

Part 3. Shabbat Teaching Ezekiel's Wheel Within a Wheel:

Let's look back at the Promise to Noah.

*See Gen. 8:22 where he is told: *While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease.*

The relationship of seedtime and harvest, summer and winter are easily attributable to their calendar positions seen in the equinoxes and the solstices, however, why did YHVH include 'day and night'? Does this not also give us a clue regarding the proper reckoning of His calendar, a cyclical one at that?

Most will stipulate to a hint at the 24-hour day period here. But, is that all? By the way, do you remember He stated in John 11:9, "...are there not twelve hours in a day? If any man walk in the day, he stumbleth not, because he seeth the light of this world." What is being said here?

Yes! The 12-hours of day would be literally true during the Spring Equinox where almost equal parts day and night are seen! But, what else is hidden here? To the initiate, Yahshua is the DAY – The Light – The Sun! It would only be natural for the Day to be divided or parsed out and deposited into 12-hours or disciples, each of whom, would carry the Light into their respective areas!

Thus, they/we are birthed out of the Light, becoming children of Light! Eph. 5:8, 1Thess. 5:5, these disciples, like the 12-Sons of Jacob became a picture of the FACE OF A CLOCK! Each son/tribe is associated with a specific sign, month and breastplate stone. Is it possible then, that our Birth month, Sign and stone have far more influence upon our lives than previously thought? No, you say? Yet, you freely acknowledge that each tribe of Israel and each of the 12-Disciples were individually responsible to impart "Light" into the Body of Messiah!

FACT: Each stone is crystalline in origin, thus it has the ability to record sound (Rocks cry out...) much like a DVD. It can store and release vibrational frequencies, light, sound, and if the human body is crystalline in nature, then perhaps the healing frequencies inherent in the stone peculiar to your Born Month could facilitate energy in the form of: Healing, restoration, stress-emotional relief, etc.

NOT CONVINCED OF A DIVINE CONNECTION?

Did you know there were tiny microscopic ear crystals deep inside the inner ear called Otoconia that establish balance and equilibrium and motion? Not impressed with the connection?

The Hebrew word for ears is Mozanim, translated “Balance or Scales” and is the Name of the Constellation LIBRA, which is associated with the 7th Hebrew Month of Tishrei [Yom Teruah, Yom Kippur, Sukkot] corresponding to the Daylight of the year coming to an end. Incidentally, the planet Venus is connected to Tishrei/Libra and called Nogah in Hebrew, which means ‘light’. Its gematria is 58, the same as Ozen – ear (the root of Mozanim) and Chen – grace, which is favor by obedience! Again, BALANCE!

58 is also the value of Noah who entered the Ark during Libra, the ark symbolizing the womb or Tabernacle, dwelling place of the Seed of YHVH!

Additionally, it’s interesting to look at the Hebrew word translated as ‘hour’ which is only found translated that way in 5 places and all are in the book of Daniel! This word is H#8160, שָׁעָה, sha`ah, a moment in time, a look, to regard, to suspend temporarily, to gaze about! How convenient that Daniel was an Astronomer and taught the Chaldeans to observe the Stellar Luminaries in order to bring BALANCE TO THE CALENDAR!

Back to dividing Day and Night...

Gen. 1:4b, 5...and YHVH divided the light from the darkness. And YHVH called the light ‘Day’, and the darkness he called ‘Night’. And the evening and the morning were the first day!

This presents a conundrum to many not understanding the Signs in the Heavens and thus we wrestle over when the proposed ‘day’ begins. Why? Because we fail to notice that the Solar Day as the heavenly pattern, begins as the dark period of the 12th month of Adar ends (Evening) progressing toward the dawning of a new day – month known as Nissan!

Accordingly, following the “evening and the morning” pattern, the Solar Day would end as the Light dims during the 7th month of Tishrei and enters the 3-month period beginning at the autumnal equinox with darkness settling upon the year

during the last 3-months. This fully divides the dark from the day into equal parts of 180-days, 6months of 30-days! Thus, fully supporting the evening-to-evening reckoning of Genesis 1!

