

Creation Covenant Calendar Pt. 39

What Was Joshua Really Doing?

As we continue our quest to understand the Biblical Connections linking Joshua and Yahshua to the Creation Covenant Calendar, our journey takes us to the initial battle site of the Canaan conflict: Jericho! If you're a biblical detective, then surely you must ask questions: Why attack Jericho, what time of the year was the attack, and for what purpose was the attack timed so?

First, let's establish the timeline. From **Joshua 5:10-12** we see that Israel kept the Passover on the 14th of the month, taking place, quite literally as we've proven - on the weekly Sabbath. The following day – the 15th, would have been Sunday – beginning the Feast of Unleavened Bread, The Omer Count and The Wave-Sheaf offering. All of which, according to Torah Precepts occurred that same day. How so?

The texts of **Lev. 23: 5-11**, not only gives us the timeline for the week-long festival of Unleavened Bread set to begin on the 15th and ending on the 21st, but, in addition confirms the Wave Sheaf offering that would later be compelled *after entering the Land*, was also set to begin the day after the weekly Sabbath! Bear in mind, the Wave Sheaf had never occurred prior to entering the Promised Land. Therefore, this initial celebration was prophetically monumental!

Hence, we find, at the end of Passover, the 14th, sometime after dawn of the 15th... Joshua meets the Captain of YHVH's Host. Again, this would be on Sunday, the 15th. Follow me closely here, because a series of events sets into motion the entire prophetic landscape that allows Joshua to foreshadow the very role Messiah would later demonstrate! Watch this...

Take note of **(Josh. 5:12-15)** where, we find the use of a unique phrase that is common to both Joshua and Moshe. However, a subtle difference is seen in **Josh. 5:15**.

For context surrounding purpose, we see Joshua worshipping on his face and asking for instructions in verse **14**. These actions beg the question: Who was this 'Captain' and what was His heavenly role?

- Captain, **H#8269**, **שַׂר**, Sar, usually translated as: Prince, chief or ruler. However, Parkhurst delves a bit deeper into the root origin, stating that it

declares: To regulate, to measure and is related to the Hebrew word for singing. Singing is the collective harmony of notes, scales and measures that regulate timing, frequency. It is also a Hebrew word for the Navel – the place where the umbilical cord connects the one being born to the host!

*Note this! Because He declares that He is Captain of YHVH's HOST! Israel is being reconnected to this Host at this celebration where this Captain serves as the Principal Source of Life supplied by the Navel or umbilical cord of the Heavenly Host!

- Host, H#6635, **אָרֶבֶת**, Tsaba. Usually connected to *'that which goes forth'*, army, war, host. However, the first usage is found in **Genesis 2:1**: *Thus the heavens and the earth were finished and all the HOST of them.* Chief or Sar of this HOST would be its' Captain – The Sun!

This sets precedent for who the original host was/is and their purpose. As Captain of this Host, this Entity would naturally set the cadence or timing for their relationship with Israel. Sounds like **Ps. 19** where the Sun begins His course moving through each of the collective Hosts and their Signs or Constellations at a prescribed pace, time.

Again, this sets precedent whereby, *'Host'* is connected to the *'finishing'* of **Gen. 2:1** finish comes from H# 3615, **כָּלָה**, Kallah, indicating completion, to accomplish, the purpose or summation of these *'Host'*. Kallah is also a derivative of the Hebrew word for Bride! Not coincidentally, Yahshua uses this terminology upon the Execution Stake; remarking *'It is Finished – Kallah'* - then giving up His life.

