

“The Wind of The Holy Spirit”

Read: John 3:1-8

- The Holy Spirit is often likened unto the wind.
- The wind is often used to describe the moving of the Holy Spirit. It's a beautiful comparison.
- The Bible teaches about the **four winds**:
 - The east wind often represents judgement or destruction.
 - The west wind signifies change.
 - The south wind brings heat and a warmer breeze. It represents the fire, the Holy Spirit.
 - The north wind. It's a cold wind. This brings rain and harvest.
- We need all four winds.
- God has always been found in the wind.
- You need the wind of God.
- It'll create life in us.
- Pray: Lord, let the wind blow in our lives, in our church and in our family.
