

## **Becoming Aware of Angels *with Wayne C Anderson*** ***How We Begin This Journey Together***

Welcome to this journey with me to Become Aware of Angels all around us. The subject of angels has always been one of the most common questions that I get from people in spiritual dialogue. Here on the I.A.M. App, I wanted to start a timeless journey to get to know more about angels and the roles they play in our lives.

When I say “timeless,” I mean that in two ways.

- One is that it may never end – we might just keep going until Jesus comes for us.
- Two is that I don’t want to have a specific time set that I have to get another job done. I’d rather do each short teaching and story in a way that is by inspiration and not the labor of getting it done. There might be a long time in between video sessions – or not.

I’ll write some notes for each session and put a .pdf on the media page for you to read and download.

I’ll probably have some extra info included in the notes, so you’ll probably want to check that out.

This instruction session will remain on the top layer in the App, and each new session will be placed below. So remember where you last were.

I hope that you are as enthusiastic about this journey as I am.

Let your friends know about what we are doing and ask them to get the I.A.M. App so they can keep watching.