This act was the prophetic culmination of what Joshua sets into motion here in **Joshua 5**! After His Passover execution, in 3-days' time, Yahshua would become the prophetic fulfillment of that very WAVE SHEAF offering! Do you see how important Joshua's timeline is now? *[Please remember: The events of **Josh. 5** detail what occurred the Day after Passover, Sabbath the 14th, beginning on Sunday the 15th - the Wave Sheaf, Omer Count. Yahshua was executed on Wednesday, the 14th of Nissan – Passover, and the Wave Sheaf was again offered after Dawn on Sunday, the 15th.]*

We can see in hindsight, how this Captain, clearly represents the Husband or Sun/Son - The SAR – Captain of the Hosts - betrothed to Israel, who has come to regulate or accurately MEASURE TIME (*As depicted in the STELLAR LUMINARES*) for Israel – The Bride – How? By regulating gestational cycles that

are revealed in every Holy Convocation! Perhaps now you can see that the timing of this event – The Wave Sheaf – was clearly predetermined long before Israel entered the LAND! Furthermore...

This is the summation of the purpose established for The Creation Covenant Calendar – to measure gestational time accurately! Every divine appointment is an intimate encounter timed to provide optimum ovulation or gestational development of the SEED planted in the womb! The womb becomes a spiritual portal that transports life from the spirit realm to the physical! The SAR or NAVEL! Could the Creation Covenant Calendar suffice as a spiritual representation of that portal or Navel, transporting life from the Host to the One Being Born Again?

Therefore, if true, it seems Joshua, as Bridal representative, is charged with offering the firstfruit of her womb, by specifically TIMING THE PORTALS' ACCESS as she attends every Set Time!

A Necessary, But Short Aside...

Could there be a relation here with the TITHE? IF THE WAVESHEAF - FIRSTFRUIT ISN'T COMMITTED, WHAT DOES THAT SAY ABOUT THE REST OF THE HARVEST! By bringing your tithe, could you be invoking these same gestational laws required for entering the Promised Land? What if you refuse?

Now, how does Joshua respond to the following powerful declaration made by the Eternal Husband of Israel? Pay attention to the sentence structure of the Hebrew, where a familiar phrase seems employed to demonstrate the above. A phrase first spoken to Moshe who was sent to deliver Israel – The Same Bride – from Egypt. Let's examine Exodus first...

Ex. 3:5. ...*put off thy shoes from off thy feet, for the place whereon thou standest is holy ground.*

של-נעליך מעל רגליך – Shal ne'aleka me'al ragleka – this is the Hebrew plural form for both shoes and feet. However, notice the difference in our text where we have almost the same words spoken to Joshua, that are found in in the remarks made to Moshe. Listen carefully, else you'll miss this...

...loose thy shoe from off thy foot; for the place whereon thou standest is holy. Did you catch that?

Remember, This Captain is offering Joshua/Israel a '*reconnection*' to the Umbilical-Navel connection that is the Creation Covenant Calendar seen in the Host. This clearly reveals an effort being made to reestablish proper timing for accessing the Portals that are opened at these Divine Appointments. Could this TIMING be the KEY to success in the campaign against Jericho and the Nephylim Powers who obviously march to a different BEAT – TIME? Look Closely to what is said to Joshua...

של-נעליך מעל רגליך – Shal na'aleka me'al ragleka – this phrase is written in the collective SINGULAR form. Why? We must remember: The Hebrew is never coincidental. There's a reason.

Obviously, in the text of **Exodus 3** Moshe removes both shoes, yet, here Joshua is told to remove only one. How does this figure in our study?

A.N.E. History.

We have evidence in Ancient Near Eastern Culture where removing a single shoe was considered a binding, legal signal or seal. *See **Ruth 4:7**.

Here, it served two purposes. First, naturally, we can see that Joshua, who as the supreme military leader of Israel's army is now yielding authority to the Captain of YHVH's Host. Second...

What most have never seen is that it is also indicative of offering the FIRST Ever REQUIRED WAVE SHEAF – FIRSTFRUIT OFFERING – IN EFFECT setting into motion a known Covenant condition: The exchanging of Positions: Here, Joshua by his obedience, is transferring ALL LAND REDEMPTION RIGHTS! He is acknowledging that he/Israel is incapable of redeeming the land and thus, he yields to the Captain of the Host who alone is able!