How interesting to note the word for divided, as in “*divided the light from the darkness*”. It is H#914, **בָּדַל**, badal, to make a distinction (Not necessarily a bad one). The root stem Dalet-Lamed can mean that which is weak, emptied out.

However, the Dalet-Lamed is also the root of Delilah, H#1807, **דְּלִילָה**, meaning feeble, emptied, dried up. It hints at ‘to hang down’, to be pendulous, as in a bucket lowered to draw water! It paints a picture of abject thirst needing to be quenched and a reaching out to do so! This feminine name also indicates to transport!

Dalet-Lamed is also the root of ‘Deli’ – The Hebrew name for Aquarius, the Water Bearer! The prefixed Bet in badal, indicates the House of: Thus, the House of Deli – Aquarius sits between the Dark and Light Periods of the Solar Day at *the evening when one would water the flocks! Just as when Jacob waters the flocks of Rachael!* Though these are the dark months the sun is not absent the house, he is hidden, covered, wombed, waiting to be born again!

Digging even further into the Genesis text, YHVH calls the darkness “Night”, H#3915, **לֵיל**, Layil, which comes from the root ‘luwl’ meaning a staircase, a winding stair, a spiral step, a DNA HELIX!

Ironically, this word has the same root as the attachment loop of the curtains of the Tabernacle, which would have fit over a dome-shaped, circular construction forming a DNA Helix where the Manifest Presence of the King would rest! The root hints at a ‘folding back’, a doubling over in order to form or join two into one! The Tabernacle would have Wombed the Light – which would have been hidden to the outside world!

Just like Noah’s ark, the Tabernacle represented the belly, the womb, the MOUNDED PLACE – **רָחֶם**, rechem, from racham, compassion – mercy. The gematria is 248, the same as Abraham, the Father of Nations. The other word for belly is beten, the hollow mound.

All that being said, the Dark months are not evil; they are associated with the mystery hidden within the female menstrual cycle that ends at Nissan, when the day begins! Darkness represents the season of cleansing when the DNA of the

Womb is being changed in order to become fertile that it may receive and transport the DNA of the Living Water – Seed of the Man – Deli – Aquarius! No wonder the True Calendar of YHVH is so vital! Remember, the MAN in Ezekiel’s Faces?
More on this later...

It's worth noting that Delilah betrays Samson, H#8123, שָׁמֶשׁ, the Sun; which is, by the way, the same root as the Middle Candle of the Menorah called the Shamesh or Servant! Rather than betray the purpose of the Darkness, she could have received the Light as his wife. But, that's another story... ☺

In View of what we just saw, the calendar, thus set to begin in the month Nissan or Aviv, coincided with the timing of the Spring Equinox, and coupled with the sunrise and sunset at that time, would have a far more literal purpose than simply regulating gestational cycles.

For example, the Sun's position at this season of the Spring-Vernal Equinox, would cast shadows on a fixed position exactly due east and west, while the 7th month of Tishrei – Yom Teruah - would see a shadow cast due north and south, orienting itself to the Circular Tabernacle design as an eternal COMPASS OR LINE FOR MEASURING!

Thus, revealing his Priestly role of Timekeeper - Moshe followed the Heavenly Pattern – which would be quite visible if the Tabernacle was indeed set in a Circular fashion, much like a clock face! But, there's even more to the Promises made to Noah!

More Cyclical Confirmation:

Gen. 9: 12 &13 adds even greater emphasis to our cyclical Tabernacle/360-day calendar theory where we see the establishment of the Rainbow covenant as a sign that a flood would never destroy the earth again.

It is my opinion that the rainbow, H#7198, קֵשֶׁת, qesheth, bow, an arch, became the emblem set in the heavens replicating the Heavenly Tabernacle and thus, setting a pattern for the Wilderness Tabernacle's construction. It's worth noting that the gematria of qesheth equals 800, with 8 being the number of New Beginnings, the letter Chet – as a fence, stairway, helix, boundary, etc.!

