
I.H.P DEPTH 2:

In Depth 2, we begin to marvel at His Majesty, cultivating a high view of God, stirring an elevated revelation of the Creator, getting to know Him rightly, and learning to represent Him rightly, so that we can truly say, and live, 'Hallowed by Thy Name'. Let's take a brief overview journey as we look closer at Who He is.

We will be the telescope, not the microscope. The microscope takes something tiny and tries to make it as big as possible. The telescope looks at something really big and we try to fathom the greatness thereof. Our view of God is vital. If our God is too small, we will feel we need to try promote and market Him. When our God is truly big, we become secure in Him. We stay in humble pursuit, desiring to know Him rightly and display Him rightly.
