

The Creators' Covenant Calendar – Signs in The Zodiacal Heavens  
The Son of Man. Pt. 33

Our last teaching dove somewhat deeper into the relationship between the Creation Calendar, Numbers and the Sacred Geometry that incorporates those numbers into what is a grammatical explanation of the Redemption Plan eternally written in the Luminaries.

Like sacred geometry, and gematria, the Zodiacal patterns have been dismissed from mainstream Christianity, as well as, many of those who espouse Torah. Disregarded for centuries, the evidence in Scripture of their existence has become somewhat akin to an archeological dig where those who're excavating the site find their character maligned if any relic out of the ordinary is discovered.

Nonetheless, biblical proof is there if one is willing to excavate the depths of the Hebrew language. What one does with that becomes the chief concern. We will work to give you some of that proof here. Including the connection to the Creation Covenant Calendar as it relates to the heavens and both - as they narrate the life of Messiah...

Zodiac or Mazzaroth?  
Which is it?

Most are familiar with the term Zodiac, in particular as it relates to the 12-constellational signs. The majority of people believe Zodiac originates from a Greek word Zoidion – meaning “*Circle of animals/figures*”. This deliberate counterfeiting of their names, signs and thus, their original purpose is the root cause of the ignorance attributed to the study of these Constellations.

No one will argue that the insertion of pagan names and their counterfeit message, deliberately obfuscated the original HEBREW NAMES of those Luminous Bodies! However, this does not justify a complete disregard for the Truth written in the Heavens, rather it commands us to rightfully divide this word of Truth.

When one studies Scripture, the law of first reference becomes the benchmark for proper understanding and for framing context. With that said, the fact that the message of the heavens was first written in Hebrew – The Language of Creation - CANNOT BE ARGUED – therefore, these Hebrew names and their message provide us with: The Law of First reference!

This leaves us with two distinct choices: #1. Disregard them altogether and fall prey to the devices of Satan whose sole purpose was to attempt to destroy their message. #2. Swing too far to the left and become idolatrous in our misplaced zeal. \*See Rom. 1:20-25

*For the invisible things of Him from the creation of the world are clearly seen, being understood by the things that are made, even His eternal power and Godhead; so that they are without excuse. Because that, when they knew God, they glorified Him not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened. Professing themselves to be wise, they became fools, and changed the glory of the uncorruptible God into an image made like to corruptible man, and to birds and fourfooted beasts, and creeping things. Wherefore God also gave them up to uncleanness through the lusts of their own hearts, to dishonor their own bodies between themselves: Who changed the truth of God into a lie, and worshipped and served the creature more than the Creator, who is blessed forever. Amen.*

Do we simply accept these Pagan titles as the original source of the Constellational names or do the erstwhile Hebraic descriptions deserve exposure to the light? What does Scripture actually say? Could there truly have been a deliberate effort to hide something from us? Which do you prefer? Truth or Tradition? Let's get to it, shall we?

Yahshua, The Nazarene –  
Answers in the Mazzaroth? **Matt. 2:23.**

We've glossed over this verse countless times, allowing a pervasive, deliberate mistranslation to form our opinion. Look closely to what is actually said. Because there's no historical record of a City called Nazareth!

*And He came and dwelt in a city called Nazareth: That it might be fulfilled which was spoken by the prophets, He shall be called a Nazarene.*

#### Scholarly Opinions.

*[There is no such place as Nazareth in the Old Testament nor in Josephus's works or early maps of the Holy Land: Holley, 1994, pg. 190 – Evidence for a 1<sup>st</sup> century Nazareth does not exist, not literary, not archeological, not historical. It is an imaginary city: Humphreys, 2005, pg. 285 – There is in fact, no record of Nazareth's' existence at the time of Yahshua, not in any map, book, chronicle or military record of the period so far discovered: Gardner, 2007, pg. 53.]*

*[Mazzaroth is compared to the following word: Nazar – to hold aloof, set apart, to consecrate, to distinguish, perhaps collectively as the Zodiac: Mazzaroth. Strongs' Exhaustive Concordance. The word Mazzaroth according to Parkhurst should be rendered with one 'Z', as in Job, Kings in the Septuagint, and Nazareth in the Gospels. Both Gesenius and Fuerst translate Mazaroth from the root Nazar – the 'M' being changed to an 'N'. Nasar is a verb meaning to encircle] Some scholars believe Jesus of Nazareth should be defined as: Son of the Mazzaroth!*  
*[<https://www.youtube.com/watch?v=KLvMG7JTfg8>]*

If no physical record of Nazareth as a City exists, then why this peculiar wording in this verse? Could it have been a deliberate mistranslation?