This may seem odd, since most think of the Rainbow as simply half a circle – Our vision being limited because of the horizon. However, from the atmosphere the rainbow is seen as a FULL COMPLETE CIRCLE called a “Glory” by NASA!

Source: oskarslidums on reddit

I was amazed upon examining the Hebrew word for rainbow, קֶשֶׁת Qesheth: The letter Qoph is the root of קָפַח – haquphah, a circle, to go around, to imitate, to do again! Qoph represents the yearly and monthly cycles, seasons. The rainbow is a womb of LIGHT!

It also indicates that which comes at the end – again! The root-stem of Qesheth, Shin-Tav comes from H#8351-8353, Set, indicating the upper thigh – loins (Hinting at covenanting) it means a foundation, a base supporting structure, it is the name of the 2nd Son of Adam replacing Abel – Seth, to place, put, to grant in place of, and finally, it hints at the number 6 (3-6-9)!

Therefore, it is not coincidental that the Rainbow is very conspicuous in each instance where these same Living Beings-Seraphim, in our Wheel within a Wheel discussion are seen. Look in Revelation 4: 6-9 where verse 3 reveals an interesting point: *And he that sat was to look upon like jasper and a sardine stone: and there was a rainbow round about the throne, in sight like unto an emerald.*

In fact, Ezekiel, Daniel and John reveal explicit details of the throne in the heavens upon which a “Man” is seen sitting on this rainbow throne surrounded by the same Living Creatures!

Thus, the Sign of the Rainbow seemingly prophesied that the 360-day year would become the cyclical measure for the seasons; it would be the foundation or supporting structure upon which to build the covenant, in place of another! Hinting

that the perhaps the Tabernacle which represented the physical blueprint of that covenant would be circular in construction? And, finally, foretelling that at the end, this sign would once more become prominent as a Calendar measure!

In addition to the Rainbow seen with these Living Beings, other interesting phenomena are also revealed. Though the KJV translators simplify the text, the SOD or Secret level of interpretation exposes significant supra-natural evidence of a Divine Gateway or Portal that may account for Ezekiel's transport to the location of the Exiles in this story. *Shall we dive into these deeper waters?*

The Whirlwind and the Wheel!

In our first chapter: **Ezek. 1: 4** Ezekiel describes a whirlwind from the North: [We will discuss this particular location in a short while from now]. The KJV says simply: a whirlwind. However, the Hebrew gives us the phrase: **רֹוחַ סָעֵרָה**, ruwach ca'arah, translated 'whirlwind'.

Curiously, this word is seen in **Gen. 3** where the Voice arrives in the Cool – Ruach of the day. The word can mean wind, breath, cool, etc. But, it also can indicate a quarter or quadrant as in a specific area of the compass, hence the 'North'.

Interestingly, the gematria of ruwach ca'arah is 549, the same as Chag HaMatzot – The Feast of Unleavened Bread - which began on the 15th of the month, the CENTER of the 30-day lunar cycle, the day of optimum ovulation, the Full-Moon. This was the Spring Equinox, the dawning of the yearly DAY!

This day was a PORTAL to the KINGDOM! Remember when Yahshua told the thief: "*Today you will be with me in Paradise...*" Why? Because death is defeated which explains the connection to the Whirlwind – Ruwach ca'arah that transported Elijah into the Spiritual realm!

Alongside ruwach is the adjective: **סָעֵרָה**, rendered tempest, storm, thus adding violent emphasis to 'Ruach'. Further, Ruach by itself should have sufficed for a simple 'whirlwind'. But, the Hebrew adds Ca'arah to reveal something extra.

