

# The Gospel Message Must Be Shared

March 29<sup>th</sup> 2026

## KEY VERSES

- Romans 10:5-15

## KEY TAKEAWAYS

- To help believers share the gospel with their circle of influence, they should be able to spot the simple gospel—admit your sin and trust Jesus to save you by His work alone.
- To help believers share the gospel with their circle of influence, they should be able to appreciate that the gospel is universally given to all people.
- People won't be able to believe in Jesus Christ unless someone shares the truth with them. We all have a part to play in sharing Jesus with other people.

## TALK ABOUT IT

1. How would you explain the full gospel to someone who asks you what it means? What verses would you use to support your definition?
2. How does the universal reach of the gospel make it different from other world religions?

3. Why is it so difficult for many believers to share the good news of Jesus with their circle of influence? What helps you you give to someone to help them share Jesus with more confidence?

#### **APPLY IT**

1. Take 10-15 minutes to write down your Christian testimony of how and why you became a Christ follower. Now share your testimony with your spouse or close friend. Have them give you feedback on what you shared.
2. Pray for the people in your circle of influence. Ask God to give you words in the next few months for what to say to show them how Jesus' love is deeper and higher than anything that we've ever known.