There are 12 New Testament verses that mention Nazareth. 5 of whom give us more information, including that Nazareth was somehow connected to Galilee. Let's pause here: Because Galilee is acknowledged worldwide as a region that still exists today. Yet, if Nazareth has NO historical origin, why connect the two? For the record...

Galilee just happens to be where Yahshua begins His ministry. It translates as: Circle, circuit. Is this merely a coincidence? Or was there a purpose to His family settling there that somehow related to this idea of a circle?

For scholarly integrity, we must consider that nothing regarding Yahshua's life was mere happenstance. Therefore, settling here is of vital importance to understand where, how and why His ministry began there. Thus, is there a relationship between the Hebrew origin of Galilee and the 'lost' meaning of Nazareth? With that said...

History records the finding of many Zodiac (*Greek*) – Mazzaroth (*Hebrew*) mosaics on the floors of ancient Galilean synagogues. It is also historically documented that a traditional 360-day calendar associated with the Zodiac-Mazzaroth existed there as well. (*Qumran 4Q318*)

Therefore, it is my opinion that the Enochian/Zadokite 364-day Calendar that many have begun to associate with the Qumran discoveries would actually have been a 360-day Creation Covenant Calendar modeled after that of the Melchi-Zedek's (*Zadok*) Priestly Order and NOT a 364-DAY perversion! Having said that, I want to take careful steps to lay this out for you.

Do you remember our earlier definition of Zodiac, where we outlined it as a Greek word taken from Zoidion – meaning "Circle of animals/figures"? Well, there is also ample evidence that this term Zodiac came from the Greek word Zoad – meaning a

*'path, way, circle or circuit'*. Moreover, there are also many etymologists who believe it is actually a derivation of ZADOK – THE RIGHTEOUS – CIRCLE - PATH OR WAY! This latter position begins to reveal subtle, yet powerful clues that heretofore, have been hidden!

It should come then, as no surprise that Matthew lists a *'Zadok'* in the lineage of Yahshua. **Matt. 1:14**. This information is not trivial. Why?

The argument exists that King David appointed Zadok – THE JEBUSITE – who was not a Levite - AS HIGH PRIEST upon conquering Jerusalem. Many (*Me included*) also believe that upon establishing his kingdom in Jerusalem, that King David himself assumed the role of Priest there, offering sacrifices AFTER THE MELCHIZEDEK ORDER that Zadok belonged to long before David's conquest!

Moreover, in opposition to Yahshua having any claim to Priesthood, the Jewish Sages argue: Yahshua could not be The High Priest – Not being out of Levi's lineage – However, oddly enough - the family tree does list Zadok, whom I believe was of the Melchizedek order! Is this an isolated connection?

This *'forbidden knowledge'*, in my opinion, is the very reason for the dual reference found in **Ps. 110:1, 4** [*A Psalm of David*] *YHVH hath sworn, and will not repent, Thou art a priest forever after the order of Melchizedek!*

As a result, we have: King David – declaring in his own words – his role as The Melchizedek Priest - King, while concurrently prophesying of Yahshua, Son of David! The future - Melchizedek Priest and King! Is this conclusive enough to sanction Yahshua's right to the Zadokite Priestly Throne? Is this consistent with the message found in the Zodiac – Zoad - Zadok – Mazzaroth's details written in the heavens?

Is it possible that the very fact that He's referred to as hailing from *'NAZARETH'* a testament to his earthly father Joseph's understanding of those same Signs? Remember, this could have been no serendipitous coin flip, a fact revealed by his Angelic visitation!