This word can also mean 'rage' and is cognate with Shin-Ayin-Resh, Se'ar, which indicates to divide, cleave, a gate or entrance! This whirlwind shows up when Elijah and Elisha are parted, and it looks as if Yahshua confronts the same anomaly at this gate in the New Testament - much like He did in **Gen. 1 & 3!** How so?

Watch what happens in Matt. 8:24 *And, behold, there arose a great tempest in the sea, insomuch that the ship was covered with the waves: but he was asleep.*

This was not an ordinary storm, but is described in the Greek as an earthquake: seismos. It comes from the root G#4579, seio, indicating a commotion, shaking, to vibrate, agitate, much as the agitation of the face of the deep as the Ruach hovered over them in Gen. 1.

If we backtrack, we find Yahshua with his 12 disciples upon the Sea of Galilee that became a reservoir for the waters of the Jordan River whose headwaters erupted at the base of Mt. Hermon at the place known as Banyan, or Panyan, a.k.a. “The Gates of Hell” (Matt. 16:18).

This is the same area where Joshua and Israel crossed over on dry land while the waters were “Cut off” above – to the north! This is the area known as a spiritual gateway or PORTAL! Further, following the heavenly pattern we can see the same message in the Southern Constellations which boast of Eridanus, the river, where the root of Yar-Dan is seen and Argo Navis, the ancient ship that sailed upon the waters!

Thus, the Sides of the North seem to hold the key to a dimensional gateway where Spiritual Beings travel. What does this have to do with a probable ROUND TABERNACLE design?

A Circle of Remembrance:

- V. If what we’ve posited thus far bears scrutiny – as Truth should – then our closely held, traditional viewpoint of a rectangular Tabernacle design, with the Tribal alignment around it, as well as, Tabernacle furnishings, and certain Priestly vestments must be examined from this theory of a cyclical/circular – rather than a rectangular design!

We can plumb the depth of the hidden clues, if the reader will first stipulate to such design being *after the pattern of the heavenlies* as outlined in the beginning of this teaching (Which pattern is indeed, circular) and further, if the Tribal alignment followed that pattern of the Mazzaroth or Zodiacal pattern revealed throughout Scripture and particularly in Job 38:32 (Acknowledged as the oldest of all the books of Scripture) then perhaps a new paradigm is formed!

FYI...

Mazzaroth, from H#4216, **מִזְרָח**, defined as the 12 signs (3-6) of the Zodiac, is said to originate from the root, H#5144, **נָזַר**, nazar, to dedicate, consecrate, separate, to abstain from impurity, and from divine worship, i.e. a Nazarite!

Though some may argue, this is the same root of the accusatory word used to describe the SECT of the Nazarenes of which, Yahshua was said to be the leader! **Acts. 24:5**. Some say the name originated because it had to do with the Nazarite vows, while others argue the place He grew up – Nazareth: However, Nazar is cognate with Nazar and nezer, translated as to guard, keep, observe and branch as in **Is. 11:1**. However....

The Jewish Talmud, although it names 63 Galilean towns, says nothing regarding a Nazareth. Nor does any rabbinic literature. There is no mention of Nazareth in Roman records, or any other. Where then does Nazareth originate? It is probable that Nazareth was not on Earth. The sect named Nazarene was derived from a surprising yet familiar source – the Mazzaroth that also can be translated as Nazaroth-Nazareth!

Further, the term ‘zodiac’ is translated “The Way” and as such, it’s message of redemption consistent with Yahshua being referred to as “The Way”!

Finally, Yahshua’s most famous speech is what we call “The Lord’s Prayer”! Take note of this: *Thy Kingdom come and your will be done on earth as it is in heaven...* He had to have been referencing the Redemption Plan or Pattern in the Heavenlies and making a plea that it’s restoration or completion would hasten!

This allows for a more plausible explanation that: *He was called a Nazarene because He followed, kept, observed the Mazzaroth or Zodiacial Cyclical 360-day calendar!*

Even more intriguing, with Yahshua as our High Priest; are the Priestly vestments: of which the Breastplate is most noteworthy and as such, also (Being adorned with the 12-stones representing the 12-Tribes, 12-months, 12-Constellations) would of necessity, have had to conform to the Circular rather than square or rectangular design most are familiar with!

