## E-mail from our Global Partners in France Alain and Carol Larrey

April 22, 2024

Dear Friends,

As planned, the youth group led the worship service Easter Sunday. It was fun to see their smiling faces up on the stage! The sermon was given by the young man now in charge of the university students' group, Boris, who is quite a scholar. It was really good... although, being a "youth" presentation the congregation was certainly expecting something "lighter"!

The evangelistic meeting April 6<sup>th</sup> went over okay; we are praying to see people come back and make decisions.

There were only 20 at the church retreat where Alain went near Marseille, but the organizers were thrilled to see so many. Their church has only 15 who attend regularly now as several who had been for many years the church pillars have retired and moved away. Alain had lots of ideas for them when they asked his opinion on: "What do we do now?" It's a small group, but vibrant and very enthusiastic.

Alain came home with a new concern. During the conferences, he realized that his voice doesn't hold up very long. It reminded him of how he went hoarse during his last concert. Then he discovered that three of those who were to participate in his June 1<sup>st</sup> concert have just said they can't be there! So, what to do? Cancel? While he was praying about it, Sarah-Lyn called all excited. Now, she, for one, wouldn't miss it! And her father (Francis, who 24 years ago participated in our concerts in Martinique) has asked to join in and play bass! Hearing their excitement, you can be sure that Alain didn't bring up his idea of canceling!

In the meantime... his album has come out! Please take time to listen to some of it and give him some feedback: [alainlarrey@gmail.com](mailto:alainlarrey@gmail.com).

On the personal side: Alain's knee pains pick up occasionally. His doctor just happens to be specialized in sports. In fact, for a number of years he had been the doctor for the Tarbes rugby team. So, he should know his business, right?! He wants to wait and see how things will have evolved six months from now, and then decide if a cortisone infiltration is necessary. As for me, I have an "onset of glaucoma" which means eye drops and back for a checkup in October.

Thank you for your prayers!  
Yours in Christ,