If this move was indeed planned by Elohiym, those opposed to the 360-day Creation Covenant Calendar administered by the Melchizedek Priests, must overtly attempt to confuse this move as having no true purpose in Yahshua's life. That being said, embracing a false Calendar – whether lunar, evening to evening – or

Enochian/Zadokite 364 diminishes the fact that Elohiym planned the exact the timing of every event.

Thus, false calendars openly deny His claim as King – Priest – Melek – Zadik by falsely interpreting the Divine Appointments written and scheduled in the 360° - 360-day vault of the heavens!

Perhaps we now understand why the study of the STARS – ZODIAC – has been deliberately labeled as a ‘*Pagan – New Age*’ cultlike teaching! Its’ purpose simply a means to confound those who would continue look!

[<https://claudemariottini.com/2022/12/02/david-and-zadok-the-priest/#:~:text=Scholars%20differ%20on%20whether%20Zadok%2C,an%20Israelite%20or%20a%20Jebusite.>]

### Intentional Diversions?

The further down one excavates the more prone we are to understanding the deliberate attempt to hide anything remotely relating the Creation Covenant Calendar to The Messiah. Especially, as it includes His claim to the Melchizedek Priesthood. All of which were arguments central to the Calendar Wars prior to His coming! This is of critical import when one understands that the eastern Galilee area was also historically known as: *The Wilderness of Damascus*. How so? Buckle up! The ride gets faster from here out!

### The War Scrolls

Previously, we’ve touched on the Calendar Wars that occurred prior to the coming of Yahshua and that its’ effect still existed in His day. In confirmation, there were two powerful Scrolls found that help to shed light on the above. The Damascus Document - found in the Cairo Geniza in the late 1800’s and - The Rule of the Community - found at Qumran. The former predating Yahshua by 200-years, mentions a group called: The Way (*Zodiac perhaps?*) – a.k.a. *The Sons of Light (Relating to the Stars?)* – a “*New Covenant*” and lastly a “*Star-searcher in the Law*”. The last expression is synonymous with a well-known phrase in Qumran literature: *Doresh ha-Torah* – One who helps understand and live by the correct interpretation of the Torah.

These all became familiar terms used by Yahshua and the Disciples! In addition, the latter scroll refers to the Wilderness of the Peoples – as shown above, a term expressly related to *Galilee of the Gentiles*.

Each reference above points to the area as the place of the Coming Messiah! Long before Joseph brought his family there! Now, you know why Yahshua said: “*I was sent only for the LOST SHEEP OF THE HOUSE OF ISRAEL*” an intentional reference to the precise location of those dispersed Tribes known as ‘*GENTILES*’. This could also explain why His ministry began in the Galil area! **Matt. 15:24**

[<https://www.torahclass.com/archived-articles/873-why-galilee-part-2-by-e-a-knapp/#:~:text=This%20gave%20us%20a%20background,end%20of%20Yeshua's%20earthly%20ministry%3F>]

### Is There More Historical Evidence?

The fact cannot be disputed that the Jews at Qumran were expecting a star - based upon Baalam’s prophecy in **Numbers 24:17**, “*there shall come a star out of Jacob.*” *The star was to represent: The interpreter of the law which was to come*” (CD 7.18-20, 1Q 11.6, 1QS 5:27, 4Q Test 12-13). Philo calls Baalam a magus (*Philo Moses 1.50.276, cf. 1.16*). In the Testament of Levi it says, “*his star shall rise in heaven like a king*” (*Charlesworth, 794*). In Rabbinical literature a star stood in the East which swallowed up four other stars at the moment of Abraham’s birth (*Strauss, Vol.2, 71*). So, the Jews were looking for a heavenly sign to foretell the birth of the Messiah. [*BibleandScience.com*]

Was Yahshua then, the Star-Searcher in the Torah? A Torah, first written in the Stellar Luminaries? The Rabbis clearly acknowledge **Numbers 24:17** as referring to King David as: The Star who steps out of Jacob...The ‘*Star*’ identifies Him, which is consistent with the Magi from Chaldea. Moreover, these prophetic expectations were clearly etched in the Dead Sea Scrolls! “*The Star is the Interpreter of the Law – Torah*”. *Similar sentiments are recorded by Philo, the Peshitta, Targums Neofiti, Onkelos, Pseudo-Jonathan, and the Fragmentary Targum, as well as, the testimonies of both Judah and Levi in the Testament of the Twelve Patriarchs.* [*Jewsforjesus.org.au*]

The reference above clearly points to the “*Bethlehem Star*”. Which, most scholars agree would have been a result of a constellational arrangement that occurred Twice within the years 7-1 BC. That Sign occurred in Virgo and is shown in **Rev. 12:1-2**

where we have The Sun Clothed Woman with the moon subjected (*Not relevant*) under her feet and a crown of 12-stars upon her head.

