrational shaking! Additionally, Me'od, H#3966, is rendered 'very', exceeding, but comes from H#181, ווא, uwd, meaning firebrands raked together. This same root is seen in Gen. 2:6 where a fiery mist - `Ed – וא - watered, H#8248, וקה, Shaqah, to water, refresh, restored the Adamah!

The root of 'watered' comes from Shin-Qof, meaning sackcloth! This root indicates a rough LINEN - Light - GARMENT that is clearly seen in Eden as being refreshed by FIRE! The ADAMAH or source of Adam's creation is constantly revitalized by the vibrational frequencies of a fiery garment clothing it/HIM! At Sinai during Shavuot it seems as if those same Edenic cloven tongues of fire that were seen crashing down the mountain formed a literal fiery mantle

with the intention of encompassing them in a Melchizedek Priestly garment!
Resurrecting a Nation of Kings and Priests!

Further, Linen fabric has a vibrational frequency of 5000 MHz! Linen material reflects light; as a result, it would amplify the vibrational frequencies of each highlighted letter upon the breastplate in addition to, the light released by the Urim and Thummim! Remember the Trumpet/Voice upon the mountain getting louder and louder? Likewise, gold was also used in the weaving of the Priestly garments in an ancient process whereby fine gold thread was wound around LINEN thread to produce a golden yarn! Most of us simply pass by without asking simple questions here yet...The KJV is barren of insight, however details in the Hebrew are intense!

All this matters! Including the commandment for the High Priest to be unshod or barefoot, effectively 'grounding' him! Moreover, the linen undergarments with their gold shielding found also in the outer clothing, the Ephod and sash that was wound around the body several times would clearly suffice as a 'loop antenna'. Does this sound far-fetched? Well, the U.S. Military has used body wearable antennas woven into their uniforms for quite some time. Let's continue...Remember, I told you 2-years ago that 5G technology was already antiquated and 6G was here? *Note the following:

Human beings could be used as part of an **electromagnetic radiation (EMR) antenna system** by wearing a special copper-coiled bracelet, according to a team of World Economic Forum-affiliated researchers at the University of Massachusetts Amherst and Delft University of Technology in The Netherlands.[
<https://newspunch.com/wef-want-to-lobotomize-the-human-race-to-become-6g-antennas/>]

Now, please note: These two crystalline "Stones" along with those representing the 12-Tribes upon the breastplate and the 2 – stones atop the shoulder pieces are themselves surrounded by the same twisted gold fibers or filigree, much like the 'Twined' linen! (Gold being the most conductive and least to tarnish of all metals far better than the copper mentioned above) What you now have is the prototype of a superconducting - radio - computer capable of receiving and transmitting information from the Creator! It is my opinion that this same device could possibly have opened portals into the unseen world and allow the WEARER to be transported to other places! *See Moshe, Elijah, Yahshua, and Phillip the evangelist!

What most don't understand having never seen the older model radios is that a radio signal being transmitted is merely an unintelligible sound. However, A.M. or Amplitude Modulation takes those same radio signals and enables an audio wave to pass through the crystals or stones! The signal is amplified through the filigreed gold and linen! There is no need for an external power source, only an antenna!

If we bear in mind the crystalline nature of each of the 12-breastplate stones, the 2-stones on each shoulder and the Urim and Thummim each of which, overlaid the Priest's Body (Which body was also inherently crystal) then upon receiving or transmitting a signal, the entire collections of Stones would begin to vibrate and move accordingly! Moreover, the underlying linen garments with their gold thread forming a loop-antenna would also have brilliantly exploded into what would effectively be "TONGUES OF FIRE". This peculiar phenomenon is recorded in numerous Qumran texts (4Q376, 1Q29F.1-7) & Josephus (**Antiquities 3:8:9**)! It is my belief that as the Manifest Presence of YHVH stood upon Mt. Sinai, where Light emanating from the original breastplate upon His Body would have literally shook the entire mountain and exploded down the sides in a fiery burst of Creation's Power, revealing the Hebrew letters as

TONGUES OF FIRE from the Urim and Thummim **ארויִם & תמים** – The collected sum of the letters would have formed the BODY of MESSIAH The Alef Tav! It is my opinion that the 'Outcasts of Israel' each have the DNA of Elohiym in the form of these letters and as we are summarily gathered we will once again form that collective MAN – ADAM!

Now, before you get all 'Pentecostal' - I do not believe that the "tongue-talking" practiced by most today is even remotely close to what this device produced! Instead, most indulge in fleshly, carnal expressions of what ignorant denominationalism interpreted as a means to validate their claim to holiness!

Let's look at what I believe is being revealed to us. Then, you'll understand why Ahasuerus and Haman thought to use these vessels and garments!