Take note here and remember, The Bride was formed out of the LAND – ADAMAH – that Adam was created from. She yields her womb to DEATH. Thus, after the Fall, NO Flesh of Adam produces FRUIT FIT FOR AN OFFERING TO ELOHIYM! ADAM is incapable of Self-Redemption. Thus, this prophetic action by Joshua on behalf of Israel, sets into motion the RE-submission of the Womb of Chavah to the Seed of the Last Adam who is none other than this Captain of the Host!

Two things are occurring simultaneously: Physically setting into motion i.e. acting in Faith, a spiritual principal. How? By the way, the Tithe follows this principal. Faith in action...

Israel here, is charged with physically – prophetically acting out the taking back of the Land of Canaan – The Adamah – Land - first Promised to Adam, (*And from whence he was created*) then promised to Abraham by Faith! This act of Faith sets into motion the spiritual reclamation of the Flesh as the Womb or receptacle for the Seed of Elohiym – not the Seed of Adam! Following this Faith pattern...

Yahshua would later take His own flesh, along with those resurrected from Adam forward, as the FIRST WAVE SHEAF OFFERING RECLAIMING THE LAND – ADAMAH from which the Flesh of Adam was created! Fulfilling Joshua's pattern at the exact same time on Sunday, the 15th of Nissan, the '*morrow after the Sabbath following Passover*' according to the Covenant Calendar of Creation! Finishing – Kallah, the Purpose established by the Host of Heaven! This Calendar is juxtaposed to the accursed thing – the Lunar Calendar – of Jericho birthed out of the compromise in **Gen. 3**.

Furthermore, as Joshua is seen executing the plan of conquest/redemption of EDEN, The Garden of Appointed Times, also known as: The Promised Land (*Now in possession of the Fallen Ones – Canaanites*) we see being enacted the same Bridal Redemption Plan originally shown to Moshe.

What follows with Joshua, becomes a deliberate show of Trust and Submission to the Original Gestational Cycle – the Creation Covenant Calendar, rather than the corrupted Lunar Calendar embraced by Adam and Chavah in **Gen. 3**. This is noteworthy, in particular, because as they speak, Israel stood in siege outside the Capital City of Canaan's Moon Worship – Jericho!

What Time Does Torah Say It Was? 7-Day's March

The next chapter **(6)** opens with deliberate marching instructions: Once per day for 7-days, with the last day being distinct, in that Israel is instructed to march a collective 7-times around the city.

If the timing of Joshua's encounter literally took place on the 15th of Nissan – Abiv – A Sunday – allowing for the finish of the weeklong, Unleavened Bread festival on the 21st as prescribed, then it is quite possible that the first march took place on

Sunday the 22nd, with the final day's march and the fall of Jericho, concluding on the 28th of Nissan, also a weekly Sabbath!

Ironically, classical Rabbinic history – Seder Olam Rabbah (*Ch. 11/12*) gives this exact date of Nissan 28 for Jericho's fall. We also find consensus in Talmud Yerushalmi, Shabbat 15b. Even a blind squirrel can find an acorn...*[Sarcasm mine]*

Don't Overlook The Numbers!
WHY?
The Creation Covenant Calendar.

As we stop for a minute, please consider each daily march around Jericho as a 360° circuit for 6-consecutive days. The total? 2160. This directly corresponds to the precession of the Equinoxes where it takes the sun 2160-years to move through each of the 12 – Constellational Houses/Signs.

FYI

Each of the 12 Houses is found representing 30-degrees of the total 360° Zodiacal Calendar. This collective 2160-years is called an AGE, as in the AGE of AQUARIUS. The Equinox or Sun's Path shifts 1 degree every 72-years. As the shift begins, the shadow of both Houses overlap, as in our current Pisces/Aquarius shift, thus, the final 'Day' of the Age can take 72 years, hence, 'No man knows the Day nor the Hour'. **Matt. 24:36, Mark 13:32.**

The Zodiacal Clock:
The Pattern of Creation
The Messiah's Calendar.

The specific Zodiacal Sign at Jordan's Crossing was Aries The Ram or Taleh in Hebrew. This is profound, because the Age Sign, as well as, the Monthly (*Nissan*) sign was also Aries! Moreover, the walls of Jericho fell on Israel's 7th time marching on the 7th day Sabbath, the 28th day (4x7) of the month with the blowing of 7 – Rams' horn!