These evidence the validity of the Zodiacal Calendar which would of necessity, have to be 360-days. The only Calendar that accurately pinpoints every event in Yahshua's life: His Birth, the temple incident at age 12, the Triumphant entry, the timing of His crucifixion, resurrection, and ascension! The evidence is overwhelming in spite of the counterfeit Enochian claim of a 364-day calendar that was again, I believe, deliberately inserted into the Qumran scrolls!

### The Way – Zodiac – Zadok?

Here, I want to add another bit of evidence, where we again find this 'ZADOK' – peculiarly linked to Yahshua! Just a few weeks ago, we celebrated Pesach, where we discussed what is commonly referred to as: "*The Triumphant Entry into Jerusalem*". This odd event finds Yahshua riding on the back of a donkey – fulfilling **Zech. 9:9**.

Yet, this signals the final stage to His Mission: *Being sent to the Lost Sheep of the House of Israel*. A mission, clearly written in the Stellar Luminaries. This may seem like a detour, but hold on, we'll bring you right back!

*Rejoice greatly, O daughter of Zion; shout, O daughter of Jerusalem: Behold, thy King cometh unto thee: He is just, and having salvation; lowly, and riding upon an ass, and upon a colt the foal of an ass.*

\*Note: Two key words describing the One Who Will Fulfill This Prophecy: King – Melek and Just – Zedek!

If Zedek and Zadok are related to Zoad/Zodiac, could this verse also point to the STAR-SEARCHER IN THE TORAH? The One who is THE WAY? ZOAD/ZODIAC/ZADOK?

Prior to Yahshua, this event was also literally fulfilled by King Solomon riding upon his Father David's Donkey as he is crowned heir to the throne! Stop!

Most aren't aware of what brought that specific incident about, much less the principal characters! **1Kings 1:11** What can this tell us?

At the time, there was an attempted usurpation of the throne involving King David's son Adonijah (*Half-brother to Solomon*) whose mother was Haggith.

- Adonijah, H#138, **אֲדֹנִיָּה**, literally – YHVH is Master! However, the root Adon, actually refers to a foundation, base, a pedestal of pillars. It points to an extended base upon which something large would stand and ROTATE UPON!
- Haggith, H#2294, **חַגִּית**, this root comes from the verb – Hagag – to celebrate a feast, in particular the Pilgrimage festivals. The root of Hagag is Chug, to draw round, to encompass, a circle or circuit!

Once properly interpreted, the names in his lineage give us: YHVH is Master of the Foundation – The Pillar of the Heavens upon which the Divine Appointments/Feasts turn! This is Creation Covenant Calendar’s directive – to determine the times for these appointments. It is clearly improbable to acknowledge a 360° Circle of Stars whose message clearly points to Messiah Yahshua and yet, espouse a 364-day, 365-day, 354-day lunar/solar calendar!

Now, while here, we must also remember that at this time there were two “*High Priests*” in Jerusalem: Abiathar – the Levite and ZADOK – the Jebusite! The former attempts to set Adonijah, David’s other son upon the throne. However, ZADOK anoints Solomon!

This continues a precedent set from **Gen.14:18-20**. Where Melchizedek brings forth Bread and Wine. This Covenant meal between Melchizedek and Abraham was also a form of Kingly anointing! Further, we have a peculiar text that I believe is deliberately mistranslated in an overt attempt to cut off the Melchi – Zedek Priestly role and thus, deny anyone later occupation of that office!