The Tabernacle Man:

- III. For starters, it has been our position that the Tabernacle was designed in the form of a Man with the High Priest as the foremost example of how the original Adam could have functioned in the earth – only he would have operated in the Melchizedek Priestly order – a much higher order established in **Gen. 1** that

would serve as a means by which the Adam could literally represent Elohiym in the earth. Here we must revert back to our discussion of the Hebrew letter “PEY” **פ** and remember that like Elohiym, the Adam would have breathed out – spoken – light which, if viewed, more than likely resembled the process the Sages ascribe to the Mt. Sinai encounter where the Spoken – Breathed Words of YHVH formed FLAMING Hebrew letters that cascaded down the mountain breaking stones, uprooting trees and causing their flock to birth! All these emanating out of the burning Mountaintop resembling Tongues of Fire literally commemorating the Shavuot Mo’ed which we find again described in **Acts 2: 3** as ‘Cloven Tongues like as fire!’ But WAIT – There’s No Urim and Thummim mentioned here in Acts!

Cloaked in this garment of light Adam was able to access the Throne of Elohiym not only communicating with Him, but also relaying information to all the rest of Creation! He was not limited to the physical world and could have simply thought of relocating and been there! After the Fall, that vehicle changed with the death of the flesh of Adam and subsequently, a different garment would have to be established as the first one no longer had a power source – I contend that source was none other than the Alef & Tav: The Urim and Thummim – Lights and Perfection of the Creation Language – Hebrew! It seems that what we’re witnessing in this study is an attempt by the enemy (Babylon/Persia/Haman) to usurp the power of the Creation Language – Hebrew. Remember Babylon [**Gen. 11** Tower of Babel] was the place where that same effort originally took place and YHVH Himself intervenes to confound the ‘Tongues’. If these incidents parallel, how did HE accomplish that in our study of Esther?

It is my opinion, as a **result of foreknowledge** of Haman’s efforts to access the Language of Creation – Hebrew - that while in Babylonian captivity shortly before their Nations’ downfall Daniel, Ezra, and others collaborated – at the behest of Elohiym – to seal up the books/languages/tongues until such time as **Zeph. 3: 9** sees the restoration of that Pure language! In fact, **Dan. 10:13** tells us that the Prince of Persia withstood Daniel for 21-days in an attempt to hinder this revelation! **Dan. 12:4** tells us that Daniel is instructed to shut up the words and seal the book even to the time of the end.

- Shut, **H#5640**, **סָתַם**, to keep secret, to repair, to stop up, to obstruct:
- Seal, **H#2856**, **הָתַם**, to affix a seal, to lock up.

Did you note the two-letter root stem common to both? The **תם** of Thummim? This root connotes that which is unblemished or without fault. Indicating an original, pure created condition that now must be obstructed or remedied with the original affixed with a seal and locked up until a time specified for it's future unveiling! The language now has a different, fleshly body rather than the former body of Light! This is a revelation of the WORD of fire and truth – the Alef Tav – who would be given a fleshly body that would be foreign and hidden to most. A prophecy of Yahshua!

In support, it is not an accident that the words Urim and Thummim begin with the letters Alef and Tav giving us the unique word found in **Gen. 1:1** that is called a 'Direct Object Marker' and divinely connected to the Breathing Out of Creation! It is this 'Direct Object Marker' that Yahshua refers us to when calling Himself the Alpha and Omega in the Septuagint Greek translation of Revelation. It is not argued that this is a specific reference to the Alef-Tav of **Gen. 1!** Yahshua Who Was and Is and Is Too Come! The Ehyeh Asher Ehyeh – I AM THAT OR WHO I AM! Daniel helped to complete this hiding of Yahshua – a veil which today remains on the eyes of both Judah and the World!

Being able to 'see' this is powerful because there are 7-Hebrew Words in **Gen. 1:1** with the Alef-Tav being the 4th or Shamesh Candle who gives His Light – **אור** – fire to each of the others! Move a bit closer here: Urim, which is translated as 'lights' by most, comes from the root **אור**, which, as we've shown, could also indicate FIRE. Urim's counterpart - Thummim, **תמים**, connotes that which is complete, whole, entire or without blemish. It's root indicates that which is completed, finished brought to an end or completion. Thus the two give us: *A fire that restores, brings wholeness, perfection, restoration???* This speaks of the resurrection Power of His Word!

From the Fall, the flesh of Adam no longer resonated with that power! Therefore, in anticipation of the Coming of the LAST ADAM – YHVH/YAHSHUA (He who would come in the flesh without corruption) a TEMPORARY vessel would have to be instituted: The letters/books sealed by Daniel would take on A Skin Tent or garment until the Pure or Perfected Word/Tongue arrived that could be PUT ON the Melchizedek Priest by faith much as one could PUT ON Messiah **Rom. 13:14** *But put on Messiah Yahshua and make not provision for the flesh, to fulfill the lusts thereof.* This effectively hid the ORIGINAL VESSEL WORD until such time as HE is crucified! Even then He is rejected by His own until such a time in the near future when EVERY

EYE WILL SEE HIM! WHO? The MELEKZEDEK! The veil will finally be removed from all men's eyes! The Remnant will see HIM before and as a result Come Out of Babylon!

This is the purpose of the rehearsal found in that of the Levitical High Priest and his garments. The function of the garments being the same: To allow access to Elohiym and restore the lost POWER SOURCE – The Urim and Thummim – The Alef and Tav! This power source temporarily restored to a great degree the flesh of the DEAD ADAM – The House of Israel! It is my opinion that 40-years without clothes or shoes or not one sick or feeble present among them came as a result of the demonstration of this Power!