This is once again a **thumb-in-the-eye** to the Bull Deities – Apis and Hathor – worshipped by Egypt (*Remember the Golden Calf incident and Levi's involvement*) and venerated by the Nephylim, Lunar worshippers in Canaan's principal city; Jericho!

Next, as stated above, Israel is instructed to march 7-times on the 7th day: $7 \times 360 = 2520$. This number is a harmony of logic, time and Creation. It is the smallest number divisible by every number from 1-10! Moreover, we have 7-days in a week, 30 days in a month, 12 months in a Creation Covenant Calendar year! I also believe in a future return to this corrected Calendar as prophesied from Genesis to Revelation (*See Daniel and Revelation*) which will give us 30-day lunar months with a 9-month gestational cycle of 270-days! Watch closely what follows...

Josh. 6:15

*And it came to pass on the seventh day, that they rose early about the **dawning** of the day, and compassed the city after the same manner seven times: Only on that day they compassed the city seven times.*

Based on scholarly archaeological examination, moving a massive army 7-times around the City of Jericho would have taken between 6-8 hours making the walls' collapse occur at approximately the 9th hour (3pm) from dawn!

The Gospel texts of **Matt. 27:50-51, Mark 15:37-38, Eph. 2:14** each describe a curtain or 'WALL' being rent or falling from top to bottom (*Jericho's walls fell down from top to bottom*) at the time of Yahshua's death, which I believe would have been concurrent with the (3pm) timing of Jericho's walls falling!

The Temple Veil served to deny access based on the Levitical System to all except the High Priest (*Inner Veil*) and the Outer Court prohibiting the Gentiles and Women. Do you suppose there is a relationship to the Walls of Jericho – The Capital of Moon – Lunar Worship – falling and the immediate collapse of that Levitical system as depicted in the account of Yahshua's execution? After all it was a system of death, overseeing the dead flesh of Adam. Hold that thought!

With that said, it is possible that upon the 15th of Aviv, as Joshua is offering the FirstFruit – Wave Sheaf - before the Captain of the Host, that we have a ritualistic rehearsal of the intimacy of Bride and Groom being restored, where the 15th of the Month would be a full-moon (*Restored 360-day year*) aligning with peak light, peak estrogen and the release of life.

Consequently, was Joshua prophetically rehearsing a Divinely Inspired Convocation whose ritual abrogated the covenant with Death sealed in **Genesis 3** where the False Calendar of Lunar Worship is once again exposed and the Creation Covenant Calendar declared? In this instance, Israel, contrary to Adam and Eve in **Gen. 3** are

no longer Naked and Afraid, having kept the wrong appointment, instead, they're now restored to a Redeemed Covenantal Position!

From my perspective, Joshua seems both to be prophetically fighting to restore the Bridal Womb, as well as, fighting for the Promised Land in spiritual preparation of the Birth of Messiah coming through the womb of Mary, a rehearsal that culminates in the restoration of the Promised Flesh/Land! Moreover...

The choice of the specific numbers of Israel's marching orders may seem random. However, these numbers: 7, 12, 30, 2160, 2520 are ALL woven into the daily structure of how Time has been kept from Creation forward and cannot be separated from the Sun's Course! Therefore, the Sun – Captain/Groom exiting from His Chamber/Host - becomes the principal focus of this march around Jericho! Meanwhile, YHVH is also communicating a powerful message to the occupants of Jericho as well as, Israel! It's a POWER DISPLAY! A Jealous Husband arises!

Again, Why Jericho and More About This Captain.

If what we've seen thus far is true, with the 15th of Nissan being a Sunday, giving us the beginning of the Omer Count as well as - the FIRST INSTANCE of the Wave Sheaf being offered according to **Lev. 23:10**, then what happened with Joshua speaks volumes regarding his faith! *Note the confirmation...

Speak unto the children of Israel, and say unto them, when you come into the land which I give unto you, and shall reap the harvest thereof, then you shall bring a sheaf of the firstfruits of your harvest unto the Priest!