The mention of tithes being exchanged here (*Verse 20*) is traditionally interpreted as Abram being the one paying tithes. However, the sentence structure – GRAMMAR AND PUNCTUATION (*Though Hebrew has no ‘English’ punctuation, it does have stops, rests, different letter sizes, inflections, etc.*) focuses on the ONE who is blessing – Melchizedek! He – brought forth, he was the priest of the Most High, he blessed him (*Abram*), he blessed El Elyon, AND HE GAVE HIM (*Abram*) tithes of all. The Tithe historically has always been a tribute to the King One Serves! This sets a clear precedent for the transference of titles!

In this instance of Solomon being crowned, the pattern continues, Solomon, the KING OF PEACE – THE KING OF JERUSALM has the throne sanctioned by MELCHI - Zadok – Righteousness! As a result, in response to the rebellion of

Adonijah and his role in it, Abiathar is removed from the Priesthood! \*Note what follows:

It is my opinion, that the same can be said for the current 'Levitical' system. Long before Yahshua arrived, the system was corrupt and bereft of any means of sanction for their counterfeit role as the administrators of the House of Elohiym: There were no Temple artifacts of note, in particular the Ark of the Covenant.

Those occupying the High Priests' office had purchased it from the Roman gov't. They did not observe the correct Biblical Calendar, thus making any observation of Commanded festivals counterfeit. The same will be seen in the establishment of the coming 3<sup>rd</sup> Temple. These latter-day Levities will follow Abiathar in moving the boundaries of the Creation Covenant Calendar of 360-days. \*Note...

- Abiathar, H#54, אַבִּיָּתָר, the Strong's has it: "*My father is great*". We do agree with the translation of Avi – My Father. But, the later part 'Yathar' means a remnant, to go beyond a limit or boundary. An excess, to exceed bounds. Therefore, his name can mean: To exceed the bounds – to go beyond the boundaries of My Father! Hmmm? Perhaps an intentional play on words indicating a counterfeiting of the Priestly Role in administering the Divine Appointments.

If what I've said is true, how to I reconcile what seems an absence of the role of Zadok in transferring or conferring the Melchizedek Priesthood upon Yahshua apart from what is said in **Ps. 110:4?**

In answer, there are many scholars who believe that John the Baptist, whose father Zechariah, was himself a Zadokite, from the priestly course of Abijah. Further...

Many believe that John openly spurned the Levitical system of his day choosing instead to live a set-apart life. It does seem as if the People openly acknowledge John's role as Zadokite heir! Here, I want to make sure that we understand this Zadok as being a Jebusite, not the one put forth by the Rabbis as being out of the lineage of Levi, through Phinehas, the son of Eleazar, son of Aaron!

Now, if John chose to ostracize himself from the Levitical system, then we must pay careful attention to his words, actions, ministry location as well.

The Voice Crying in The Wilderness:

Is. 40:3-8 - John 1:23 quoting from Isaiah, we find that John identifies himself as that voice crying in the wilderness, who would make straight the WAY of the Lord. As we stated earlier, the Galil area was called the Wilderness of Damascus. The People followed 'The Way'. Moreover, the Jordan River flowed through the Galilee region to the Sea of Galilee, where it exits and forms a winding rift flowing toward the Dead Sea. It is evident that John spent much of his time there.

It is my opinion that upon being baptized by John, that Yahshua went into this Wilderness area – NOT THAT OF THE JUDEAN DESERT! The latter, in my opinion being a diversionary tactic to gloss-over the purpose of both John The Baptist and Messiah being in the Galilee – Jordan area! Watch what follows!

If the Pattern is Consistent...

It is this John the Baptist who, in his role as the Melchi – Zadok would have heralded the King, The Son of David – Yahshua – and conferred the Title upon Him at His Miqveh! Baptism! If John was indeed connected to the religious communities in the Qumran, I hold that he would have also espoused a 360-day Calendar that would have PERFECTLY SYNCHED WITH THE BAPTISM OF YAHSHUA SCHEDULED according to the Zodiacal – Creation Covenant Calendar! Specifically validated by the VOICE OF ELOHIYM as a cloud overshadows them.

- Cloud, Gk. #3507, Nef-el-ay, from H#6051, ענן, 'Anan, a cloud, from a root indicating one who observes the times!

