

The Ark of the Covenant Part 2

Exodus 25:10-11 & Hebrew 9:4

The ark was constructed from wood, and then the outer covered with gold, the poles, the lid, and the cherubim on top.

The ark was made with excellence :
God deserves excellence in everything we do and everything we present.

Exodus 25:16 And you shall put into the ark the Testimony which I will give you.

The Ark contained at least 3 items

1. Two stone tablets. These tablets were flat pieces of stone and on them, God had written his commands (Deuteronomy 9:10). Mercy is always greater than the law.
2. A gold pot of manna. The mana represented God's constant ability to provide for His children.

3. Aaron's staff was in the box. And although it wasn't attached to the vine anymore, it continued to bud.
Purpose produces life.

These objects were meant to show the children of God what God desired and they're showing us the same thing.