It is my opinion that Joshua, like King David, fully intended to keep the Creation Covenant Calendar, in the oversight of the Melchizedek Priesthood, rather than the Levitical system, which system, since the Golden Calf incident, had been prone to the worship of Apis and Hathor. These two happened to be principle Moon Deities venerated by the Canaanite Nephylim currently trespassing in the Land. Hold your finger there and look at what follows:

Joshua had previously acknowledged this 'CAPTAIN' in a very specific manner. **(Josh. 5:14)** ...he fell on his face to the earth, and did worship, and said unto him, what saith my Lord to his servant.

It becomes evident that Joshua attributed Divine Status – perhaps Melchizedek King and Priest – to this Captain. By the way, throughout Biblical History, the Husband has always been the High Priest of the House. Note the language.

- Servant, H#5650, עֶבֶד, 'Ebed, rendered 'servant'. Specifically relating to Priestly service.

What we're seeing is a pattern reflecting the Faith of Joshua regarding the Promise of Israel's right of Bridal inheritance of the Land. As a result, this particular day is significant in Israel's history! He knows it is The Wave Sheaf Offering Day – Or first Day of Omer count. By removing his shoe, Joshua is not only presenting or waving the First Fruit of the Land – Jericho – as an offering to the Captain of the Hosts, but, his actions also recommit the Bride to her Covenant Wedding Vows! Again, why attack Jericho?

Jericho's History.

- Jericho, H#3405, יִרְחֹ, usually translated 'Its Moon'. Most scholars attribute its' name from the ancient Canaanite moon god Yarikh, associated with celestial order, fertility and the nightly dew. He was frequently referred to as the 'Lord of the Sickles' or Crescent Moon! (*It is just me, or does Islam smell the same*) He was also called 'the illuminator of the heavens'.

Thus, history concludes; Jericho was the capital of Lunar Worship! Why is this important? Expressly, it is my contention that Lunar Worship was first inculcated by the Nachash in Gen. 3! So, again, why focus on Jericho? Please look carefully at Joshua 6:18. Here perhaps we find answers.

And you in any wise, keep yourselves from the accursed thing, lest you make yourselves accursed, when you take of the accursed thing, and make the camp of Israel a curse, and trouble it.

- Accursed, H#2764, חֵרֵם, Herem, a thing totally separated from its' original state, condition, or purpose. It was incapable of redemption. What does this say about the potential 'Iron mixed with Miry Clay' mentioned in Daniel 2:41,43? Wouldn't it behoove us to educate ourselves in order to avoid comingling our DNA with that of the Fallen Ones? V-A-X anyone?

Now you understand the motives of Lucifer, the Fallen One. He supposed to make Adam and Chavah accursed with the insertion of his seed at the intimate times established by his false Calendar and thus, make them without hope of redemption! Yet, Elohiym had plans already set into motion!

This brings us to the concept of the Ancient Near Eastern idea of the Harem – the domestic quarters reserved for women. The Harem was off limits to outside men. The link between these concepts indicates that the Bride would avail herself of these items dedicated to forbidden gods in a place set to honor them. Thus, Joshua had no choice but to deal harshly with these deeply entrenched Fallen Nephylim gods worshipped in Canaan and forbidden to Israel as the Bride of Elohiym!

Additionally, those accursed things included: All livestock, inhabitants, goods, and idols compromised by the Nephylim seed. All of which were to be DESTROYED! WHY? What common thread is woven among them?

Bear in mind: This City is dedicated to the Moon god, the counterfeit deity, as opposed to Elohiym of the true Creation Covenant Calendar. Additionally, Canaan was known for its' NEPHYLIM population who had comingled their Seed with the Fallen Ones, as well as, their livestock!