The Voice clearly spoke at a prescribed – fore ordained – time! It is my opinion that this would have followed the pattern of Gen. 3 where the VOICE SPOKE IN THE garden at dawn! Am I over-reaching here? Facts abound even historically!

Were you aware that there was a historical title given to those sects of religious observers - that many believe John the Baptist belonged to - in the Qumran area: **Hemerobaptists** - A Greek phrase meaning 'DAWN BATHERS' – who daily immersed themselves before the hour of prayer in order to pronounce the Name of YHVH with a clean body! [*jewishencyclopedia.com*] [*Both John and his disciples were referred to this way. Clementine Homilies, ii.23; 'Recognitions, i.54*]

Here we must remember: The Lunar calendar – Evening-to-Evening adherents and those who reckon time according to the Roman Midnight-to-Midnight will overlook the fact that the Morning Sacrifice (*Tamid*) would take place at Dawn! The Dawn

Prayer (*Shacharit*) was aligned to coincide with that sacrifice! Shachar is a Hebrew word for Dawn!

Back to:  
Yahshua's Triumphant Entry?  
WHAT WAS HIS PURPOSE?

Yahshua's final actions indicate His plans for those LOST SHEEP – a.k.a. The EXILED ONES! If what He said was true, the most effective method for reconciling those '*lost sheep*' would be to go where they collectively massed!

This entire scenario is prophetically demonstrated as Yahshua – The Zedek – Righteous One rides a '*lowly*' donkey into Jerusalem! ... *He is just, and having salvation; lowly, and riding upon an ass, and upon a colt the foal of an ass.*

The Donkey is the Only Unclean Animal in Need of Redemption.

- Donkey, H#2543, תמור, Chamor, the definition is often attributed to the animal being a reddish color. However, its' ancient origin points toward materialism, the need to have things, overt greediness, covetousness, money-grubbing! IT CARRIES THE IDEA OF WANTING TO BE UNDISCIPLINED!

It is a symbol of THE FLESHLY - CARNAL MAN IN NEED OF REDEMPTION - TESHUVA! A RETURN! THOSE WHO'VE BEEN IN EXILE! Lost Sheep!

Yahshua is seen '*riding*' – exercising dominion and control of this Donkey – flesh. Could this event also have epitomized the Teshuvah Season marked by the Shadow to begin the Month of Nissan – epitomized in the Nissan 14 - Passover Crucifixion of Messiah? This donkey, as the first-born belonged to YHVH. However, as an unclean animal, it could not be offered to YHVH and thus, had to have a LAMB offered in its' place.

It is also worth noting that Jacob calls his son Issachar a Chamor in **Gen. 49:14**. Later, during the reign of King David these men are known as: **(1Chron. 12:32)** *And of the children of Issachar, were men who had an understanding the times to know what Israel should do...*

Could the '*Donkey*' ridden by Yahshua, be a euphemism that pertains to those, who after learning to control their flesh are able to understand the significance and timing

of the Creator's Calendar? Could not wanting to keep a definitive Calendar - one that holds us accountable, be akin to having the MIND – ATTITUDE of a Donkey, not wanting to be disciplined? After all, that's what CALENDARS DO! Discipline our time, establish boundaries!

Is it possible that those embracing the truth of the Creation Covenant Calendar of 360-days are finally getting OUR DONKEYS (ASSES) UNDER CONTROL ALLOWING US TO UNDERSTAND THE TIMES?

### The Lost Sheep of the House?

Is it truly possible that by riding upon this unclean Donkey, it becomes the penultimate act of Yahshua's Life's Work? The ancient Redemption message originally written in the heavens and summarized in His declaration that He only came for the Lost Sheep of the House of Israel? These 'Nations' who were considered unclean – like the Donkey and in need of the Lambs' sacrifice.

This helps explain why He later cleanses the Temple where the Money Changers are found in the Court of the Gentiles! Moreover, this was the 2<sup>nd</sup> of two separate Cleansings. What follows is another reason that He is Lawfully the High Priest of YHVH's House!

He's actually following the protocol established in **Lev. 14:33-57** where Leprosy is found in a House! The Priest is summoned by the owner of the house to inspect it.

