

ALL OF US

We drift. And we drift not to what is effective but to what is easy.

THE ISSUE

Small drifts compound into big problems over time.

RECALIBRATE - THE PROCESS - READ

Recognize. Evaluate. Adjust. Do.

WITH SOME THINGS

Get this wrong, and it does not matter what you get right.

EXPECTED

The path to behavior is predictable.

TO RECALIBRATE

Start with your heart.

To win at every other recalibration, you can't lose the calibration of your heart.

THE HEART

1. Have urgency. (top priority)
2. Be vigilant. (fiercely protective)
3. See reality. (God's pattern)

BE HONEST

When you search your heart, what signs do you see?

HE IS GOD

The savior of my soul must be king of my heart.