Following our thoughts above, after the flood, Noah would have been the Cohen haGadol or High Priest of the earth. If given the Rainbow as a token, H#226, **אֹנוֹ**,

owth, sign, mark, to consent or agree, it is my opinion the Choshen-Breastplate's design and orientation would perhaps look something like the following pendant with the 7-primary colors and fastened around the neck while resting upon the Breast of the High Priest!

<https://www.judaicawebstore.com/Sterling-Silver-and-Gold-Itai-Hoshen-Disk-Necklace.aspx>

This breastplate, H#2833, **חֶשֶׁן**, choshen, just happens to have the same numeric value – 358 – as the Hebrew words for Messiah, **מָשִׁיחַ** to anoint, to draw the hand over. This is quite interesting because the 2-letter root stem, Mem-Shin hints at: The utterance of a prophet, that which flows! The Breastplate with its' fellows the Urim & Thummim were said to be the source of divine oracles instructing both the Priest and Israel!

Interestingly, the letters of choshen rearranged also give us **נַחַשׁ**, Nachash, translated serpent, because of its' hissing sound associated with incantations, enchantment, to observe signs. This is the word used in [Job 26:13](#) to reference the serpent or dragon – Drago in the Northern hemisphere!

Let's take an aside here for a moment:

It seems that Gan Eden would have been the location of the throne of YHVH on the earth. As such, the conflict over it's location and intentional obfuscation in order to prevent the enemy from "Possessing this First Gate" would thus result in prompting this Prophetic declaration to Abraham: [Gen. 22:17](#) ...*That in blessing I will bless thee, and in multiplying I will multiply thy seed as the stars of the heaven, and as the sand which is upon the sea shore; and thy seed shall possess the gate of his enemies:*

I find it fascinating that the only physical land purchased by Abraham was that of the Cave of Macpelah, entitling him to an eternal inheritance of this area, including all the trees that were in the field of Ephron, H#6085, **עֵפְרוֹן**, note the root: Ayin-

Pey-Resh, aphan – dust. *Note the relation to Gen. 3: 14,19 that tells us man will return to dust and Satan will consume the dust.

Macpelah comes from Mem – the origin, womb, etc. and Kaphal, meaning to double, repeat, to do again. Is it possible that Abraham knew this was the gate to Eden where those who had been dust, would return again in the resurrection? It's rather curious that Adam, Eve, Abraham, Sarah, Isaac and Rachel, Jacob and Leah are all buried here.

Incidentally, the Hebrew word for grave is kever, which also indicates a uterus or womb; thus, as such it becomes a gate, portal, or connection! Since the Garden of Eden became the Womb of the world, perhaps it will serve as the same for those who return to Etz Chaim – The Tree of Life – Torah! It is no coincidence that even the Rabbis believe this Macpelah was the gate to Eden! *See Soncino Zohar, Bereshith, Section 1, Page 57b, 127a. No wonder Satan has sought to usurp this throne and sit in the Place of Adam/Yahshua!

Could this have been a partial fulfillment of Is. 14:13? *For thou hast said in thine heart, I will ascend into heaven, I will exalt my throne above the stars of God: I will sit also upon the mount of the congregation, in the sides of the north:*

Further, it is this Nachash who represents Lucifer and who is clearly stated to have once resided in Eden the Garden of YHVH and who also wore a Priestly breastplate that only contained 9 of the 12 stones of the Adamic Priestly Chosen-Breastplate! Ezekiel 28:13.

Further, this Nachash, Dragon, a.k.a. Drago, Lucifer, is said to have drawn a 1/3 part of the stars of heaven with his tail and cast them to the earth. In view of our study of the 12 Houses of the Zodiac it is more likely that this is in reference to 1/3 of the 12 houses. 1/3 written in decimal form is .33 12 x .33 = 3.96! Those living numbers again!