He visits His Father's House after being summoned by YHVH and sent there to examine it for contamination. Once it is found, He removes the infected stones – the Money Changers – when that contagion is later found to be still present, the House is condemned! **Luke 21:6** *As for these things you behold, the days will come, in the which there shall not be left one stone upon another, that shall not be thrown down.*

### In Conclusion: Zodiacal – Mazzaroth Evidence in Scripture?

\*Note **Job 38:32** *Canst thou bring forth Mazzaroth in his season? Or canst thou guide Arcturus with his sons?*

I want to break this verse in **Job 38** apart, but first please go back and note again the previous reference to Nazareth as the dwelling place of Yahshua. If there's no historical record of Nazareth as a viable City, then pray tell, what does this term

Nazareth mean when applied to Yahshua? Let's examine **Job 38** – perhaps we'll gain some clarity!

- Canst thou bring forth, H#3318, **יָצָא**, Yatza, to go out, come out. It carries the idea of begetting, setting a gestational cycle or period whence a seed sprouts.
- Mazzaroth, H#4216, **מַזְרוֹת**, Mazzaroth, the plural from **מִזְרָה** - mazarah. Here, even Blue Letter Bible acknowledges that it was originally from the root - NAZAR – to dedicate, consecrate, to keep sacredly separated. Keep your place here and watch what follows...

Mazzaroth has a value of 653, the same as **אֵת-הַמְאֹר**, Et-H'ma'or - Alef-Tav – The Source of Light! Who was this Alef-Tav – Light? Now...

Watch closely the two-letter root stem: Zayin – Resh, Zer, H#2213, **זר**, a marker, border, or boundary. It refers also to the molding around the Ark of the Covenant. Which we contend was itself patterned after the Throne of Elohiym in the Heavens and Circular in construction. Zer's value = 207, the same as: **אֹר** – Light(s) The Heavenly Lights!

Thus, the Molding – ZER – would also suffice as a model of the Constellations that formed the Border around His Throne! If we add the letter Hey – forming **זרה** – Zarah – we have a word whose verbal origin indicates to compass about, to measure off, to scrutinize or discern. To keep a careful watch on the Paths of the People! Could Yahshua as The Star Searcher – Doresh H'Torah – The One Who Interprets the Torah - be fulfilling this ancient role?

- Season, H#6256, **עֵת**, Et, a time or season appointed. It is derived from: H#5703, **עַד**, `Ad, perpetuity, forever. This same word can also mean a witness. Thus, the seasons appointed the Mazzaroth are eternal and provide an everlasting testimony in the heavens.
- Guide, H#5148, **נָחָה**, Nacha, to lead, guide or bring. To transport or restrict. Its' two-letter root stem: The Nun-Chet gives us the root of Noah – to bring rest or comfort.
- Arcturus, H#5906, **עִישׁ**, `Ah'yish, A constellation, specifically, The Great Bear – Ursa Major. From a root meaning to gather, assemble, to hasten to a work.

Most who simply read this text never understand that Ursa Major – Ah'yish – is a circumpolar constellation in the Northern Hemisphere. It revolves around Polaris the current North Star every 24-hours, with its' famous BIG DIPPER pointer star, staying above the horizon all night, every night of the year. Sufficing as the means for a dependable rotating heavenly compass. A Compass, that clearly follows a 360° - 360-day Creation Covenant Calendar!

This Compass testifies of our King and Priest – while the Calendar regulates the Divine Appointments found written inside that Compass!

### Final Thoughts

Though alienated from much of the aforementioned information, this is but a small sample of the Message in the Heavens. A message that cannot be fully understood without a grammatic structure and proper punctuation. Grammar is the system of rule that dictates how words are structured, modified, and arranged to create a meaningful message. Punctuation, controls rhythm, tone and clarity. The Message is there, clearly, prophetically defining the Life of Yahshua. However,...

Without Grammar and Punctuation giving accurate, timely form and context, rhythm and clarity the Message becomes convoluted! It is my opinion that the – The CREATION COVENANT CALENDAR (360-days) – is the mechanism supplying both!

The Lost Sheep of the House of Israel are now being gathered for the final time. The Calendar synchronizes the Final Triumphant Appearance of our King!