Indeed, for additional confirmation, as we review our earlier extra-biblical texts from the Qumran era, the manifestation of the Urim and Thummim was said to be relegated to the 'anointed priest'. This word for *anointed* here is משיח, Mashiach – indicating a Messianic Priestly figure that the Qumran community waited for! In fact, a preponderance of writings reveal an expectation of an Anointed Priest who would be both PRIEST AND KING typifying the role of the ancient Melchizedek! [11QMelch(izedek)[11Q13]

The Return of the Urim and Thummim:

- IV. It is my opinion that several things must/will happen simultaneously at the proper moment necessary to release the Captives of Babylon/Persia mentioned in Rev. 18:4 who are seen as "Coming out of her..." Those things are: The Restoration of the Pure Language, The Restoration of the Melchizedek Priesthood, The Appearing of the Urim and Thummim, And the Gathering of the Exiles! It seems this is patterned after what we're witnessing in our study of Esther. As mentioned earlier, she would have been contemporary with Daniel, Nehemiah and Ezra the Scribe. Please note the text of Ezra 2:62-63 that describes a group of individuals returning out of Babylon and who're exiled from Priestly consideration because they could not determine their lineage! Then, Tirshatha commands **the Urim and Thummim to be brought forth for the purpose of establishing their identity and standing and standing as Priests!**

Who can tell their tribal affiliation or if they are even part of the Lost Sheep of the House of Israel? There will be a proper validation shortly as I am expecting this exact same scenario to take place in our near future! This seems a bit of

trouble for those who espouse current DNA tests as the determining factor for Aaronic/Levitical priestly lineage!

There are other hidden clues in our Study of Esther that reveal a future Haman – Anti Messiah figure that will once again attempt to destroy Israel. STOP! Bear in mind there are many in the future (**Rev. 2:9, 3:9**) that claim Jewish lineage but are NOT! Don't you ever doubt that the enemy knows who are his! Therefore, the battle will be launched against the True House of Israel! We will see a return of Gog of which Haman was an archetype – that is also a Euphemism for the Anti-Messiah in the near future – just as he's shown in Esther! But Where???

Take Note of **Esther 3:1** where Haman is introduced as the son of Hammedatha the Agagite, a Prince under the King Ahasuerus or a 'Little Prince'. Moreover, many scholars equate the word Agag with Magog the son of Japheth from **Gen. 10:2**.

In fact, many translate this as Agag as 'Gogite'. *See **Numbers 24:7** which also gives insight as the LXX and Samaritan versions read 'GOG'! Some scholars doubt Haman as descending from Amalek the grandson of Esau and the above lends credence shedding a different light on who he is! It is also worth mentioning that the letters that give us Haman – **המך** – also give us **הנם**, Hinnom – as in, the Valley of Hinnom or **גיא הנם** – gay' Hinnom a.k.a. Gehenna the place figurative of Hades or hell!

Those who see the Urim and Thummim restored will reside in Goshen while those who are manipulated by the perversion of their DNA into becoming an Artificial Intelligence will be ushered into a Gehenna by a future Haman!

As we get ready to close, it is apparent that Haman felt he could use the latent power of the Hebrew language to destroy Esther and her People. As we speak, the language of Babylon/Persia is imbedded in every facet of life and each Man and Woman bombarded with EMF technology the likes that have not been seen since the Urim and Thummim were active! Towers, wires, wi-fi, smart devices, body implants that rewrite human DNA and much more - are all the efforts of the enemy who directed the plans of the original Haman who thought to create a NEW WORLD ORDER!

The power of Words to change DNA is undeniable! Haman felt he could eliminate the Shemite Nation who had been entrusted with the Fiery Tongue of Creation just as the Powers That Be are attempting to use a corrupted language

to alter the Remnant Seed of YHVH! Like Esther, we have been secretly hidden among the Nations for just such a time as this! Our purpose? To thwart the plans and schemes of Haman and see The Outcasts Gathered!

As we speak a renewed and Amplified Modulation is being restored to the Collective Body of the Melchizedek Messiah! The Mark or Seal of YHVH – the Alef Tav – Urim and Thummim will open the minds and hearts of the House of Israel!

As we put on - HIM - our ability to receive and transmit HIS WORD with cloven Tongues of Fire, will result in a Remnant Priesthood clothed in the garments of righteousness! We will see His power demonstrated as it reverberates down the Mountain – Seat of Powers – enabling those who hear and disabling those who won't!

It is my opinion that Daniel was shown this both in Haman and the future Anti-Messiah. Thus, he remarks in **Dan. 11:32** *And such as do wickedly against the covenant shall he corrupt by flatteries: But the people that do know their Elohiym shall be strong and do exploits!*

Note the word for flatteries, H#2514, הלקה, khal-ak-kaw, flattery, from a root meaning to divide, plunder, separate. This sounds eerily similar to the Talmudic – Halakhah – the way! Be careful, Haman is alive and well!

Extra info for you!