I found it interesting to look at these same letters rearranged Chet-Resh-Mem – Herem, to form H#2564, **חמר**, Hamar, the word used in **Gen. 11:3** to describe the building of the Tower of Babel, the first Center of Lunar Worship. It has a value of 248, the same as Abraham who was told to Count the Stars – Not the Moon - for a record of his progeny. If Abraham was our example why then is there no mention of YHVH telling Abraham and his descendants to count – H#5608, **ספר**, Saphar, to count, relate, rehearse, declare, reckon the MOON in that passage in order to find out the future of his Seed?

With that said, we must make the following inevitable connection: The Ancient Moon god was viewed as a judge of the underworld. History records when the Nephylim Canaanite warrior-kings died they were idolized and initiated into the assembly of the Rephaim – The Deified Dead ancestral spirits. Afterward, the inhabitants of Canaan invoked those spirits in order to bless or appease them.

These Canaanite Beings that Joshua is committed to destroying had comingled themselves in the same manner as **Genesis 6** with their human hosts and the cattle.

Even though we plainly see that these beings and the idols associated with them are cursed, few consider their origin as associated with MOON WORSHIP! Yet, there's no doubt, moon worship was intended as a counterfeit religion directly opposed to the Creation Covenant Calendar whose reckoning cannot be attributed to the MOON in any phase: Conjunction, Sliver, Full-Moon or otherwise! But doesn't that contradict Genesis? (*Sarcasm mine...*)

What's Wrong With The Moon? What About **Gen. 1:16**?

Arguments abound here! From the above text we see TWO GREAT LIGHTS. First, let me stipulate: The Greater Lights' role isn't debated; no entity can usurp the role of the Sun as the Ruler of the Day. But, look at part B of the text:

*...and the lesser light to rule the night: **he made the stars also.***

The phrase '*He Made*' is not in the original text. With that, the argument is centered around light - H#3974, **מָאוֹר**, Ma'owr. In part A it is said to be Masculine Plural Absolute: Lights. While part B is said to be in a Masculine Singular Absolute: Light. Yet, both are written the same way! Bear in mind: The MOON HAS NO LIGHT OF ITS' OWN! As a result, the stars can be the only '*collective*' Masculine Plural Absolute!

Point of fact: To further the confusion, the KJV takes the liberty of translating the particle showing direct object in regard to that light as – H#853, **וְ**, Et is translated here as both '*AND – ALSO*'. Thus, when the Hebrew Text is properly parsed, we should have: *...and the lesser light to rule the night, the STARS!* The Stars, like the Sun have a fixed assignment and are found eternally set into the Background forming a permanent, unchanging backdrop that functions like a grid for calculating TIME!

Therefore, it is my opinion, that this Lesser Light could not include the Moon, nor planets, as they wobble through a 16° path – 8 degrees on either side (*North, South*) of the Suns' Ecliptic. Moreover, few consider that the Moon often '*shines*' in the day! The Ancients actually classified the moon with the visible planets and because of their erratic behavior called them: Planētes – Wanderers!

So, if we insist on following the common argument of the Moon in its' lesser light role, then shouldn't we also conclude that by times, it also RULES THE DAY WITH THE SUN? Consider the following...

Rahab The Harlot?

We've looked closely at Joshua yet, bypassed one of the most peculiar textural misunderstandings that I personally am aware of. The story of Rahab. Which precedes the chapters we've shown you thus far.

However, I felt the need to go back and address her because I believe that I can present evidence that lends powerful credence to Rahab being one who kept the Creation Covenant Calendar of 360-days. To reveal this, we must be willing to think outside of our traditional box. What you're about to read is breathtaking and NO ONE seems to have ever broached this topic! Let's go!

Before we examine Rahab who traditionally for millennia, has been relegated to the status of a Canaanite Prostitute, a fact glossed over and excused by the fact that she was "*forgiven*" because of helping the Spies. Is that truth?

Who and What Was She Truly?

Let me remind you of **Deut. 7:1-6**. *Where, upon conquest of the Land of Canaan Israel is told to cast out the Hittites, Girgashites, Amorites, Canaanites, Perizzites, Hivites, and Jebusites, seven Nations.*

They are told: Smite them and utterly destroy them. Make no covenant, neither show them mercy. Make no marriages. Destroy their altars, images, cut down their groves, burn their graven images with fire.