At present, Drago entwines the North Star or Polaris, the star most fixed at the North polar axis of the earth. However, because of the precession of the equinox the north celestial pole moves in a counter-clockwise manner over a 26,000-year cycle. As a result, another star in the Constellation Drago – Thuban - would have held the Pole-star position – from Genesis until the Polar shift of Messiah's day!

Since Gan Eden the Garden of Cyclical Appointed Times would have been created after the pattern of the heavens, it is highly probable that the center of Eden – like

the celestial Fixed North – with its’ two Fixed stars only slightly apart, Thuban and Polaris, would also see these 2 Polar constants represented by the Two Trees in the midst of Eden – The Tree of the Knowledge of Good and Evil and the Tree of Life!

It is no coincidence that the Tabernacle Menorah represented the Tree of Life, and thus though its’ actual position in the rectangular Temple is argued (*Talmud Menahot 98b*) based on the Circular pattern of the heavens and the Polestar location, I believe it would have stood in the north of the Tabernacle, while the Shulchan with it’s 12 loaves stood to the south, and on the west, the altar of incense. Why?

If we study the Zodiac, when the Sun is said to be “in” a certain sign it means that it actually occupies the opposite sign and casts it’s long rays of light into the opposite sign. For instance, if said to be in Gemini, the Sun is actually physically in Sagittarius and casting its’ light into Gemini! The Menorah – The Niyr – Lamp – Light – Sun of YHVH would have occupied the North and cast it’s light into the South!

As with the Tree of the Knowledge of Good and Evil, Thuban, as Pole Star - from the Fall of Adam forward would have “controlled” the heavens until the time of Messiah, at which time, the ecliptic rotated slightly causing Thuban to lose control! Fulfilling [Is. 14:13](#) mentioned above. In Hebrew Thuban is called ‘The Subtle’, a stark reminder of [Gen. 3:1](#).

The Subtle Serpent

The constellation, Draco is from the Greek, *trodden on* as in the Septuagint of [Psalm 91:13](#)—“*The dragon shalt thou trample under foot,*” from the Hebrew *Derach, to tread.* In the Zodiac of Denderah, *Her-fent, the serpent accursed!* The brightest star of the latter coils is named *Thuban* (Hebrew, *the subtle) the Genesis Pole Star.*

The next star, in the head is called by the Hebrew name Rastaban, *the head of the subtle* (serpent). In the Arabic it is Al Waid, *who is to be destroyed.* The next star, Ethanin, (also in the head), *the long serpent, or dragon.* The Hebrew names of other stars are Grumian, *the subtle; Giansar, the punished enemy.* Other Arabic names are Al Dib, *the reptile;* El Athik, *the fraudful;* El Asieh, *the bowed down.*

In addition, we see further confirmation in the prophetic declaration of [Gen. 3:15:](#) *And I will put enmity between thee and the woman, and between thy seed and her seed; it shall bruise thy head, and thou shalt bruise his heel.*

This is powerfully demonstrated in the Greek depicted constellation Hercules where one foot lies upon the head of Draco. During it's yearly course circumnavigating the North Pole it changes to the opposite of above to where the head is on top of the foot!

Back to the Breastplate...

The Choshen is described as a ‘pouch-like’ vestment festooned with Stones, with the Urim & Thummim inserted inside (אֶת־דְּאוּרִים וְאֶת־הַתְּמִימִם (Ex. 28:30) This is translated as: Alef-Tav the lights (revelations) and Alef-Tav the perfection, complete Truth, that which is finished. The letter Hey prefixed indicates that which is revealed. Therefore, this phrase could say: *the Lights reveal The Alef-Tav and they reveal, finished Truth!*

Remember, these two are inserted inside the Circular Choshen or Breastplate – SO!

STAY TUNED FOR PART 4 OF THIS SERIES....

SHABBAT SHALOM!
