

NEVER A BAD TIME

Take inventory and take action to improve the direction and destination of our lives.

LET'S BE HONEST

We're experts at great intentions, proficient at starting things, and amateurs at seeing them through.

WHEN TAKING GROUND

There's no replacement for the slow, small, daily discipline of hard work.

GET IT TOGETHER

You can't expect a harvest from a field you're not plowing.

So do the work.

THE WORK

1. Motivation - Start with your motives, not your methods.
2. Priorities - Give the right things the right amount of attention.
3. Boundaries - Preserve what matters most.

RECOGNIZE

We need to do the work in front of us because Christ did the work in front of Him.