The common story that's told, characterizes Rahab as Canaanite Harlot, yet deliberately overlooks this prohibition! Though the text makes it clear; the Spies made a covenant with her, let her family live, and later she marries into the lineage of King David through Salmon. What is the truth? Do you honestly think Joshua would have been privy to a covenant with an Accursed Thing which, the 7-Nations, and the Canaanite inhabitants of Jericho were considered? What then, was her true status? Gird your loins for the next stage!

Josh. 2:1 is found describing her in the KJV as a: Harlot, H#2181, זונה, a Zonah, traditionally rendered as prostitute. However, Parkhurst (*P.128*) tells us the original use of the word conveyed the idea of encircling, to encompass, to gird about. It also carried the idea of a girdling armor around the body or waist. There are Scholars who contend that Zonah could also imply a Tavern or Inn owner. No wonder the

Spies seek her out. Her inn would have raised little suspicion. Yet, that still doesn't ring quite true.

Rahab, the Canaanite?

If so, She's Part of those Accursed Things:

Could it have been: Rahab, the Kenite?

If we carefully address the texts mentioning this Rahab, controversy abounds. Yet, **1Chron. 2:55** lists the above Salma(n), whom history reports her marrying. (*He was The father of Boaz*). Thus, if truly a Kenite, rather than a Canaanite, this changes the landscape around the discussion of King David's lineage in chapter **3** and our entire Rahab tradition! In addition...

Careful study of Rahab's discourse identifies her incredible knowledge of Israel's God – YHVH – including their destiny, their history, etc. as being far more than coincidence. Frankly, a preponderance of evidence seems to suggest that she was indeed, most likely from the same nomadic tribe associated anciently with Abraham's 2nd wife Keturah and later, Jethro, the Midianite Priest, Moshe's father-in-law, who himself is described in **Judges 1:16-17** as a Kenite!

Why does the ancient text not clearly divulge her identity? Could it have been massaged to fit a narrative that would later discredit Yahshua? If she is indeed declared in the lineage of Yahshua, her ancestral connection to the Fallen Ones of Canaanite origin would also bring an ignominious taint upon the One Who Came From Heaven.

Moreover, if the truth of her action, which we're about to expose, becomes revealed, then it changes and drastically ENLARGES the LAWFUL CLAIM TO THE PROMISED LAND that is currently being put forth today! Thus, again, it would benefit the Enemy to hide her heritage. This subterfuge is about to be exposed, in particular, when we make the hidden connection of **Josh. 2:14-15** where she lets the Spies down by a KJV - CORD.

- Cord, H#2256, **חבל**, Chebel, a cord, or rope.

This was no ordinary rope as the translators would have you suppose! It was historically, and BIBLICALLY - Specifically, a measuring CORD OR LINE USED for marking boundaries! A district or inheritance that has already been measured. It

comes from a root meaning a pledge, to give a pledge. This Cord could be exchanged in legal matters of real estate!

This presents a remarkable perspective that most have never considered! Based on **Deut. 7** which we must treat as an absolute prohibition against any covenant with the Canaanite Nations, Rahab instead - has to be treated as part of the larger Abrahamic Kenite Clans like Jethro, Moshe's father-in-law.

The fact that Rahab sheltered the Spies enforces that historic tribal alliance. Moreover, the CHEBEL becomes an instrument presented to the Spies and Joshua and the 12-Tribes as a legal genealogical claim to her inheritance as written in the Abrahamic Covenant! *NOTE **Ps. 105:9-11**.

*Which covenant He made with Abraham, and His oath unto Isaac; And confirmed the same unto Jacob for a law, and to Israel for an everlasting Covenant: Saying unto thee will I give the land of Canaan, the lot – **Chebel** - of your inheritance.*

This premise is substantiated in **Josh. 17:14, 19:9, Ps. 16:6, Deut. 32:9** where the word PORTION being allocated in Joshua to the Tribes and the other texts is this word CHEBEL!

$$2 + 2 = 4 \text{ in Torah.}$$

Remember that Parkhurst (*P.128*) tells us the original use of the word Zonah (*Applied to Rahab and rendered harlot*) actually conveyed the idea of encircling, to encompass, to gird about.

