Detours are part of life, but we must remember that God always knows what exactly is going on! In leading the children of Israel to the Red Sea, God had a plan for them to go through it.

1. Why do you think God allow detours in life?
2. How did the children of Israel respond to this detour on their way to freedom? What was God's response? How did He display His faithfulness?
3. What is your attitude when faced with a life detour?
4. Share some lessons you have learned from going through the detours of life you may have gone through.