This seems to hint at her occupation as ONE WHO MEASURES, ENCIRCLES OR DEFINES BOUNDARIES! This hypothesis is supported by the appearance of the CHEBEL, an instrument used specifically to measure and mark borders. I believe Rahab was a Civil Land surveyor or Registrar of Allotments for Abrahamic/Kenite lineages in that region! What? Am I Crazy? Hold on!

According to ancient history real estate was strictly monitored. An official who girded or encircled boundaries with a Chebel would be a keeper of civic grid lines and thus, tribal inheritances.

I also submit, that ancients measured in 360° increments. Which included the Calendar! She would, therefore, also seem to have been familiar with the True Creation Covenant Calendar of 360-days as taught by ABRAHAM to the Ancient Pharaohs before Joseph's death! So...

Why Did The Spies Go To Rahab?

It would fit that a Surveyor would logically be situated at the Perimeter of the City. Thus, the Spies didn't visit the home of a Harlot, but rather, the official who held the layout, boundaries and maps of the City and surrounding region - particularly, one who would shortly be in siege and assaulted! Moreover...

Her office can be validated in history where ancient land surveyors in Egypt were called Harpedonaptae or '*Rope Stretchers*'. In addition, the Naditu women of Babylon were responsible for contracts and surveys with thousands of clay tablets having been excavated showing rental, leasing, buying and selling of land. Women Scribes maintained such records. BAM!

Note **Joshua 2:2** *And it was told the King of Jericho, saying behold, there came men in hither tonight of the children of Israel to search out the country.*

- Search, H#2658, **חָפַר**, Chapar, translated here as search. However, this word is entirely different than what was used to describe the Spies of Moshe – Tur, which indicates to tour the surface, travel around, to inspect. It literally intones to dig deep into something, to go below the surface, to dig as in a well.

Joshua's spies were sent to Chapar – to unearth, dig into what I believe was deep-seated, hidden information regarding Maps, property lines, AND real estate layout. It seems there most likely must have existed ancient foundational Abrahamic Deeds, that had been hidden by the 7-Nations! If Rahab was truly the Land Registrar, she was key to verifying those ancient boundaries! Therefore...

YHVH was not simply destroying the residue of the Fallen Ones, HE WAS TAKING BACK LAWFULLY what HAD BEEN STOLEN FROM ADAM – ABRAHAM!

Since Rahab was also known for the production of flax, which during that time was a state-level commodity controlled by Temples, Palaces or elite landowners similar to the above Naditu Estate Managers, it fits with our narrative.

It required space, and specialized tools proving she was a woman of immense power and civic independence! Yeah, sure, a Whore can achieve the same status...

Flax, What Does That Prove?

Joshua 2:6 describes the flax as: ...*laid in order on the roof*...a phrase perfectly describing the method of ‘*retting – soaking*’ the stalks, then laying them out in meticulous, parallel grid lines. This would have been necessary for the production and repair of ancient measuring lines – Cords – Chebel!

In ancient Babylon, Canaan, etc. geometry – land surveying and astronomy – calendar construction – were the SAME SCIENCE! The tools were mathematically connected. Thus, it fits that she very likely would have kept a 360-day Abrahamic, schematic, administrative calendar! (*The world of finance still uses one*)

If I’m right and she was a surveyor, she would have had to master the 360-day, 360° grid! She would have used each to govern real estate leases and tax cycles!

Archeological proof:

In conclusion:

The language changes later from Chebel to Tikvah – a scarlet cord. This also completes our change in perspective regarding Rahab. The Scarlet – Shani die was rare and expensive, used in royal garments, priestly vestments etc. It seems the Spies are applying a recent PASSOVER SEAL TO THE HOUSE OF RAHAB, MARKING SHE, HER FAMILY AND PROPERTY AS: HOLY TO YHVH!

Shabbat Shalom.
